

## FEDERAL DRAGNET IN DYNAMITE CASE HAS MISSED SEVEN MEN

One Member of Iron Workers' Executive Board Not Yet Found.

Majority of Evidence Is in Letters to Central Officers.

Union Has Not Enough Funds to Give Bonds for Prisoners.

Indianapolis, Ind., Feb. 15.—Official reports received by the government before noon today showed that only seven out of the fifty-four men indicted in the dynamite conspiracy had not been arrested. Those not arrested are in custody, according to government officials.

Michael J. Young of Boston, member of the executive board of the International Association of Bridge & Structural Iron Workers.

J. J. McCray, formerly an iron worker of Wheeling, W. Va., but said to have left there.

J. W. Irwin, Peoria, Ill., local union official.

Frank K. Painter, Omaha, Neb., local union official, said to have left there.

Milton H. Davis, Philadelphia, former member executive board.

Patrick Ryan, Chicago, local business agent.

William K. Benson, Detroit, former president of the Detroit Federation of Labor.

Want to Get Young. District Attorney Charles Miller was in communication with the federal authorities at Boston today in reference to the search for Young. Mr. Miller said the government was particularly anxious to apprehend Young, who is one of the five executive board members.

## OPPOSE CUT IN SUGAR TARIFF

Wisconsin Beet Growers Say Reduction Is Scheme of Trust.

Madison, Wis., Feb. 15.—Wisconsin beet growers, of whom there are now several thousand, are becoming exercised over the proposal at Washington to have the tariff on sugar removed. Various farmers' organizations are said to be preparing to petition the Wisconsin congressional delegation to work against any reduction or repeal of the tariff, asserting that such a step would ruin the beet industry in this state. The Equity society has already appeared to oppose the reduction.

The beet interests in this state look upon the proposal as a design of the "sugar trust" to injure its beet sugar competitors, who have invested millions in plants in the Middle and Far West.

## KANSAS WOMEN AFTER BALLOT

Suffrage Workers Meet at Luncheon in Kansas City.

Kansas City, Kan., Feb. 15.—Kansas women here today fired the first real gun in their campaign for complete suffrage. The affair was a luncheon given by the Wyandotte Equal Suffrage association to the officers of the Kansas state organizations. Many Missouri club women lent their aid. Suffragists from over Kansas and from Missouri heard speeches given by leading suffrage advocates of the two states and attended receptions held for them.

The program called for responses in this order: Mrs. Lucy B. Johnston, Topeka, wife of the chief justice of the supreme court of Kansas and president of the Kansas State Equal Suffrage association.

Mrs. Genevieve H. Chalkley, Lawrence, president of Second district.

Mrs. W. L. Stubbs, wife of Governor Stubbs.

Mrs. Henry S. Ees, president of the Kansas City, Mo., Equal Suffrage association.

Mrs. William Allen White, wife of the Euclid editor and author.

The state headquarters at Topeka had been closed and the women attended in a body.

FRED STONE'S BROTHER KILLS BURLESQUE MAN.

Cincinnati, Ohio, Feb. 15.—Max Abbott of New York, a member of a burlesque company playing here last night, was killed by George Stone after a quarrel in a theater. Fred Stone is brother of Fred Stone of Montgomery & Stone. He is under arrest.

AGED WOMAN IS STRICKEN WHILE OUT IN SNOW.

New Richmond, Wis., Feb. 15.—Mrs. Nelson Johnson, 84 years, is dead, following a stroke of apoplexy. Alone outdoors when stricken, her body was found in the snow by her son, but she never regained consciousness. She was the widow of Dr. Joseph Johnson, resident of Alden over fifty years.

## LAUDS STEEL CORPORATION

Percival Roberts Tells Stanley Committee of "Welfare Plan."

Says It Spent Over \$1,000,000 in Benefits in 1910.

Washington, Feb. 15.—Percival Roberts, a director of the United States Steel corporation, before the house "steel trust" committee today denied a statement by Louis D. Brandeis that steel workers, because of conditions under which they were compelled to labor, were old men at 40 years.

The average age of employees, he said, was about 30, many remaining in active service at the age of 50 to 55 years. He exhibited photographs of many of the older employees.

Mr. Roberts told the "welfare plan" of the corporation. Under it there had been established free hospitals, children's playgrounds and a relief fund for injured employees and their families.

Million in Benefits. More than \$1,000,000, he declared, had been distributed in benefits in 1910.

D. A. Reed, counsel for the corporation, testified that under the laws of Pennsylvania employees had slight chances of recovering damages for injuries. Fewer than 5 per cent of the damage suits filed were prosecuted successfully, he said.

Mr. Roberts told the committee that his company would like to see labor unions under the same government control as corporations. Trade unions (Continued on page 5, third column.)

## SENATOR CLAPP CALLS ON TEDDY

Ex-President Refuses to Tell What They Talked About.

New York, Feb. 15.—Senator Moses E. Clapp of Minnesota had a long conference with Col. Roosevelt here today. Senator Clapp escaped the reporters at the conclusion of the interview, and Col. Roosevelt declined to say what had been discussed.

"I have nothing to say on the subject," Col. Roosevelt said.

He denied, however, a report that William Loeb, Jr., formerly his private secretary would manage his political campaign. When asked if he would make a campaign, the former president replied:

"I have nothing to say."

## GEN. AINSWORTH TO BE DISCIPLINED

Relieved From Duty at War Department Pending Such Action.

Washington, Feb. 15.—Adj.-Gen. Fred C. Ainsworth of the army has been relieved from duty at the war department pending consideration of disciplinary measures which probably will be taken. Col. H. P. McCain has been directed to take Gen. Ainsworth's place.

## DYING KENTUCKIAN SAYS HE FIRED SHOT THAT KILLED GOEBEL

Helena, Ark., Feb. 15.—Fatally wounded in a duel with a bartender here today, James Gilbert, who came from Kentucky, declared he was the man who fired the shot that killed Governor Goebel at Frankfort, Ky., in Jan. 1900.

## DELEGATES FOR CLARK

First Battles for Democratic Nomination Favorable to Speaker.

Question Whether Missouri Victory May Not Be Barren One.

(By Willis J. Abbott.)

Washington, Feb. 15.—(Special to The Herald.)—It will be the end of the present week before the real outcome of the first battles for the Democratic nomination—the fights for Missouri and Oklahoma—will be known.

At the present writing the indications are that Clark has carried Oklahoma and Missouri—fifty-six delegates in all. If that shall prove to be the fact and the conventions in those states ratify the action of the primaries it means an opening gun for the Missourian that may well strike terror into the hearts of his opponents. But just how much it does mean is yet to be determined.

In a Washington hotel lobby the other day when the returns were coming in, a group of congressmen, most of whom were intimately interested in these results. There were Dorey W. Shackelford of Missouri, next to Champ Clark the dean of the party in that state; Scott Ferris of

## TWO RULINGS BY TRAFFIC BOARD

Freight Rate Advance Denied and Coal Tariff Is Sustained.

Washington, Feb. 15.—A proposed advance in the minimum freight charge on small shipments from 25 cents to 35 cents by all the railroads east of the Mississippi river and north of the Ohio river was decided by the interstate commerce commission today to be without justification.

An increase of 7 cents a ton in the freight rate on bituminous coal from the fields in Williamson and Franklin counties, Illinois, to Chicago, today was sustained by the interstate commerce commission.

Mr. Gordon, who as president will deliver the annual address, in an interview today came out in favor of Theodore Roosevelt as the Republican candidate for president, but said he would not bring national issues into his gubernatorial campaign.

## WHICH ONE WILL SHE DANCE WITH?

Minneapolis, Minn., Feb. 15.—(Special to The Herald.)—Editors of Minnesota are meeting here today in the forty-sixth annual session of the state editorial association. About 100 are in attendance, among whom are several candidates for editorial positions, including S. Y. Gordon, who seeks the Republican nomination for governor, and Alva Eastman, candidate for the Republican nomination for governor.

Among those on the program today are James A. Tawney of Wisconsin, former congressman, who is to speak on "World's International Peace."

## SUN RESIGNS; YUAN CHOSEN IN HIS PLACE

Nanking Is Made Capital of the New Republic of China.

Great Praise Given to Retiring Chief By National Assembly.

Action Is Declared Unexampled for Patriotism and Self-Sacrifice.

Nanking, Feb. 15.—Dr. Sun Yat Sen's resignation of the presidency of the Chinese republic was accepted this morning by the national assembly here, on condition that both he and the present cabinet hold office until the new president and cabinet take over the duties.

The national assembly this afternoon unanimously elected Yuan Shi Kai president of the republic, and then decided that the provisional capital shall be at Nanking.

In the letter to the assembly in which he laid down the office of chief executive, Dr. Sun says:

"Yuan Shi Kai has declared that he adheres unconditionally to the national cause. He would surely prove a loyal servant of the state. Besides this, Yuan Shi Kai is a man of constructive ability upon whom our united union looks with the hope that he will bring about the consolidation of its interests. The happiness of our country depends upon your choice. Farewell."

Great Tribute to Dr. Sun. The national assembly afterward passed a resolution paying great tribute to Dr. Sun.

## LOCOMOTIVE FALLOUT AND KILLS SIX MEN

Salt Lake City, Utah, Feb. 15.—Six men were killed and several injured this morning when a locomotive hauling a ore train at Bingham, Utah, left the tracks and rolled down a steep embankment through the roof of the Bingham State bank.

## LYNCH NEGRO AT MEMPHIS

Mob Captures Girl's Assailant and Hides Him From Officers.

Captive Is Hanged and His Body Riddled With Bullets.

Memphis, Tenn., Feb. 15.—A mob early today lynched an unidentified negro accused of having attacked a 16-year-old white girl yesterday. It is said the negro confessed in part. A rope was tied about his neck, he was dragged to a bridge across a branch of the Wolf river, hanged from the bridge and then the mob used his body for a pistol target.

The attack on the young white girl occurred at Raleigh Springs, a Memphis suburb. Posses scoured the countryside all day and early last night before capturing the negro.

He was identified after being kept in hiding several hours in order to avoid delivery to the authorities. After he had been hanged his body was pierced by fifty or more bullets; it was then cut down and taken into the bushes, where it was discovered this morning.

It is believed the mob was composed of about forty persons, no clues to whose identity were left.

## FIVE TO DIE AT ONCE IN CHICAGO

Commutation of Sentence Is Refused for Murderers.

Springfield, Ill., Feb. 15.—Five men will, at the same time tomorrow, at the Cook county jail, pay the extreme penalty for the crime of murder.

This morning Governor Deneen and the board of pardons refused to interfere with the verdict of the criminal court, which sentenced to death Frank and Edward Shtibawaak, Philip Schilling and Thomas Schultz, convicted of the murder of Frederick Guenzow, a Cook county truck farmer, last fall.

Last night a stay of sentence was refused in the case of Thomas Jennings, who was convicted of the murder at Chicago, in 1910, of Clarence B. Hiller, a railroad official.

The cases of all men were heard by Governor Deneen and the pardon board yesterday.

## TAXICAB HOLD-UP IN HEART OF NEW YORK

NETS THIEVES \$25,000

New York, Feb. 15.—Twenty-five thousand dollars in currency was stolen from a taxicab in the heart of the financial district this morning by three highwaymen, who sprang into the vehicle and overpowered W. B. Smith and Frank Wardell, messengers of the East River National bank.

Both messengers were badly injured and the robbers escaped with the money—\$15,000 in \$5 bills and \$10,000 in \$10 bills. The currency was being transported from the Produce Exchange bank in the lower part of the city.

The taxicab had proceeded up Broadway without mishap, when for some unexplained reason the chauffeur turned west on Rector street into Church street, skirting the side and rear of Trinity churchyard.

Made Chauffeur Keep Going. About midway of the old cemetery three men sprang from the curb. One jumped on the chauffeur's seat, the other two got into the vehicle. The man on the seat pressed a revolver in the chauffeur's back, while the other two, Gino Martini and

## LORD HIGH CHANCELLOR OF BRITAIN TO RETIRE

London, Feb. 15.—It is reported that Lord Loreburn, the lord high chancellor of Great Britain, proposes to retire. He has held the office since 1906. The friends of Lloyd-George, who are planning to put him in Asquith's place as premier, would be glad to see Loreburn retire at this time as it would make their undertaking easy. Asquith could serve as lord chancellor under another premier, but there is no other cabinet position he could accept with dignity. But it is known Loreburn would be unwilling to retire in Asquith's favor.

## WANTS UNCLE SAM TO KEEP HARBOR

Manitowoc, Wis., Appeals to the National Government.

Manitowoc, Wis., Feb. 15.—Whether the United States government will extend a policy to the lakes which it has in operation on the coast of maintaining harbors, where the large part of the commerce is interstate, is the real issue in a fight Manitowoc is making before the engineering board at Washington to have the government take over the harbor of this city.

If the city can secure an order for a survey of the harbor to secure estimates of the cost of work which is to be undertaken, the matter will be taken to the house in bill to have the government take over the improvement of the harbor.

## USE EXPLOSIVE AT FUNERAL

Cement Vault Has to Be Enlarged to Get Space for Caskets.

Moscow, Russia, Feb. 15.—An extraordinary scene was witnessed today during the interment of Countess Milutin. The count held the rank of field marshal and was chief aide-de-camp of the emperor.

Minister of war during the reign of Emperor Alexander II and was the leading champion in the cause of liberation of the serfs. The funeral was attended by a large number of dignitaries, including several from France and Bulgaria.

The coffins were lowered into the vaults with imposing military honors, but then an awkward situation arose. Both coffins were several inches larger than the apertures in the tombs. Workmen were at once called and attempted to enlarge the openings, but the cement would not yield. The family vault is composed of five compartments separated by thick walls, and it was necessary to blast one of these.

The ladies were temporarily deposited in the chapel and when the tomb had been enlarged the burial services were repeated, but with the omission of the military honors.

The count, who was 86 years old, and his wife, who was 83, died on the same day, the countess expiring first.

## WOULD REDUCE COST OF MARKETING WOOL

Madison, Wis., Feb. 15.—To reduce the cost incident to the trading in wool is the purpose of a meeting called by the Wisconsin wool growers' department of the American Society of Equitists to be held at Chippewa Falls, Wis., on Feb. 20. It is proposed to arrange for central storerooms in order that the wool may be received in larger bunches, thus avoiding the cost of storage and the payment of insurance and lessening the expense of handling and showing the wool to the buyers.

## TODAY IN CONGRESS

## WISCONSIN MAN WITNESS

W. B. Bennett Testifies in Street Railway Company Tax Case.

State Claims Only One-Fourth of Property Is in Superior.

Before Judge Cant in district court this morning the tax case continued from last November, and in which the state seeks to enforce the collection of \$44,600 personal property taxes for 1910 from the Duluth Street Railway company, was resumed.

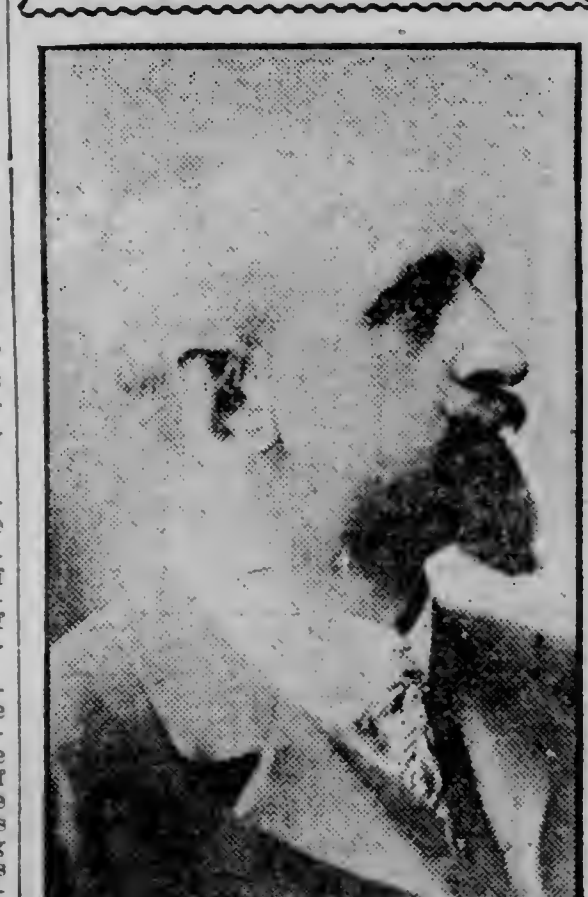

The state put on the stand W. B. Bennett, an engineer employed by the Wisconsin railroad and tax commission and who, between the years of 1907 and 1911 had charge of the valuation of the Superior section of the Duluth-Superior Traction Company's holdings.

Mr. Bennett's testimony was introduced by the state to attempt to prove the state's contention that the valuation of the Superior property of the company was only about one-fourth of the total or lump valuation of the property, and that the remaining three-fourths was in Duluth. It has been the contention of the street railway throughout the case that the Su-

perior property valuation is about one-third of the total. Odin Halden, county auditor, was also on the stand. He testified that the assessed valuation of the Duluth Street Railway company's personal property and that of the barrel, coal, logs and lumber stocks in Duluth was about the per cent of the total personal property valuation of the entire county.

St. Le. Helcher, treasurer of the street railway company, was on the stand at the adjournment of court at noon. He gave testimony as to the net earnings of the company during the past few years. The trial was resumed at 2 o'clock this afternoon.

## GLEE ALONG THE POLICE RUN

LEAVES FROM A REPORTER'S NOTE BOOK BY X

Arthur Beauchmier and Hugh Wilson, two 17-year-old youths, have been arrested by the police on a charge of having burglarized 20 E. Superior street. The boys were taken from police headquarters, the night of Feb. 3. Both the boys have been in trouble before. It is understood that they have confessed to the last crime which has been laid against them. A quantity of hardware, several watches and a number of pocket knives were taken from the hardware store. The boys were taken to the police station when the driver came to take care of his car the next morning. Mrs. Beauchmier came to the police station to see her son after noon. When he was taken before her she burst into tears. "Oh, Arthur, Arthur," she cried. "For a time I was feared that he might become hysterical, but by a great effort she gained control of herself. She has been having a hard time of it. Her husband is said to be in a bad way and that the boy is the only one upon whom she could rely for assistance. But he has been causing her much sorrow by his conduct. The police state that he seems to have an uncontrollable desire to steal."

Both boys waived examination when they were taken to the police station this morning. They were bound over to wait the action of the next grand jury. But it is asserted that both of them will enter pleas of guilty in the district court this afternoon.

Additional evidence has been secured by the police against the three boys who have been arrested for burglarizing the grand billiard room at Second avenue west and Superior street. They are Albert Johnson, 16, and Leonard and Harold Lavin, 16 and 15 years of age, respectively. The two older boys have been bound over to the grand jury while the third will be brought on Tuesday.

All the boys admit that they took cigars in the place and the two brothers have confessed that they got a party of \$75 in the place which was stolen. They accuse Peck of having stolen the money and with pocketing all but \$20 which he gave to them. They have turned their share over to the police. Peck does not admit having any knowledge of that part of the transaction.

It appears that Peck was formerly employed in the building to run the elevator. When he left at night he left one of the gates open in order that he might have access to the elevator from which he could get into the pool room. The boys say that the first or second time they came there they only played pool, but that later they began taking cigars. The last time they were there the brothers claim that Peck stole the \$75.

Matthew Johnson of Ely does not approve of being accused of Morismism, I hereby challenge any woman who claims to be my wife to make herself known within one month from date. If they fail in doing this, I will consider myself free from all and every accusation.

"I was born in Isokyo parish, village of Wetola, Finland, I was known there as Matt Herman Jusila, but during my twenty-two years' residence in the United States I have been known and am known now by the name of "MATHEW JOHNSON," "Ely Minn."

"I couldn't get along with my wife," said Andrew Dahlman when he was arraigned in police court on a charge of desertion yesterday afternoon, "and that's why I left home." Dahlman is accused of having left his wife and three minor children. His examination was set for tomorrow afternoon. Since last July, he says, he has been working in a lumber camp about forty-five miles north of Virginia, near Cusson.

Andrew Dahl, charged with having taken \$19 of "easy money" from Peter Clausen, denied his guilt when arraigned in police court this morning. His trial was set for tomorrow morning. Dahl \$10 to get him a job in a West end hotel; that he loaned him \$5, and that in order to make sure of the job he bought a life insurance policy from Dahl for \$10. Dahl alleged that he was a member of the hotel unless he had his life insured.

Earl Lanore, arrested yesterday on a charge of having passed a forged check for \$25.00 on M. Rachlin, said that he was guilty when he was arraigned in police court this morning and was bound over to the grand jury. He will probably enter a plea of guilty in the district court. He is also said to have passed a number of other worthless checks in the city. He is purported to have been signed by "The Duluth Tile & Marble company, John Jones, superintendent."

Charles Krebs, formerly driver of a bakery wagon and a carpenter, was arrested by Chief Trover yesterday afternoon on a charge of desertion. Krebs is the life of his daughter-in-law, Mrs. William Krebs. He will have his hearing tomorrow afternoon. The police state that Krebs has kept Mrs. Krebs in a state of fright for a long time past. They say that he has a gun in his room and that on different occasions he has threatened to use it. They also say that he has applied vile names to her. They live in the same house near Garfield avenue and Superior street.

Tom Murphy, who got a suspended sentence in police court a couple of days ago on the representation that he was a "hard working man in for the first time in three days," was up again this morning. This time he pleaded guilty to having been drunk and got with three days in the county jail, being unable to pay a fine of \$1 and costs.

Peter Haley admitted that he had been begging for dimes when he was brought into court today with his grist. He was sent up for three days.

The case of William Hawkins and Mrs. Martha Koch, accused of adultery by Bert V. Koch, was set over until tomorrow morning after part of the testimony had been heard in police court yesterday afternoon. The police say that they were in adjoining rooms, separated by a sliding door, when a husband stated that he and two private detectives listened on the stairs several hours before the police were summoned. The private detectives had rented room in the same house previously at the direction of Koch.

## RECOMMEND FARM SITE

Offer of Greysolon Tract Will Probably Be Accepted.

Concerted Effort Will Be Made to Secure Car Line Extension.

The executive committee of the board of regents of the state university at a meeting held at Minneapolis yesterday, decided to recommend to the board that the Greysolon farm site for the proposed Duluth demonstration farm school be purchased.

The action was taken after assurances had been given that the commercial bodies of Duluth would cooperate to obtain an extension of the Duluth street railway track to the site of the proposed farm. It was brought out that the city limits would touch the site and that the question of the independent suburban lines, which was a stumbling block, may be eliminated for the present.

The meeting was attended by J. S. Pardee, representing the Duluth Commercial Club, and N. J. Olson, representing the Duluth Real Estate Exchange. Resolutions adopted by the Commercial club, the real estate exchange and the Duluth Farmers' association were presented with a letter from the president of the Duluth board of trade, speaking for that body. All gave hearty endorsement to the proposed site and promised cooperation in a movement to obtain adequate transportation facilities.

At the solicitation of the Duluth commercial bodies, C. P. Craig and J. G. Williams of the Greysolon Farm company attended the meeting to confer with the regents on the purchase of the site.

The action taken yesterday and the attitude of the Duluth commercial bodies puts the matter up to the Duluth street railway company. The company will be asked to exercise its exclusive franchise in the city by making an extension of its line to the city limits at the location of the farm school site, and it is believed that with public opinion unanimously behind the project the street railway company will comply.

The transportation question has been, holding up the project. The original intention of the Greysolon Farm company was to construct a suburban line from the farms to a point at Duluth, making connection with the present line of the street railway company. An effort was made to obtain an agreement whereby there would be a division of one fare, but the street railway company refused to agree to any division.

Three alternatives were left to the Greysolon Farm company:

One was to build its line, charge one full fare and turn the passengers over to the Duluth Street Railway company at the connection, allowing that company to collect another fare for the distance to the city.

Another was to run the cars of the suburban line into the city over the street railway company's tracks, paying a tonnage fee for the privilege.

The third was to operate the suburban line as a free line, giving the entire fare to the Duluth Street Railway company.

The proposition of having two fares within the city limits did not appeal to the Greysolon Farm company and the other two alternatives were never feasible.

The fact that an extension of the Duluth street railway line to the city limits will touch the proposed site of the farm is an entirely new phase of the subject, which the city limits will be followed. The company will be called upon to exercise its franchise immediately and at the same time play public spirit in compliance with the demand of the commercial bodies. There is business in sight immediately for the proposed extension and much more in the future. The territory will soon be thickly settled.

The regents have accepted the assurance that the line will be built if the combined pleas of the commercial bodies and the different time and zone interests will bend every effort to get action from the street railway company.

The question of the suburban line does not enter into the farm school project now and will be dropped for the time. It will be taken up by a private enterprise by the Greysolon Farm company and will very likely be built from the city limits out into the country, making a connection with the Duluth street railway company at the city limits, passengers to be turned over for another fare there.

**FEDERAL DRAGNET IN DYNAMITE CASE HAS MISSED SEVEN MEN**

(Continued from page 1.)

members indicted. The other members are Frank M. Ryan, also president of the Iron Workers; Herbert S. Hooker of Detroit; John T. Butler of Buffalo, N. Y.; and Philip A. Cooley of New Orleans.

All the men west of Denver who were indicted are regarded as being already in custody.

Appeals came to President Ryan from many points today asking the Iron Workers' international union to assist indicted men in securing bonds and thus prevent them from going to jail. Some of the appeals were said to have come from those who had escaped the serving of warrants for their arrest and who were endeavoring to be assured that they would not have to go to jail.

To the appeals generally, the Iron Workers' officials replied that the union was in no position to furnish bonds, as the aggregate of \$340,000 required for all the men made it impossible.

**Evidence in Letters.** A great majority of the indictments were based on evidence taken by the government from the Iron Workers' international offices here. District Attorney Miller said. The evidence thus secured, he asserted, was correspondence from local unions in which references were made to places that were to be blown up.

**Young Expected Arrest.** Boston, Mass., Feb. 15.—Federal officers continued their search today for Michael J. Young, the Boston member of the executive board of the International Association of Bridge and Structural Iron Workers, under indictment in the dynamite conspiracy cases, who eluded arrest yesterday. Young told several friends last week that he might be arrested in the dynamite case through his acquaintance with the McNamara.

Frank J. Higgins of Boston, who was arrested yesterday in connection with the dynamite cases and who failed to obtain bail, was brought before United States Commissioner Hayes today on the question of a reduction in the \$5,000 bail.

**Irwin in Some Asylum.** Peoria, Ill., Feb. 15.—According to Edward Smythe, the Peoria labor leader arrested yesterday for complicity in the dynamite case, neither J. W. Irwin nor Frank Painter have been here for years. Irwin, who worked here five or six years ago, went from here to O'Connell, where he suffered a fractured skull in a fall and, according to Smythe, is now somewhere in an asylum. Painter, Smythe says, never was here.

ute to Dr. Sun as follows: "Such an example of purity of purpose and self-sacrifice is unparalleled in history. It was solely due to his magnanimity and modesty that Northern China was won over."

Yuan Shi Kai's refusal to come to Nanjing caused some reaction here. A section of the members of the senate and the house of representatives in the Shi Kai president of the republic. This opposition to the former imperial premier was strengthened by a report received here that Yuan Shi Kai was in foreign legations in Peking and that he had received some encouragement.

**Hoists Flag of Republic.** Rome, China, Feb. 15.—The Chinese legation here today for the first time hoisted the republican flag. The minister also officially announced the proclamation of the republic. Many callers went to the legation to offer their congratulations.

**Adopt American Dress.** San Francisco, Cal., Feb. 15.—Chinese consulting officials in the United States have been ordered to adopt American style of dress. The order received here. It was issued by President Sun Yat Sen.

**Ching Hwa Republic.** Washington, Feb. 15.—Ching Hwa republic is the official name of the new Chinese republic. Ching Hwa means Chinese republic. The announcement of the passing of the great 24th century which has ruled China for about 300 years, and the erection of a modern republic on its ruins, was made at the state department by the Chinese legation. It is not known here whether the appointment of Alfred Sze to be minister to Washington, which was made in the last days of the tottering dynasty, will stand. The belief is that he will give place to some pronounced republican.

**LAUDS STEEL CORPORATION**

(Continued from page 1.)

In this country he denounced as "un-American." "It is no reason," Mr. Roberts said, "why men should not combine to dispose of their labor just as men combine to use capital, provided that both are under government control and that full liability is placed on labor organizations for all their undertakings, and that neither side has any monopolistic tendencies."

**Unions as Monopolies.** "The labor organizations are monopolistic," he said. "They demand the closed shop, which is a monopoly, and there is no law in this country to prevent the closed shop. Neither is there any law providing liability for labor organizations in the event of a strike."

**Would Visit Steel Mills.** Chairman Stanley said he approved the idea, and would like to have the committee go, provided the members would pay their own expenses. He said that as the steel industry had ready cash \$24,000, and there had been some protests about the expense, he did not feel like asking the house for an additional appropriation.

**Expense of this committee is causing some people," said Mr. Stanley. The inquiry by the bureau of corporations cost the government \$200,000 or \$300,000 a year for a period of years, and the steel corporation says it has lost \$500,000. That part of the expense, I am satisfied, was foolishly spent. I think that this committee, with an expenditure of \$34,000, has discovered more information than the executive branch of the government."**

Several members of the committee volunteered their own expenses for a visit to the steel mills.

**Epizootic of Hauls.** Hold-up and money snatchers have become almost epidemic in New York city, and the police are having a hard time of it. Proceeding today, two young men armed with revolvers attempted to rob the jewelry establishment of Barrett Nemetz in Broome street. The jewelry store was closed at the time. The two men showed up and when they fled, fired several shots at them, which were returned.

One of the men escaped, the other was captured. He gave the name of Max Silver, 17 years old. A revolver with five bullets was found in his pocket. Earlier in the day burglars almost wrecked a private bank in Elizabeth street on the East side in attempting to open the safe. They secured no booty.

New York. Commencing today, we will add 50 cents to request on branch in custody.

"What did that mean?" asked Attorney Shoen.

"It means an increase of 50 cents a hundred pounds over the memorandum cost of request price sent to branch houses," said Russell.

**His Own Judgment.** "Who directed you to make that increase?"

"I acted on my own judgment," "that did you mean by the term 'bidding'?"

"It meant to increase the memorandum cost of a certain territory so as to bring the price up to the average price of the week," said the witness.

Winnell admitted that he at times ordered flat increases and reductions in prices of dressed meat regardless of the quality or grade of the product.

At first the witness, when questioned by Government Counsel Sheehan, denied ever having ordered any flat changes in price, but a moment later he changed his answer and admitted the practice when telegrams were read to the jury.

The witness said he acted on his own judgment in changing the price to meet market conditions. He denied ever having seen weekly summaries of margins or shipments from Swift & Co., Morris & Co., and the National Packing company.

**PEQUOT WOULD HAVE NEW COUNTY SEAT.**

Pequot, Minn., Feb. 15.—If the proposed division of Cass county is carried out, an effort will be made to make another new county of all that part of Crow Wing county lying north and west of the Mississippi river, and that part of Cass county lying west of Crow Wing county, with Pequot as its county seat. The village of Pequot, which is situated near the center of the 800 line being built through here in the near future, would give the village two railroads. The proposition will probably be submitted to the people at the general election in the fall.

## BUREAU IS FREE TO ALL

Duluth Traffic Commission Is for Benefit of Citizens.

Commercial Club Sends Out Circular Letter to Shippers.

The Duluth Commercial club wants to keep its traffic commission busy and to give every shipper in Duluth the benefit of the service. The big cases in which the commission is interested are well under way, but even while the big cases were being prepared, the commission was ever ready to serve shippers in quoting rates and adjusting differences.

The following circular letter is being sent out to Duluth business men: "The Commercial Club of Duluth, through its traffic commission, desires a chance to demonstrate that it can save time and money for every Duluth merchant, whether in retail and for every shipper of anything, anywhere or anytime. We don't even ask whether you are a member of the club or not. We do it for Duluth."

"Widen Duluth's market steadily in every direction. "Improve Duluth's railroad service until no competitor offers faster or surer delivery of goods to the coast."

"Secure fair rates in and out of Duluth, little by little, and at all once as fortune may favor."

"Return the head of lake navigation to Duluth."

"We are experts in freight rates, conditions and classifications, that great aid of the merchant. Proper packing and classification means lower rates."

"Have you ever attempted to apply a long range railroad tariff? Gave it up after two tries, didn't you? Or, unless your business is large enough to employ a traffic man for nothing else, you took without question whatever the railroad clerk quoted you."

"And as for express rates: Did you see what an interstate commerce commission said lately about the inability of express companies to interpret their own tariff?"

"Well, our rate experts will not avoid an encounter with the interstate commerce commission. We make a business of finding out what is in them. You can help us by reporting to us your troubles."

"In doubt, call Melrose 2491 or Grand 324, and ask for the traffic man."

## WIFE QUEST NOT SUCCESS

Roseau County Farmer Seeks

Helpmeet in Vain in Twin Cities.

Nearly Closes Marital Plan With One When He Calls It Off.

Crookston, Minn., Feb. 15.—(Special to The Herald.)—Albert Munroe Graves has returned to his home at Pentreuth, twenty miles south of Warroad in the southeast township of Roseau county, after a fruitless three weeks' quest for a wife in Minneapolis and St. Paul.

"In answer to my advertisements for a wife and a mother to my 6-year-old daughter, thirty women called to see me at my hotel in Minneapolis," said Mr. Graves, while in Crookston, "but none of them suited me with the exception of one. I made up my mind to marry her and we were going to be married but she confided the fact to me that all of her previous statements about herself had not been the absolute truth. That she had it with her. If she deceived me once she might easily do so again and I will run no chances if I know it."

"I still contend that I have a good proposition for a woman from 20 to 27 to 35 years of age. I don't want a wife with practically all her life behind her. She would not be the proper companion for my daughter. I would prefer a woman with \$500 but this is not essential."

**Woman Can Take Land.**  
"Any woman may come if she has the proper credentials and she can live on a quarter section of land or near it. I will build her a house and she can live on her farm for fourteen months with my daughter as a companion and prove up. Then if she believes I will make her a good husband and give her a good home we can get married. However, I want a good intelligent woman and none of the frivolous class. Mr. Graves is a dignified looking man, middle-aged, with a few years of age, clear-eyed and still vigorous and ambitious. He is a graduate of Western university, Middlebury, Conn., and belongs to one of the same chapters of the Phi Kappa Psi fraternity. He taught school in eleven states and has farmed in seven, was superintendent of the Minnesota Indian school at Pine Ridge agency, S. D., and one in the Union but two and has traveled all through Mexico."

## HOPE TO GATHER MORE PIKE SPAWN

State Commission Will Begin Work as Soon as Ice Goes Out.

St. Paul, Minn., Feb. 15.—(Special to The Herald.)—The state game and fish commission is making arrangements to start just as soon as the ice is out of streams, collecting pike spawn for the fish hatcheries, preparatory to the spring distribution. The commission estimates 88,000,000 pike fry were placed in lakes throughout the state, and efforts will be made this year to increase that number by several million. The spawn will be sent to the hatcheries in Lake Vermilion, White Fish Lake in Crow Wing county and from Ely to the hatcheries at Bemidji. Trout fry are being hatched in the St. Paul and Grand Rapids hatcheries when spring opens approximately 5,000,000 will be ready for distribution. In the St. Paul hatchery also about 10,000 Chinook salmon, which will go out when the ice is gone. The bass spawn will not be gathered until fall.

In response to a protest which reached the game and fish commission from Tower, that if pike spawn were

## WHAT IT COSTS SOME STUDENTS

Nearly One-Half at North Dakota U Are Working Their Way Through.

Grand Forks, N. D., Feb. 15.—(Special to The Herald.)—One hundred and fifteen students of the University of North Dakota expend an average of \$225 annually for education, according to President F. L. McVey.

Forty-one per cent of the students who made reports stated that they earned all or part of the money which carried them through college and 25 per cent reported that they were compelled to remain out of school one or more years in order to carry through the succeeding year; 16 per cent of those wholly self-supporting were women.

Farming has proved the greatest attraction to the college students who work their way to securing an education. The list of occupations reported by students following: Farming, 33; clerical work, 16; common labor, 6; waiting, 11; waiters, 14; teachers, 15; photography, 2; insurance, 4; mail carrier, 1; timekeeper, 1; electrician, 4; carpenter, 4; surveying, 4; chauffeur, 2; ministry, 2; newspaper reporting, 1.

Just how closely some students figure their accounts is shown by the report of one senior, who itemizes the cost for the several years as follows: "Expenses for first year, \$217.84; second year, \$242.30; third year, \$265.65." The same student says he earns about 35 per cent of his expenses.

Another student reported his activities as "waiting on table, janitor work, caring for furnaces, delivering newspapers, gardening on the campus, addressing letters, washing windows, caring for lawns, etc."

One foreigner who is attending the university reported that he left his home in Europe when he was 13 years of age. During those four years since I left I never received a letter or word from my family. At present, I work for my board."

**Ex-Representative Pleaded.**  
J. J. Opsahl, who was representative during the normal school night, said he was pleased that cordial relations were so manifest among the members of the meeting here. He spoke of the earlier history of the North country and outlined plans as to how a more satisfactory development of the territory to these points can be developed.

Mr. Opsahl suggested to the Cass Lake delegation that they go home and make Mr. Koll candidate for the legislature. "Mr. Koll," said Mr. Opsahl, "has made good in the development association, and he would be a splendid and strong man in the legislature. To this boom, Mr. Koll replied that it came as a surprise and that he did not anticipate Mr. Opsahl's action."

**CUTTING MUCH HARDWOOD.**

**Northern Lumber Company's Mill at Birch, Mich., Busy.**

Marquette, Mich., Feb. 15.—The Northern Lumber company, operating at Birch, is having one of the most satisfactory winter runs it has had since the plant was built. Under the superintendency of Arthur Brooks the company's work is proceeding in a most effective manner. Some eighty men are employed in the mill and in the two lumber camps adjacent to the mill. The hands, who are cutting the lands tributary to the logging railroad operated by the company.

The winter's run is being made on hardwood, and the mill is operated on a shift of ten hours, with a daily output of about 50,000 feet. In the summer, when the snow is cut, the output is nearly double this quantity. Shipments have been made steadily during the winter, and there is no lack of work. It is planned to continue the operation of the mill without interruption, and it is estimated that the company owns timber enough to keep the mill busy for fifteen years.

**BONANZA FARMER DIES.**

**O. T. Andrews, Who Came to Dakotas Poor, Tilled 5,120 Acres.**

Mayville, N. D., Feb. 15.—(Special to The Herald.)—The farming of 5,120 acres of Trall county land was the biggest duty which fell to the lot of O. T. Andrews, who died here yesterday of pneumonia. Mr. Andrews was a native of the North country, a staunch Democrat, but in more recent years he has given over most of his attention to the farming industry. He was 67 years old and had resided in North Dakota since 1888, coming to the state without funds.

**NURSES TO ORGANIZE.**

**North Dakota Association to Be Perfected in April.**

Grand Forks, N. D., Feb. 15.—(Special to The Herald.)—The association of the North Dakota Trained Nurses' association will be perfected at a meeting held here in April, the call for which was issued by the Grand Forks County Trained Nurses' association. There already are several divisions of nurses in the state, which are organized, and these will be joined into a single organization through the state association.

Miss Bertha Erdmann of the state university is secretary of the association for the launching of a state association.

**THEIR PRAYERS ANSWERED.**

**Two Hunters Marooned on Lake Michigan Ice Are Saved.**

Kenosha, Wis., Feb. 15.—Kneeling on a great field of slush ice in Lake Michigan and drifting to what seemed to be certain death, William Hanchman and John Stanley, both Kenosha men, had their prayers answered when they were rescued by a boat from the shore.

The men had gone out on the slush ice hunting ducks, and when they sought to return home they found they were marooned on a drifting ice.

The men fired their shotguns into the air, and when they found they were marooned on a drifting ice, they called for help.

Then being hysterical, they knelt on the ice and prayed for help.

Then being hysterical, they knelt on the ice and prayed for help.

## This Week's Sunday School Lesson

WRITTEN FOR THE HERALD BY REV. J. S. KIRKLEY, D. D.

SUNDAY SCHOOL LESSON: FEB. 18.

Luke III, 1-20: Ministry of John the Baptist.

CONNECTION.

Where John spent the time from his boyhood to his ministry we know not, yet there is reason to believe that his parents, who were old when he was born, died early in his life and that he went very soon to spend his days in the wilderness, apart from the haunts of man. There he spent the time in study, meditation and prayer. He was of the Nazarene order, whose long hair and abstemiousness from strong drink were signs of non-conformity to the world and consecration to God. He knew he had a special mission, knew the promise of his time, knew the promise of God to send a Messiah and longed to see the sinning people reformed. That is where the call to service found him.

THE LESSON.

John's Call, 1-2.

"Now in the fifteenth year of the reign of Tiberius Caesar, Pontius Pilate being governor of Judaea, and Herod being tetrarch of Galilee, and his brother Philip tetrarch of the region of Ituraea and Trachonitis, and Lysanias, tetrarch of Abilene, in the high-priesthood of Annas and Caiaphas, the word of God came unto John the son of Zacharias in the wilderness."

1. TIME.—It was time for a reformer.

and in fire: Whose fan is in his hand,

thoroughly to cleanse his threshing

floor; and to gather the wheat into his

garner; but the chaff he will burn up

with unquenchable fire.

1. METHOD.—It was direct and per-

sonal, for he was fearless and unsparin-

g. He preached in the country and the

people came out to hear him from all

the cities. He was a cyclone. He

created a storm. He saw what those

Pharisees were and told them so. They

saw he was drawing the people and

they tried to join so as to control the

movement. Then he described them as

serpents trying to wriggle in. They

thought they were already in the king-

dom in virtue of being the sons of

Abraham, but he told them they had

to repent as the rest of them did. It

was a terrible talk. It said they were

not the sons of Abraham, but the sons

of the devil. To lay bare each man's

sin and needs he spoke plainly. To

soldiers, who usually abused their

power, to publicans who always forced

taxes from the poor, he told exactly

what not to do. To the multitude he

commanded kindness toward the needy.

John was practical.

2. SPIRIT.—It was meek before Christ, but

men, but meek before Christ. See how

he compares, rather contrasts, himself

with the coming One—merely a voice;

a diminishing quantity, unworthy to

be the humblest servant; he a voice, a

Christ, a power to preserve the pure

John was practical.

# THE SATURDAY HERALD GIVES YOU THE LARGEST CIRCULATION IN DULUTH AND NEARBY TOWNS.

## THE SATURDAY HERALD IS THE SUNDAY PAPER IN THE OUTSIDE TOWNS

The Saturday Herald is delivered bright and early Sunday morning to thousands of regular subscribers in the Copper and Iron districts of Northern Michigan.

The Saturday Herald is the favorite Sunday paper on the Iron Ranges, being delivered by our own carriers to thousands of regular subscribers.

The Saturday Herald, always 28 to 32 pages, is replete with features interesting to all members of the family. The news of neighboring towns furnished by our own correspondents, is one of the pleasing features of The Saturday Herald.

The Saturday Herald furnishes the Sunday reading for the great majority of homes in Duluth and tributary towns.

The Saturday Herald has a circulation greater by thousands than that of any other Saturday or Sunday paper in this territory.

## AMERICAN RINKS WIN

McLeod, Dunbar and Defel Show Strength at Winnipeg.

Duluth Man Wins Games From McMillan and Bannister.

Winnipeg, Man., Feb. 16.—The American rinks carried off all the honors in the late night and early morning draws, Dunbar and Defel of St. Paul and McLeod of Duluth administering defeats to all their opponents. In the

Pursing flour contest this morning Defel defeated Tom Venn of the Winnipeg Granites, considered one of the best skippers in the city, by a score of 14 to 8. Kinson of Manitoba went down to defeat before Dunbar this morning by the score of 11 to 8.

Dunbar also put Charles of Butte down and out in the play down late last night for the Walker trophy in the international event, 10 to 9, after a closely fought game, while McLeod of Duluth put McMillan, the other rink from Butte, out of the same event, 11 to 7.

In the play for the Caledonia early today, McLeod beat Bannister of Carberry, 11 to 8. Dunbar in the same event late last night, defeated Cline of Glenboro, 14 to 8.

Dunbar, in winning his last four games, has shown remarkable staying power, playing continuously from early in the morning until late at night. In the late morning draw today, Dunbar and Defel were playing two Russell rinks for the Tuckett, while McLeod and McMillan were engaged in the Cameron cup event.

The ice today was too slushy to be favorable to the curlers.

### Glants Start South.

New York, Feb. 16.—Manager McGraw of the New York Glants, and a squad of young recruits are scheduled to start today for Marlin, Tex., for preliminary practice on Southern grounds. Members of the regular team will join McGraw and his recruits for training within a fortnight. A second squad of recruits will join today's company at St. Louis.

**DULUTH MAN IS KILLED AT CROMWELL.**

Elmo Waldref, 27 years old, formerly of the West end and a member of the No. 2 fire department for four years,

was accidentally killed Wednesday evening at Cromwell, Minn., several miles from Brainerd. Waldref was a brakeman on the Northern Pacific road and was caught between two cars in one of the yards. Death was instantaneous.

The body was brought to Duluth this morning by Olson & Crawford, undertakers, at the request of his brother, Fred, who lives in the West end, and who will make the funeral arrangements as soon as he arrives in the city tomorrow. Waldref was unmarried and his parents live at St. John, Or., where the body will be taken for burial. The deceased leaves a brother and sister at Wrenshall, Minn., besides his parents.

## PRISONERS WILL BE SENTENCED

Merritt Barry, the young man who stole a \$100 bill from his roommate, August E. Otte, at the Y. M. C. A. on Feb. 8, will be sentenced by Judge Dancer in district court this afternoon. He pleaded guilty to a charge of grand larceny, second degree, and will probably be placed on parole.

Hugh Humphrey, who with Arthur Beaucheming burglarized the Fleberger hardware store at 129 East Superior street a few nights ago, also pleaded guilty to a charge of burglary in the third degree when arraigned before Judge Dancer. He will also be sentenced this afternoon.

## RESORT FOR SOUTHERNERS

Railroad Man Planning to Advertise Duluth as Summer Resort.

C. W. Humphrey, district passenger agent for the St. Louis and San Francisco, Chicago and Eastern Illinois and the Evansville and Terre Haute railroads, is anxious to advertise Duluth in the Southern states as a resort for Southern people in the summer time.

Mr. Humphrey was in Duluth this morning and visited at the Commercial club where he tried to make arrangements for inviting pictures of Duluth for use in a booklet which it is planned to publish and distribute through the Southern states. The pamphlets issued by the companies represented by the Duluth visitor among the most beautiful of any gotten out by the different railroads. They are profusely illustrated with printed pictures of the city. Many of them are truly works of art. They are one similar to them, and telling of Duluth would help many people to decide where to spend their summer vacations.

Mr. Humphrey says that if he is able to get an interesting assortment of pictures that his road will get out a booklet on Duluth which will attract many people here during the summer months. The St. Paul man says that both Texas and Florida are popular this winter with Northern people, the traffic being more than ordinarily heavy.

## MORTGAGE TAX LAW IS UPHELD

Registry Fee Must Be Paid, However Small the Amount Involved.

St. Paul, Minn., Feb. 16.—(Special to The Herald.)—Validity of the mortgage registration tax, with an opinion that registration fee must be paid on all real estate mortgages whether under \$50 or over \$50, was upheld by the state supreme court today. The case was in which Henry A. Hildebrandt of St. Paul had brought mandamus proceedings against Michael W. Fitzgerald, register of deeds of Ramsey county, to require him to register a mortgage for nothing because it was for a sum of less than \$50.

## ARGUMENTS IN TAX CASE

Judge Cant is today hearing the final arguments in the Duluth Street Railway tax case, which was resumed in the district court before him yesterday after it had been continued from the November term.

Attorneys for the state and also for the street railway company will later submit briefs.

The case is one in which the state is attempting to collect the collection of a personal property tax of \$44,500 from the street railway company for 1910. The county last year was tendered \$20,000 in gold but refused to accept it. Testimony was finished this morning. Yesterday afternoon Edward P. Burn and Charles L. Pillsbury, engineers engaged by the county to make a physical valuation of the personal property of the traction company testified in support of the state's claim. The bare physical valuation was \$142,510. They also estimated that between 75 and 80 per cent of the company's property at the Head of the Lakes was in Duluth.

Shil McDonald, auditor, and Herbert Warren, manager of the Duluth Street Railway company, were also on the stand to testify as to the earnings, expenses and expenses of the company.

**KILLS WOUNDED DEER.** Marquette County Man Exonerated for Act of Mercy.

Marquette, Mich., Feb. 16.—(Special to The Herald.)—Game Warden John Rough of Negaunee, who has returned from a four days' trip into the wilds of Northern Marquette county, during which he covered seventy-five miles on

foot, reports that wolves are slaughtering deer in large numbers.

The warden visited the region primarily to investigate a report that a trapper named Steffens had killed a deer. He found that the man had shot a deer, but had done so solely as an act of mercy, the trapper having discovered the animal badly lacerated, the result of an onslaught by wolves. The game warden saw the carcass in the snow, where it had been left untouched, and speedily convinced himself that Steffens was justified in killing it. Deputy Rough reports that there is four feet of snow in the region he visited. He says there is no chance for the deer there, because wolves infest the district in large numbers.

## STRAW ITCH IS MAKING TROUBLE

Victims Reject Medicine and Insist on Going to School.

St. Paul, Minn., Feb. 16.—(Special to The Herald.)—Religion, the local board of health at Milton, Minn., and the straw itch are involved in an imbroglio over what to do with several children in a family which is afflicted. Dr. H. M. Bracken, secretary of the state board of health, received a letter from Milton this morning saying that the children had been provided with medicine with which to cure themselves of the straw itch, but that they refused to use it on the theory that "the Lord would cure them."

Later, when more medicine was supplied and they poured some of it on the afflicted skin, it smarted and they and their parents took this to mean that the Lord disapproved of the lotion. Therefore, the parents refuse to direct their children to use the medicine, the children refuse to use it, and the school board, where the children persist in seeking an education, and the local board of health in the town, are unable to decide what to do in the dilemma.

The secretary of the state board of health asked Assistant State Attorney General Hilton today what to do. "Put it up to the state superintendent of schools," Mr. Hilton advised.

**Among Railroad Men.** W. R. "Buck" Stevenson, traveling passenger and freight agent for the Lehigh Valley Railroad company, is in the city today.

David Small of the Erie system, is calling on Duluth railroad agents today.

We have decided to quit handling **LADIES' SWEATER COATS**, and we are going to get rid of all we have in stock.

So, first, we went through and got the entire stock down on the display cases; Next, we decided on the clearance prices, and this we did by a novel method: We did not worry about the original prices or even the **COST** prices; but we held this little confab over each sweater coat:

"For how little dare we sell this coat?"

You see, we are anxious to get these coats out of the way—sweater coats in their boxes are bulky things—but we know that there is such a thing as making a bargain too much of a bargain to sell readily!

So we had to hit on a figure that would just hint at the exceptional quality of the coats and still be an irresistible bargain!

A hint of the prices we finally agreed on follows:—every one of them a dollar or so less than we paid for the coats!

The **Sweater Coat** is the ideal garment for Spring wear and for Summer sports: it gives just the right protection during the changeable weather of springtime and is the handiest possible garment to have on a camping-out or boating trip!

Buy one of these coats **NOW** at less than they cost us, and avoid the colds and the sickness spring usually brings you!

We have a complete variety of colors, styles and sizes, and can surely find you what you want!

## AUTHORITIES SAY LETTERS PROVE GUILT

(Continued from page 1.)

The local union in San Francisco to J. J. McNamara in Indianapolis, after the Los Angeles Times disaster, stating he "threw Santa Claus would be as kind and generous to you with supplies" is quoted to show that the conspiracy spread from Boston to the Pacific coast.

Four more indictments, not yet made public, supplement the principal indictment containing the correspondence.

These indictments name all the fifty-four defendants as implicated in the general conspiracy and make these charges:

That on thirty-four counts all the defendants are guilty of conspiracy in the transportation of dynamite.

That on thirty-four counts, McNamara, John J. McNamara, James B. McNamara and Hockin are guilty of illegally transporting dynamite, and all the other defendants are guilty of aiding and abetting them.

That on sixteen counts all the defendants are guilty as principals in the transportation of nitro-glycerin.

That on sixteen counts, McNamara, John J. McNamara, James B. McNamara and Hockin are guilty of illegally transporting nitro-glycerin, and all the other defendants are guilty of aiding and abetting them.

**Contains 125 Counts.**

The wide scope of the thirty-two indictments, which contain in all 125 counts, is due, it is announced, to the theory of the government that the defendants' alleged guilt is equal to the matter how small an individual's personal activity in the conspiracy may have been. Mr. Miller said it has been determined to press all the counts of

the indictments against each of the defendants.

"The indictment setting out unsummarized acts of conspiracy, extensive as it is in presenting a mass of alleged incriminating correspondence between the defendants," said Mr. Miller, "only submits typical acts. If we had chosen this indictment might have run into many more hundred pages. Forty thousand letters were seized in the headquarters of the International Iron Workers' association, and from them the investigators chose evidence that we consider much more than sufficient to prove our case when offered in connection with corroborative evidence of wide extent and varied character. The freedom with which these men put on paper their plans, motives and the working out of their purposes is amazing."

**Munsey is Arrested.**

Salt Lake City, Utah, Feb. 16.—James E. Munsey, business agent of the Iron Workers' union, was arrested by United States Marshal Anderson yesterday afternoon. The United States commissioner fixed the bail for his appearance at Indianapolis, where he was indicted for transporting explosives unlawfully, at \$5,000. Munsey has not found bondsman.

**No Habeas Corpus.**

Denver, N. Y., Feb. 16.—On a charge of conspiracy in transporting dynamite from one state to another, William K.

Henson, who was president of the Detroit, Mich., Federation of Labor in 1910, was arrested at his farm in the town of Barkerville, eighteen miles north of this village, early today and brought here.

Henson, who is 35 years of age, was one of the union labor leaders indicted recently at Indianapolis.

**Murphy Denies Guilt.**

Detroit, Mich., Feb. 16.—The government is torturing my wife and children to make a sensation. I swear that I am not more guilty of carrying dynamite than you are. I never saw a stick of dynamite in my life. If you showed me a stick of it, I would not know what it was."

In these words Frank J. Murphy, one of the two Detroit men arrested Wednesday on indictments charging them with conspiracy against the government in the Indianapolis union labor dynamite cases, declared his innocence at the county jail today.

With Charles R. Kachmeyer, arrested with him on the same charge, Murphy is waiting at the jail for an officer of the International Iron Workers' union to arrive with cash bail of \$10,000 for their appearance in court.

**Menominee Man Seeks Interest.**

Menominee, Mich., Feb. 16.—(Special to The Herald.)—Leo C. Harman, president of the Menominee Electrical Manufacturing company, has sold his one-fourth interest in the company to Henry Tideman, who now owns three-fourths of the capital stock and has been made president and general manager. The officers and directors of the newly organized company are: Henry Tideman, president and general manager; John Hines, vice president; William J. Tideman, secretary and treasurer.

## DRIVEN OUT BY FLAMES

Women and Babies Are Carried From Bethel Home.

Are Sheltered in Church Until Fire Is Extinguished.

Firemen were obliged to carry a number of women and babies from the Bethel home to the German Evangelical church, across the street, about 8 o'clock last night when the institution took fire from a blazing flat building next to it.

Large quantities of bed clothing were taken to the church from the home to make the temporary quarters comfortable.

Some of the women had been boarded up and the traces of fire eliminated as completely as possible.

The women and babies were taken back to their rooms. It was reported that none of them suffered injury as a result of their heavy clothing.

The flames started in a frame shed located at 424-426 Sixth avenue east. The cause is unknown.

The fire spread quickly to the frame work on the outside of the building and leaped across to the Bethel home, which is a spectacular for a short while, but the firemen prevented it from doing any damage to the interior of the structure.

It is estimated that the loss will amount to about \$400 on the two buildings.

Two families live upstairs in the flat building and the one entrance is an outside frame stairway. When the flames were at the stairs with his small baby. Giving it into the care of a neighbor he rushed back and helped his wife down the stairs. None of them was hurt. The other family also escaped without injury. The flat building is owned by E. D. Field.

**OFFICERS OF ARMY WILL DEFY HOUSE.**

(Continued from page 1.)

the line and the staff for a quarter of a century, legal officers of the war department do not believe the trial itself will consume much time.

**Presumptive Evidence.**

It is believed the evidence to be presented will be principally documentary, including the various orders and reports which have been issued from the adjutant general's office during the last four years and especially a letter from Secretary Stimson to Gen. Almsworth.

Officially charged with direct and respectful conduct. In view of the limited accommodations at the hotel, the adjutant general's office will assemble at the war college or at Fort Myer, across the Potomac.

Gen. Almsworth maintains the attitude of absolute reticence. It is understood he is arranging for counsel and preparing his own defense.

It is fully expected at the war department that this case will figure prominently before coming before the court, perhaps the Democratic house may take steps to investigate the case, and a congressional staff and the adjutant general's office.

**Official of the War Department.**

Officials of the war department profess no concern at this, taking the ground that the adjutant general's office is a constitutional authority authorized to deal with the issue presented in the Almsworth case, and no congressional interference has been tolerated.

**Refutation of Long Standing.**

For some time there has been friction between the adjutant general's office and that of the chief of staff. Clashes were reported in the past, and there was almost a total lack of co-operation. The adjutant general's office, however, has been in the hands of Secretary Stimson's request for some statistical information, made demands for the secretary's office to be constrained to receive it as a reflection upon his office.

Secretary Stimson's letter of suspension look up incidents as far back as October, 1909, in which the secretary's office was ordered to suspend the adjutant general's office.

Two others were engaged in the murder of Fred Goetzow, who was condemned to be hanged. They probably escaped the sentence of the law on account of their youth. Both were sent to the penitentiary for life. They were Frank Kita and Leo Suchomski, both 16 years old.

**Victims of Mercy.**

The men murdered Goetzow on the northwest side of the city while he was on his way to market with a load of garden truck.

Goetzow, who had been married a little more than a year, pleaded with his assailants to take his money, but spare his life for the sake of his wife and month-old baby. Instead his slayers attacked him with knives and revolvers. After they had killed him they mutilated his body. They were arrested while trying to sell Goetzow's horses.

The crime was committed Oct. 20, 1911.

**Frenzy, Then Picochle.**

With several scores of relatives who visited them the last night, the four men in the Goetzow case gave way to a flood of hysteria last night that bordered upon mania. Not since the hanging of the Haymarket rioters in Cook county jail, the four finally threw themselves on the floor of the jail corridor. They had to be partly carried and partly dragged back to the death chamber when they attempted to follow their relatives out of the strait door of the corridor.

Fifteen minutes after their frenzied relatives had been led and helped out of the jail by officers, the four murderers were together in one cell, playing pinhole. They apparently were enjoying the game.

Jennings, the negro, received a call from a clergyman and conversed with him in low tones, laying aside his cigarette out of respect for the clergyman.

"I don't understand them folks there too much for me," was the negro's comment on the card game.

**MARRIED AT CLOQUET.**

Cloquet, Minn., Feb. 16.—(Special to The Herald.)—Miss Ethel M. Forman, formerly of Aitkin, and John A. Smith of Aitkin were married Wednesday at the home of the bride's uncle and aunt, Mr. and Mrs. Otto Smith, Rev. H. E. Erikson officiating at the marriage service. The bride wore a white lingerie gown and carried a bouquet of white flowers.

Miss Cassandra Carl of Eau Claire, Wis., played the wedding march, also playing softly through the entire ceremony. A small party of guests were present. The home was decorated with flowers and greenery.

After the ceremony, the bride and groom left on the afternoon train for a brief wedding trip after which they will spend a few weeks at the Smith & Bunchanan camps near Aitkin.

Mr. Smith has logged in the vicinity of Aitkin for a number of years, and the bride has also lived in Aitkin for several years, and both are well known.

authority the proposition in question was submitted to you. You also criticize and impugn the military capacity and experience, the intelligence and fair-mindedness, and finally, question the honor and good faith of the officers of the general staff and the war college, which you were not directed to discuss.

Mr. Stimson then quotes from Gen. Almsworth's memorandum to show that the latter had him in mind in writing.

In compliance with the second part of the accompanying call, the following statement is submitted. Although it is recognized that it will be difficult to formulate a statement that will carry conviction to any one who is so unimpaired of consequences or so uninformed of the needs of the government and the public with regard to the matter in question, as seriously to propose to abolish one of the most important, if not the most important, of all the records of the war department.

The secretary then quotes the adjutant as having added that the statement was submitted with the confident expectation that when other, if not wiser, councils shall prevail, the statement will be considered with the consideration that may not be given it now.

**SKY PILOT CHASED BY WOLF PACK**

(Continued from page 1.)

along the trail and lighted it. The blazing trail kept the wolves off to some extent, but their numbers increased to such proportions that the evangelist decided he could not complete the journey without the aid of a lantern.

**Burns Lantern.**

Using his remaining matches to keep the lamp burning, he returned to the camp. He refused to remain there, however, but obtaining a lantern he took up the journey again. The lantern kept the wolves back for a time, but their numbers constantly increased, and they became bolder as they came accustomed to the light.

Time and time again, Sorbner said, he swung the lantern in their eyes when they became especially ferocious and approached close to him.

He had gone about half the distance between the two camps when the long loader loomed up between the trees. He was thoroughly frightened by this time and was trying from his efforts to keep the wolves away with the lantern, so he climbed on top of the machine and set himself for the long vigil. When dawn appeared, the wolves fled through the forest and Mr. Sorbner continued unmolested to his destination.

Mr. Sorbner is a disciple of Sky Pilot, or Frank E. Higgins, having been converted by that evangelist. He is performing work similar to that being done by Mr. Higgins and is well known in the camps of Northern Minnesota.

He took a former prize fighter. He was the terror of the lumber camps for years until he came under the influence of the well known "sky pilot" and was converted and took up evangelistic work among the men whom he formerly terrorized.

**FIVE DIE ON THE GALLOWES**

(Continued from page 1.)

ney's office resisted the attempt to deny the executions, and told Judge McKinley that the petition alleging insanity, which under the law is a bar to execution, was presented for the purpose of delay. This was hotly denied by counsel for the condemned men, and a wordy altercation occupied the minutes in which the four were being prepared for the gallows.

**Denied Statements in Petition.**

Judge McKinley declined to permit the petition to be filed until it had been read. The prosecutor insisted that the petition, which was signed by Rev. Father Repinski, was not in accordance with the facts.

Counsel for Thomas Jennings, colored, the fifth murderer sentenced to die today, while the executions of the Goetzow murderers were occurring, were being before United States District Court Judge Landis, that the rights of their clients had been invaded by the introduction of finger print evidence in seeking to have the four men executed.

Jennings' counsel declared that the finger print evidence was inadmissible because Jennings had been compelled to give the prints while he was in jail. The court ruled adversely to the claim.

**Executions Stopped Proceedings.**

Word that the sentence had been carried out was taken to Judge McKinley's courtroom while Rev. Father J. S. Morris, one of the clergy who had visited the condemned men in the jail, was testifying that in his opinion the four men were insane. The proceedings were dismissed without further ceremony.

"I am informed that the execution has taken place," said Judge McKinley, "so there is no use in going on with the proceedings."

After the usual formalities the bodies were given to a representative of the families for burial.

Two others were engaged in the murder of Fred Goetzow, who was condemned to be hanged. They probably escaped the sentence of the law on account of their youth. Both were sent to the penitentiary for life. They were Frank Kita and Leo Suchomski, both 16 years old.

## PARK POINT IS AGITATED

Width of Proposed Pavement Subject of Much Discussion.

Petition for Sanitary Sewer Has Nearly Enough Signers.

Residents of Park Point have been having some interesting discussions as to whether the city council, which has agreed to pave its full width when the contemplated improvement is made. Because of the expense, some are objecting to paving the street from curb

to curb from the canal to Forty-third street. They state that this would cause too heavy an expenditure. Others claim that it would be economy and a good investment to lay the pavement the full width.

The majority of the property owners appear to think that the petition should call for the full-width pavement. They assert that this will make it easier to get signatures, and also leave the situation in better shape should any legal difficulties arise. They state that should it seem advisable later to pave but part of the street, this can be taken care of in the city council, which has authority to regulate the extent of the improvement.

The petition for the large sanitary sewer has been nearly completed, it is stated. Several additional signatures were secured yesterday. Those interested state that enough property owners have expressed themselves in favor of the improvement to leave no doubt that all the names necessary will be secured. The sewer will be laid before the paving is put down.

**CONVICTED BANKER'S SENTENCE IS DEFERRED.**

Little Falls, Minn., Feb. 16.—Application was made for a new trial and sentence deferred in the case of O. H. Havill, who has been on trial here charged with accepting deposits after the State Bank of Bowles was insolvent. The hearing has been set for the second Monday in March. The convicted prisoner has been released on \$2,000 bond.

## IS GRATEFUL TO THE DOCTORS

Duluth Man Says Their Treatment  
Cured Bad Case of Nervous  
Breakdown.

GREAT HEALING POWER OF  
ELECTRO MEDICAL SYSTEM.  
Specialists all Over and Doctors of  
All Schools Unable to Cure  
This Man.

John O. Johnson, who lives at No. 2015 Jay street in Duluth, has been the victim of a disease common to a great many in this country. This man knows whereof he speaks when he talks of the Electro Medical Doctors to his friends and neighbors. For years he had been suffering and his health had gradually gone to pieces. He had visited many specialists and all kinds of doctors who in the end understood his case, they all were unable to locate the real trouble. Diseases like Mr. Johnson's are not easily found and if it would not have been for the great skill of the Electro Medical Doctors of correctly diagnosing this man's case he may have gone till completely broken down.

Now after only a short course of this wonderful new Electro Medical treatment he is so pleased with it that he has written the following letter for publication.

Duluth, Feb. 10, 1912.

To the Electro Medical Doctors,  
No. 26 West Superior Street, Duluth.

I want to express my gratitude to you, Nervous exhaustion and weakness of an organ is a misery beyond expression. I felt myself rolling down gradually but certainly. I was so much worried that I became melancholy. You don't realize how sweet life is when you feel perfect health returning. This is a fact with me after I have been treated by the Electro Medical Doctors only for two weeks. Here I am treated as never before, every treatment with their wonderful medicines has brought new life to me and filled my heart with new hopes of gaining perfect health again. I recommend the Electro Medical Doctors to every chronic sufferer. (Signed)

JOHN O. JOHNSON,  
2015 Jay Street.

The Electro Medical Doctors' offices are on the second floor at No. 26 West Superior street. They have provided separate waiting rooms for men and women and no one needs to feel embarrassed to go to them. Before there has been any office in the city of Duluth where men and women were provided with separate waiting rooms. This is one feature which the doctors of the corporation have made a wise move in. In fact they have spared no expense to make this office the finest and best equipped doctor's office at the Head of the Lakes. They have put the best doctor in the state in the greatest diagnostician. He is a regular licensed physician of the state but practices no school in particular as his well-worked-out Electro Medical treatments surpass anything heretofore seen in Duluth. The doctor refuses to accept innumerable cases but a good show that they have cured a good many who have been pronounced incurable by other doctors. Anyone may consult them without charges and office hours are from 10 to 12, 1 to 5, 6 to 8, Sundays, 10 to 11, at No. 26 West Superior street.

## EIGHT-HOUR LAW SUCCESS

California's Regulations for  
Women Workers Bring-  
ing Good Results.

Duluth Woman Tells of  
Labor and Social Condi-  
tions on Coast.

Miss Jean Polier, deputy state factory inspector, who returned yesterday from a three months' trip to the Pacific coast, where she had an opportunity to study the labor and social conditions in California, is very enthusiastic over the workings of the recently enacted eight-hour law for women and of the new industrial accident board.

During her stay in California Miss Polier spent most of her time in San Francisco. "Out there," she said, "they are very much interested in Minnesota, because our state has been the first to establish a woman's department on its labor commission. In fact the San Francisco Women's Federation has asked Mrs. Mary Starkweather, assistant commissioner of labor in Minnesota, to appear before the California legislature and help frame a similar law."

Miss Polier attended several banquets and meetings of the San Francisco women, at which she was given an opportunity to tell them of the pioneer work which Minnesota was doing.

The Eight-Hour Law.

Miss Polier was much interested in the success of the new eight-hour law for women, which is being tried out in California.

It is a big success, she says. Some of the firms have decided that even eight hours is too long for continuous work and have reduced the number to seven and one-half hours.

The new law was passed at the last session of the California state legislature and while it was bitterly fought by manufacturers, they all agree now that the law was a sensible one and for the best of all concerned.

It is being applied in factories of all kinds where women are employed, the department stores, laundries, hotels, and restaurants.

Miss Polier states that the merchants and others are enthusiastic over the new law for they say that their help is better rested and accomplish more work than in ten hours.

Miss Polier is much interested in a like law for Minnesota. She states that such a law should be passed and those who are now most bitterly opposed would realize that the law is to their benefit.

One thing I noticed about the big city of Frisco," said Miss Polier, "is that the laundries there are not up to the high standard of the Duluth laundries—that is from the standpoint of sanitary arrangement and the way that employers plan for the comforts, conveniences and safety of their help. San Francisco, of course, has thousands of small French and Chinese laundries, where there are no modern improvements or labor saving devices."

Industrial Accident Board.

Miss Polier said that she was especially interested in the way that the new Roseberry liability and compensation law of California was working out. This new industrial accident board, recently established over its existence to this law. The board consists of three members, one chosen by the labor interests, one a college man and a third a lawyer. It is a tribunal for the settlement of compensation disputes between employers and employees.

As it works out, the employee on securing a position signs an agreement that he will submit his case, if he is injured while in the performance of his duties, to the industrial accident board for settlement. He has an option, however, of bringing it into the courts in regular form.

One of the purposes of the new employers' liability commission is to give quick and adequate relief. There will be no long delays. Figures have been compiled in California, said Miss Polier, to show that the average time required to affect a settlement of a personal injury suit in the California courts is about five years. The new board is expected to administer the law broadly and to accomplish the purpose and intent of the legislature. The decisions of the industrial board are appealable to the supreme court, but they will be put at the head of the calendar and this preference saves many months of delay.

"I had the pleasure of attending the first court session held by the new industrial board, and I found it very interesting," said Miss Polier. "Eventually, we will have a law and board to this in Minnesota, as it is the only fair, just and equitable way of settling personal injury suits."

On her return to Duluth, Miss Polier says that she has already received complaints from a number of children, both boys and girls, who secured permits to work during the holidays, have not returned to their schools. Every case will be investigated, and the delinquents sent back to school.

"In St. Paul on my way back, I discussed this matter with Commissioner Houck and Mrs. Starkweather at the state capital and they seemed very anxious that it should be settled. There are too many dependent and delinquent children, not only in Duluth, but in other parts of the state who require attention in this respect. We have excellent schools in Northern Minnesota and there is every reason why these children should attend them regularly."

### HER REQUEST.

Chicago News: "Is there anything you would like me to do for you while I'm downtown?" asked Quigway, as he adjusted his hat.

"Yes, there is a little errand you might do for me, if you can do it without finding fault," answered Mrs. Quigway. "You always become so impatient and excited that I'm afraid to ask anything of you."

"I have explained a hundred times, my dear, why I become impatient," said Quigway with dignity. "Your errands always are of a kind to drive a man to distraction. But tell me what I can do for you. Be quick, or I'll miss my car."

"All the other day I went into Haggerty's hardware store to look at the oil stoves. Mrs. Octagon having told me that she gets better satisfaction from her oil stove in the kitchen than she ever had from her gas range or coal stove, and besides the oil stoves are said to be much more economical, a gallon of oil lasting several days, while the gas stove—"

"Oh, jumping ginger! Can't you tell me what you want in a dozen or a hundred words?"

"There you are again! I'm tired of your pretense of wanting to do things for me. You know very well that the gas bill last month astonished me, and it was all because of that stove in the kitchen which eats up gas faster than I can burn it. The oil stove, on the other hand, has no such trouble. Oil stoves and oil stoves have nothing to do with the matter I have in my mind. I merely mentioned them to explain how I came to be in Haggerty's hardware store."

"I looked over the stoves and didn't see anything I wanted, and then I was looking at some cutlery in the store case, for we simply must have some new knives and forks before Christmas. Your sisters are coming then, and they are used to the best of ev-

everything, and I can imagine what they would do if they sat down to our table and saw such knives and forks as we are using."

"Are you gradually getting down to the errand you have for me?" The 7:10 car has gone, and there will be another one in fifteen minutes. Make a special effort, my dear, and tell me what you want before that car goes."

"You're just as mean as you can be! You don't give me a chance to tell what I do want. While I was looking at the cutlery Mr. Haggerty came up with a new fangled coffee pot in his hand, which he said was the finest thing yet invented. I told him I was a woman of old-fashioned ideas, and the way my mother made coffee was good enough for me, but he insisted

that I should bring that coffee pot home and try it, and he said that if it wasn't satisfactory in every way I could send it back, so I took it. On those terms, and we have been using it ever since, and I wish you would see Mr. Haggerty and tell him that."

"That the pot is satisfactory?" asked Quigway, edging towards the door.

"No," for it isn't satisfactory, but—

"Well, then, I'll tell him it's unsatisfactory, and have him send a dray for it."

"Don't tell him that for the pot is satisfactory, or at least it would be if he would supply a new percolator for it. I think he called it a percolator. And how it's a thing with holes through it, and Mr. Haggerty will know in a

minute what you mean."

"All right, my dear. I'll tell Haggerty that his coffee pot is satisfactory, but his percolator isn't, and he'll have to send out something with holes through it or his blood will be on his own head. I think I understand, and I believe I can catch that car if I sprint hard enough. So good-by, my dear."

Mrs. Quigway sighed heavily as the door closed behind him.

WASHINGTON A CHINESE HERO.

New York Sun: George Washington and Napoleon are the two greatest heroes of Western history to the Chinese schoolboy and young college men. Washington and the cheery tree have a place in most of the early school

readers in the modern government school. His filial piety and his position as father of his country make a very strong appeal.

Napoleon appeals most strongly to the more fiery of the youth in the colleges, the Cantonese and warm-blooded Southerners. They see in Napoleon the fire and force they would have in a leader of their own to free the land from its corrupt government. These college boys' minds are full of the French revolution, and among the most extreme there is a feeling that only a similar way can their own people be freed. The inflammable whirlwind nature of the French has its counterpart in this type of excitable Chinese mind of the South.

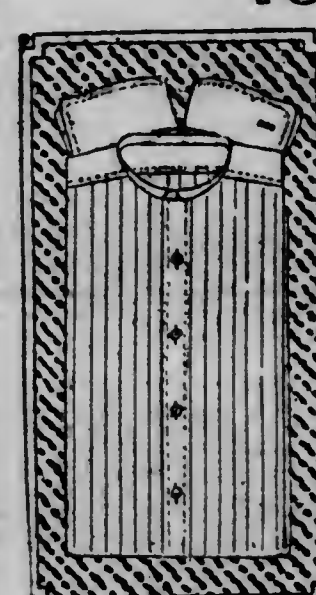

"But we can obtain constitutional

government through the parliament by peaceful means and gradually," said one of the more conservative of the student class to an extremist in Peking recently. "Did not Confucius teach moderation in the doctrine of the mean?"

"Yes, he did," answered the Cantonese admirer of the French revolution, "but Confucius himself, if he were here now, would see that fighting will be necessary."

Storekeeping consists of buying and selling. And you cannot buy goods you do not know about, nor can you sell unless others know what you have to sell.

## REFUSED TO BEGIN HER CAREER AS CHORUS GIRL

MISS LOUISE GUNNING.

When Louise Gunning, star of "The Balkan Princess," coming to the Lyceum next week, convinced herself that she should go on the stage, it was pointed out that a chorus position was the first natural step in the particular ladder of fame, which she had selected to ascend. The idea did not suit her at all, so she determined to find out for herself.

Early one morning she crossed the Brooklyn bridge to New York, and visited Evans and Mann, who were staging "The Mandarin" at the Herald Square theater. She sang for the managers and felt sure that she was entitled to—well, if not the leading, then the next role in order. But the best she could get was an offer in the chorus.

"I couldn't think of it," said Miss Gunning, taking the managers back a peg or two. "I shall never go into the chorus, never." Before the producers could recover from the blow, she had disappeared. A week later, Miss Gunning received a large, official-looking envelope, which bore the imprint of the Herald Square theater. It contained the information that she was expected to report for rehearsal the following morning at 10 o'clock.

"They have reconsidered," thought Miss Gunning, "and I'll get a nice part yet." Ten o'clock the next morning found her at the theater, where the managers greeted her cordially as

they handed her a slip of paper, upon which was written "Mandarin's Wife." "Oh, joy! Then her surname had been right. She was to be a principal! Joyously skipping, gaily tripping, as they say in "Pinafore," Miss Gunning passed the portals of the stage door and timidly offered the slip of paper to the stage manager, who was surrounded by the company. He glanced at the paper and told her to stand "over there."

When she got "over there," she found she was indeed a mandarin's wife, but that there were twenty-four of them in all!

But Miss Gunning stuck to her determination, with the result that some months later she joined one of Charley Hoyt's companies in the capacity of a principal. New York liked her so well that she got notices "over" the star. This delighted Hoyt so much that he placed her under contract, and later sent her to London.

Miss Gunning's father was a Baptist minister in Boston. She sang in his choir and took part in church entertainments. After the Hoyt engagement, she sang with De Wolf Hopper in "Mr. Pickwick"; with Frank Daniels in "The Office Boy"; with Louis Harrison as a co-star in "Veronique"; and "The Office Boy." A season in "Tom Jones" and two in "Marcelle" preceded her appearance in "The Balkan Princess."

## ONE SURVIVING DUCK OF THE SHIP CANAL COLONY "BEATS IT" FOR THE SOUTH

### MODERN MOTHER GOOSE.

Three little wild ducks sitting in a row,  
Jack Frost nipped one and then there were two.

Two little wild ducks, frolicking for fun,  
Starvation got another and then there was one.

One little wild duck, fed and cared for by man,  
Has ducked for a warmer climate and now there isn't any.

Like the chickadees of nursery tale fame, the wild ducks of Park Point are with us no more.

No more will the good people of Park Point have an opportunity to cast their bread upon the frozen water to sustain an unfortunate water-fowl. For the past week and until yesterday, one forsaken and solitary-looking duckling was seen. But today he is missing. He is not at his accustomed place in the ship canal under the aerial bridge.

It is feared that when the gentle zephyrs of spring waded over the lake yesterday that Mr. Duck got an inkling of a warmer climate and departed for parts unknown.

Park Pointers will miss their friends, the ducks. One by one they have been seen either picked off. There were three original honest-to-goodness ducks to start with and when they were first discovered, they were tiny ducklings. People who crossed the aerial bridge daily to and from the Point almost got on speaking acquaintance with the belated water fowls and the birds were almost tame enough to eat out of any one's hand—provided he lived on the Point.

Bread crumbs and other goodies were daily presented to the ducks and the fowls thrived well. One cold day in early January, however, when the mercury sank as low as in the tube as the law would allow, one of the ducklings departed this life. Stark and cold, its lifeless form was found on the ice when the ferry car made its first trip across. Its bill was frozen together.

Duck No. 2 cultivated a taste for sweet things and refused to eat common bread crumbs. A few days ago No. 2 shirked off, and the Park Pointers looked wise at each other and whispered something about "starvation."

The only surviving duckling, lingered for a few days and was seen for the last time yesterday. The young duck of late has been taking physical culture exercises and apparently has been learning to fly.

Park Pointers say that Duck No. 3, the sole survivor of the trio, has evidently left for a warmer climate.

## INDIAN HELPS TO NAB BOOTLEGGER

### Assists Cass Lake Officer in Trapping Illegal Boozie Vendor.

Cass Lake, Minn., Feb. 16.—(Special to The Herald).—Following close on the sentencing of Louis Catalano to sixty days in the county jail for furnishing liquor to an Indian, came the arrest of James Dunn yesterday on a similar charge.

Suspicion was directed toward Dunn recently and he was watched very closely by the officers. George Bluesky, an Indian of excellent reputation, who was grieved at the havoc raised among his friends, assisted the officers in getting evidence against Dunn. Dunn had started in to do a flourishing business in the bootlegging line in a shack north of the village. It was rapidly developing into a rendezvous for the Indians and as it was out in the woods the officers did not find out about it until recently. A short time ago the sheriff of Mahanomen county was here and in a conversation with Officer Dedrick told him that Dunn had given the Mahanomen county officials considerable trouble for five months before they were able to land him.

Dedrick decided to watch him closely and saw him purchase liquor several times which undoubtedly went to Indians, but Dunn apparently always discovered that he was being watched and he was not caught. Yesterday he secured liquor, giving as his reason for the purchase that a certain minister in the town wanted it. Officer Dedrick immediately called on the minister and found that it was a yarn and then hid in the woods near Dunn's shack while Bluesky negotiated inside the shack for the whiskey. As soon as Bluesky had the whiskey he informed Dedrick and the arrest followed. Dunn was given a preliminary hearing before Judge Ives and conducted his own defense. He showed remarkable familiarity with court procedure and cross-examined the witnesses himself. In spite of his plea of not guilty the court found him over to city district court which convenes next May. He has not yet found bail.

## PLATTEVILLE, WIS., MINE PLANT IS DESTROYED.

Platteville, Wis., Feb. 16.—The Peaceful Valley mining plant on property No. 1 was destroyed by fire Wednesday. The plant was equipped with electric and steam power. The 100-ton mill was included in the loss. Some insurance was carried. The mines are owned by Eastern capital.

Canada Buying American Horses Great Falls, Mont., Feb. 16.—The corral on the west side of the river adjacent to the Great Northern tracks is filled with horses, preparatory to one of the largest shipments ever sent to Canada from Montana. More than 700 head are ready for shipment into the province of Alberta, most of them going to Calgary.

### "Seconds" of 50c Phoenix Silk Hose 35c; 3 Pairs \$1

—The woman who has ever bought "seconds" of Phoenix hose knows that it means practically the same as regular quality. Occasionally there is a "skipped stitch" which has been darned at the factory, but often there is no perceptible defect in the hose at all.

—The hose are of medium weight, with double lisle heels and toes and lisle garter top, and are "seconds" of 50c quality, selling at 3 pairs for \$1, the pair, 35c.

### Infants' 35c Cashmere Hose 21c Pair

—Fine quality cashmere hose for infants, sizes 5 and 5½, with gray heels and toes, warm and soft, regular 35c quality, special at 21c.

(Main Floor, Central)

### Children's Dresses of Much Service and Charming Style

—The styles are distinctly new. There's a charm and newness about them that is quite refreshing. The materials are pretty percales and ginghams. The dresses are well made and attractively trimmed in various ways.

—They are ideal garments for play or school wear. Among the various styles are—

—Dresses with bloomers attached, sizes 2 to 6, colors blue and tan, with red trimming, 69c.

—Plain and Buster Brown styles of good percales, sizes 2 to 6, at 69c.

—Jumper styles of ginghams and percales, in striped and checked patterns, sizes 6 to 14, at 59c and 69c, to \$1.98.

—Russian blouses, sizes 6 to 14, white and colors, \$1.49.

(Third Floor, Front)

### Better Dress Goods Than These for \$1 Yard Have Not Been Made

—Perhaps a strong assertion, but the goods will bear it out eloquently. In the past season we have had such great demand for dollar dress goods that we went to a foremost mill from whom we buy much of our higher priced fabrics and secured the goods on which we have based our claim.

—Convincing evidence is given in a line of French twilled serges. The material is of the same quality that, even at the Glass Block, has heretofore been a remarkable value in a 50-in. width, but is now 56 INCHES WIDE. The increased width calls for an appreciably decreased yardage for any garment.

—Pretty new shades of navy, gray, tan, brown, leather, Copenhagen, purple and black are ready for examination.

—Another strong representative is a new all-wool Scotch effect suiting, 50 inches wide, in the popular flaked or nubbed weave, and is ideal for coat or suit.

(Dress Goods Salon, Second Floor)

### Listen! Any Trimmed Hat in the House 98c

—Not just a few of them, but your unrestricted choice, which includes stylish models that formerly sold at up to \$18. Just about enough of them, we opine, to last through the day, so quick action is necessary.

—More good millinery news is represented by these prices—

25c For any \$1.50 and \$2 untrimmed shape or any \$1.50 Scotch cap. 75c For choice of any \$2.50, \$3.50 or \$5 untrimmed shape. 19c For children's trimmed hats that sold up to \$1.50.

### Good Luck for Boys That There's No School Saturday

—Otherwise, perhaps, they would not have the opportunity of coming in and getting one of these stylish suits at HALF PRICE. The style range is sure to suit the mother and please the boy, for there's in round numbers just 350 suits to select from, and with such prices as \$1.98, \$2.50, \$3.25 and \$3.75, instead of their regular worth of \$3.98, \$5, \$6.50 and \$7.50.

### Overcoats, Too, Are Half Price

—More good news for the boy. There's 175 of the swiftest overcoats that good tailors can make to be had at just half their former selling price; regulation and storm collars and various materials. Surely a most opportune time to get a good coat.

### New Chambray Blouses at 25c

—Mothers have marveled at how such good blouses could be made at 25c. Scientific making is the secret.

—There's plain and striped blue patterns, also striped and figured light grounds, all from as good quality chambray as one will find in 50c values.

### Knickerbocker Trousers at 50c

—New ones direct from a foremost boys' clothes maker. The kind that gives such a good service to the boy who climbs and scuffs and gives his clothes hard wear. Made from wool mixtures, sizes 4 to 16 years, 50c.

### Never Such Selling of Good Handbags

3.98 for Bags Worth to 6.98  
1.98 for Bags Worth to 3.50

—It's been our good fortune to offer many special values in hand bags in the past few months, but never do we believe such splendid bargains as these. So many choice styles are in the lot. All are new 1911 styles and either real or goat seal, with leather coin purses. Some have long or short strap handles and some cord; some have gilt and others gun metal mountings.

—In either lot and at either price you will find values that warrant your early examination.

### Fine Swisses From An Overstocked Importer—A Remarkable Saving

—Because he was overstocked and the immediate need of converting his goods into ready money is the ill fortune of a prominent importer, but our good luck—and yours.

—The goods that caused the jobbers worry and our joy was some 1,500 yards of fine dotted swisses, 32 inches wide, with small and medium dots—goods that would generally sell for 59c, also some very fine French plain swisses 48 inches wide, worth regularly 50c the yard. Saturday those who respond to this announcement may choose from the entire lot at, yard, 35c.

—Plan now for the spring waists and dresses. (Wash Goods Store, Main Floor)

### Kimono News Too Good to Keep

—The woman who reads this will find strong impulse to tell her friends. It is a short story of very great savings on very good kimonos.

—In one lot are 35 Empire and loose-fitting styles of pretty patterns, trimmed with satin ribbons that formerly sold at up to \$5.98, special for Saturday only, at \$2.48.

—Another lot has Empire and loose styles of fine kimono silks and messalines, in Oriental and floral designs, that formerly sold at up to \$12.50, priced for Saturday only, at \$8.25.

—With these, a limited number of Terry cloth bath robes, light colors that are slightly soiled from display, but that sold at up to \$5.98, now \$2.48.

(Apparel Salon, Second Floor)

### To \$12 Tailored Coats at 3.48

—One rack of tailored mixture coats, black and colors, women's and misses' sizes, former prices to \$12, for final clearance Saturday, at \$3.48.

(Apparel Salon, Second Floor)

### 1.95 for Silk Petticoats Worth to 4.98

—One rack presents just 54 silk petticoat chances for Saturday, that are quite unusual. These chances are divided among messaline and taffeta skirts, in black, plain and changeable colors, sizes from 38 to 42, with former price tickets reading \$2.98 to \$4.98. Saturday only, choice of the lot goes at \$1.95.

### Chic New Wash Dresses 2.98 and 3.98

—A round dozen new styles are in this lot of fresh new wash dresses that have just arrived, and are ready for approval.

—Newest designing ideas of the Spring 1912 are mirrored in the pretty chambrays and percales. The high waistline influence and the side effects are the predominant features, while dainty laces, embroideries and contrasting pipings have been used with much taste in the embellishment of the dresses.

—For morning or work-a-day wear, these dresses are ideal, pricing makes them most practical—so low as \$2.98 and \$3.98.

### Spring Lingerie Waists 1.19

—Fresh as a new flower, and as captivating as can be are these new lingerie waists ready for approval. Every one is fashioned from selected lingerie cloth, in the prevailing mode, and embellished with embroidery insertion, contrasting materials or embroidered in white or color.

—Styles are long and short sleeves, high or low necks. But not the least attractive feature about them is the price, \$1.19.

## COMMITTEE IS TO STUDY RAILS

**Railway and Manufacturing  
Men Will Act Together  
on Matter.**

New York, Feb. 16.—Improvement of the character and quality of steel rails was the subject of an all-day conference here yesterday between leading railway officials and officials of the principal steel rail companies of the country. The conference resulted in the appointment of a committee of railway executives and manufacturers, to continue investigation of the problem and report its findings to a future meeting.

This committee consists of Presidents Willard of the Baltimore & Ohio, and the Delaware & Hudson, Mudge of the Rock Island and Vice President Kruttschnitt of the Harriman lines, and several other railway officials. The manufacturing companies are represented by Presidents Dinkey of the Carnegie Steel company, Burdette of the Illinois Steel company, Schwab of the Bethlehem Steel corporation, Clark of the Lackawanna Steel company, Wood of the Maryland Steel company, Felton of the Pennsylvania Steel company, Price of the Cambria Steel company, Crawford of the Tennessee Coal & Iron company, and Farrell of the United States Steel corporation.

The committee will meet at a date to be fixed by Chairman Gary and President Willard, probably within a week or ten days.

## EGGS LIKELY TO CHEAPEN

**Farmers Seem to Be Holding Their Potatoes for Better Prices.**

**Supplies of Onions and Cabbages Running Low—Fruits Are High.**

There have not been many changes in the produce market of Duluth since a week ago. This market is always very steady at this time of the year. Such changes as have taken place since a week ago are far from reassuring to those who are anxiously looking for some indication of a reduction in the high cost of living.

Eggs are a little cheaper than they were a week ago, but the latest movement they have made, has been upward. They have been fluctuating more than any other food product on the Duluth market. Every little change in the weather has quickly affected the production of eggs in Minnesota, and the price has promptly responded to the variations in the available supplies. There is a keen demand for eggs. There is some hope that they will cheapen considerably in the near future, but that hope is based on the probability of mild weather. The sale egg dealers of Duluth do not hesitate to say that the price will go down a great deal, if the weather is fairly mild during the next two weeks. Mild weather will not only increase the production of eggs in Minnesota, but it will hasten the arrival of eggs from Kansas, Missouri and other Southern states upon the Duluth market. Cold weather in the South has delayed the shipments of Southern eggs to the North. Moreover, Duluth has to stand the competition of Chicago, the Twin Cities and many other large markets, all of which are eagerly looking forward to the movement of the Southern eggs and will bid for them in competition with one another. Some Duluth egg dealers, however, expect the wholesale price of eggs in this city to go as low as 25 cents a dozen, if the weather continues for two weeks more. On the other hand, they say the price may even go above its present figure of 35 to 36 cents, if another severely cold spell sets in.

Another very important food, which is likely to become cheaper in the near future, in the opinion of local produce dealers, is Irish potato. The potatoes are higher now than they were a week ago, now selling at \$1.10 a bushel, instead of \$1.00. This has caused this advance seems to be a conundrum. Some merely means that farmers are holding their potatoes for a higher price. "I remember," a wholesale produce dealer remarked today, "now in February four years ago Minnesota sold 90 and 95 cents for their potatoes. Six weeks later the potato market broke, and many were glad to let their tubers go at 15 and 20 cents a bushel. The market was fairly glutted with potatoes. They seemed to come all at once, I believe there will be a break in the potato market within the next few weeks."

Butter has not been fluctuating a great deal. The wholesale price of a very best creamery now stands at 34 cents, just where it was a week ago. There is one remarkable feature of the butter market, and that is the vast increase in consumption of oleomargarine. This is but natural by reason of the high price of butter. The manager of one of the wholesale meat establishments said today that his house was now selling butter four times as much oleomargarine as at this time a year ago. The sales of oleomargarine a year ago were as large as had been usual at that time of the year.

The cheese market is strengthening on account of the fact that the stored supplies are running low. In seasons of the year when the surplus is used by the creameries for the manufacture of cheese, a great deal of the cheese that is consumed in the winter is really of summer manufacture. The supply of cream, which is closely regulated by the price of cream, thus it occurs that while the tendency of the butter market is rather downward because of weather, or has been increasing the production of cream.

Onions are higher and cabbages are likely to go higher. The northern supplies of both vegetables are running low. It is expected that the market will be very scarce before Southern onions and cabbages are received on the northern market. Southern vegetables are late on account of cold weather. Cabbages are especially late, coming here from Texas and Florida about this time of year, but this year they have not yet arrived. Young onions from Texas usually come about March 15. This year they are not expected before April 1, and may not come until about the middle of that month.

Grape fruit is higher. Shipments from Florida are about over. Some grape fruit may come from California after about six weeks, but the California grape fruit is never so good as the Florida.

Strawberries are higher, now bringing 75 cents a quart wholesale. There are scarcely any on the market, as shipments have been delayed. Those arriving now are from Florida. The price of apples is steadily strengthening, as the season advances. Dealers keep adding to the price the cost of keeping them in storage. It is believed, however, that there will be plenty to keep the market supplied until the new crop begins to arrive on the market.

Granulated sugar. It appears, has seen its low point for the season and is steadily advancing.

The movement of poultry is remarkably light. Prices have scarcely been changing at all. There is a good supply on hand, but people are buying the cheaper meat these days. There is a large demand for soup bones and soup meat. Many have spent so much money for coal that they are obliged to economize on their tables.

## NEGRO AND NEGRESS LYNCHED IN TEXAS.

Marshall, Tex., Feb. 16.—George Sanders and Mary Jackson, negroes, were lynched by unidentified men. Their bodies were found hanging from a tree not far from here. The negroes had lived at the same house with Young Sneed, a young negro who shot and killed Paul Strange, a white man, Jan. 29.

Col. Townsend Transferred. Washington, Feb. 16.—Col. Curtis Townsend, U. S. A., engineer corps, has been detailed as president of the Mississippi river commission and supervisor of public works in the St. Louis district. He is now on duty at Detroit, Mich.

## HOUSER IS VERY BITTER

**La Follette Leader Makes Sharp Attack on Roosevelt.**

**Followers of Each Plan Strenuous Campaign in Northwest.**

Minneapolis, Minn., Feb. 16.—Leaders of two factions of Progressive Republicans of Minnesota, the one faction enthusiastic in its endorsement of Former President Roosevelt and the other just as zealous for the success of Senator La Follette, met here yesterday to devise means of forwarding the presidential candidacy of each for the Republican nomination at the convention to be held in Chicago next June.

Meeting with the Roosevelt faction, which was called together by Dr. J. A. Gates of Kenyon, was John F. Bass of Chicago, representing the Roosevelt national committee. With the La Follette Progressives, who gathered at the request of George Lofthouse, of Minneapolis, president of the Minnesota Progressive league, was Col. Walter J. Houser of Washington, D. C., Senator La Follette's campaign manager.

Plans for a strenuous campaign in Minnesota were made by both factions. The Wisconsin senator's followers are preparing an extensive speaking tour of the Northwest from Feb. 13 until the end of the month. It is to be held in North Dakota March 15, and it is planned by Roosevelt followers to hold an immense mass meeting before March 6, either in Minneapolis or St. Paul, at which will be Roosevelt supporters from all parts of the state.

In connection with the visit of Col. Houser, a sharp attack was made upon Col. Roosevelt in which he was declared that the former president had encouraged Senator La Follette in his candidacy, and that at present he was opposing him, and that the Roosevelt boom had behind it in the so-called Steel trust.

"Encouraged by Roosevelt." Mr. Houser's accusations were made in the course of address at a luncheon of the Hennepin county progressive league, and practically reiterated in a lengthy statement issued by him. In his statement he traces the candidacy of Senator La Follette, declaring that the Wisconsin senator became a candidate after Mr. Roosevelt absolutely declined it; that the former president had sent a mutual friend to Mr. La Follette urging him to announce his candidacy.

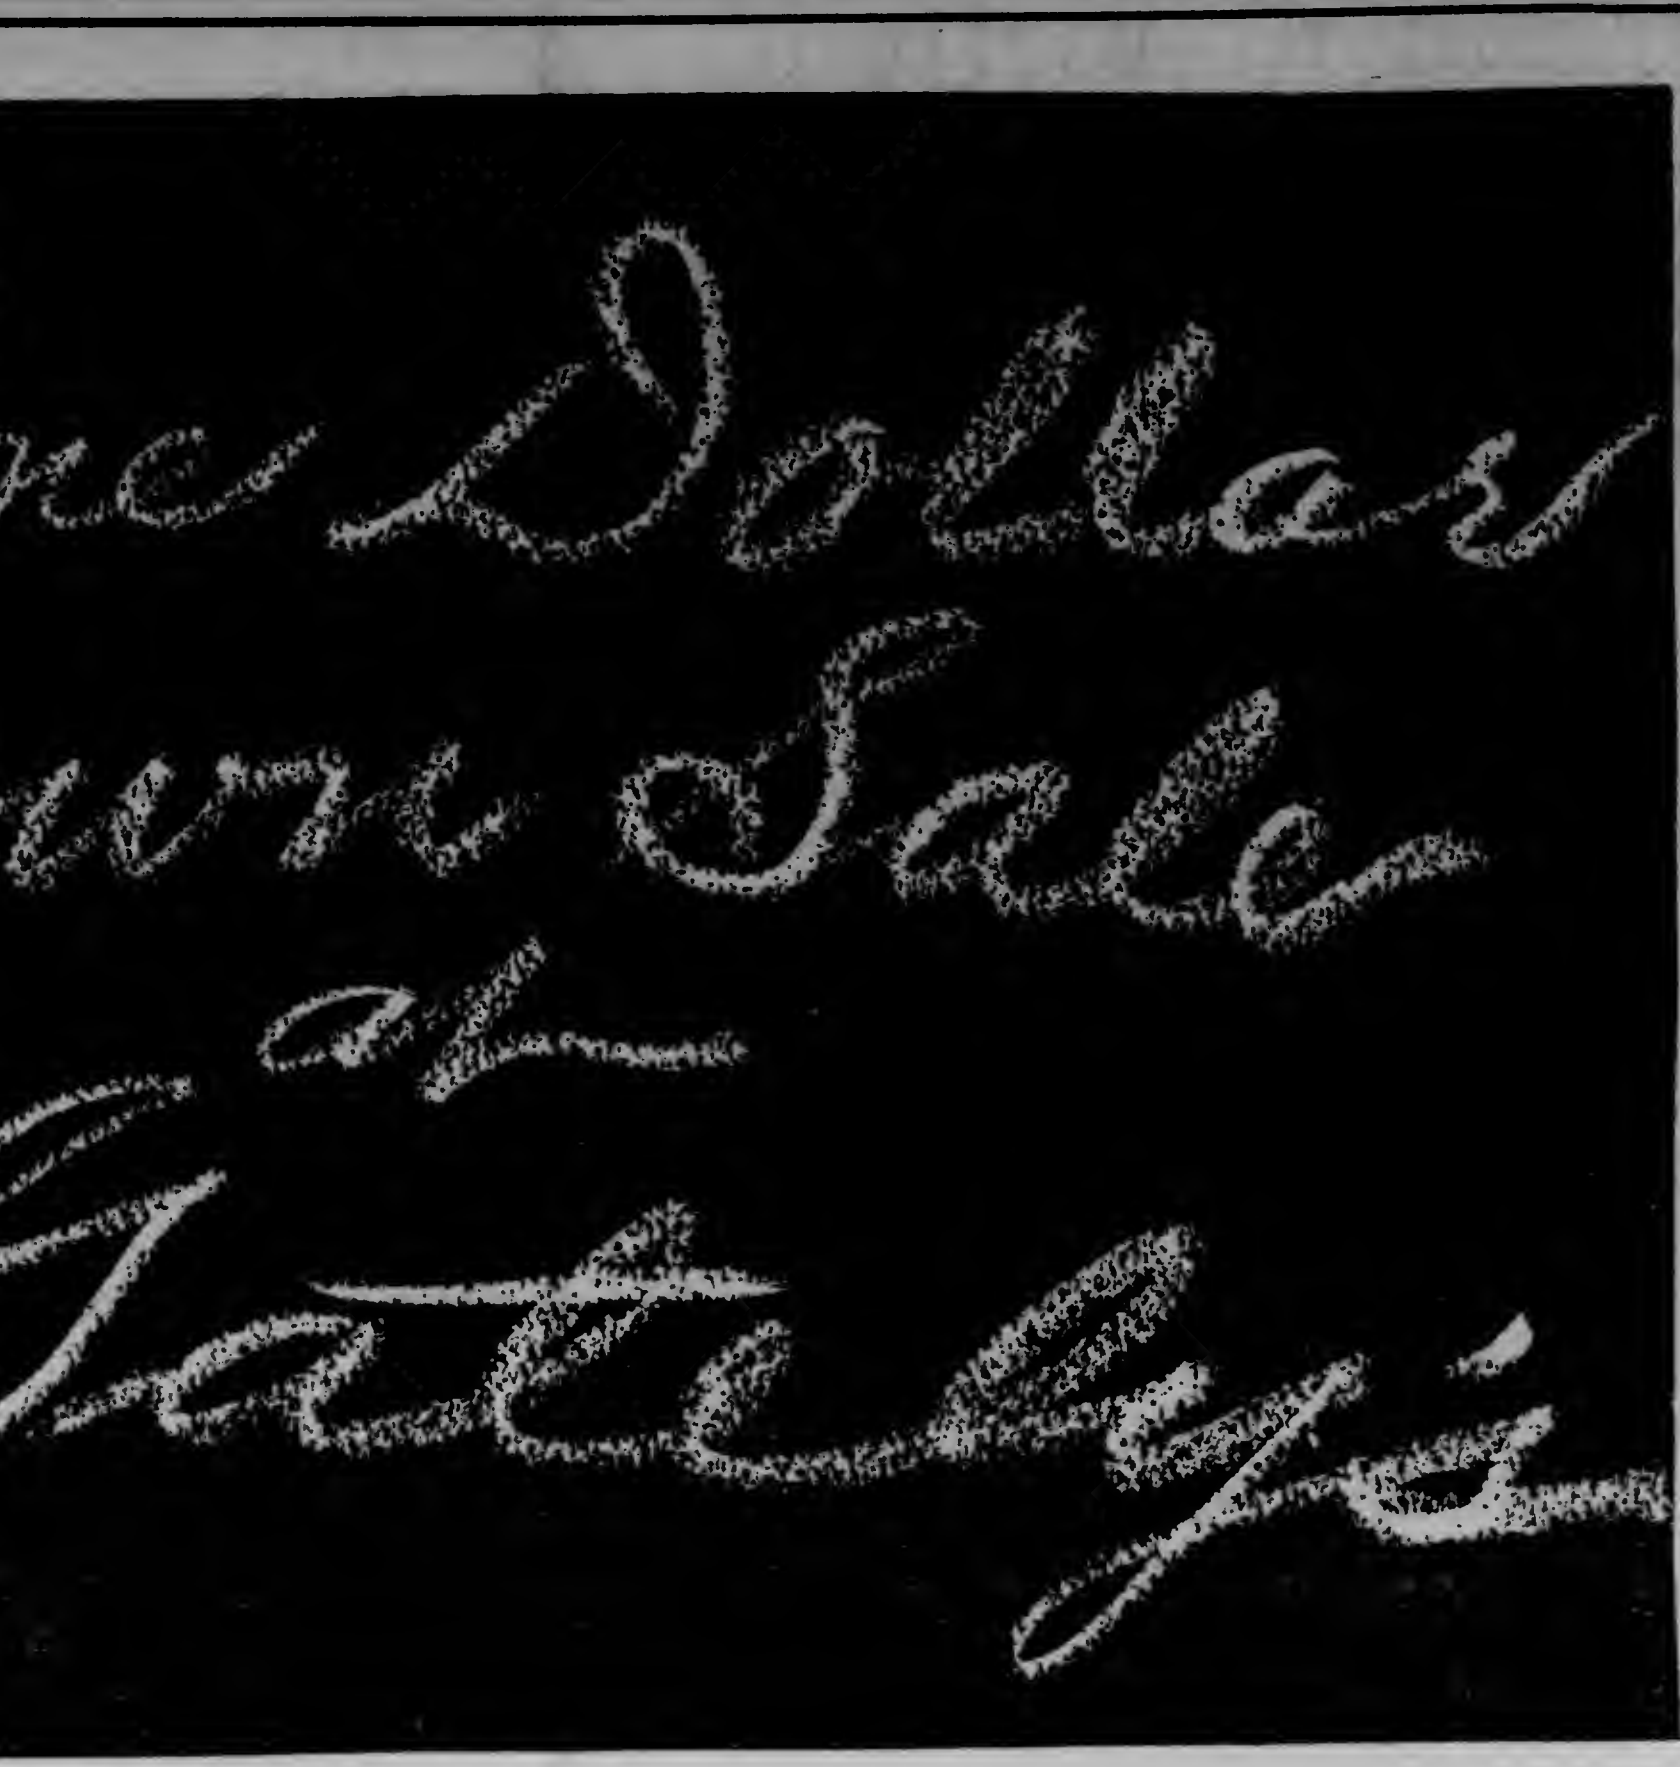

"Assured of the support of the leading progressives in congress and out of it," continues the statement, "Senator La Follette finally, with great reluctance, agreed to become a candidate, stating at the time that if he did become a candidate he would stay through to the end of the campaign." Mr. Houser then goes into the organizing of the La Follette campaign.

**Says Boh Scared Them.** "Those opposed to Senator La Follette and the things for which he stands became alarmed at the rapid development of his campaign in Ohio, and the method then pursued to hinder and disintegrate it was by interposing Col. Roosevelt's name into the campaign and starting a movement for his nomination. This was done, not by men who are favorable to progressive principles. The most notable and prominent was Dan R. Hanna."

Later he said, "Mr. Hanna is known to be prominent in the Steel trust." Mr. Houser declared that an attempt was made whereby delegates in Ohio should be supported by the combined La Follette and Roosevelt forces, but that Senator La Follette refused to agree to this. He also stated that Senator La Follette would be able to do active work within a short time, and that he has no notion of withdrawing. In his statement Mr. Houser, within the next month addresses for Senator La Follette will be made in Minneapolis by Senator Miles Pindexter of Washington, Charles E. Merriam of Chicago, Louis D. Brandeis of Boston and Senator Clapp of Minnesota.

Mr. Houser left last night for North Dakota, where he will engage actively in the campaign.

Concerning the charges made by Col. Houser, Mr. Bass refused to make comment, stating simply that the Roosevelt campaign is not hostile to any other candidate.

**Plan Roosevelt Campaign.** At the meeting of the Roosevelt supporters, Dr. Gates, who called the meeting, was elected permanent chairman and ex-officio member of nine, which, according to Hugh T. Halbert of St. Paul is to prepare a call from the people for a general mass meeting of all those in the state who favor the presidential candidacy of Roosevelt.

Among those on the committee are Mr. Halbert, who withdrew as director from the Minnesota Progressive league at a meeting in St. Paul last Saturday night; H. H. Dunn of Albert Lea, former speaker of the Minnesota house, and State Senators E. H. Canfield of Luverne and Frank Clague of Redwood Falls.

**Taft Versus La Follette.** Madison, Wis., Feb. 16.—Two conventions were held yesterday in the Third congressional district, the home of Senator Robert M. La Follette. One meeting was strongly in favor of President Taft, while the other favored La Follette with equal fervor. Both gatherings will have candidates for delegates to the Republican national convention at the election to be held throughout the state on April 2.

**Roosevelt Versus Taft.** Birmingham, Ala., Feb. 16.—A split between Taft and Roosevelt men marked the meeting of the Ninth district Alabama Republican committee. State conventions were summoned for the selection of two delegates to the national convention.

## MATTER OF CONVENIENCE

Religion Often Made Secondary to the Worldly Concerns of Life.

Rev. M. S. Rice Preaches to Another Big Audience at Lyceum.

That many people, professing to be Christians, made their religious duties secondary to the worldly concerns and even to the trifling amusements of life was a declaration made last evening by Rev. M. S. Rice in his sermon at the Lyceum theater on "The Sinner's Withouts." His text was: "Without Christ—Having No Hope and Without God in the World"; Eph. 1:12. He said:

"In endeavoring to persuade people to become religious, I have frequently met with a false habit which has crystallized about the word possessions of the sinner. He has assumed the attitude of sacredness toward religion, and his assumption has been allowed to go unchallenged very much. When you really look square at it, the position is preposterous. He says lightly, 'Oh when it is convenient I will be religious,' and dares thus to put the claims of religion on a par with the matters of every day privileges. He has said he was not willing to give up his little things for religious call, and by this has thought he made it a matter of barter, and that the surrender of even some of his mere amusements was too high a price to pay. The whole attitude which has been allowed often has been that Christianity is a very costly thing, and that all the real profit in the case is from the side of the so-called man of the world. Well, all that will be looking into, and so sure am I of the cause of religion that I will guarantee any honest fair mind looking into the case and weighing both sides of the bargain will agree that the whole argument is with religion and its offer. I would change the front of the argument and demand consideration another way. What does it cost not to be a Christian? You have sought a case against our claim by flaunting what you call the price you would have to pay. I would make you see what you are trying to get on in life without it. It isn't so much the cost of a thing that counts, as it is the worth of that which we get.

**Real Paupers.**

"That is a solemn text I read. It drives home a fierce fact, the fact that the man or woman who is trying to get on in this world without religion, no matter what else they may have, live nevertheless poverty-stricken when they step into the borders of real human life. A few years ago, we witnessed that mad rush of men to Alaska. Farmers, simple laborers from country villages, men who knew nothing about wilderness or frozen regions, not to mention mining gold. They poured North in a stream, and toiled over century frozen mountains, endured suffering and many, many of them died there in privation. They eagerly turned their backs on home and friends and farm and patient business because they thought they could sweep up a bucket of gold any day. Price doesn't count so long as we feel we are getting its full worth. I want you to stop now to name the familiar things you have been offering against Christianity, but I make bold to challenge them all and say to you here, bring out whatever you will from your life. I will admit everything you want to claim, but I will guarantee I can name some matters you have not, and cannot have where you are, that will infinitely outweigh and put to shame all you possess. I declare upon this word of God here, you haven't God, you haven't Christ, you haven't hope, that is like an avalanche plunging upon the frail little boarded hut or the dweller in the valley below the mountain. Sitting there playing with your little toy of temporary amusement, the thunders of eternity are rumbling before you.

"(1) Without God! That sounds serious indeed. Take God out of life and what have you left? How do the earth survive? What do you mean, in trying to get on without God? You have no answer to the universe, nor to your questioning heart. Go you, sir, and take your stand hard against some of the certainties of life as you are. Imagine me called constantly into heavy hours of life, with only what you have. The crushing hour of sorrow, when hearts are crushed like tender roses on frozen pavements, stand there as you are, without God, and measure it if you unsaved father, mother, think of the liability besetting you this, 'Without God! Oh wretched state! What sort of a world would this be if all men had been like you. Measure the unbounded treasure on earth because some have had God. Let it bring condemnation upon you to remember that for all of you the world would know nothing of all this, for you are without God.

"(2) Without Christ. Behold I stand at the door and knock. He is without. Only divine patience has kept Him waiting these years before you. But all that is a mere provision of His mercy. You are now without Christ, and all that means.

"(3) You are without hope. Now don't like that but I can't help it. At the very best, this old world is dark enough. There has come but one ray shining down through the thick mantle of darkness. But for guidance we don't need all the way lighted. The sailor who makes our harbor on a storm-swept night looks not to see the way, but keeps his ship headed for the beam that streams out over the tossing sea from our lighthouse. The only hope of man is in God through His Son, Jesus Christ. Yet our day has a multitude of men who would blot it all out if they could. And for all of you who are now without Him, the light of this hope would go out on earth. What right have you to fail to keep ablaze the very brightest hope possible on this mundane shore? When the Mar-tanza was wrecked and the men were perishing before us, we built a fire on the beach. A few of us stayed till morning to keep the fire burning. Every old plank and spar we could find we threw on the little fire that blazed cold night. The next day one of the rescued men told me he could feel that fire. That little fire burning there," said he, "warned every one of us because we knew you were doing what you could. Well, when I think that some of you are not helping keep up the light of this hope on earth, I am sick. You could at least walk the beach and keep up the fire. I appeal to you tonight to be willing to make the best effort to set glowing your life with hope. God! Christ! Hope! stand free to every one. May we all receive them in the faith that alone becomes our privilege."

required. The board has also fixed a rule which requires that all first grade teachers must be graduated from state normal schools. This, however, does not become effective until the opening of the school year 1915, or three years hence. In this respect Minnesota takes a more advanced stand than any other Western state, with regard to the qualifications of teachers. Mr. Schulz says that at present fully 75 per cent of the grade teachers in the state are normal school graduates.

The board has also fixed regulations relating to industrial teachers in the schools receiving special state aid of \$2,500, or \$1,000. The teacher of agriculture must be graduated from an agricultural college and the instructor in manual training in either of those lines of work. After the present season seems to be too strenuous a burden on the faculties of the various normal schools, and gives to opportunity for making necessary repairs and renovations in the buildings, as it makes practically a continuous school year.

A plan is under consideration by which it is proposed to lengthen the elementary course in the normal schools by six or possibly twelve weeks' work, so as to bring it closer

up to the standard now required for completion of an advanced course which covers two years of training beyond graduation from a state high school.

## EIGHTEEN NAMED IN THE TRUE BILLS

Violation of Sherman Law in Alaska Charged By the Government.

Juneau, Alaska, Feb. 16.—Telegraphic war has been issued for the arrest of eighteen business men, prominent in affairs of Alaska and the Pacific coast, on four indictments returned by the federal grand jury that has been investigating the alleged violation of the Sherman anti-trust law in connection with the control of wharf facilities at Skagway.

Companies Are Indicted.

Washington, Feb. 16.—Four indictments against several transportation companies and their officers for alleged violation of the Sherman anti-

trust law have been returned at Juneau, Alaska, according to a telegram received at the department of justice from United States District Attorney Gustard of Juneau. The dispatch did not give the names of those indicted.

The government has charged before the Juneau grand jury that there has been a combination among certain transportation interests to eliminate competition and fix and maintain freight and passenger rates. The following companies, it was said, were among those investigated by the grand jury:

Pacific and Arctic Railway & Navigation company, British Columbia Railway company, British-Yukon Transportation company, British Navigation company, and the Pacific Coast Steamship company.

The following were indicted:

J. C. Ford, president of the Pacific Coast Steamship company; C. E. Houston, head of the Pacific Coast Coal company; A. L. Berdoe, formerly vice president and general manager of the White Pass and Yukon Railroad company; Charles E. Foxboro, formerly an official of the Alaska Steamship

company. John H. Bunch, traffic manager of the Alaska Steamship company; E. C. Ward, superintendent of the Pacific Coast Steamship company; J. H. Young, president of the Alaska Steamship company; J. D. Wurzbacher, C. E. Wynn Johnson, E. E. Billingshurst, W. H. Hansen, I. Brownson, J. W. Smith, F. J. Cushing, W. B. King, V. I. Hann and G. H. Hippee.

It is charged that the North-Pacific Wharves & Trading company, the Pacific and Arctic Railway & Navigation company, the Pacific Coast Coal company, and the Canadian Pacific Railway company formed a combination to monopolize the transportation facilities at Skagway.

C. E. Wynn Johnson was arrested last night at Honolulu on cable request. He was released on bond.

## DENY PLAN TO RAISE ANTHRACITE COAL PRICE.

New York, Feb. 16.—There is no thought of a general advance in coal prices, the anthracite operators' committee declares in a statement given out here. Satisfaction is expressed with the conditions that have governed the relations between mine owners and operators since the coal strike of 1902.

Fraud Is Alleged.

Appleton, Wis., Feb. 16.—W. H. Kennard, arrested at Crandon, Wis., charged with obtaining money under false pretenses, waived examination and was bound over for trial. Kennard was arrested on complaint of R. A.

Kennelly of the Outagamie Abstract company, who alleges irregularity in connection with a note and mortgage pertaining to a land deal. Kennard admits about \$20,000 shortage.

## ENGLISH HIRING FAIR.

London Post. One of the oldest Michaelmas hiring fairs in England was held in the ancient market place at High Wycombe, Buckinghamshire, yesterday. From a wide radius, including parts of the three counties of Bucks, Berks and Oxon, farmers and agricultural employees in all departments flocked into the town early in the morning.

Harvesting having been finished, the attendance was much larger than usual, and there was a general disposition to "change hands" though the average terms of remuneration showed very little alteration.

Several old time customs still prevail, both at the hiring and in regard to the conditions upon which farmhands are engaged for the twelve months. For instance, ploughmen decorate their buttonholes with strings of whippoorwill to denote their distinctive calling; shepherds display tufts of wool in their caps and their forelocks and other farmhands utilize horseshair and fancy ribbons and rosettes for their personal adornment.

A good deal of time was occupied in "making the best terms," and in accordance with precedent of many years standing the engagements were

conditioned on the supplying of "beer," or "harvesting allowance," as it is called. The old fashioned custom of hiring servants in this way enlisted a good deal of public interest. The pleasure fair, relegated from the streets to a spacious enclosure in the town, attracted thousands, and it will be continued as usual for three days.

**SEA TURTLE CAUGHT ON HOOK AND LINE.**

Norfolk Virginian Pilot. A sixty-pound sea turtle was captured at Ocean View yesterday afternoon with a common spot hook and a silk fishing line by J. B. Macon.

Mr. Macon threw his baited line overboard and it struck one of the fins of the turtle. He played with it for some time, pulling the turtle to the top of the water three times. Finally one of the others in the boat threw another line overboard and the hook sank into another fin. They pulled together lightly and when the top of the water was reached the turtle was suddenly thrown on its back and was landed in the boat and brought ashore. According to Mr. Macon, the fishermen came near turning the boat over in capturing the turtle.

## MRS. KIMMEL ON THE STAND

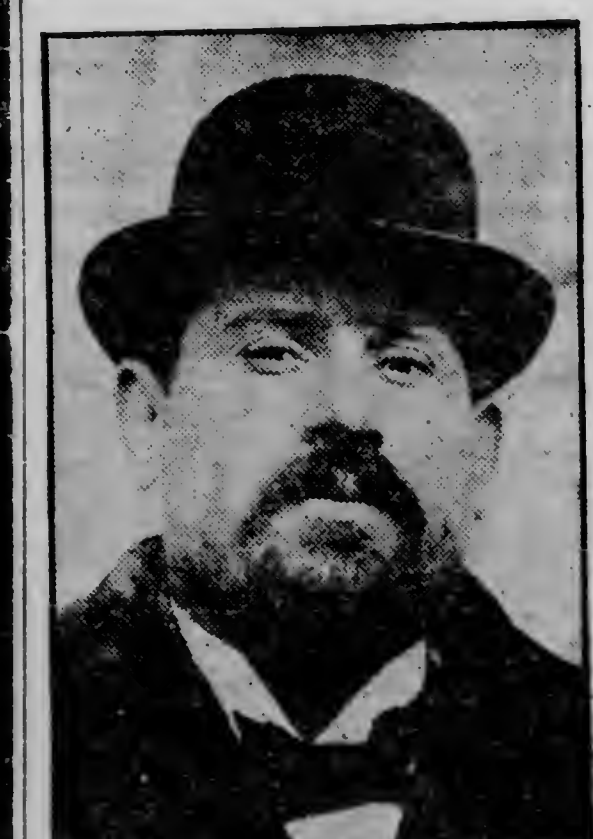

**Mother of Missing Man Testifies in St. Louis Court.**

**Sister of Kimmel Denies That White Is Her Brother.**

St. Louis, Mo., Feb. 16.—Melodrama reached its climax in the Kimmel case today when Mrs. Estelle P. Kimmel, 68 years old, and the man, apparently 60, who is put forward by an insurance company as her son, George A. Kimmel, stood side by side before the jury, and when after comparing them, feature by feature, Attorney N. S. Taylor demanded:

"Is that man your son?"  
"He is not my son," replied the mother in a hard, firm voice.  
"My instinct and mother love," she testified with streaming eyes and trembling voice, "would tell me if he were my son, bone of my bone and flesh of my flesh. And I would recognize him."  
"You feel absolutely sure, then?" she was asked, "that your son is no longer in living?"  
"Yes, I am sure my son is dead."

**RUSSIAN SINGER COMES TO AMERICA**

**SIROTA,**  
Cantor of Warsaw.  
Sirotka, the famous cantor of Warsaw, has arrived at New York on the Kronprinz Wilhelm of the North German Lloyd line accompanied by his secretary, Leo Loev. Sirotka comes to sing in concert. His office in the church is to sing part of the service. He is said to have a remarkable tenor voice. He will sing in New York, Philadelphia, Baltimore, Boston, Cincinnati, Cleveland, Buffalo, Pittsburgh, Chicago, Milwaukee and St. Louis.

She testified that she saw the claimant in the Mattewan asylum and that she decided then he was not her son.

St. Louis, Mo., Feb. 16.—Mrs. Estelle Kimmel, the last witness for the plaintiff, took the stand this morning when court reconvened for the continuation of the hearing of the Kimmel insurance case, in which a defendant bank of Niles, Mich., is suing an insurance company of New York for payment of a policy on the life of George A. Kimmel, who disappeared from Arkansas City, Kan., in July, 1898. Mrs. Kimmel is the mother of the missing man. Counsel announced that after Mrs. Kimmel had completed her testimony and had been cross-examined the plaintiff would close its case with the reading of a deposition by H. T. Kimmel, father of the missing man. Confronting the Kimmel claimant, Andrew J. White, who sat a few feet from her, Mrs. Kimmel Bonsett yesterday testified emphatically that he was not her brother, George A. Kimmel. Her reputation of the claimant was absolute.

**Saw Him in Prison.**  
Mrs. Bonsett was not asked directly about the man in the courtroom, but was asked whether the man she saw in Auburn prison was her brother. On cross-examination, when pressed for a reason why she did not go to the Auburn prison immediately after hearing that a convict claimed to be her brother, she replied that she never believed that the convict was her brother, and did not wish to waste time on him. She testified that she had, however, sent a cousin, who reported to her that the convict was not her brother.

"You will lose the insurance in case this man is proven to be your brother," the attorney for the insurance company suggested.

"I would rather have my brother

than any amount of money," she retorted.

Mrs. Bonsett is the holder of a policy amounting to \$20,000 on her brother's life, and another policy of \$5,000 is held by the insurers of the defendant bank of Niles, Mich., with the interest the policies amount to \$30,000.

**Reviewed Brother's Life.**  
Mrs. Bonsett in her early testimony reviewed her brother's life and said that since he disappeared in 1898 she has not heard from him. The claimant, according to the testimony, has not the least resemblance to her brother. He could not, she testified, tell her of one thing they did as children. He volunteered the information, she said, that he buried their father in Pennsylvania, when as a matter of fact her father is still living.

**STRANGE MIGRATION OF BIRDS.**  
Detroit Free Press: Birds sometimes make extensive migrations, even if they are of a species not commonly migratory. Prairie chickens once flew northward from Illinois prairies and passed over the city of Detroit, Mich., in great flocks, thousands of them lighting in the city limits before crossing the river into Canada.

Proceeding in this strange flight thousands of them were drowned in Lake Superior, but so many of them sustained the long flight that they stocked districts north of the lake and made prairie chicken hunting where there had never been such game before.

No satisfactory explanation of that migration, unprecedented so far as known, was ever made, but the general opinion among sportsmen acquainted with conditions there is that it was forced by the persistent, excessive and indiscriminate raids of the market hunters on those birds.

An equally strange migration of wild turkeys once occurred in Michigan

Chicago and other cities. They disappeared from their haunts as suddenly and completely as if they had never been there. But they could not hide their exodus, their numbers were so great. It is chronicled that the migrating host was a quarter of a mile wide and several hours in passing. They journeyed westward and the course of time wild turkeys were reported as more than plentiful in the districts of West Michigan, where they had been rarely seen before.

The mysterious disappearance of the passenger pigeon, of which there were millions in this country one day and not one to be seen anywhere the next, had not as fortunate a sequel as that of the Michigan wild turkeys, for no word has ever been heard as to where the wild pigeons went.

An unaccountable appearance of birds in large numbers and of a kind not common to the region was that of the miriads of owls that suddenly came down on the game covers in the Sausch district of British Columbia in 1897 and played havoc with the pheasants, grouse and quail, as well as with domestic poultry.

Where they came from was and is a mystery. They were chiefly the species known as the hobo owl, well known in Maryland and Virginia, where it seems to be partial to crows as prey. Of these raiding owls in that Northwest area, 500 were killed on Vancouver island, 200 in the city of Victoria, by sportsmen who rose in arms against them. More than 1,500 owls were killed in a few weeks where peasants have not fifty of any kind had ever been seen before. It was supposed that intense cold weather had driven the destructive birds from their homes further north.

**INVENTOR KEEPS HIS SECRET.**  
At the Paris exposition in 1889 there was exhibited an assortment of marquetry work of great intricacy of design and beauty of finish, but at prices so low as to cast reflections upon its genuineness. Many of the pieces were of duplicate pattern.

Here is another industrial secret of considerable value that doubtless is destined to go to the grave with its discoverer, if it has not already done so, says Cassier's Magazine. No amount of examination, no matter how searching, sufficed to reveal the manner in which the designs of table tops were duplicated with such marvelous accuracy.

That much the inventor, an Austrian, was willing to divulge. The pattern, instead of being made singly of the thickness requisite for the piece it was intended to ornament, such as a table top, was built up of pieces two or three feet long, from which sections were then sawed off. How this composite structure was held together was quite another matter.

Interest in the invention reached a point where the Austrian government offered its discoverer a small fortune on condition that his secret be deposited, sealed, in the royal vaults, in order that it might be known after his death. He was to have the sole right of manufacture as long as he lived, the secret not to be revealed until after his demise, but he preferred to keep it locked up in his own head.

**RATHER TOUGH.**  
Los Angeles Times: Mrs. Mary E. Williams, director of domestic science in the public schools of New York, was talking about bad cooking.

"Our cooking in some sections is inexcusably bad," she said. "I'll never forget a Christmas dinner I once ate in a bleak New England village—one of those Starkfield places that Edith Wharton writes about."

"That turkey! The waitress, as she took away my plate, asked me if I'd liked it."

"Well," said I, "I've heard about the iron horse, the ocean greyhound and the golden calf, but this is my first experience of the vulcanized rubber turkey."

Chicago and other cities. They disappeared from their haunts as suddenly and completely as if they had never been there. But they could not hide their exodus, their numbers were so great. It is chronicled that the migrating host was a quarter of a mile wide and several hours in passing. They journeyed westward and the course of time wild turkeys were reported as more than plentiful in the districts of West Michigan, where they had been rarely seen before.

The mysterious disappearance of the passenger pigeon, of which there were millions in this country one day and not one to be seen anywhere the next, had not as fortunate a sequel as that of the Michigan wild turkeys, for no word has ever been heard as to where the wild pigeons went.

An unaccountable appearance of birds in large numbers and of a kind not common to the region was that of the miriads of owls that suddenly came down on the game covers in the Sausch district of British Columbia in 1897 and played havoc with the pheasants, grouse and quail, as well as with domestic poultry.

Where they came from was and is a mystery. They were chiefly the species known as the hobo owl, well known in Maryland and Virginia, where it seems to be partial to crows as prey. Of these raiding owls in that Northwest area, 500 were killed on Vancouver island, 200 in the city of Victoria, by sportsmen who rose in arms against them. More than 1,500 owls were killed in a few weeks where peasants have not fifty of any kind had ever been seen before. It was supposed that intense cold weather had driven the destructive birds from their homes further north.

**INVENTOR KEEPS HIS SECRET.**  
At the Paris exposition in 1889 there was exhibited an assortment of marquetry work of great intricacy of design and beauty of finish, but at prices so low as to cast reflections upon its genuineness. Many of the pieces were of duplicate pattern.

Here is another industrial secret of considerable value that doubtless is destined to go to the grave with its discoverer, if it has not already done so, says Cassier's Magazine. No amount of examination, no matter how searching, sufficed to reveal the manner in which the designs of table tops were duplicated with such marvelous accuracy.

That much the inventor, an Austrian, was willing to divulge. The pattern, instead of being made singly of the thickness requisite for the piece it was intended to ornament, such as a table top, was built up of pieces two or three feet long, from which sections were then sawed off. How this composite structure was held together was quite another matter.

Interest in the invention reached a point where the Austrian government offered its discoverer a small fortune on condition that his secret be deposited, sealed, in the royal vaults, in order that it might be known after his death. He was to have the sole right of manufacture as long as he lived, the secret not to be revealed until after his demise, but he preferred to keep it locked up in his own head.

**RATHER TOUGH.**  
Los Angeles Times: Mrs. Mary E. Williams, director of domestic science in the public schools of New York, was talking about bad cooking.

"Our cooking in some sections is inexcusably bad," she said. "I'll never forget a Christmas dinner I once ate in a bleak New England village—one of those Starkfield places that Edith Wharton writes about."

"That turkey! The waitress, as she took away my plate, asked me if I'd liked it."

"Well," said I, "I've heard about the iron horse, the ocean greyhound and the golden calf, but this is my first experience of the vulcanized rubber turkey."

## CLEANED UP ALONG THE POLICE RUN

LEAVES  
FROM  
A  
REPORTER'S  
NOTE  
BOOK  
BY

"Talking about good fellows, I saw a bunch of men in this little town of ours do something one night which did me more good than anything which had happened over the long while," said the old policeman at headquarters early this morning as he pushed back his chair after finishing a couple of glasses of "carb." "It was a beastly cold night and the wind was cutting around the corners of the buildings, so many tiny pieces of steel stinging into the skin. It was a night when I wished I was rolled up in the blankets. I don't pretend to be anything but human and am not beyond 'ducking in' once in a while to get warm. I had dropped into a place downtown—never mind where—to thaw out for a while. It wasn't late, but nobody was on the street who could help himself. While there a fellow with only a thin spring overcoat, much the worse for wear, came dragging inside, acting as though he was afraid he might get an invitation to get out again.

"As it happened, this particular bunch of men were having a little jollification of their own in one of the back rooms. Many of them are well known here in the business world. Probably you may have heard the name they went by, the Black Bull Mining company. It was only a name, and if they had any stock, I guess it was mostly a stock of hot air or laughing gas. And I don't think it was 'watered' although some kind of a liquid may have had a place in their meetings.

"Anyhow, one of the men chanced to come out just as the other came in. He stopped and started to talk with the wanderer who showed no curiosity to find out. Well, sir, they just happened that hard and long and tight thing they could pile onto it. And he ate and ate and drank and drank until he just simply couldn't handle another crumb or another drop. Those men enjoyed it more than I could imagine, but was unappreciative. When he had finished some one started a hat around

and every man there dropped in a piece of silver. It was passed over to him. When he accepted it there were tears in the man's eyes and his voice choked when he tried to thank them. He went out into the cold again, but I can imagine how different the world must have looked to him compared to the short time before when he crept in. I know that the incident warmed me up so that I didn't feel any more cold all the rest of the night.

William Hawkins and Martha Koch, arrested early last Sunday morning at 315 East Second street, on a warrant sworn out by the woman's husband charging them with adultery, were bound over to the grand jury this morning. Their bail, \$300 each, was continued.

Although alive in this country, Frank Williams, who died at the tuberculosis hospital last December, will not be buried in a pauper's grave at the expense of the county. Two of his friends learned of his death several days ago and immediately took steps to have him given a proper burial. The body was removed from the vault and taken to the undertaking rooms of Flood & Horgan. Following the funeral services this afternoon, the body was taken to Forest Hill cemetery. Williams was close to 60 years of age and had been about Duluth for many years, following various vocations. He is said to have relatives in London.

Seven of the thirteen patrolmen who took the civil service examinations for sergeant succeeded in passing. Their names will be certified to the mayor, who will select two of them to fill vacancies on the force. One will be sent to New Duluth to take charge of that suburb, and the other will replace Sergeant Gillon, who recently retired.

Tom Thompson, Hill Higstrom and Ernest Peterson were arrested last night on charges of fighting on the street. The last two claim that Thompson persisted in following them about and that they were trying to drive him away when arrested. Their cases will be disposed of this afternoon.

Robert Lindsey, colored, got \$40 and costs or thirty days in the county jail when he was convicted in police court yesterday afternoon of having assaulted his wife. The woman showed a badly bruised cheek, which she asserted was caused by blows from Lindsey's fist. Lindsey declared that she hurt herself in falling over a table while drunk, but he couldn't make his story stick. He admitted that he had slapped her, but was positive that he had committed no assault.

Machinery in Manual Training Schools Lacks Safety Appliances.

Believed That Few Changes Will Be Needed Here.

State Labor Commissioner W. F. Houk and his corps of factory inspectors have started a movement to improve conditions for the safety of students in the manual training schools of the state. Reports on conditions in the various schools, with recommendations for their improvement, have been submitted to Mr. Houk by the deputy inspectors, and they show that there are many unguarded gears, saws, pulleys and chain drives in the manual training schools of the state.

The report on the Duluth schools is not available, but Manual Training Director E. F. Geiger believes that little fault can be found with the equipment of the two schools here. The machinery in the Washington school training school is of the latest type, with gears, saws and pulleys boxed wherever possible without interfering with the efficiency of the machines. In the Industrial high school, some of the equipment is older, but safety appliances have been used generally and it is thought few dangerous conditions can be discovered.

In the Washington school, all lathes used in the wood-working department by elementary students, are motor driven so that belts, one of the greatest sources of danger, are entirely eliminated. Belt driven lathes are used by higher classes, but the students are then more accustomed to the use of machinery and more careful.

The factory inspector found one lathe in the Washington school without protected gears, but guards are now being fitted to it. A chain drive also attracted his attention, but it is near the ceiling at a point never approached by students.

Mr. Houk has called a conference of manual training directors to be held in his office at St. Paul tomorrow. Safety appliances will be discussed and the recommendations as to the different schools taken up for consideration.

## DULUTH PIONEER PASSES AWAY

John C. Mork, Resident of City Since 1869, Dies.

John C. Mork, 65 years of age and one of the pioneer residents of Duluth, died this morning at his home, 2024 West Fifth street, of complications resulting from old age.

He was well known here having lived in the city since 1869. He is survived by his wife and one daughter, Eureka.

Mr. Mork acted as poundmaster for a number of years and also engaged in the drug and retailing business. The funeral will take place Monday afternoon at 2 o'clock from his late residence. Interment will be at Scandia cemetery.

## ST. PAUL WOULD-BE SUICIDE IS FREED

Youth Who Was in Death Pact Agrees Not to Try It Again.

St. Paul, Minn., Feb. 16.—(Special to The Herald.)—Walter Wynchat, the 19-year-old youth who has been held in the county jail since Wednesday, when he followed the suicide of his sweetheart, Harriet Kospink, with an attempt to take his own life, was arraigned in police court today, and on the advice of Assistant County Attorney John Boerner was allowed to go. The youth said that he would not attempt suicide again, and that he would try to get work.

the defendant in two of the actions, one brought by August Wisuri for \$15.15 and the other by Charles Harju as guardian for Frank Hicks, who wants \$10,000.

The Malta Iron Mining company is being sued for \$10,250 by Rade Kalich and Mike Prica is asking for \$2,000 from the Shenango Furnace company. Hicks was injured, it is claimed, by a fall of 100 feet into the shaft of the Spruce mine near Eveleth on June 23, 1910. He miraculously escaped death and sustained serious injuries.

Wisuri had his skull fractured, he claims, Nov. 1 of last year, while employed at the Holman mine near Taconite. He says that a cable fell on him.

In August, 1911, Rade Kalich claims that he was seriously injured while working in a shaft mine operated by the Malta Iron company at Gilbert. He says that he has a permanent dislocation of the shoulder.

Mike Prica wants compensation for his injuries while working at the Whiteside mine on Nov. 11 of last year. A premature explosion of dynamite shattered several of his fingers, he says.

**BLACK ENAMELED WIRE.** Demands for an insulated wire which would effect an increase in the efficiency of an electrical product while decreasing its cost led to the development of a black enameled insulation, for magnet wire.

Prior to the development of this wire attempts were made to produce a satisfactory substitute for silk insulation. These were not successful, according to the Telephone Review, as the product either did not possess many of the essential features of satisfactory insulation or it was not such that it could be manufactured commercially. This black enameled wire, which is now used to a great extent in the magnetic coils, relays, drop, signals, ringers, etc., in the Bell telephone apparatus, possesses many advantages compared with wire insulated by methods that used to prevail.

It is claimed for this wire that while the black enameled insulation is only .0002 inches to .0005 inches in thickness, it is so elastic that when the wire is stretched to the breaking point the enameled insulation does not break until the wire itself gives way. It will withstand the ordinary atmospheric corrosives and the severe atmospheric conditions of slopes, factories, tropical climates and the sea coast indefinitely. It is not injured by indefinite exposure to temperatures of 250 deg. Fahrenheit, a temperature which will destroy the tensile strength of cotton or silk in a few hours. It cannot be removed from the wire by the ordinary solvents and the wire can be handled

as easily and successfully as a silk insulated wire. One of the great advantages possessed by black enameled wire is its small diameter as compared with that of single silk or cotton insulated wire. The winding space (for a specified number of turns) saved is about 25 per cent.

The proportion of remanufactures shows an almost continuous satisfactory register-general in his report on the births, deaths, marriages in England and Wales during 1909.

## McEWEN MAY BE SUMMONED

Willing to Testify as to  
 Labor Conditions on  
 the Range.

W. E. McEwen, editor of the Labor World, secretary of the State Federation of Labor, and former state labor commissioner, may testify before the Stanley committee investigating the United States Steel corporation at Washington.

Mr. McEwen received a telegram asking him if he would be willing to appear before the committee and testify as to labor conditions on the Mesaba range. He sent the following telegram, to which he has received no reply:

"I can go to Washington any time. I know of the labor conditions on the Mesaba range at the time of the strike, when conditions were bad; but the situation has greatly improved since then. Cauder compels me to say that the steel trust employs labor much more favorably here than I have read about in Pennsylvania. If you want me under these conditions."

## SEIZED SNEED JEWELS ARE HELD IN ST. PAUL.

St. Paul, Minn., Feb. 16.—The jewels recently sent from Winnipeg by A. G. Boyce, Jr., to Mrs. Lena Sned of Fort Worth, Tex., whose husband is now on trial for murder of young Boyce's father, are in St. Paul. The gems were seized by United States customs officials at St. Vincent, on the Canadian border, on the theory that they were subject to duty. They will be held until it has been determined whether they are United States goods or are being illegally shipped into this country from Canada.

## BURKE GETS STATE JOB

Joseph Burke, manager of a meat market for N. H. Witt, has been appointed manager of the state free employment bureau, succeeding Martin Cole, who recently tendered his resignation. Mr. Cole will retire March 1 when Mr. Burke will assume the duties of the office.

There were three candidates for the position. Mr. Burke, Henry Perrault and Alvin Jones. Mr. Perrault was endorsed by the Trades and Labor assembly and was considered the favorite, but State Labor Commissioner W. E. Houk has notified Burke that he is the appointee.

## IN THE DAY'S WORK AT WASHINGTON

**Roosevelt Act Illegals.**—Washington, Feb. 15.—Doubt as to the legality of an executive order signed by Theodore Roosevelt two days before he left the White House, has transferred back from the forest service to the department of the interior more than 2,500,000 acres of Indian forest land in California, New Mexico and Arizona. President Taft, it is thought, will sign the executive orders reversing the action of his predecessor.

**May Name Mr. Pepper.**—It is reported that George Wharton Pepper, a Philadelphia lawyer, stands well at the top of the list of eligibles who are being considered by President Taft for appointment to the supreme court bench to succeed the late Justice Harlan. The appointment of another Pennsylvanian, Judge Burton of Pittsburgh, is still being urged.

**Taft Wilson's Guest.**—Secretary Wilson entertained the president and Mrs. Taft at dinner last night. Senator Cummins, Speaker

Clark, former Speaker Cannon and Minority Leader Mann were guests.

## Senate Confirms Herick.

The nomination of former Governor Milton T. Herick of Ohio as ambassador to the United States to France, to succeed Robert Bacon, resigned, was confirmed by the senate.

**For Alaska Railroad.**—President Taft's urgent appeal for development in Alaska has borne fruit in a bill introduced by Chairman Flood of the territories committee to create an Alaska railroad commission of three members. The commission would be directed to visit Alaska, to investigate railroad routes from the seaboard to various coal fields and interior navigable waterways. Steamship lines from Pacific ports in Alaska and other matters for the advancement of the country, including coal mines, are to be considered also.

**Lake Ship Canal.**—Representative Mott of New York introduced in the house a bill providing \$250,000 for the survey and estimate of cost of a ship canal to connect the navigable waters of the Niagara river, making a continuous water route between the five Great Lakes.

**Extends Postal Banks.**—Postmasters at postal savings banks depositories may accept money from anybody, the regulation restricting depositories to the patrons of a particular office being rescinded today in an order issued by Postmaster General Hitchcock.

**Ratifies Naturalization Treaty.**—The senate ratified the naturalization convention with Costa Rica, which provides for reciprocal recognition of naturalized citizens of both countries. By its terms a naturalized citizen of either country returning to the land of his nativity remains liable to punishment for any violations of law committed before his immigration.

**Two Depots Burglarized.**—Owatonna, Minn., Feb. 15.—The Northwestern railway depots at Claremont and Owatonna were burglarized Monday night, after being closed for the night, and the police of this section of the country are looking for the culprits. In each case drawers were forced and a small amount of loose change taken.

## News and Views of Minnesota Politics

**Three-Cornered Fight.**  
 It looks like a three-cornered fight for the Minnesota delegation to the Chicago convention. The chances favor Taft, not because of any popular demand for his renomination but because the organization is strong. Roosevelt may get the delegation despite the opposition of the La Follette Progressives while La Follette hasn't a chance.

The real fight will be between Taft and Roosevelt and few would be surprised if the La Follette campaign should cut little figure in the result. The La Follette cause has never been in "great popular favor" in the state, as the Progressives have been. In fact, the La Follette-Peterson-Manahan committee of twelve succeeded in making a formidable showing, but as soon as the column appeared in the state, the display of hopping and the committee of twelve was left almost to itself.

Dr. Gates, Hugh Halbert and "Col." Rich have adopted a popular cause if they play their cards right they may get the delegation despite the opposition of the La Follette men. However, if the two Progressive forces were to unite in a harmony and anti-Taft delegation, the candidate to be settled upon later, the state, with E. E. Smith and his organization as the power behind.

**Campaign Plans.**  
 Campaign plans are being laid. The Roosevelt men will hold a big rally in Minneapolis on St. Paul in March. The La Follette forces will bring into the state such men as Senator Charles Follett, D. Brandeis, Governor Haddock and Senator and Governor Stubbs of Kansas may be brought to Minnesota to say a word for Roosevelt. The Taft campaign has already been opened with Taft and Nelson at St. Paul. James A. Tawney appears to have charge of the Taft campaign in the state, with E. E. Smith and his organization as the power behind. The Roosevelt men will send speakers into this district also.

**North Dakota Primary.**  
 The North Dakota presidential primary will be held March 19. Before the Roosevelt movement began, the Roosevelt men were anxious to head off a Roosevelt victory if possible, for a Roosevelt victory in the state would carry the state 2 to 1 to Roosevelt. Since the senate has rejected the Roosevelt nomination, the La Follette men are now in a position to make a strong showing in the primary. The Roosevelt men are now in a position to make a strong showing in the primary. The Roosevelt men are now in a position to make a strong showing in the primary.

**Lincoln Park Road Is to Extend Road Control.**

**REMEMBER THE MAINE**  
 Services Held at Havana and Monument Begun at New York.

Havana, Feb. 16.—Impressive services marked the fourteenth anniversary of the blowing up of the battleship Maine. They were conducted under the auspices of the Havana Spanish-American war veterans, over the remains of the sixty dead taken from the wreck and now lying in a casemate in the Havana fortress, under a guard of honor composed of Cuban troops, awaiting transportation to the north.

**Monument to Begin.**  
 New York, Feb. 16.—The cornerstone of the national Maine monument was laid yesterday afternoon by Rear Admiral E. H. Leutze, U. S. N., commandant of the Brooklyn navy yard, at the Columbus Circle entrance to Central park. The monument is designed to commemorate the destruction of the battleship Maine in Havana harbor Feb. 15, 1898, and as a memorial to the men who perished in the disaster and in the war with Spain.

**Finished by Autumn.**  
 It was announced yesterday that the monument would be completed by next autumn. It will include a colonnade of four feet high, topped with a bronze group representing Columbia triumphantly over the sunken Maine. As this group will be thirteen feet high, the height of the monument will reach fifty-seven feet.

ful if they were somewhat flatter and as increased weight is possible it is the duty of every woman to be always at her best. Begin taking three grains of hypodermic tablets, which are obtained in sealed capsules with directions, and continue until your weight is satisfactory. Frequently a two month's treatment adds 15 to 20 pounds, besides adding more color to the cheeks and lips and a sparkle of health to the eyes.

"Marie" writes: "I would like a remedy for a plump, oily skin. I suffer from constipation, headache and indigestion."  
 Answer: Get from your druggist three grain sublimated tablets and take according to directions. These tablets are packed in sealed tubes and contain full directions for taking. I have found them to be the most reliable in such ailments as arise from constipation. They are made of sulphur, cream of tartar and herb medicines and if taken regularly will cure your constipation and purify the blood, thus causing your skin to become clear. These are fine for children, as they do not sicken.

"Mary"—You can easily cure your little girl of bedsores by mixing 1 oz. of compound vitæ powder with 2 drams structure fluoromastic and 1 dram. structure cube. Mix thoroughly and give in water about one hour before each meal, 10 to 15 drops.

Doctor: "My blood, stomach and bowels are badly affected due to a very severe case of catarrh of the head. Can you recommend a cure?"  
 J. E. S.—You should use the following local treatment: Get two oz. of antiseptic vitæ powder and make a catarrh bath by mixing one teaspoonful of the powder with one ounce of vaseline or lard and use in the nostrils as far as possible. Also the vitæ powder in the nostrils as far as possible. Also the vitæ powder in the nostrils as far as possible. Also the vitæ powder in the nostrils as far as possible.

"Sadie" says: "I misplaced the prescription you sent me for dandruff and itching scalp; will you please send it again?"  
 Answer: There is nothing better for dandruff and itching scalp than plain yellow mineral which is sold in 4 oz. jars at any well-stocked drug store. Use this according to directions and you will soon be cured of all diseases of the hair and scalp.

"Nina R." writes: "Please advise me what to take to prevent extreme thinness. My arms and legs have no development and my face is so thin as to be positively homely, although my features are regular."  
 Answer: Many ladies would be much more beautiful if they were somewhat flatter and as increased weight is possible it is the duty of every woman to be always at her best. ## WOULD STIR METROPOLIS

Another Attempt By Church to Make Dent in New York.

Will Be Culmination of Men and Religion Forward Movement.

New York, Feb. 16.—Back of the announcement that the culminating congress of the Men and Religion Forward Movement is to be held in Carnegie hall April 19 to 24 is the truth that the despair of the Christian leaders of North America is New York city. Only twice in a generation has it been stirred by the Protestant churches—once in 1893, when the Christian Endeavor convention was held in Madison Square Garden, and again in 1905, when Dowie marshaled his cohorts in the same place. The Ecumenical conference of 1900 won some recognition from the press, and it interested the church people, but the public at large scarcely noticed it, and now, by agreement of the leading ministers and laymen with the officials of the Men and Religion Forward Movement, one more vigorous

attempt is to be made to make a dent in New York, as one layman expressed it. New York does not take religion seriously as it takes some other things, and so far as appears on the surface, the city practically ignores religious meetings and religious organizations to command the attention of the city, but in vain. The great meeting of the National Federation of Churches several years ago passed with scarcely any mention in the local press. And as goes New York, so goes the nation. It is no secret that church leaders regard the proposed congress as a bit of Christian strategy of importance to all America. The outcome will be watched with interest all over the land.

Massing the Men. The scheme as at present outlined is certainly a big one. It is being engineered by the Men and Religion Forward Movement, the climax of campaigns which will have been held this winter in more than seventy-five cities. These campaigns have attracted national attention, and the movement has unquestionably held the center of the religious stage this year. Now the final test of its efficiency will come in the demonstration which is planned for New York city.

All the power of the movement's nation-wide organization is being put forth to focus the attention of the country upon the New York meeting. The city has no large auditorium, the number of delegates proper will be limited to 2,000, which represents the capacity of Carnegie hall, with its stage included. The original design was to meet in Madison Square Garden, but a circus has the building on the only dates suitable for the congress.

There will be more than 3,000 visitors to New York on account of the congress, since churches will be used for auxiliary meetings. The delegates proper will be apportioned territorially so that every state and section will

be represented. It would be an easy matter to fill Carnegie hall half a dozen times over with men from the churches of New York alone, for such a program as has been provided. The leaders say that they want representative men, rather than a mass of men. They want delegates who weigh as well as count. Inasmuch as prominent business men all over the land have taken up the Men and Religion Forward Movement, it is likely that the quality of the delegates will be high. The more commercial benefit to the city is likely to interest New York if nothing else does.

Opening God's Eyes. The most sensational feature of the program of the Christian conservation congress is a great parade of men and boys Sunday afternoon, April 20, to be reviewed by President Taft. The 2,000 delegates will be supplemented by the men's organizations from the churches of New York and neighboring cities that are withdrawing a five-hour railway journey. At least 10,000 men are expected to be in line and those who best know the interest which the Men and Religion Forward Movement has aroused among the churches say that they will not be surprised if double that number of Christian men pass the reviewing stand.

Sounding the slogan, "Bring your boys along," the simultaneous convention of boys in their teens, who will meet somewhere near Carnegie hall, will parade after the men. A part of each day will be given to organized sightseeing by the boys' convention, the opportunity of which is one of the most favorable auspices, is expected to bring a great many boys to New York. To see New York, in parade after the men, is not a delegates.

One Woman. Although the most eminent laymen in the country are booked as speakers at the congress, it is quite probable that the greatest interest will center in the one woman whose name is on the program, Miss Jane Addams of Chicago is to address the convention upon the social evil. This is a unique opportunity for speaking a direct, plain message to the men of the country upon a subject which is prominently before the nation; and Miss Addams is expected to talk straight.

President Taft, Ambassador Bryce and J. A. MacDonald of Toronto are to share the platform on one night. A Southern white man and a negro—Former Governor Northern of Georgia and Booker T. Washington—speak together at another session. Fred E. Smith and other men and religion experts, of course, will be heard. Two men who know the Orient, William Jennings Bryan and William T. Ellis of Philadelphia, share the theme of America's influence abroad. Bishop Greer of New York, Archbishop Madden of Liverpool, Dr. J. H. Jowett of New York are among the clergymen on the program. The Charles Seidel Graham Taylor and E. A. Steiner treat the social aspect of religion. Robert E. Speer, J. Campbell White and John R. Mott hold up the missionary end.

Finding Out Facts. The real greatness of this congress will consist less in the speakers and the character and number of the delegates than in the findings of the nine commissions which are already at work making an expert study of the many phases of present-day religious work in America. This is on the plan of the Edinburgh missionary conference two years ago. The commission members comprise seventy-five of the

leading specialists in the country, and their reports will be in the hands of the delegates for discussion. This extraordinary survey of actual conditions will be an event in American religious life. It carries out the survey idea which has applied so successfully to the localities visited by men and religion campaigns. As a result of the facts and findings of the churches will be accessible to everybody. These reports will be discussed in the day sessions of the congress.

The nine commissions deal with the following themes: Social service, missions, boys' work, evangelism, Bible study, Christian unity, rural churches, permanence of the men and religion message and publicity. The last is a radical departure; a commission of the practical and prominent newspaper men are studying the relation between the churches and the newspapers. All the plans have been laid on a comprehensive scale for an epochal congress; and if the sanctified common sense of the laity and clergy of the country cannot make a dent on New York on this occasion they may scarcely hope to do so in any other way.

## CAT AND DOG WERE UNUSUAL FRIENDS

When Dog Button Killed Spike, Tom Committed Suicide.

Cleveland, Ohio, Feb. 16.—Attorney William Brooks, 432 East One Hundred and Fifth street, has come back from Zanesville, Ohio, with sad news of the demise of his bull terrier, Spike, who died of a dog button, and of the still more tragic death of his cat, Tom.

## TWO GENERATIONS BOTH MOTHER AND CHILD

"My baby is four months old and has had Mellin's Food since he was born. At birth he only weighed four pounds and was very weak, being seven months baby. Today he is as plump and fat as could be desired. We feel that we owe his life to Mellin's Food. I, myself, was a Mellin's Food baby, so you see we are great advocates of it. I hope that more mothers will realize its good work and try it for their babies. They will be sure of success and healthy children. Wishing Mellin's Food all the success in the world, I am,

minded citizens of Zanesville, that Tom, in grief for the death of Spike, did deliberately end his own nine lives.

Spike did the watch-dogging around the house of Mr. Brooks' parents at Zanesville. Tom did the mousing. Dividing these duties between them, they got along most amicably together. Once, when Tom spent half a day watching a mouse hole, waiting for the mouse to come out, and found, after all, that it was a rat hole, and that the rat, which came out, was too much for him alone, he moved for help and Spike came on the run.

So on moonlight nights, when Tom wanted to get out to sing on a neighbor's fence, Spike took his place and watched the mouse holes. In addition to his regular work as watch-dog, every one who noted how well the two got along together agreed that the mouse hole had for each other was touching.

When Spike got the dog button and died with his feet in the air, Mr. Brooks was in Cleveland. When he reached Zanesville on a visit he learned for the first time that Spike had been killed. He was so grieved that he did not see it himself, you understand, but those who did claim that Tom deliberately threw himself in front of the car. Spike and Tom lie in the same grave.

## BOYS ON HOBO TOUR OF GLOBE

Passed Through Duluth, Having Stowed Away on Steamer.

Los Angeles, Cal., Feb. 16.—Albert Dupont, Heywood Brown and Cecil Meltzer have reached here on their hobo trip, around the world. They were joined here by Sidney R. Francis, son of ex-Governor Francis of Missouri, who will make the rest of the tramp with them.

Dupont is the son of Mme. Aime Dupont, the famous photographer of 574 Fifth avenue, New York. He is a Harvard student. Brown is a Columbia student and the son of a New York lawyer. Meltzer is also a New Yorker.

The three arrived at San Diego last week, having beaten their way from San Francisco in the hold of the steamer Harvard. When the steamer put into port, Dupont poked his head up through the main forward baggage hatch and took observations. Brown's head followed.

"Gee, but land looks good!" exclaimed Dupont, darting back and signalling to Meltzer. The latter looked out and said:

"Golly, how glad I am to see we're in! Stowing away's all right when the weather's mild and you've plenty of grub handy, but I know more ways of fun than twenty hours in a dark hold in a rough sea and not food and drink."

"Let's jump," suggested Brown. And they jumped as the vessel made her berth.

Brown and Meltzer started from

Southampton, England, several months ago. They stowed away, they say, on an Atlantic steamship to Boston; then beat it on freight trains to Buffalo, and there stowed away on a steamer, which took them to Duluth. From Duluth they have been making their way about the country on brake beams and in baggage cars, and at Bellevue, Idaho, were joined by Dupont, an old chum of Brown.

They declare they will make their way around the world, earning on the way what money they need. They are in the best of health and high spirits.

## STRAW HATS APPEAR AT ATLANTIC CITY.

Atlantic City, N. J., Feb. 16.—Straw hats have hit the Boardwalk for scores of broad-rimmed Panamas and heavy straws were features at the daily promenades on the walk during the week. For the most part, the hats were very little trimming on their upper "decking," a simple knot of ribbon of bright colors sufficing. The effect is quite nifty.

## DEPOSITIONS IN OIL CASE ORDERED

Action May Stay Mandamus  
Proceedings in Pierce-  
Rockefeller Fight.

St. Louis, Mo., Feb. 16.—Attorneys  
and representatives of the Standard  
Rockefeller interests who attended the  
annual meeting of the stockholders  
of the Water-Pierce Oil company, have  
been served. It was announced to-  
day, with subpoenas to appear Mon-  
day, and give depositions regarding  
the methods employed by the Rocke-

feller interests in the reorganization  
of the Standard Oil company.

It is believed the taking of the  
depositions will serve to stay the  
mandamus proceedings before Circuit  
Judge Kinney tomorrow.

The mandamus proceedings are to  
force H. Clay Pierce and his asso-  
ciates, owners of the minority stock in  
the Water-Pierce company, to certify  
the votes of the Rockefeller stock-  
holders in the Missouri corporation.  
Pierce contends that the vote should  
not be counted, and in a statement  
his lawyers charge that the Standard  
Oil company was attempting to per-  
petuate a trust.

A KANSAS MYSTERY SOLVED.  
Kansas city, Jan. 16.—About five  
years ago Harry Cottman, a West  
Wichita grocer, missed a kit of salt  
nuckers from the front of his store  
and he never was able to trace it. Some  
small boys "swiped" that kit of nuck-  
ers and it is supposed they sold it, and  
one of the boys, now grown to be a  
young man, has recently paid for it.  
The young man sent a \$2 bill to Mr.  
Cottman with a note of explanation.

## INSPECTING ELEVATORS

State Officer Testing Mechan-  
ism of All Passen-  
ger Lifts.

Thomas E. Nicholson, of St. Paul,  
state factory and elevator inspector, is  
in the city to make an inspection of all  
the elevators in the city.

Each elevator in every building is  
tested as to cables and other me-  
chanical parts. This is to safeguard the  
public.

The law which created the position  
at present held by Mr. Nicholson, is but  
a recent one.

Elevators now get three inspections.  
One is by the city, one by the insur-  
ance companies, and one by the state.

Mr. Nicholson will be in the city  
about a week and will make the rounds  
of the different buildings with City In-  
spector Anderson.

New York city's "Mae Fourth" is a  
permanent institution, according to  
Mayor Gaynor. He has told Herman  
Ridder, chairman of the celebration  
committee, that the \$1,845 of surplus  
should be kept as a nucleus for a fund  
for next year's doings.

Martin Harvey will head a company  
which will produce Sophocles' tragedy,  
"Oedipus" in New York next month.  
Mr. Harvey has been seen in American  
theaters here but has not achieved  
any great popularity. However, in  
England he is one of the best liked  
actors of this generation. The produc-  
tion of "Oedipus" is staged by Max  
Reinhardt, the famous German man-  
ager who put "Samson" on the stage  
and it is said to be quite marvellous.

## RICHARD EVA PASSES AWAY IN PORTLAND, OR.

Word has been received in Duluth of  
the sudden death in Portland, Or., yes-  
terday of R. A. Eva, formerly a well  
known resident and railroad man of  
Duluth.

He came to Duluth in 1878 and made  
his home here from that time until  
about six years ago, when he moved to  
the coast. He was connected with the  
Northern Pacific for many years, first  
as traveling freight agent and later as  
general freight agent with headquar-  
ters in this city. Following that he had  
charge of the construction work of the  
Virginia & Rainy Lake from Cook to  
Pelican lake and in the West he has  
followed railroad construction work.  
Besides his widow he is survived by  
four sons and a daughter, his father, J.  
R. Eva of this city, and five brothers,  
B. L. Eva, and Maj. H. W. Eva of Du-  
luth, George H. and Edward Eva of  
Tacoma, Wash., and F. W. Eva of Min-  
neapolis. He was born in Cornwall,  
Eng., 56 years ago and came to this  
country with his parents when a boy.  
Mr. Eva was familiarly known as  
"Dick" Eva in Duluth, and had hun-  
dreds of warm friends in this city. He  
was one of the most widely known and  
popular business men at the Head of the  
Lakes when he left this city.

R. A. EVA.

## TENEMENT BEING BUILT

New Structure Has Thirty-  
Two Rooms Without  
Ventilation.

Bathrooms With No Win-  
dows—Housing Ordinance  
Not Yet Ready.

The construction of the flat build-  
ing on the alley back of 316 East  
Second street, against which numerous  
protests have been made because of  
inadequate provisions for light and  
ventilation, is well under way.

The plans show that the structure  
will have four stories, containing  
four four-room flats. They are so  
laid out that each floor will have four  
rooms which have no windows and  
practically no ventilation. In each of  
these four flats there will be a bath  
room. Considering the bath room as a  
separate room the building will  
have a total of thirty-two rooms  
which are unlighted and unventilated  
from the outside.

Those who have been interesting  
themselves in the housing proposition  
are using this case as an example  
of the need of getting the housing  
ordinance amended. The council with-  
out delay. They assert that under  
present conditions the city cannot  
prevent the construction of such un-  
wholesome structures.

Although the matter has been un-  
der discussion for months, no housing  
ordinance has yet been introduced in  
the council. The existing housing or-  
dinance has had its first reading and  
hearings have been held. It has not  
yet been taken up for its second  
reading. They are separate and dis-  
tinct ordinances. The first would  
regulate housing conditions in gen-  
eral throughout the city, being ef-  
fective in all cases. The other is in-  
tended to regulate only lodging houses.  
Both are considered highly important to the  
welfare of the city and the people who  
live in them. The council is expected  
that no time should be lost in having  
these ordinances passed.

### CONGO STATION NOT BEING USED

Great Northern Gets Permis-  
sion From Commission to  
Quit Stopping There.

Brookston, Minn., Feb. 16.—(Special  
to The Herald.)—It is announced from  
the Superior office of the Great North-  
ern railway that hereafter no timber  
shipments will be accepted on the  
sliding at Congo station seven miles  
west of Brookston.

This has come about through an  
order of the state railroad and ware-  
house commission permitting the com-  
pany to abandon its station at Congo,  
and also conforming to a decision of  
the state supreme court which held  
that it would be a hardship to ask  
railway companies to stop their trains  
at less than five miles distant.

At the time the Congo station was  
being erected the people of Poupere  
asked for a depot also, but the rail-  
way objected to this request, stating  
that a substantial building was being  
erected at Congo and the residents of  
Poupere could just as well walk a  
mile and a half between the points  
to use it. The commissioners decided  
that more people would be benefited by  
the depot at Poupere than at Congo,  
and permission was then given for the  
abandonment of the latter station.  
This order will be a hard blow to set-  
tlers thereabouts, as it will put them  
to severe inconvenience to haul their  
forest products to Poupere.

### LESS RAILROAD TAXES.

Gross Earnings Not Yielding as  
Much as in 1910.

St. Paul, Minn., Feb. 16.—Taxes on  
railroad gross earnings in 1911 are  
falling still lower than the tax col-  
lected in 1910 as the roads report. The  
Mississippi & Rainy River yesterday  
sent a draft to the state treasurer for  
\$6,205.07 in payment of the gross earn-  
ings tax on \$155,126.78 earned in 1911.  
The road paid \$8,515.28 as gross earn-  
ings tax on \$220,386.18 in 1910.  
The Green Bay & Western railroad,  
which barely crosses the eastern bound-  
ary line of the state, paid a tax to-  
tal of \$1,344.09 on gross earnings of  
\$3,362.28 for 1911. In 1910 it paid  
\$1,559.50 as the tax on \$3,978.36.

## MOONEY IS HELD IN JAIL

Friends of Iron Worker Un-  
able to Arrange Bond  
for Release.

Former Fellow-Employee Says  
Alibi Can Be Estab-  
lished.

Fred J. Mooney, arrested Wednes-  
day in connection with the Indian-  
apolis dynamiting cases, is still at the  
county jail, his friends having failed  
thus far to get the bond of \$5,000 nec-  
essary for his release.

The government is very strict in the  
matter of bonds. The person furnish-  
ing a part of them must show that he  
owns property, free from all debt. The  
property must be located in this state.  
One of the would-be bondsmen is  
the owner of a fine tract of farming  
land in the state of Michigan and  
easily worth several thousand dollars,  
but this was not accepted.

Friends and relatives are busy in  
Mooney's behalf. They expected to  
have him out of jail by last night, but  
they have not been successful in ar-  
ranging the bond as quickly as they  
thought they would.

A. V. Youngberg of 110 East Sev-  
enth street, states that he was en-  
gaged on a job for the Peavey Elevator  
with Mooney at the time Mooney is  
charged with having been near In-  
dianapolis, carrying dynamite from one  
point to another.

Mr. Youngberg was at one time a  
structural iron worker. He is now on  
the police force.

The indictment charges that in De-  
cember, 1906, Mooney was engaged in  
the transportation of dynamite near  
Indianapolis. Mr. Youngberg states  
that at that time he was working with  
Mooney on the Peavey job. He states  
also that they went directly from that  
work to another place where they  
worked for some time together.

## THIRTY STILL ARE IN THE HOS- PITALS AT HUNTINGTON, Pa.

Huntington, Pa., Feb. 16.—The num-  
ber of dead as a result of the wreck-  
ing of the Pennsylvania Limited ex-  
press at Warrior's Ridge yesterday,  
was increased to four today when  
Alexander Servant, a porter of New  
York, died in a hospital here where  
all the injured were taken.

Physicians in charge of the thirty  
persons still in hospitals here said to-  
day that no more of them would die.

Mrs. John Yeatts of Milwaukee is  
suffering from a broken jaw and her  
arm is fractured. Dr. Yeatts is not  
badly hurt and is staying at a local  
hotel.

## UNIVERSAL TRUST COMPANY TAKEN UP.

Albany, N. Y., Feb. 16.—Superin-  
tendent Van Tuyl of the state banking  
department announced today that he  
has taken possession of the property  
and business of the Universal Trust  
company of 249 Broadway, New York  
city. This action, he said, was the  
result of recent investigations of the  
affairs of a few of the savings and  
loan associations of the state whose  
condition from past mismanagement  
or ill fortune was a cause for con-  
cern.

## Freckle-Face

February Brings Out Unsightly Spots.  
How to Remove Easily.

Do you know how easy it is to re-  
move those ugly spots so that no one  
will call you freckle-face?

Simply get an ounce of othine,  
double strength, from Boyce Drug  
Store, and one night's treatment will  
show you how easy it is to rid your-  
self of freckles and get a beautiful  
February face.

February brings out freckles, and as a  
result more othine is sold this month,  
and the druggists sometimes find it  
difficult to get sufficient to supply all  
calls. Be sure to ask for the double  
strength othine, as this is sold under  
guarantee of money back if it fails  
to remove the freckles.

## LEUPP TO BE CALLED UPON

Subpoena Is Issued for Him in White Earth Inquiry.

Mixed Blood Is Said to Have Threatened to Kill Attorney.

Detroit, Minn., Feb. 15.—(Special to The Herald.)—F. E. Leupp, Indian commissioner under President Theodore Roosevelt, is to be a witness before the congressional committee which is investigating the charges of fraud in connection with White Earth Indian affairs. It was made known today when Congressman J. M. Graham, chairman of the committee, ordered the issuance of a subpoena. Mr. Leupp probably will appear before a meeting of the committee which is to be held in Washington in March.

According to the story told by Joseph Fair, former superintendent of logging, who is to be a witness, Mr. Leupp was warned of what would be the result of rejecting the Herrick bid on reservation timber in 1905.

John Carl, graduate of the University of Minnesota, again told the committee today that he considered the Clapp act of 1905 a good thing for the Indians, as it compelled them to go to work. He denied that he had ever brought land from minor Indians, and declared that all of his transactions were valid.

"Big Bear," when asked on the stand why Congressman Halvor Stenerson had been adopted into the tribe, said: "He was the speaking man for us."

A letter was received by E. H. Long of the department of the interior from an Indian, stating that a mixed blood had left Portland carrying a revolver and threatening to kill the government attorney.

## HAS WORK FOR GOPHER'S CREW

The War Department Orders Soundings Taken in Lake Superior.

St. Paul, Minn., Feb. 15.—(Special to The Herald.)—Under instructions from

the war department, Guy A. Eaton, commander of the Minnesota naval militia, will take the crew of the Gopher, the state's training ship, out on Lake Superior during this coming summer and take soundings to find the depth of the deepest water, and the temperatures. A sounding machine has been sent him for installation on the Gopher to be used in the work.

"Lake Superior is the coldest body of fresh water in the world," Mr. Eaton said at the state capitol today. "At the depth of 200 fathoms the water is but a few degrees above the freezing point. Lake Superior, because of its coldness, never gives up its dead. The bodies of persons who drown in it never rise."

The trip to make the soundings will be taken about July 1.

## "SMALLY" SANDBERG RE-ELECTED CHIEF

**Aurora Firemen Again Chose Their Popular Chief to Lead Them.**

Aurora, Minn., Feb. 16.—(Special to The Herald.)—The annual meeting of the Aurora volunteer fire department was held at the village hall Wednesday night and the following officers elected: E. J. Sandberg, chief; Erick Koske, assistant chief; Frank Carlson, foreman No. 1 hose cart; Leander Mattson, foreman No. 2 hose cart; John Beccort, foreman of chemical engine; H. Varick, foreman of ladder and cart; C. F. Luth, secretary; Charles T. Murphy, treasurer.

E. J. Sandberg, who is known as "Smally," has served the department as chief during the past three years. He is well known by all range firemen and takes an active part in all department meetings. He was named as a delegate to the meeting of the range association, which will be held at Duluth next week and was empowered to pick another delegate from the department to accompany him.

Hibbing, Minn., Feb. 16.—(Special to The Herald.)—Dr. and Mrs. C. F. Morrison returned yesterday from a several weeks' visit in the Southwest. They were accompanied by Miss Belle Lyle, a nurse at the Butcher & Morison hospital, and Miss Betty Gamble, one of the staff of nurses at the Moore hospital at Eveleth. The party consisted of a number of Texas cities including Houston, Galveston and San Antonio and started on a tour of the Southwest but were turned back at New Laredo, in the Rio Grande valley, by Mexican officials, owing to the unrest of the interior, which Dr. Morrison says borders on a state of revolution.

## ORDINANCE OF VILLAGE UPHELD

**Mountain Iron Can Limit Liquor Sales to Persons Without License.**

Hibbing, Minn., Feb. 16.—(Special to The Herald.)—A decision of importance to the villages of the Mesaba range that are trying to curb the liquor traffic has been made by Judge Martin Hughes in a decision rendered in the appeal of the Duluth Malting & Brewing company from the judgment of the Mountain Iron justice of the peace in finding the Duluth concern guilty of violating the ordinance against selling intoxicants in quantities greater than five gallons to persons in the village of Mountain Iron without a license. The court upholds the validity of the ordinance.

## The Boon of Health Makes Manly Men

(From Statistic Student.)

Private statistics of a physician with a national practice, indicate that fully fifty per cent of middle-aged men are partly or wholly deficient in ability, manly power, and endurance. The only way to know the meaning of the usual symptoms which presage the oncoming of premature old age may be saved from misery, dependency and an early grave. Symptoms should not be considered as warnings of the approach of disease. One may know what to do when such symptoms exist to the following symptoms and precautions are published:

A premature break-down of the vitality is indicated by dull, sunken eyes, cold extremities, back-ache, headache, fatigue, pains in small of back, pains in back of head, spots before the eyes, weakness in legs, twitching, and trembling, impaired memory, loss of appetite, wasting, thinness, or premature fat, shrunken, flabby flesh, wrinkles, dizziness, indigestion, constipation, kidney disorders, irritability, lack of ambition, timidity, weakness, dragging, and generally an unmanly carriage.

If the reader decides to try it, get three ounces of ordinary syrup of sarsaparilla compound, and one ounce of Compound Balmwort; mix and let stand two hours; then get one ounce of Compound Essence, and one ounce of Compound Codine Compound; shake well and take a teaspoonful after each meal and one at night.

This contains no opiate whatever, and may also be used by women who suffer with their nerves, and who are afflicted with prompt and lasting benefits.

By preparing the treatment at home secretly, you need know of another's trouble, while the ingredients are the Mississippi. At present the government dam at Potosi, on the river without change, while the proposed locks would give an open waterway.

## WANT NORTH SIDE SCHOOL ERECTED

**Residents of That Section of Virginia Favor Going Ahead With Work.**

Virginia, Minn., Feb. 16.—(Special to The Herald.)—There is strong sentiment among the people of the North side of the construction of a new school building on block 12 in the North side addition, which is already under way. The residents of that section of the town are anxious to have the school erected as soon as possible, rather than wait the decision of the supreme court in the proceedings against block 11 in the Kootenay addition, which may delay the construction of a new building to the next session.

At the present time the North side school building is crowded beyond its capacity and the residents of that section are in the cloak rooms, it being necessary for the pupils to stand in the hall during the recitations. The capacity of the North side school building is about 120 pupils and it is said there are over 300 children of school age in that section of the town.

The residents of that section of the town are anxious to have the school erected as soon as possible, rather than wait the decision of the supreme court in the proceedings against block 11 in the Kootenay addition, which may delay the construction of a new building to the next session.

## ANOTHER MURDER CASE ON TRIAL

**Michael Gentilcore Facing Jury, Charged With Killing Gregori Pilaggi.**

Hibbing, Minn., Feb. 16.—(Special to The Herald.)—Another murder case is occupying the attention of Judge Hughes and a jury in district court today. Michael Gentilcore is being tried for the killing of Gregori Pilaggi, a resident of the city of Duluth. The case was brought to trial yesterday.

## MANY EXPECTED AT EVELETH BANQUET

**Social Evil and Protection of Boys to Be Discussed By Speakers.**

Eveleth, Minn., Feb. 16.—(Special to The Herald.)—The social service committee of the Men and Religion Forward movement has every assurance of a large attendance at the banquet to be given here Tuesday evening, when the social evil and the protection of boys will be the principal topics for discussion.

## ITASCA GAINS IN VALUATION

**Now Ranks Fourth, Coming Next to St. Louis, Hennepin and Ramsey.**

Grand Rapids, Minn., Feb. 16.—(Special to The Herald.)—Itasca county now ranks fourth among Minnesota counties in taxable wealth following St. Louis, Hennepin and Ramsey in the valuation over that of the previous year. The total valuation of the county was \$25,449,577, an increase of \$1,449,577 over the valuation of 1911.

## WANT LOCKS BUILT.

**Itasca and Other Counties Working to That End.**

Grand Rapids, Minn., Feb. 16.—Joint action is being taken by the Commercial clubs of Itasca, Cass and Beltrami counties to secure locks in the government dam on the Potosi river. The clubs have taken the matter up with Congressmen Miller, who has introduced a bill which will give the relief asked for.

## ACQUIT FISHER OF CHARGE OF MURDER

**Jury at Hibbing in Few Hours Reaches Verdict of Not Guilty.**

Hibbing, Minn., Feb. 16.—(Special to The Herald.)—The jury in the case of John J. Fisher, charged with the murder of William Brown, a quarter blood, on the docks at Port Hesperia, reached a verdict of acquittal at 10 o'clock last night after the twelve men had deliberated for nearly six hours. The accused's plea of self-defense was sustained.

## Real Men Wanted

**To "make good," requires a man's unhampered ability.**

Frequently headaches and other annoying ills, brought on by the habitual use of coffee and tea, make it quite impossible for a man to think clearly and do his best work.

## The Thrifty

Buy their groceries at wholesale from Barthe-Martin Co. Are you one of the thrifty ones? No retailer can regularly and consistently sell groceries at our wholesale prices.

## Buy Right

It is just as important for a family to buy groceries right as for a merchant. Many families know but little about buying. We are experienced buyers of groceries and will gladly explain to you how to buy this and that and save money. We are merchants, not storekeepers.

We go direct to the manufacturer for our goods and you should come direct to us to buy. We save you money on 1700 different kinds of groceries, not a cut price on five or six different articles, but everything at wholesale prices.

The Journal of Commerce of New York prints in one of its issues this week that the consumer in many instances is paying 25 to 50 per cent more for short-weight package goods of today than he did for same a few years back. They say the consumer is partly to blame for the high cost of living—that he can buy more economically if so disposed. Try buying

## By Our Method

Do not buy groceries put up in small size bottles, cans, packages, etc.; you are paying for these small packages, plus the labor in putting up the goods. We have the same, identical goods, put up in larger and more inexpensive packages and we will gladly tell you, when you come into our store how we can save you many times and quarters.

## WEST DULUTH NEWS

BRANCH OFFICES:  
A. Jensen, 330 North 57th Ave. W. J. J. Moran, 316 1/2 North Central Ave.

### WILL CELEBRATE McCuen Victory.

Arrangements have been completed for the celebration to be held tomorrow evening of the Republicans of the city in honor of the recent election of Dr. J. A. McCuen as mayor of Duluth. It will be under the auspices of the West Duluth Republican club. The gathering will be held in the West Duluth Commercial club rooms and a general invitation was extended yesterday to all the voters of the city, both Republican and Democratic, to attend the meeting.

### WILL CHOOSE HALL FOR NEIGHBORHOOD HOUSE.

At a special meeting to be held this afternoon at the home of Mrs. C. K. Kees, 705 North Fifty-seventh avenue west, the committee representing the West Duluth branch of the Women's Christian Temperance union will decide on the building to be used for the Neighborhood House in West Duluth. Norman D. McLeod, secretary of the Boy's department of the Y. M. C. A., will also attend the meeting and assist in putting the matter before the house after the final choice is made. The members of the union committee, attending the meeting this afternoon, are: Mrs. H. H. Phelps, chairman; Mrs. C. R. Kees and Mrs. W. F. Bailey.

The regular weekly meeting of the union branch was held yesterday afternoon at the home of Mrs. Florence Merritt, 2105 East Second street, but no action was taken on the matter by the members. It was left to the committee to decide this afternoon, and the choice now lies between the two halls at 208 and 220 Central avenue. The building chosen this afternoon will be furnished as soon as possible and active work started by the boys and girls departments of the Y. M. C. A. and Y. W. C. A. respectively. Both associations will have special representatives in charge of the work in the house, and the various clubs and clubs that will eventually be formed. The regular union business was handled at the meeting yesterday afternoon. The Crusade and Miss Willard. The annual election of officers of the West Duluth branch will be held March 7, at the Children's Home.

### HOPE TO GET ACTION ON RAILROAD DEPOT.

The announcement in yesterday's Herald that Northern Pacific officials inspected the railroad depot yesterday morning, pleased the residents and business men of this end of the city.

The road officials have been approached by the state warehouse commission following the special request sent to the commission by J. J. Frey, president of the Commercial club, who was appointed chairman of the committee representing the city. He told the commission of the present condition of the building and he received a reply that the matter would be investigated. The visit of the officials yesterday is held to mean that the state commission had looked into the matter and requested the officials of the road.

### NEWLYWEDS SURPRISED.

Mr. and Mrs. F. W. Joltz, 330 South Sixty-third avenue west, who returned yesterday morning from a short wedding trip after their marriage here two weeks ago, were pleasantly surprised at their new home last evening by a number of their West Duluth friends. The evening was spent in music and games and a large dinner set was given to the couple, following a light supper.

Those in the party were: Misses Anna Heinke, Gertrude Zabi, Helen Gertrude Dickey, Emma Jeska, Helen Stair, Esther Ott, Minnie Gudbeck, Louise Niville, Louise Newman, Gertrude Wentland, Lena Bartholdi, Elsie Jordana, Emma Brown, Onida Brown, Vera Schaaz, Gusta Kolakowsky, Ida Baranovsky and the Messrs. ### Annual Banquet.

West Duluth Council, No. 52 Royal Leagues, has completed arrangements for the annual roll call and banquet to be held next Tuesday evening at the lodge hall, 315 Central avenue. Letters have been sent to all of the members of the local lodge and a large number of out-of-town residents are expected to attend the meeting. A special musical program will be rendered during the evening by the members of the lodge.

### Monthly Meeting.

The Onseta Improvement club will hold its regular monthly meeting this evening at the Jerome Merritt school, Fortieth avenue and Central street. The officers of the club will read their annual reports for the year and plans for the next few months will then be made by the members. One of the features of the work planned for this year is the special study that will be conducted during the evening by the members of the club.

### WORKMEN DRIVE OUT THE COURT

Packers' Trial Has to Be  
Changed to Another  
Room.

Chicago, Feb. 16.—United States District Judge Clegg found it necessary to transfer the trial of the packers to another court room today because of noisy workmen engaged in the erection of a steel smokestack on the roof of the federal building.

It was the plan of the government to continue its inquiry into the business methods of Armour & Co. when court opened by resuming the direct examination of H. A. Russell, manager of the beef sales department of that company.

### BATHTUB TRUST MAN IS "SCARED"

Kelly Says One of Them Discussed Likelihood of  
Going to Jail.

Detroit, Mich., Feb. 16.—John A. Kelly, secretary-treasurer of the Iron City Sanitary Manufacturing company of Pittsburgh, yesterday in a sensational suit against the so-called bathtub trust by testifying that an officer of the alleged combine had discussed with him the "probability of going to jail" as a result of the license agreement entered into by the manufacturer.

A was scheduled to continue his testimony at the morning's session of the federal district court.

The Iron City company is one which refused to join the combine with the "trust," and Mr. Kelly was expected to give further details of the advances made by the combine to induce it to enter into the agreement.

## Y. M. C. A. FOR THE WORKERS

Industrial Department Trying  
to Invade a New  
Field.

International Secretary Is Investigating Conditions  
in Duluth.

To bring the work of the Young Men's Christian association closer to the working men of America, is the object of the department of which C. R. Towson of New York is the head.

Mr. Towson is in Duluth today. He is the secretary of the industrial department of the Y. M. C. A.

Up to a few years ago the association's activities were confined largely to the large cities, and to young men employed in business life and office work. In recent years it has been branching out and trying to get in closer touch with the men employed in the coal mines, the lumber camps, the textile mills, the iron and steel mills, and all the other large industries of the country. The work has been under the supervision of the industrial department, of which Mr. Towson is the head.

Mr. Towson came to Duluth to meet the local board of directors of the Y. M. C. A. A meeting will be held this evening, and the possibility of extending the scope of the local association's work will be discussed. The chief criticism heard in Duluth of the association's work was that it did not reach the men who needed it most, and this criticism has become public at times, notably when the hotel proprietors took it up and declared that the Duluth association was little more than a club for well-to-do young men.

Mr. Towson will not make any speeches in Duluth, but he spent the afternoon investigating conditions in the local association and looking over the field in Duluth, and this evening will consult with the board of directors.

## HOUSE MAY REFUSE TO LET AINSWORTH'S AFFAIR BE DROPPED

Special Committee Will Decide Monday What Action Shall Be Taken.

General's Retirement From Service Quashes Charges Against Him.

Request for Such Action Is Acted Upon Promptly By President.

Washington, Feb. 17.—The house committee on expenditures in the war department which recently conducted the inquiry into the political case of the late Gen. Frederick C. Ainsworth, is considering an investigation of the Wood-Ainsworth controversy, which resulted yesterday in the retirement of Ainsworth.

The committee will meet on Monday to take up the question. The extent to which the inquiry would be carried remains to be determined. No action in the case is anticipated by the regular house committee on military affairs.

Was Considered Closed. Before the possibility of an investigation by the committee, the Ainsworth incident, which today as generally regarded, was a closed book, was generally regarded as closed.

Gen. Ainsworth asked retirement under the disability law, having been on the active list thirty-seven years.

The house had been expected to order an inquiry into the Ainsworth case.

WILSON-CLARK TEST BEING MADE

County Democratic Conventions Are Held Throughout Oklahoma.

Oklahoma City, Okla., Feb. 17.—One of the first tests of strength between aspirants in the Democratic party for the presidential nomination, from which definite results may be obtained, is in progress throughout Oklahoma today.

County conventions are being held today, and delegates to next week's state convention are being elected.

Supporters of Clark declare they will have at least two-thirds of the delegates selected. Politicians who have been forwarding the campaign for Governor Wilson of New Jersey assert the Clark vote will be borne out by returns from today's conventions.

Clark adherents have pushed their county conventions campaign for specific instructions in favor of the southern-born Wilson, who has contented themselves by campaigning for headquarters in the capital today.

As the state convention will send a solid delegation instructed for Speaker Clark to the Baltimore meeting.

GERMANS LAUNCH NEW DREADNOUGHT

Twelfth Vessel of That Class Costs \$11,888,750 to Build.

Kiel, Germany, Feb. 17.—The new German battleship Prinz Regent Luitpold, the twelfth dreadnought of the imperial navy, was launched today in the presence of Emperor William and Prince and Princess Ludwig of Bavaria, as well as other members of the royal family.

The Prinz Regent Luitpold, which is practically identical with the battleships Kaiser, Kaiserin, Friedrich der Grosse and Kronprinz Albert, and which is to be launched in March, has a tonnage of 24,500 and is armed with ten 12-inch and fourteen 6-inch guns.

She has a speed of twenty-one knots and her turbines are adapted for the consumption of either coal or oil fuel.

## GEN. SEARS DROPS DEAD

Designer of Duluth Harbor Improvements Dies Suddenly at Boston.

Retired in 1908 After Continuous Service of Nearly Forty-six Years.

Boston, Mass., Feb. 17.—Brig. Gen. Clinton Brooks Sears, U. S. A., retired, died here suddenly last night on a trolley car. His home was in St. Louis, Mo.

Brig. Gen. Sears, who died last night at Boston, formerly was a United States army engineer stationed at Duluth. During his service here he designed and constructed the \$3,000,000 improvements in the Duluth-Superior harbor.

He was known then as major, and received the title of brigadier general on his retirement from active service on June 2, 1908. At that time he was president of the Mississippi river commission and senior member of the deep waterway board, appointed to report on the 31-foot waterway project from Alton to the Gulf.

During a continuous military service of nearly forty-six years, Gen. Sears executed many important engineering works, was judge advocate, member and president of many general courts-martial and a member of many engineering boards on river and harbor improvements.

He was stationed at St. Louis from July, 1896, until his retirement, as chief of the Mississippi river commission and in charge of the improvements between the mouth of the Missouri river and Cairo.

Born at Penn Yan, N. Y., June 2, 1844, at Penn Yan, N. Y. His father was Rev. Clinton W. Sears. He attended school at Springfield, Ill., Cincinnati and Urbana, Ohio, and the Illinois Wesleyan university at Bloomington. He completed the freshman course at the Ohio Wesleyan university.

He enlisted in the Ninety-fifth Ohio Volunteer Infantry July 24, 1862, as a private and was actively engaged in the field for fourteen months, through three campaigns. He was in both at the battles of Vicksburg and Vicksburg.

Mistake in Signal Makes Trouble and Shots Fail to Have Effect.

Wires Are Cut Too Late, But Amateur Highwaymen Escape.

Terre Haute, Ind., Feb. 17.—Robbers, who last night held up Train No. 11, a New York-St. Louis mail train on the Vandalia railroad at Liggett, Ind., failed to obtain any plunder, apparently through a mistake in signals among the bandits.

As the train approached Liggett, one of the band, riding the tender, pulled the bell cord. The signal was wrong, and when the train did not stop the robber climbed over the tender and began firing at the engine crew.

One shot knocked a cigar from the mouth of William Davis, the engineer. When the train was brought to a stop it was near a telegraph tower. The robbers heavily armed, rushed to the tower, but the robbers had escaped before the officers arrived. Bloodhounds have been given the trail.

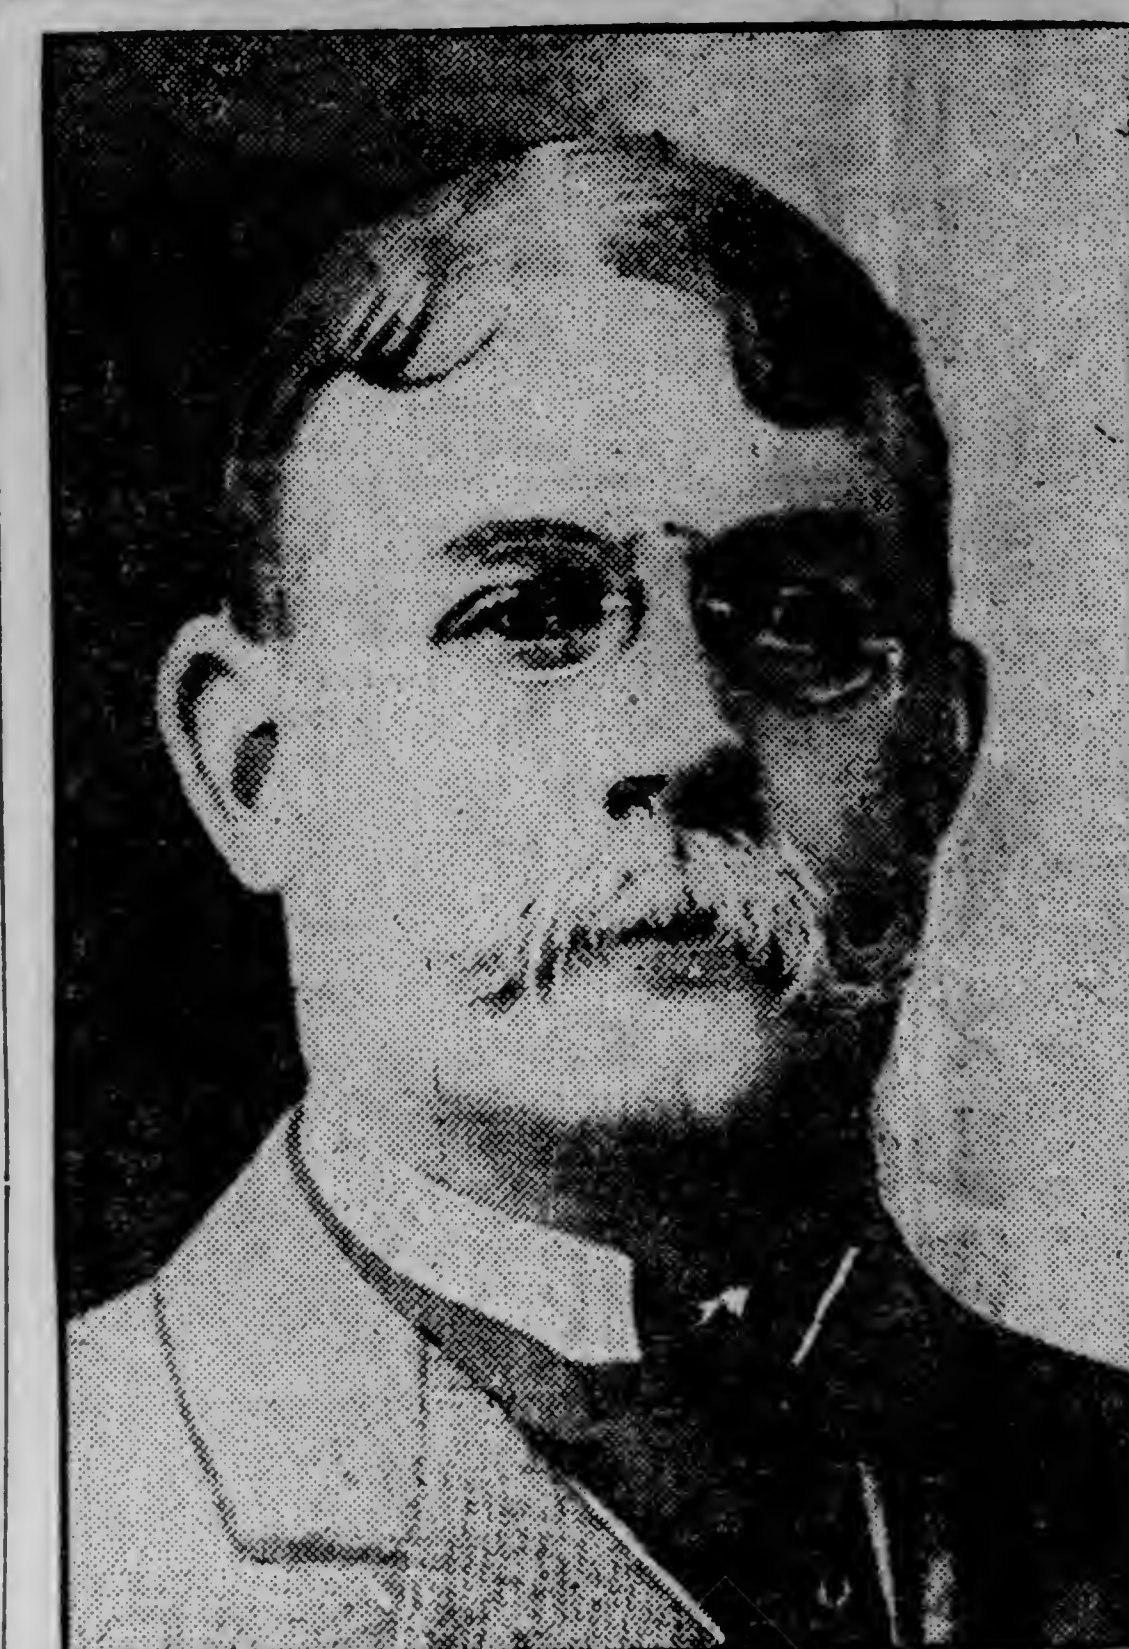

Sheriff Walsh of this city and the county sheriffs were rushed to Liggett, but the robbers had escaped before the officers arrived. Bloodhounds have been given the trail.

After a delay of more than an hour the train proceeded to St. Louis. It is believed that when the bandits failed to break into the train, they abandoned their attempt and fled.

CHINAMAN, \$200 IN DEBT, HANGS HIMSELF.

Pendleton, Ore., Feb. 17.—Believing himself disgraced because forced to enter the Chinese new year with a debt of \$200, Wang Tze, an aged Chinaman, ended his life today by hanging.

## BAR MEN FROM WASHINGTON DINNER

Colorado Republican Women Want Banquet to Themselves.

Denver, Colo., Feb. 17.—Men are to be excluded from the Washington's birthday banquet of the Woman's Republican Club of Colorado, according to announcement made here today. But, say the women, near the close of the program the men may come for their wives and if the program is not finished cigars will be furnished them while they are waiting.

## MOTOR BANDITS SLUG MEN OPENLY IN GOTHAM STREETS

Police Are Helpless to Stop Work of Hold-up Men.

New York, Feb. 17.—A police dragnet thrown over the city has so far failed to entrap the gangs of automobile bandits who have within a week blackjacked their victims in the open streets and made away with booty aggregating many thousands of dollars.

The series of robberies, holdups and murders within the last month has caused general consternation in the police department, and Police Commissioner Waldo has summoned back to detective work all the old-time sleuths who some time ago were transferred to patrol duty.

The police are absolutely without clues in the holdup last night of George Horth, a diamond dealer, who was blackjacked and robbed of \$10,000 on West Thirty-fifth street, while scores of people were passing along the thoroughfare.

The robbers escaped in an automobile. Oddly enough, the detectives were unable to find a single witness to the robbery.

In Abraham Sobel, arraigned today, the detectives believe they have a man who can throw light on the holdup on the Bowery last Saturday of Irving Bernman. Sobel is a chauffeur.

DISTINGUISHED PARTY SAILS FOR PANAMA.

New Orleans, La., Feb. 17.—Baron Hengelmüller von Hengervar, Austrian ambassador to the United States, and Countess Motke, Capt. de Chabrun, attaché, and Mrs. Nicholas Longworth, mother of Congressman Longworth, Miss Josephine Fatten of New York, and Robert B. Roosevelt sailed today for Panama. They will return to Washington via Cuban ports.

IT ALL DEPENDS ON THE POINT OF VIEW.

OUR LITTLE PETER PERCIVAL IS GETTING TO BE QUITE A BOY. WE THINK HE WILL MAKE A GREAT MAN. HE IS SO GOOD, KIND, CONSIDERATE AND SO HONEST IN ALL HIS DEALINGS WITH HIS LITTLE PLAYMATES. HE WRITES HIS NAME VERY NICELY AND CAN COPY ALL KINDS OF NICE PICTURES—ALL THE NEIGHBORS AND OUR FRIENDS SAY HE IS THE BEST MANNERED CHILD THEY HAVE EVER MET. HIS FATHER SAYS HE WILL MAKE A SENATOR SOME DAY. BUT I THINK HE WILL SURELY BE PRESIDENT. HE DOES NOT LIKE ODDS OF TOBACCO AND SAYS HE IS GOING TO BE A PROHIBITIONIST. WHEN HE IS ABLE TO VOTE.

## WRECKED BY WRECK TRAIN

Pennsylvania Limited in a Smash-up—Five Trainmen Killed.

No Passengers Hurt in Accident Near Fort Wayne, Ind.

Fort Wayne, Ind., Feb. 17.—Five men were killed and eleven injured at 5:40 this morning when Pennsylvania Limited No. 5, westbound, dashed into a wreck train at Larwill, Ind., twenty-five miles west of here. No one aboard the Limited was injured except a baggage man.

The wreck was due to the fog, which was so dense that a flagman sent back from the wreck train was not seen by the engineer of the Limited. The wreck train had been stopped by a trackman who reported a broken rail ahead, and while the investigation was in progress the Limited dashed into the caboose of the train ahead.

The wreckage caught fire and two of the dead were burned beyond recognition. Two or three of the injured may die. The dead are: F. SPOLTMAN, A. BAILEY, FRANK WIGGINS, P. DOBERKAL, and one of the railroad employees and lived in Fort Wayne.

Except for a shaking up, none of the passengers on the Limited was hurt.

MILWAUKEE MURDERER GETS LIFE SENTENCE.

Milwaukee, Wis., Feb. 17.—John Nagel, convicted of the murder of Stephen Berger, was today sentenced to state prison at Waupun for life.

## HOUSE COMMITTEE IS CONVINCED THAT SUGAR TRUST EXISTS

DENOUNCES METHODS OF "FINANCIAL MAFIA"

ROBERT LEE HENRY Of Texas, Chairman of the Rules Committee of the National House of Representatives.

## HENRY FLAYS MONEY TRUST

Talks of "Black Hand Methods of the Financial Mafia" in America.

Texas Warns Congress Not to "Swallow Aldrich Plan" Hastily.

Washington, Feb. 17.—Representative Henry of Texas, chairman of the house rules committee, made a sensational speech in the house today in which he attacked the money power in Wall Street and demanded an inquiry into the "Black Hand methods of the financial Mafia" in this country.

Henry and William J. Bryan himself, who were very spirited, almost bitter.

"Is it not true," asked Henry, "to inquire into those Black Hand methods of the financial Mafia, which exist in this country?"

He also attacked the money monopoly in Wall Street, and assumed that no "effective investigation can be made into the ramifications of either currency legislation, the trust or interstate commerce corporations, until Congress understands the methods of the financial Mafia."

## U. S. CRUISER ON MYSTERIOUS TRIP

West Virginia Sails From Honolulu, Ready for Long Cruise.

Washington, Feb. 17.—The destination of the armed cruiser West Virginia, which sailed from Honolulu yesterday, still is unknown outside naval circles. The vessel was fully loaded and provisioned for a long trip, but it was said her destination is neither China nor Mexico, however.

TODAY IN CONGRESS

SENATE. In it session meets Monday, 2 P. M. Further protests to finance committee against tariff reductions made in house steel bill. Commerce bill of leading bill was advocated before interstate commerce commission.

HOUSE. Net at noon. Representative Henry, in a sensational speech, attacked Wall Street money power, and demanded an inquiry into "Black Hand methods of the financial Mafia."

Hardwick "sugar trust" investigating committee submitted unanimous report stating monopoly keeps up price of sugar. War department expenditures committee may inquire into suspension and retirement of Adj. Gen. Ainsworth from army. Agreement to begin debate on chemical tariff revision bill Monday.

Report Is Signed By All Members, Republicans and Democrats.

Makes No Recommendations, Leaving That to the Regular Body.

Repeated Violations of Sherman Law Charged to Refiners.

Washington, Feb. 17.—The Hardwick "Sugar trust" investigating committee, after many weeks of open hearings here and in New York and almost continuous work since last May, reported to the house today that a sugar trust exists.

The report, which is signed by all the members of the committee, Republicans as well as Democrats, makes no recommendation whatever as to how the alleged trust and those responsible for it shall be dealt with, suggesting that this phase of the situation is to be handled by the standing committee of the house.

As to the effect of the combine on the cost of sugar to the consumer, the committee expresses the belief that monopoly keeps the prices up, but makes no attempt to fix accurately the extent to which reasonable prices that might exist under competitive conditions.

HAVE FLAT FOOT; THEY SQUINT, TOO

Wisconsin Freshmen Show Increasing Percentage of Physical Defects.

Madison, Wis., Feb. 17.—cent of the boys who enter university of Wisconsin last year had round shoulders and 30 per cent had defective eyesight. They were not aware of and consequently had not corrected by the use of glasses.

These statistics show a marked increase in physical defects of students entering the university during the last four years. The freshman class three years ago had 18 per cent of its young men afflicted with round shoulders, and last year's freshman class, 30.8 per cent. Three years ago 16.6 per cent of the freshmen boys had defective eyesight, and last year, 29 per cent.

Flatfoot on the increase. The remarkable increase of flatfoot among freshmen is the most noticeable thing being shown by these statistics. Three years ago only a little over 3 per cent of the young men had flat feet, while this year's class had 24 per cent afflicted with it.

The number of young men having one shoulder higher than the other, due to improper use of standing and sitting, has also greatly increased. Three years ago 5.2 per cent of the freshmen had unequal shoulders, while this year 23 per cent were found to be thus afflicted.

All freshmen physically defective are given special corrective exercises.

TVEITMOE TALKS TO GRAND JURY

Threat of Contempt Proceedings Loosens Tongues of Labor Men.

Los Angeles, Cal., Feb. 17.—After contemplating contempt proceedings against Olof A. Tveitmoe, Anton Johansson and E. A. Clancy, labor leaders of San Francisco, because they refused to answer questions before the grand jury relating to federal indictments charging them with illegal transportation of dynamite, county officials changed their tactics yesterday and altered the interrogations so that they were unobjectionable to the witnesses.

At the close of the morning session a deadlock existed between attorneys of the district attorney's office and the witnesses. The latter refused to answer questions which concerned the conspiracy charges returned against them by the federal grand jury, and the county officers contemplated legal proceedings against the labor leaders.

During the recess the witnesses conferred with their attorney, Job Harriman, who returned with them to the courthouse in the afternoon. By that time the deputy district attorneys had decided to change their questions. The county witnesses answered all that were asked him, and was excused until Tuesday.

Johansson and Clancy were told to report on Monday, when they are expected to answer all interrogations that do not relate to the federal indictments.

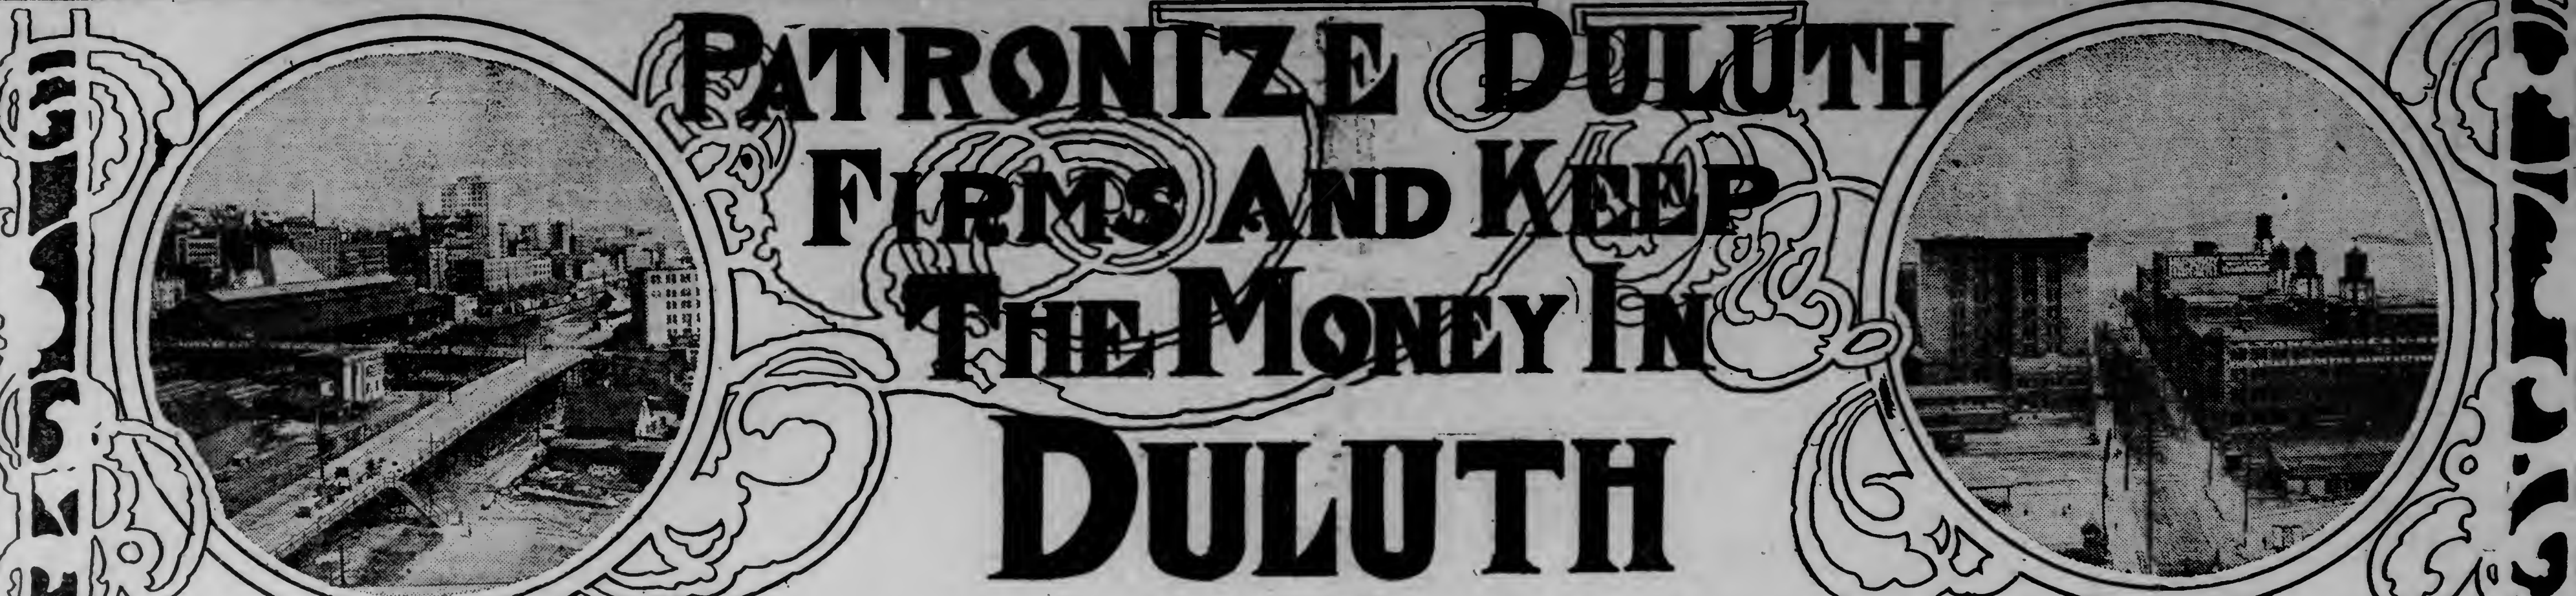

Saw the McNamara. A detective employed by the agency which caused the arrests of the McNamara, returned from a visit to San Quentin where the brothers are confined. McLaren said that James B. McNamara had lost twenty-five pounds since he arrived at the prison, but that John J. was growing stouter.

## MRS. KIMMEL ENDS STORY

Defense Calls Its First Witness in the Missing Man Case.

Mother Fails to Recognize Authenticated Picture of Son.

St. Louis, Mo., Feb. 17.—The reading of the deposition of Henry T. Kimmel, father of George A. Kimmel, who disappeared in Arkansas City, Kan., in 1894, closed the plaintiff's case in the suit of the receiver of the Bank of Niles, Mich., against an insurance company for the insurance of Kimmel.

The father, who has not lived with his wife for thirty-nine years and has not been east of Chicago in that time, deposed that he was not benefited as the claimant, Andrew White, had claimed.

Mrs. Estelle Kimmel, the mother of the missing man, underwent a severe cross-examination soon after the opening of court. Her direct testimony was not shaken.

**Defense Calls Witness.**

R. M. Snyder, Jr., of Kansas City, was the first witness for the defense. He was prepared to testify that he had

announced to attack the testimony of John E. Swinney, who testified that K. M. Snyder, Sr., and he were present when Kimmel was killed in Oregon.

Kimmel, if living, would be 46 years old today. He was 31 years old when he disappeared.

At White of Arkansas City, Kan., was in court ready to succeed Snyder and testify that the claimant was "Turkey" White, a tramp railroad man.

"Mother love, or money love," was the question put by counsel for the defense to Mrs. Kimmel when the lawyer reviewed in cross-examination her statement that she would rather have her son back than all the millions of the insurance company.

**Wants Her Son Back.**

"You said you would like to have your son back," she was asked. "Do you mean you would like to have back your son in his former manly vigor, but not this convict who has been stained with crime and his body and mind marred by disease?"

"I want my son back as he may be," the mother responded earnestly, "with all the infirmities or deformities that may accrue with years; but I don't want a convict who does not resemble my son in a single feature."

"Was it mother love or money love?" the lawyer then asked. "What about you from going to this man for three years?"

"I didn't believe him my son," she replied.

She had explained by saying the Montagues and the Hunts, who had seen the man, convinced her that he was not her son. She emphasized the fact that she went on a pleasure trip to Europe with her son, while the man was in Matteawan, and sought to show that she might have stopped on her way home.

Her reply was that she took the steamer at Matteawan and went through New York state on her way.

The route, she said, was not of her planning, as she went with a party. Counsel showed her a newspaper picture, a reproduction of a photograph, and asked her if she recognized it as her son's picture. She looked at the picture and said:

"I should say most emphatically not."

Attorney McIntosh then pointed out that the picture was taken from plaintiff's exhibits and was a halftone copy of an authenticated photograph of Kimmel.

## PUTS BLAME UPON LEUPP

Farr Says Commissioner's Acts Cost the Indians \$600,000.

Says Gust Beaulieu Stirred Up the Indians at White Earth.

Detroit, Minn., Feb. 17.—(Special to The Herald.)—Joseph Farr, former general superintendent of logging in the congressional committee hearing of the charges of fraud in connection with White Earth reservation affairs, today charged the Indian department, and especially F. E. Leupp, commissioner of the department under President Roosevelt, with the loss of \$600,000 to the Indians of the reservation which followed the Clapp act of 1906.

He told the committee today that he had given information to the department which should have guided the department in its attitude toward the Indians.

Farr declared that the rejection by the department of the 1905 bid of Fred Herick of Wisconsin for reservation timber was in the interest of the Minnesota timber ring, and part of a plan to get the land directly in the hands of the Indians where it could be bought for "its value."

**Head Letters From Leupp.**

He read letters which passed between himself and Mr. Leupp prior to the opening of bids, and declared that which was not true, but which was to be opened Sept. 5, 1905, he advised the department that thirty days' notice was not sufficient and that the Minnesota companies wanted the bids opened before the outside companies had an opportunity to investigate and make bids.

A letter from Mr. Leupp during this period asked of Senator Clapp's calling upon him and objecting to the plan for selling timber. In this letter Mr. Leupp said he would threaten and intimidate a few statesmen who were in the way of the plan.

After the letter had been read Representative Henry C. Burton, of Michigan, who had made these threats, said: "I think Gust Beaulieu has thrown some light on that," was Mr. Farr's answer.

**Accused Gus Beaulieu.**

Mr. Farr also said that when he wrote to White Earth on Feb. 10, 1905, bidding day, he found Gus Beaulieu and other mixed bloods, denouncing and stirring up opposition among the Indians. Gus Beaulieu introduced testimony which tended to support him in a number of assertions he has made during the session. Some of the witnesses called by Mr. Beaulieu against whom many of the thrusts of the government has been aimed, were William O'Neill, superintendent of the logging on the ceded Chippewa lands; Edward Warren, a timber buyer of the Nichols Chisholm company, but now a resident of White Earth.

Mr. O'Neill expressed the belief that the Indians had been misled by the government. He would tend to make them independent of the government.

Mr. Beaulieu, however, was not satisfied to show that incompetent estimation of the value of the land had led to the sale of timber, and only the disapproval of the bid had induced the Indians to purchase at such prices.

**Backed Burck Story.**

Mr. Fairbanks supported Mr. Beaulieu's assertion that Mr. Burck, attorney for the Indians, had stated before any of the suits which now affect more than 100 Indians, were commenced, that he would help the defendants, and settled as many of the cases out of court as possible.

**YUAN SHI KAI WILL ACCEPT \$5,000 Bond Has Not Been Raised By His Friends.**

In spite of determined efforts on the part of his relatives and friends, Yuan Shi Kai, arrested Wednesday in connection with the Indianapolis dynamite cases, has as yet failed to raise the \$5,000 needed for his temporary release.

N. S. Hillman of Two Harbors, it is understood, has offered for \$500 the total amount, and others are trying to qualify before Commissioner Presson this afternoon.

W. E. McIlwain will furnish a part of the money. Yuan Shi Kai has been held in the federal prison since the arrest of his brother, who was held in the federal prison since the arrest of his brother, who was held in the federal prison since the arrest of his brother.

**Supernatural Power.**

The princes of the imperial court are hesitating Yuan Shi Kai not to leave Pekin, fearing something will happen to the court, which trusts only to him for its safety and fulfillment of the pledges given by the republicans.

Yuan Shi Kai seemed much less worried than he has been for some time. He apparently believed that the question of choice of a capital, he has issued orders for the northern army to cease its opposition to the republican troops, who are now permitted to enter the northern lines with freedom.

**BURNING SPELLS.**

Times of India: It is stated that the Burman highly prizes the following gems: ruby, diamond or crystal, pearl, coral, topaz, sapphire, cat's eye, amethyst and opals.

They ward off sickness or danger. The cat's eye is supposed to secure invulnerability in war. Incantations are muttered over some or all of these stones, and the wearers are immersed in a tank of water. Spells are uttered over rubies and they are inserted as amulets in the flesh of the wearer.

Another curious belief of Burmans is connected with the weapons of the Vedic period. These weapons are found in Burman and which are believed to be the weapons of the gods.

From the sky. They are supposed to possess medicinal properties, especially in the cure of appendicitis, which is called "rainbow disease." As in nature, a rainbow is supposed to be destroyed by a thunderbolt, so much pain is believed to be relieved by drawing a stone or a bronze weapon across the part affected.

## DICTOGRAPH USELON RYAN

Government Agents Have Had One Attached to His Desk.

Instrument Is Removed When Discovered By Iron Workers.

Indianapolis, Ind., Feb. 17.—The fact that for days the government has had a dictograph in the office of the International Association of Bridge and Structural Iron Workers here and has taken reports of conversations of President Frank M. Ryan and others in connection with the dynamite conspiracy became known today.

Government agents this afternoon, after hearing that the iron workers' officials were aware of the dictograph, entered Ryan's office and took out the instrument, which had been attached to the end of a drawer in his desk.

Ryan declared he was not aware that his conversations were being overheard.

**There for Weeks.**

Assistant District Attorney Clarence Nichols admitted that the instrument had been in Ryan's office for several weeks, but he placed there by government agents at night.

The wires from the dictograph were connected with a downtown office away from the federal building, and two stenographers recorded what was said by Ryan and his associates, particularly since the arrests of the men for conspiracy in the dynamite conspiracy.

Today a stenographer reported she had heard a woman's voice over the dictograph. "Well, I guess they are hearing now what we say."

This convinced Mr. Nichols that the iron workers were aware of the dictograph and agents were sent to recover it.

It is said the government has reports of conversations between Ryan, Herbert S. Hocking and E. J. Barker, first vice president, and their attorneys.

## FAILS TO CHEAT LAW BY DEATH

Le Sueur Center Man, Who Shot Wife's Mother, Is Arrested.

Le Sueur Center, Minn., Feb. 17.—Henry Scheffert, for whom a posse was sent out yesterday, after the shooting of Mrs. Carl Gentz, his mother-in-law, and an attempt on the life of his divorced wife, was captured late last night on the farm of Frank Shippin, after he had shot himself, but had not time to die.

It is thought he will recover. Scheffert appeared at the Gentz home, where his wife was lying, saying early in the day, and according to the Duluth News, he was saying, "I am just as she felt her room. He shot twice, one bullet taking effect in her arm and another in the breast."

Scheffert's wife, it is said, leaped from a window and Scheffert followed her, shooting her in the back.

He then escaped. Mrs. Gentz probably will recover.

## SUPERIOR

Night School Classes.

Three more weeks remain to the ten weeks course of night school instruction that has been conducted at the Superior high school by the board of education. There are 165 pupils taking the various subjects.

**Organize Wisconsin Clubs.**

To organize a league of all executives of Commercial bodies of the state is the move now on foot and being propagated by the secretaries of the various clubs. Secretary Lewis of the Commercial club has been requested to give his opinion on the matter by the Commercial club at Madison. He is in favor of the plan and if the league is formed, he has suggested Superior as the first meeting place.

**Practice Folk Dances.**

The first class in folk dancing has been organized in the Superior public schools by Mrs. Savage, who is here from the East to increase interest among the children in the old national dances. The class will meet at 7 o'clock Monday evening at the Blaine school.

**Woodmen Appoint Delegate.**

Judge F. S. Parker was last evening appointed to represent the Superior Woodmen at the national meeting of protest called by the insurgent force who oppose and condemn the proposed upward revision of the rate fixed by the charter of the Woodmen.

The meeting will be held at Minneapolis, Feb. 22 and 23 and will be attended by all over the country who are present.

## MINNESOTA UNIVERSITY

**Junior Ball One of the Most Successful Ever Given.**

**Annual Meeting of Alumni Association to Be Held Feb. 19.**

Minneapolis, Minn., Feb. 17.—(Special to The Herald.)—The Junior ball, which was held at the Leanington Wednesday night, proved a huge success and was thoroughly enjoyed by the brilliant assemblage. Everything was complete to make the affair one of the most successful balls ever given. Decorative programs, refreshments and entertainment fitted into one harmonious whole.

The ball room was decorated with flower baskets containing ferns and roses, which hung from the ceiling. The lamps were shaded with colored shades which blended with the regular color scheme. The dining room was decorated with palms and at each place on the tables, in the shape of a red silk heart shaped candy boxes, filled with dainty red and white hearts were found. The lights were dim and illumination was furnished by candle-bra on the walls and shaded candle sticks on each table. When the screens between ball room and dining room were removed the tables presented a beautiful spectacle with the colored shades and heart shaped favors.

The programs were very artistic, those of the ladies being finished in white leather with J. B. embossed on the front cover, the seal of Minnesota being found on the back cover. The men's programs were gray marbled leather with gray chords, and J. B. was embossed on them in maroon and gold.

Amusement was afforded by a trio of colored musicians at one end of the lobby who attracted the dancers by their clever songs and dances. Billiards also attracted many so that the various amusements kept the ball room from becoming too crowded.

Among the Duluth students who attended the ball were Misses Beatrice Flynn, Ruth Hobbs and Dorothy Davis; Messrs. William Hinkley, "Bob" Ely, Dean Coventry, John Jenswold and Leonard McHugh.

The ninth annual meeting of the General Alumni Association of Minnesota will be held Monday, Feb. 19, at 6 o'clock at Donaldson's restaurant. President Vincent will be toastmaster. The general topic for discussion will be "Alumni anti-alumni aggregation."

A proposed constitution for an all university student council will be put up for ratification on the next day. The constitution is merely a working basis for a council and as the whole function of the council should not be determined at the present time, the powers are not being given to the council. There is a plan for such a council as has been shown by the prominent part which such councils have taken in nearly all of the larger colleges in the country. If the constitution is ratified at the polls tomorrow, elections will be held for positions on the council in about two weeks.

Two acts of the senior class play are completed. The committee has set the first week after Easter vacation for the first reading of the play before the class. The play which is to be called "The Girl from Ayrshire" will be a drama and not a musical comedy as formerly planned. The scene of the first act is said in the university postoffice and the whole is said to be full of local color. The cast calls for six leading characters with many subordinates. There are also several choruses.

Miss Beatrice Flynn of Duluth was a visitor at the university. She and Miss Flynn attended the junior ball and while here was the guest of Miss Gladys Segoe.

**DAMAGES GO TO INSURED INTEREST**  
Commerce Commission Makes Important Ruling in Minneapolis Case.

Washington, Feb. 17.—In deciding a case of comparative insignificance, the interstate commerce commission has laid down the principle that an award of reparation should be made only to the person actually damaged. A grain elevator in Minneapolis was damaged by a fire on the Chicago and Northwestern railway. The charges exacted by the road were paid by the insurance company. The commission held that the full amount to a customer.

Later the commission house demanded a restitution of the overcharge from the railroad through a proceeding before the interstate commerce commission.

The commission condemned the excessive rates exacted, but refused to grant reparation to the shipper because he had not been damaged.

**WICKERSHAM FOR FEDERAL CONTROL OF CORPORATIONS.**  
St. Louis, Mo., Feb. 17.—Attorney General Wickersham addressed members of the commercial club here last night, and advocated federal control of corporations as the next step to be taken in dealing with the trust problem. He began his address with reference to business conditions in the thirteenth and fourteenth centuries. He said that the growth of business in this country through the period of railroad building, and described the abuses of the railroad business which led to interstate commerce act in 1887, which he said resulted ultimately in a victory for the people.

## News and Views of Minnesota Politics

**Opposition to Eberhart.**  
Via the air currents that radiated from Minneapolis this week comes the information that Governor A. O. Eberhart had hardly a friend in camp at the meeting of the State Editorial association.

With very few exceptions the editors reported that their counties were for any other candidate were less numerous, but the Gordon sentiment was much more pronounced than that for William E. Lee, the other avowed candidate. The rank and file delegates, however, but has not as a rule, rallied around any of the anti-Eberhart candidates.

The race settles down to Gordon, Eberhart and Lee, Gordon would seem to have the best chance of attracting the strength of the new non-committee. The Browns Valley man is popular with all who hold his views and campaign gets under way. The Lee announcement has not aroused much great degree of enthusiasm, and what his speaking tour will develop is problematical.

A movement is under way to have for any other candidate, Eberhart is a danger in the eyes of the politicians. The defeat of Eberhart, the man without the tool, would avail the state nothing. To alter conditions, the machine must be broken up and cast into the scrap heap.

The power of the machine is not dense, neither is it beyond using tricks. Neither is it beyond using tricks. Neither is it beyond using tricks. Neither is it beyond using tricks.

Delegations instructed against Eberhart, but not for any other candidate. The power that would provide a fruitful field for machine manipulation. The powers that would provide a fruitful field for machine manipulation.

Some time ago it was pointed out that a dark horse might develop in the convention. If Eberhart's defeat appears certain, any dark horse that is trotted out should be carefully examined.

The machine may bring out a candidate who looks all right on the surface. He may not be generally known, but he may not have a political past by which he may be judged. He may be all right at heart, but if the interests bring him out, he will be amenable to their influence. A candidate without positive principles is the last man in the true Progressives want as a candidate for governor.

**Spokane's Ambitions.** Up the lightning rod and praying for the flash from the political skies. Any political candidate that would protect the man from Morris into the field as a candidate for governor would be warmly welcomed by him. He may bring about the development himself, for the probability of his nomination has not disappeared.

Mr. Spooner's friends would like to have him run for congress against Andrew Volstead in the Seventh District. He has a long time to hold down the chair that A. O. Eberhart occupies in the executive offices in the capitol. He is hoping that Gordon, Lee and Eberhart will be so busy that the nomination of any one of the trio is impossible and that his chance will come. The disappointment is keen.

## OUTING OF THE EDITORS

**Invitation of Duluth Enthusiastically Received at Minneapolis Meeting.**

**Better Feeling Between Northern Minnesota and State Press Will Result.**

The invitation of the Duluth Commercial club to the Minnesota Editorial association to visit Duluth on the summer outing this year was received with enthusiasm by the editors in session at Minneapolis Thursday and Friday.

In his annual address, President Sam Y. Gordon, recommended a "See Minnesota First" trip to Northern Minnesota and recommended that as many editors as possible join in the outing this year.

The visit of the editors is a matter of importance to this section of the state. Northern Minnesota is much misunderstood and the trip will be an eye-opener to the editors. The editors will go away with a better understanding of the conditions here and a greater respect for Duluth and Northeastern Minnesota than some of them now have.

Peter Schaefer, editor of the Ely Times was elected second vice president of the association and so will be the editor of the association of the local arrangements for the editors' outing. The Commercial club, which has been the host of the editors' outing, and the range towns will also join in giving the editors of public opinion a time that they will remember.

**PROGRAM OF CONVENTION**  
Retail Grocers of State Will Assemble in Duluth Next Week.

The official program of the three day convention of the State Association of Retail Grocers and General Merchants of Minnesota, to be held in Duluth, Feb. 20, 21 and 22, in the banquet room of the Spalding hotel, has been announced.

The convention will be called to order at 10 a. m. Tuesday by President J. W. Cumming of the Duluth Grocers' association. President Cumming will welcome the delegates and turn the convention over to George H. Filbert, state president. The program follows:

Abolishes Third of Cavalry and Extends Enlistment Period.

Washington, Feb. 17.—With the avowed intention of putting an end to friction that for years has existed between the officers of the line and those of the staff, the house has adopted an amendment to the army appropriation bill consolidating the divisions of the chief of staff, the adjutant general and the inspector general under one head, that of the bureau of the general staff. The chief of staff would be the direct head of the bureau of enlistment in the army from three years to five years, by a vote of 106 to 134.

The army bill finally was passed by the house, after a fight lasting several days.

## A PUBLIC MORGAN.

The Minneapolis Journal, following a suggestion from the Wall Street Journal, weaves rather an ingenious argument for the central reserve association plan of the national monetary commission. It points out that to all intents and purposes J. Pierpont Morgan is now a central bank. It is practically admitted that the threads of his influences are so intricately intermingled in the fabric of business and finance that, financially if not industrially, he is master of this land.

When the stock exchange needed salvation during the panic of 1907, it was Morgan who came to the rescue—doubtless at a substantial profit to himself. He has come to the rescue on numerous other occasions. Why, the Journal asks, should a public Morgan be provided through the proposed Central Reserve association? Then the country will not need to rely for its security on the will of a single individual.

The strongest argument for the Aldrich plan lies in the fact that there is in this country today not only a "money trust" but a central bank, that name of each of these being Morgan, and that the proposed reserve association will take over the functions now performed by Morgan and perform them in the public interest.

The only thing the average citizen wishes to be sure of is that these functions WILL be performed in the public interest. He wishes to be assured that no Morgan will dominate, either directly or through the power of his masses of money and influence, the doings of the association. That assured, the monetary commission's plan, even when labelled the "Aldrich plan," is going to be popular.

And it is a certain thing that some people, sooner or later, are going to ask, as ex-Governor Folk of Missouri has asked: "Why, if the government is to lend its sanction, its moral support and all its money to this reserve association, should it not be made a government institution in fact as well as in name?"

Mrs. Walter Eckersall has been granted a divorce on the ground of cruelty. Evidently Walter didn't give up his specialty when he left the football field.

## THE LEAP YEAR TRADITION.

The calendar and the solar year lack so much of perfect "justification" to each other that there is a little piece left over each calendar year, which is laid by to accumulate until it amounts nearly to a day, which it does every four years, when we have leap year. But it doesn't, in that time, amount quite to a day; and the discrepancy is permitted to accumulate until it, in turn, amounts to a day, which it does every century or so, and then comes a year, divisible by four according to the rule, but not a Leap Year. This year, being divisible by four, is Leap Year; and February has twenty-nine days instead of twenty-eight. Nineteen hundred was divisible by four, but the supply of surplus parts of days left over from the calendar years had run out, so it wasn't a Leap Year.

Just why people should have adopted the tradition, or superstition, or joke, or whatever it is, that women have the privilege of proposing in Leap Year is not clear. Just why the tradition, superstition or joke should have persisted so long is no clearer.

There is no reliable evidence that any woman ever proposed to a man because it was Leap Year. There is no thoroughly trustworthy evidence that any woman ever proposed to a man in any year; though there are profound suspicions on that subject. We know a man—a single man, of course—who asserts stoutly that however it may have seemed, it never really happened any other way; that women always propose. He says that men naturally are timid about proposing. Perhaps this is mere bashfulness; perhaps it is some hereditary instinct that warns them against matrimony. This man, who has got so far along without accepting a proposal from any woman that there is hardly any danger now that his single blessedness ever will be shattered, inclines very strongly to the latter theory. He says it's kind Mother Nature warning man of deadly peril. However that may be, he holds that, generally speaking, no man would ever propose—"come to the scratch," he unfeelingly puts it—without skillful management by the woman in the case. He does not say that any woman says to any man: "Will you be mine?" He declares she deliberately leads him on, and then says: "Oh, how sudden!"

Manifestly, this man's lack of experience utterly disqualifies him for testifying, and we present his point of view only for its novelty and absurdity.

Really, it might be a good thing if women were freer to propose, and if every year, in that sense, were Leap Year. It would cut the heart out of old style romance; but then it would clear the way for a new style of romance. At the age when most people marry, however, the judgment or instinct of selection is likely to be better in the man than in the woman; and it is safe to say that quite as many happy marriages would come out of such a custom as come now out of the custom which re-

stricts the right of proposal—except, theoretically, in Leap Year—to men. The chief trouble in this idea lies in the extreme difficulty of refusing a woman anything—before you are married to her.

Woman has gained, in a large measure, legal and social equality with man. She is about to gain political equality with him, too. So it is impossible to tell how it may be in the future. Given legal, social and political equality, what more likely than that matrimonial equality will follow? In which event the Leap Year tradition may not only become a real practice, but it may spread over all the other years between.

These are times of change, and he is a hazardous prophet who will attempt to set a limit on the changes that may come.

Another question: Do the Chinese like rag-time?

## VANITY AS AN AID TO SAFETY.

The people who own the street car line in Greeley, Colorado, have either a mistaken idea of woman-kind or a devilish ingenuity that almost passes understanding.

For years they, like other owners of street cars, have tried to educate women into the practice of getting off cars in the right way. If you get off backward while the car is in motion you get a vivid illustration of the principle of momentum. When your feet strike the ground and stop, while your body, still feeling the effect of the car's forward motion, keeps going, you are sure to come a cropper, and you are in luck if you escape with nothing but bruises and a practical lesson in physics.

And women, almost invariably, get off the car in just that way.

Some men do, too, but mostly it is women who subject themselves to this peril. Street railway managers have put up placards and written articles to warn women against this danger until they have almost exhausted their verbal resources, and all without appreciable effect.

It was left to the street railway company of Greeley to try a new method.

They have put mirrors on the forward side of the exits on all their cars.

The purpose of this is plain enough. If woman is as vain as they say she is, invariably, when she gets off the car, she will turn to face this mirror to see if her hat is on straight and if the powder is evenly distributed. Thus she is unconsciously placing herself in the proper position for getting off the car safely.

Of course if she should turn to see whether her gown is buttoned up in the back as it ought to be, the device will fail to work; but that is something they had to run chances on.

Very likely some will see in this ingenious plan a reflection on women, who are supposed to be consumed with vanity, a sin which men are supposed to be free from. We are not so sure that this will be the right view to take of it. Women have a good deal to be vain about, and they may be forgiven if they know it. Man, who hasn't much of anything to be vain about, is nowhere near so free from vanity as he thinks. If anybody fancies that those street car mirrors are going to be used exclusively by women, he is mistaken. Greeley is a long way off, and demonstration is a little difficult, but we wish somebody would get aboard a Greeley car and ride on it all day and then publish some statistics.

If he wouldn't report that there was about as much fond curling of moustaches, smoothing down of hair, adjusting of neckties and patting of padded coat shoulders into place as there was of feminine examinations and self-attentions of a similar nature, we are greatly mistaken.

Maybe Teddy is waiting till the daisies bloom, so he can pull off the petals and say "I will, I won't."

## THE WIFE'S SPENDING MONEY.

Recently a judge in Providence, R. I., handed down a decision that a wife has no right to rifle her husband's pockets for spending money, and that if she does the husband has a right to slap her.

Amazing freak of justice, this! That judge cannot complain if his decision arouses burning curiosity about his own matrimonial circumstance and about how he treats his wife.

Somehow, that decision doesn't fit comfortably into our sense of justice. In the first place, though we will admit that we haven't tried very hard, we find ourselves unable to admire or approve the man who will strike his wife, whether it be with a hickory club, the flat of his hand or with a barbed word. The admissible possibility of provocation doesn't help a bit. There is no provocation that will excuse a blow.

In the second place, we are also unable to admire the man who is so mean and penurious that he forces his wife to rifle his pockets for her spending money. It is true, possibly, that there are wives who would take and spend all you could give them, and then would slip around in the night and go on a foraging expedition through your trousers pockets. These, of course, are exceptions; more surely exceptions, we believe, than are the men who are so stingy that their wives, if they get any spending money, must turn burglars to get it.

But a man who does both these things—what of him? What of a man who will not only be so mean and stingy as to deny his wife a little change to jingle in her purse, but who, when in desperation she attempts slyly to pilfer a few dimes from his pocket, will slap her? What sort of a judge is this, who not only upholds meanness but brutality?

Out upon such justice! Are the promises of the matrimonial ceremony meaningless simply because the man who makes them is at the time so agitated and unnerved that he does not know what he is saying? When the husband-about-to-be says "with all my worldly goods I thee endow" he says a good deal; and the promise implied in that of the contract is not one that may be lightly set aside. If it means anything, it means that when a wife happens to be wakeful in the night, discovers that her husband is soundly sleeping, and gets up and takes some of the money that jingles temptingly in his pocket, she isn't pilfering at all; she is taking her own money, money that he gave her in perpetuity when they were married. If she chooses that way of getting her own, that is her business; doubtless she does so with a wholly praiseworthy intention of avoiding unnecessary argument, which is always a wise and tactful thing to do. Argu-

ment, particularly argument about such things as household finances, is nerve-exhausting and unhealthful. It is very bad for the husband's health and peace of mind to get worked up into an angry passion; and the wife who manages to avoid this is merely exercising compassion and pursuing wisely duty.

It is hard to get accustomed to seeing Roosevelt in the Tar-Baby role of "ain't sayin' nothin'."

## THE RICH MAN'S HEAVIEST BURDEN.

Before he died the late William B. Leeds, multi-millionaire, said to a newspaper writer:

"Business is simple enough. Money-making is simple enough. Anybody with brains ought to get rich. But there is one problem the rich man has to face, and that is the problem of keeping his son from growing up into a fool. I confess that problem bothers me."

Mr. Leeds died leaving a widow and an infant son. The son now is nine years old. His mother is traveling somewhere, and the poor lad is living alone in a New Jersey mansion that cost \$200,000.

It is related that this unfortunately handicapped child is master of fifteen servants. He is driven daily to a private school in a French limousine, attended by chauffeur and footmen. He is driven to church on Sunday, attended by a governess and housekeeper. A male valet attends to his dressing and undressing. A governess helps him in his lessons. He takes an airing in the afternoon behind a beautiful pair of horses, with the full complement of coachman and footmen. A housekeeper sees that he gets what he wants to eat and drink.

And here are the most pathetic items: His only association with mother love is through the cable, and he exchanges long cablegrams with his mother, who doubtless loves him very much, every day; and he is carefully safeguarded against playmates of his own age.

Poor little lad! He is more sadly handicapped in life than the child of the slums who is born to poverty and must, when he grows up if not before, win even his bread and butter by hard endeavor.

Everything is against the development of character worth while in a boy so situated. Mastery over a small army of servants may make him masterful and domineering. Having every wish anticipated may instill in his mind the idea that the world was made for his particular benefit. The lack of any need of effort or self-development will almost certainly atrophy whatever natural abilities he may possess.

A better receipt for turning a boy into a fool could hardly be imagined.

Some sudden cut from Fate's uncertain sword might sweep away the wealth on which this child's existence is based. Many, in that case, would deplore it as a misfortune. It wouldn't be a misfortune, but good fortune. It may be his only chance of success in life.

It would bring this lad, before his character is formed, against the strengthening and upbuilding contact with the world as it is, and relieve him of the weakening and effeminizing influences of luxury. It would take him out of his loneliness and bring him into association with boys of his age. After he had had a few fights and had been well thrashed by rude boys in the alley, he would recover from the baneful influence of having a crowd of servants to heed his beck and call, and then he would be able to stand upon his own feet and fight his own battles. He would get to understand the world as it is, and would no longer believe that the fictitious world that surrounds him now is real.

Here and there a sturdy character rises superior to hampering influences, even those of inherited wealth. But there are not many such. Taking it by and large, the boy who inherits the necessity of fighting his own battles and winning his own bread stands a much better chance of finding happiness and success than the boy who inherits a train-load of money and a crew of lackeys to bow down before him.

Can a person buy land up there now? Yes, you can buy South African scrip, which costs about \$5 an acre, and make your homestead improvements, or you can buy half-acre scrip for \$15 an acre and get clear patent.

Is there much timber land in Peace River? Yes, you can get land there with timber on it if you like, or get prairie land without a stick on it. This all depends on what you want.

Is there any other land between Grand Prairie and Peace River country close to a railroad that can be had by homesteaders? Yes, there is land here anywhere from ten to forty miles from a railroad, and I understand some of the land is very good for farming, although I think a great part of it is covered by the big bluffs.

Where should I go to get some of this land? Take in the Shining Bank country, or anywhere in the Northwest. These places are in Alberta.

ANOTHER STREET CAR MAN HEARD FROM.

To the Editor of the Herald: We see J. F. Ochlenchlagier is giving us some good figures, or rather some very good figures, on the street car business. Whether he wrote the article or not we have our own idea about that. Anytime a man writes an article that proves that the writer has been sound asleep from the time he started to write to the time he finished, it is no wonder that he looks pretty tired by the time he gets to bed.

How much difference is there in the cost of living now and in 1907? Have you figured that out yet? Let me tell you. We are satisfied with you getting paid at the rate you do, but you do not like a raise you are not compelled to take it, and further we do not care to class you as one of us because there is not in our ranks any one with money enough to buy stock, and we do not say that we have men at the head of the company with as much money as you have. You say that the net earnings for twenty-eight years, there is too much money about us to call a stock broker anything but a gentleman. But we tell you right here that we refuse to believe you, and you say all money collected has been used in increasing the equipment from one of the smallest systems to one of the largest in the world. You say that the net earnings for twenty-eight years of the firm and see for yourself, but do not make a stock-selling campaign, because, as said before, we cannot afford to buy.

You are giving us a pointer about the hours of labor, but you evidently have not been down here yet and looked over the conditions. Let me tell you, the conductors are investigating a strike. Did you turn the paper upside down or did you read before you wrote up? You better read that over again and get new ideas. You say that the sun or the new snow. You can not keep a man from working, and you say that he argues against, unless you want him to believe you, but you do not let him. You also say you have always been satisfied with your pay and treatment. Do you expect us to believe that after working with you as long as we have? You say that we do, but that makes you alone sat-

## AN INDEX TO PUBLIC OPINION.

Though but five states have adopted presidential preference primary laws so that the party rank and file may express their choice for presidential nominees, the benefit is likely to be shared in some degree by the nation.

State conventions very seldom represent public opinion, or even party opinion. For instance, at this writing it is probable that the Republican delegation from Minnesota to the national convention will go instructed to vote for the renomination of President Taft; yet there is hardly a man in the state who would say that if the Republican voters could express their choice it would be Taft.

The presidential primaries will express public opinion, however, and the states that have adopted this plan have fixed the time for holding the primaries early enough so that they will precede many state conventions.

The delegates to these conventions will get, from these primaries, an index to public opinion that may warn them against trifling with the situation by proposing candidates that the party rank and file does not want.

## THE OPEN COURT

(Readers of the Herald are invited to make free use of this column to express their ideas about the topics of general interest, but discussions of religious differences are barred. Letters should not exceed 300 words—the shorter the better. They must be written on one side of the paper, and they must be accompanied in every case by the name and address of the writer, though they need not be published. A signed letter is always more effective, however.)

## REPLIES TO MR. OEHLENCHLAGIER.

To the Editor of the Herald:

I would like to get before the public once more on this subject of how the street car men are being treated. This man, H. F. Ochlenchlagier, finishes his argument by calling the conductor (writer of the first article), a moral coward, because he does not sign his name to the article. Mr. Ochlenchlagier had the sand to write an article of that kind, I don't think I would stand him in hand to sign his name either. The conductor may be a moral coward, but he is not a coward on him for their bread and butter, and realizing that times are hard, he knows that he would get fired at once and it would be a hard prospect to find another employer just now.

Mr. Ochlenchlagier really is the writer of that article, he shows very little sympathy for his fellow workmen. He is satisfied with the present conditions, for we certainly should spend a little time thinking of our own conditions. He has worked a long time for the street car magnates, and he knows that they are still has to jump sideways to get to his post, knowing what will happen to him if he misses out. Perhaps he will receive a bunch of merits from his superior, but that is not trying to help humanity to better conditions. No doubt Mr. Ochlenchlagier thinks that article shows intelligence, but the conduct of the street car men, at least intelligence enough to realize that he and his fellow workers are not being treated right. For when a man revolts against conduct that is not human, it is poor policy for one workingman to turn his back on another. I want to take this occasion to write Mr. Ochlenchlagier a letter, and I will publish it in the West Superior street, Tuesday, Feb. 20, at 8 p. m., and hear a lecture by Thomas W. Lear, which I think he would enjoy.

## CRY FOR HELP FROM CONTEST PARTICIPANT.

To the Editor of the Herald:

Some time ago I sent you a small write-up on the "Aldrich plan," and you published it, which you published. I have received so many letters of inquiry from your subscribers regarding the Peace River country that I am unable to answer them all. Would you kindly publish the following questions and answers:

How far is Edson from Edmonton?

About 150 miles by rail.

How far is Grand Prairie City from Edson?

About 150 miles.

When is the best time of the year to go to Grand Prairie? Before the frost comes, and the ground anywhere between Christmas and the middle of March.

Why? Because the ground is not frozen, and the weather is not too hot.

How many miles of muskeg on this government road, so this makes it almost impossible to travel on it?

There is anybody freighting from Edson to Grand Prairie now, and what they charge per hundred? Yes, there are quite a number of freighters on this road now, and they charge from \$10 to \$15 per hundred from Edson to Grand Prairie City, Alta.

What is the state of the land running from Edson to Grand Prairie? If there is, what does the passage cost and how long will it take to make a round trip? Yes, there is a stage line, and they charge from \$10 to \$15 per hundred. It takes about ten to twelve days to make a round trip.

What can be grown in the Grand Prairie? Grain, fruit and almost anything.

What is the climate like? It becomes very cold in the winter, but it is high and dry, and people raised around Duluth will never notice \$10.00 below.

Are there any stores in Grand Prairie City now? Yes, there are two stores, one bank, and a hotel. There is a flour mill on the road up now to Peace River, and the townsite is staked out.

May a person with children take up more than one homestead? Yes, providing they are over 18 years of age.

Can a person buy land up there now? Yes, you can buy South African scrip, which costs about \$5 an acre, and make your homestead improvements, or you can buy half-acre scrip for \$15 an acre and get clear patent.

Is there much timber land in Peace River? Yes, you can get land there with timber on it if you like, or get prairie land without a stick on it. This all depends on what you want.

Is it not true, it would indeed be very humiliating. More humiliating than the fact that it is the only civilized country that hasn't a parcel post law, and we refuse to have you dictate to us as we are intelligent enough to judge for ourselves by the treatment we get. You say further "don't strike," giving you ideas of suffering, but it seems funny you say that burden onto us alone. We with a hand-to-mouth existence are supposed to take that into consideration, but a corporation with over half a million dollars profit, is not supposed to see that its employees are above want as a result of their labor. Are we forever supposed to work under those conditions of labor as well as wages because the company makes a profit? Twenty-eight years ago was before a great many of us were born, and we do not care to go that far back to get started. Labor has brought you where you are at present; why not appreciate it? We wish you to explain how you intend to settle grievance with the company. It is a thing we have not learned yet. And further you know the reason why he did not give his name. Let me tell you whoever wrote that article, and we are proud of having a man among us who is smart enough to let the company know that he is a CAR OPERATOR.

To the Editor of the Herald:

We see by your paper

We raised a caper.

On the Fond du Lac passenger train.

We now apologize.

To the unfortunate guys.

Who claim we raised such Cain.

We own we threw caps

into each others' laps.

But this was amongst our own crowd.

Don't think for a minute

anyone else was in it.

For this would not be allowed.

It was not our intention

to throw dishes you mention,

the party who threw it across

Not knowing its fullness

And appreciating the dullness

Simply gave the knapsack a toss.

We're not to blame.

We're always the same.

It's the Old Fashioned Mothers you see.

What men make what a fuss.

Such a proceeding

Would not have included me.

# ON THE RANGE RANGES

## RANGE FANS FOR LEAGUE

Eveleth Sentiment Favors Mesaba Towns Having Their Own League.

Are Opposed to Paying Fancy Salaries to Players Not Residents.

Eveleth, Minn., Feb. 17.—(Special to The Herald.)—A number of baseball fans yesterday discussed the advisability of developing a city baseball team for the coming season. No definite action was taken but the sentiment expressed was favorable to the enterprise.

Eveleth would be glad to join a range league including Hibbing, Chisholm, Virginia, Eveleth, and Mesaba. The sentiment was expressed that the feeling here is against a new outfit for outside professional players.

Want Salary Limit. Another suggestion was that some restrictions in that respect be placed on the amount to be paid by each city to professional players. It was suggested that the amount be limited to a sum satisfactory to all the fans, so that the expenditure of several thousand dollars to star players for the sake of beating a rival would be made impossible.

Another suggestion, received with favor, was that the rule of the league should be that no one be allowed to play in any team in the league, who had not been a resident of his particular city for at least thirty days. It was also suggested that every player in every team must be regularly following some vocation other than ball playing.

Would Give Employment. Already there are baseball enthusiasts among the business men who have expressed a willingness to provide employment to competent men who are also ball players. Eveleth, too, already has some of the best players in the range, when completed, will provide employment for the baseball fans in the range as it will be much easier for people to get to the game than to the outside locations. Another meeting will be held in the near future, meanwhile efforts will be made to get expression from the other range cities.

## SWEARS HE KILLED IN SELF DEFENSE

Gentilecore Tells Jury Why He Took the Life of Pillagi.

Hibbing, Minn., Feb. 17.—(Special to The Herald.)—The trial of Michael Angelo Gentilecore for the murder of Giovanni Pillagi at Virginia, began yesterday at 10 o'clock. Gentilecore, who was charged with the murder of Pillagi, was sworn in by Judge J. J. McLaughlin. The jury was sworn in by Judge J. J. McLaughlin. The trial was held in the court room of the city of Hibbing.

## POLITICALLY WISE ARE MAKING SLATES

Hibbing Business Man Makes Wager Dr. Weirick Will Succeed Himself.

Hibbing, Minn., Feb. 17.—(Special to The Herald.)—Those who talk politics are indulging in some interesting gossip regarding candidates for trustees. Yesterday there was launched a boom of considerable proportions for the R. Thomas for a place on the village board. Dr. Thomas is now exalted ruler of the village. He is a member of the Commercial club, but his friends say he could find ample time to devote to the duties of trustee.

There is also being developed a sentiment to elect W. A. Ryder as trustee. One of Hibbing's successful and substantial business men, and his selection a member of the board, is thought would be particularly satisfactory to the people of Hibbing.

McLaughlin Also Mentioned. D. D. McLaughlin is also being promoted.

## HOME FAT REDUCER

Works Rapidly and Safely—Requires No Exercising and Allows You to Eat What You Like—Cut This Out.

For the benefit of those who wish to reduce their flesh quickly and safely, we will give you the recipe and directions in full for a simple household remedy that can be used at trifling cost from any good drug store: 4 ounces Marmola, 4 ounces Flute Extract, 4 ounces Cascara Aromatic and 3 1/2 ounces Peppermint Water. All three are cheap and wholesome, but the last takes care to get an unbroken package so that you may get the most out of it. When you get home mix the three together by shaking them together in a large bottle and take one teaspoonful after each meal and at bedtime.

Follow these directions and you will have the best fat reducer that money can buy. It will take off the flesh at the rate of at least two pounds a week without any strenuous exercise, each or causing wrinkles, while, best of all, no exercising or dieting is required to help it. You can get results and at the same time take things easy, and eat what you like as much as you like—and whenever you like.

## ATTACK MAN NEAR GREEN

Peter Gusman Assaulted By Vincent Miller and Andrew Deleskey.

Weapon Fired When Officer Arrives to Bring Pair to Virginia.

Virginia, Minn., Feb. 17.—(Special to The Herald.)—That a murder was committed about a mile from Green and forty miles south of here yesterday morning is considered miraculous, according to the story Peter Gusman tells. He came here last evening and, according to Deputy Sheriff Moynihan, returned to his home at Green and Deleskey and Vincent Miller for assault.

Gusman told the officers that the pair, who were armed with pistols, came to his home and demanded money. He refused and they threatened to kill him. He fled and they followed him to his home.

When he and Officer Moynihan reached Green, the pair fired their pistols. One shot hit Officer Moynihan in the arm. He was wounded but not seriously. The pair fled and he followed them to his home.

Weapons Are Fired. When he and Officer Moynihan reached Green, the pair fired their pistols. One shot hit Officer Moynihan in the arm. He was wounded but not seriously. The pair fled and he followed them to his home.

They were arrested before Judge Carey Deleskey appeared to be in the county jail and allowed Miller his freedom.

WILL LEAVE CHISHOLM. Dr. Shellman Will Make His Home in St. Paul.

Chisholm, Minn., Feb. 17.—(Special to The Herald.)—Dr. J. J. Shellman, who has returned from St. Paul, where he has made arrangements to enter a dental office, will leave soon to make his home at Chisholm.

Misses Anna Carlson and Marie Sax, who have been visiting at Chisholm, will leave soon to make their home at St. Paul.

Mr. J. Sullivan, who was injured by falling on a slippery walk at the Shephard last night, is now at the Duluth hospital for treatment. At first it was thought that his leg was broken, but examination by the physicians proved that he sustained a compound fracture of the leg.

The marriage of Maurice Saper, junior, of Chisholm, and Miss Ida Asplund, of New York, took place Sunday at New York to Miss Ida Asplund, who is a daughter of the late Mr. Asplund, a well-known business man of New York.

Mr. J. L. Richards returned Monday from a visit at his former home in Omaha, Neb. He is now at Chisholm, where he is engaged in the business of a farmer.

## NEW IRON DISTRICT BEING DEVELOPED

Company Having 5,000 Acres Drilling With Splendid Prospects.

Eveleth, Minn., Feb. 17.—A great new iron district tributary to Eveleth is being developed and will mean much to this city. The scene of operations is about twelve miles south of Eveleth and about ten miles southeast of the Bruce, the nearest shipping mine. A company with ample capital has acquired close to 5,000 acres of land, and has commenced drilling now for two weeks, the first hole having reached a depth of 115 feet. The company is drilling a series of holes, the first of which is being drilled at a depth of 115 feet. ## AT THE LYCEUM

All the top notes in opera are not confined within the four walls of the Metropolitan opera house, in New York, nor the Auditorium in Chicago. Miss Louise Gunning has made it emphatically clear that tunes in light opera may well be as high as anything belonging to its more dignified and classical sister in the world of music. And Miss Gunning will liberate a few exceedingly lofty trifles at the Lyceum for four days, commencing Sunday with matinee Tuesday. She will appear as the star of "The Balkan Princess," the gaily caparisoned musical phantasm in which, as the Princess Stepania, she right royally reigned in the realm of song for a season extending over six months in New York, setting a new high-water mark for attractions of this class in the metropolis.

But it has not been any one particular element that has enabled "The Balkan Princess" to repeat in New York the sweeping success it recorded in London. It has a plot, clean, clear and logical, a romantic story of sufficient dramatic strength to stand on its own feet as a novel, which has been widely published in serial form. It is a skillful play—believable and charming. Nor is the score confined to soaring strains for the prima donna. There are many novel and diversified numbers. One song which does not call for a principal is sung by eight chorus girls and a like number of chorus men. It is called "Arms and the Man" and is one of the prettiest things ever seen in opera. And the piece is endowed with a spirit of comedy that moves with zest. Several reviews have referred to it as possessing sufficient comedy to supply three or four musical successes. There are many graceful dances, some that move with untamed vim. One of the best reviews ever written of this colorful production referred to it as a "Musical Prisoner of Zenda." The locale and the subject immediately suggest the most picturesque costumes and scenic environment, and the Messrs. Shubert have invested it unsparsingly. The second act, in the Bohemian restaurant, opens with a smash and a whirl with the chorus, with the stage full of action and spontaneous gaiety, a riot of color, which is at the same time harmonious and unusually artistic. Here is introduced much of the merry jest, the lilting song and the graceful dance that has made this opera famous on two continents. Miss Gunning is supported by a cast of principals, which includes several stage folk who have themselves been the features of starring tours. Teddy Webb, the English comedian, who was for several years a feature of the Trivoli company, will be seen as "Blatz," which part he has played since the first production of "The Traveling Salesman" fame, will be seen as Henri, the comic writer. Harry P. Gribbon, Harry Lewellyn, Geraldine Malone, Amy Leicester, Ethel Ingham and sixty-five others comprise the company completing this musical rainbow.

Playgoers in this city have a great treat in store on Feb. 16 and 27, when

Forbes-Robertson visits the Lyceum in that great play of modern life "The Passing of the Third Floor Back." The story of the play can be told in a few words. "A Passer-by," symbolic pre-arrangement of the dormant good in each man or woman's soul, enters a lodging place which houses a company of the poorer middle class, and by the simple expedient of believing good of them all, elevates and reforms them.

The play is divided into prologue, play and epilogue. The first discloses the sordid lodgers in full exercise of their vices. The second, (by a curious dramatic construction in which character after character revolves about the central figure of Forbes-Robertson as the "Passer-by"), makes known the steps in the moral progress of the lodgers. The third reveals the surprising household. Forbes-Robertson's art is a magic that can defy the absence of speech or action. His voice has a touch not found in other voices, his modulations and inflections being the supreme refinement of speech, while his dignity and grace of bearing enroll him amongst the world's greatest actors.

With Miss Ida St. Leon in the title role, supported by all of the important members of the original company, "Polly of the Circus" comes to the Lyceum Feb. 28, matinee and night. "Polly of the Circus" is a comedy-drama. Its story is a romance that leads in and out of the sawdust ring. It is written by Miss Margaret Mayo and produced by Frederic Thompson.

The story of the play is unusually attractive. With its novelty it combines cleanliness and wholesomeness. Polly, its central figure, is a young circus rider who is injured by a fall from her horse while the show is in a small Middle Western town. It is out of the question for her to accompany the circus to the next stop, and she is left at the parsonage, opposite the circus lot in the household of a young minister, to recover. Polly has known no other life than that of the sawdust ring, and some time elapses before she can familiarize herself with the stud-

existence of such a community as is now her home. By the time she succeeds in doing this, the sound of the young minister's voice has become the most promising feature of her hopes for the future. He in turn has found the fascination of the unlearned but intelligent and pure-hearted creature from the canvas-topped community almost irresistible. The opposition of his parishioners displays itself in a finally successful attempt to drive the girl from her haven. Learning that the circus is in the neighboring township, she flees the parsonage and returns to the show to take her regular place on the program. The minister awaits her return for a month, and then realizing that the happiness of both is at stake, goes to reclaim her. He takes her from the ring in the very midst of the performance. The curtain falls upon the pair standing upon the deserted circus lot watching the twinkling lights of the big animal wagons as they disappear in the distance. A more genuinely refreshing play than "Polly of the Circus" has not visited here in a decade, and theatergoers are already regarding this attraction as the treat of the season.

Those who saw the fighting fleet could not fail to be struck with its high military efficiency and must have been proud of its personnel. President Taft after gazing with admiration at the grandest naval pageant this hemisphere has ever seen. While he was absorbed in the thrilling spectacle afforded by this legion of the wave thundering salutes to him as it passed out to sea in a fifty-knot race, Lyman H. Howe's camera men were busily engaged in photographing it for the benefit of the entire nation. The splendid animation of the gallantly adorned battleship fleet may be seen at the Lyceum March 2 and 3. The dreadnaughts came so close to the dispatch boat Dolphin, which conveyed the secretary of the navy and Mr. Howe's photographers, that the ponderous engines of destruction which gleamed from sides and turrets are plainly visible. At first the entire fleet was seen on "dress parade" with flags and bunting blowing gaily in the breeze. Then their great appearance changes and the finest battleships in the world are seen steaming swiftly down the river in all the panoply of war.

A pictorial tour to the shrines of beauty and history in Rome, Pisa, Naples and Florence comprises another of the important subjects in the new program. Industrial Italy is represented by scenes from famous marble quarries at Carrara, while the military phase of the country is shown by the skill, daring and splendid cavalrymanship of a troop of Italian cavalry. There are also wonders of the Grand river canyon, Colorado; superb views showing the adventures of majestic Alpine climbers in ascending majestic peaks to points above the clouds; the flight of a hydroplane through water and air, and hunting by aeroplane are but a few of the many other scenes of vital interest showing the very latest achievements of human endeavor.

The exact date of the engagement in this city of Al. H. Wilson, the man who can scatter sunshine in all kinds of weather with the tuneless notes of his love songs and yodels will soon be announced. Additional interest will be created in Mr. Wilson's visit when it is known that he is coming with a new song-adorned comedy, entitled, "It Happened in Potsdam," and with a portfolio of new songs that are said to be among the best that he has yet given to the public.

## AT THE ORPHEUM

McIntyre and Heath are coming to the Duluth Orpheum. These two men, whose names are known wherever the theater is known, in America at least, will headline the Orpheum bill which opens with the Sunday matinee.

Within the boundaries of stageland there are to be found no more magic names than those of McIntyre and Heath. Through two generations of theater-goers these two men have fur-

nished laughs to millions. Their names are synonymous with fun and laughter and that particular form of humor of which the Southern darkey is the butt. And that particular form of humor, the exponent of black-face humor in modern theatricals.

McIntyre and Heath are probably best known for their old-time "Georgia Minstrels" act. For a score of years this act held its own. Finally it was incorporated into a musical comedy

At the Empress Next Week.

and "The Ham Tree" was immensely popular for several seasons. It was seen in Duluth several years ago, when it was at the height of its popularity. The two famous comedians seemed to be good for a long run in musical comedy, but Martin Beck finally induced them to return to vaudeville long enough to tour the Orpheum circuit. They prepared several new acts for their tour of the circuit, but they quickly found out that the public demanded the "Georgia Minstrels." The new acts were funny—probably just as funny as the old favorite—but the public demanded the "Georgia Minstrels." Sunday, Monday and Tuesday, matinee and night, Wednesday they will give one of their new acts, "On Guard," and Thursday another new one, "The Man From Montana." Friday and Saturday they will return to the "Georgia Minstrels."

Manager Billings reported last evening that the advance sale had been very heavy. In St. Paul and Minneapolis during the last two weeks the Orpheum theaters had capacity business. Although the headline act is such a notable one, the remainder of the bill has not been neglected, and it is claimed to be even stronger than the ordinary bill, leaving McIntyre and Heath at the head of the parade. The second in importance will be presented by David Schooler and Louise Dickinson. Master Schooler, it is claimed, is a true infant prodigy, and has been called the "Boy Wonder." His technique is said to be perfect, and his touch and was given a liberal musical education at home and then sent abroad, where he studied in the hands of the most famous musical masters of Europe. He came to the attention of Paderewski, who predicted a brilliant musical career for the lad. Little Miss Dickinson, who opened with him, is but a young girl, but she is said to have a most remarkable high and clear soprano voice. She has been called "The Juvenile Mary Garden." These two acts will be followed by a musical act which has created a furore around the circuit this season.

The one-act farce "Early Morning Reflections," will be presented by Sager Midgley and company. As might be expected, this little comedy has to do with a gentleman who has experienced a most unusual day. He is the intoxicated gentleman and there are also a valet and a maid. The latter role is played by Dawn Elton, who is almost as well known in vaudeville as McIntyre and Heath. The comedy is claimed to be of a type entirely different from the ordinary variety sketch, and in Minneapolis this week the sketch shared honors with McIntyre and Heath.

Two musical comedy favorites are Robinson Newbold and Marie Louise Gribbon, who will give in about fifteen minutes of sparkling songs and clever imitations. Miss Gribbon has been prima donna for a season or two

at the New York Hippodrome, and also in "Miss Hook of Holland" and "A Chinese Honeymoon." Mr. Newbold played Raymond Hitchcock's part in "The Yankee Consul" and has just closed an engagement with Louis Glaser. He has also played important parts with Rogers Brothers, Viola Allen and the Aborn Opera company. From two such well known performers something out of the ordinary may be expected, and their act is said to provide it.

The three Shelley Boys are three contortionists, who are said to have a collection of athletic feats entirely different from the ordinary assortment. The stage is draped with red velvet hangings and the three performers appear for their act in white costumes. Sixty on the bill will be John Macauley, who is known as a "character vocalist." Mr. Macauley impersonates several different types of people, singing a song appropriate to each. He is said to be gifted with a very rich, baritone voice which is heard to good advantage in his songs. His vagabond number has been especially popular around the circuit.

Alvin and Kenney are performers on the flying rings and are said to be marvelous in their type. The kinodrome and the concert by the Orpheum orchestra will complete the bill, which will continue all week with a daily matinee. There will be a special feature in the McIntyre & Heath engagement.

John Tiller's Ballet composed of the twelve "Sunshine Girls" and the six "Eton Boys" will give the entire Orpheum circuit before returning to London. Mr. Tiller is considered one of the greatest dancers in the world and has at the present time sixteen ballets, totaling 346 numbers, dancing at various points of the world. Two of this number are on the Orpheum circuit: the "Ballet of the Girls" and the "Ballet of the Boys," which he has only just brought to this country.

An eminent dramatic star who has appeared heavily in vaudeville is Miss Bertha Kalish. Martin Beck has arranged for Miss Kalish to begin a tour on the Orpheum circuit in the spring. She will be seen in a dramatic classic act which will culminate in "From St. Agnes."

Charles Kellogg, the California naturalist, making his initial appearance in vaudeville on the Orpheum circuit, is convinced that he can be extinguished by a vibration. With the aid of a huge tuning fork he demonstrates to local fire chiefs that this theory is well founded.

May Tully, who is so well liked on the Orpheum circuit, has secured a vehicle and will take it West early in the spring.

worth a visit to the Temple just to hear this wonderful young lady."

Lovers of the sensational will be offered a treat in the performance of the Aerial Shaws, who are said to offer one of the most thrilling and hair-raising performances on the trapeze to be seen in vaudeville. The Shaws need no introduction to the amusement lovers of this city as they have appeared here on several occasions with some of the largest circuses. The Aerial Shaws are one of the very

few acrobatic acts which have succeeded in getting away from the time-worn and threadbare routine of feats, of which the public has grown so tired. Included in their routine of tricks are many which have never been seen in this city and all are of an exceedingly sensational nature. "The Shaws work with a rapidity and ease which is charming and there are none of the tiresome waits which are so common with attractions of this nature," said a recent critic. The Shaws until recently

were with the Ringling Bros. circus, but tiring of the "one-night stands," the lure of one-week engagements in vaudeville caught their fancy and in consequence Duluth will be offered their sensational and daring aerial acts.

A gymnastic feature of this bill will be Stan Stanley and brother, eccentric comedians, who will no doubt be one of the laughing hits of next week's show. Both boys are comedians of note and their funny falls, expert gymnastic work and general exuberance in the knock-about comedy line are said to be far above the ordinary. They do not depend upon their comedy alone, however, for their work upon the bounding table is said to surpass anything in the gymnastic line offered at the Empress this season. Stan Stanley and brother were recently a big hit at the New York Hippodrome and come highly recommended by gymnastic experts of the East.

"The Chinese Nugget," a novel comedy playlet, as presented by Pearson and Joell, will be the dramatic feature of the bill. These boys are said to have achieved enviable reputations for themselves on the legitimate stage and since their entrance into vaudeville, they have even outshone their former reputation. "The Chinese Nugget" is a well written comedy playlet, with a novel theme and is said to provide a laugh a minute. Pearson and Joell make the most of their opportunity and much is expected of them during their engagement next week.

The motion pictures for the week will include travel, dramatic and comedy subjects and will be educational as well as entertaining. They will be presented by the Rothapfel daylight system, which has proven to be a success all over the country. A matinee is given daily at 2:15, evening performances at 8 and 9:30. Seats may be reserved one week in advance by either phone. Special attention is paid to the comfort and entertainment of ladies and children at all times.

The floor is laid on a foundation as hard as a rock, and is made of the

best grade of Michigan maple flooring, laid in octagon style at the ends. The skating surface is about 10,000 square feet and is the smoothest and best that money can buy.

The rink is equipped with convenient and substantial sanitary toilets, skating rooms, check rooms, ladies' rest room, and gentlemen's smoking room. It is vacuum cleaned twice daily, leaving a clean, dustless surface. Large exhaust fans supply fresh and

wholesome air throughout the entire building every 15 minutes. Richardson anti-jar, ball-bearing skates are used exclusively.

The special features for the coming week are as follows: Monday night indoor baseball game, Pitfalls vs. Big Duluths, which promises to be a thrill-

er; Tuesday and Friday night and Sunday afternoon, Duluth Marine band in latest popular selections; Wednesday evening, "The Big Doings," a hard time party, with fun for the old and young. Thursday evening there will be no skating, but the usual skating session will be held in the afternoon.

## GOSSIP OF THE RIALTO

Wilton Lackaye has determined to produce his third new play of the season. While he is presenting "The Stranger" on tour, he is also rehearsing a new piece, bearing the title of "The Curious Conduct of Judge Leake."

The play is by Victor Mapes and Louis Faust. It will have its first performance at the Apollo theater, Atlantic City, on Feb. 21.

The proceeds of the Weber and Fields jubilee auction sale amounted to \$13,726.

"The Pearl Maiden," current at the New York theater, enjoyed a period of inactive last week with an indefinite engagement in Boston scheduled to begin tomorrow.

Several changes have been made. Florence Zabelle is withdrawing to replace Dorothy Jordon in "The Wedding Trip." "The Pearl Maiden" cast during its Philadelphia engagement, will be restored to a prima donna role.

Charles Frohman has completed all necessary arrangements for the production of "The Onslaught," a comedy, "Preserving Mr. Panmure," which ran for more than five months at the Comedy theater, London, last season. The story of this most recent production is about the great-grandson of a king from the maid Joseph, by the master of the house, John Panmure. By special arrangement with Liebler & Co. Mr. Frohman will present Gertrude Elliott in "Preserving Mr. Panmure," surrounding her with a comedy company especially organized for this play.

Complaint has been filed in the county clerk's office by Julian L. DeBarrange, an actor, and his wife, to recover from Joseph M. Gaites, theatrical manager, \$775 and \$2,100, respectively, for an alleged violation of contract entered into by the plaintiffs and the manager to appear in the play "Thais."

The plaintiffs declare in their complaint that they were engaged by the manager for the season 1911 and 1912; the husband was to receive \$250 a week and the wife \$250, but that the play was taken off before the ending of the season contracted for.

One of the early spring productions will be that of "The Common Law," a dramatization of Robert W. Chambers' story of that name, by Bayard Veiller. H. Woods is the manager in charge. The first performance takes place in Atlantic City March 4.

Signed contracts insure for Charles Bernstein's latest play, "The Onslaught." This is the play recently produced at the Olympia theater, Paris, and it will be one of the most important of Mr. Frohman's productions next fall. The plot of "The Onslaught" is concerned with the anti-Semitic persecution of a French senator. It is generally believed that Mr. Bernstein has dramatized the persecution suffered by himself when the Comedy Francaise attempted to produce his play, "Apres Moi."

Mabel Tallaferra's starring tour in a new play has been postponed until the fall. Meanwhile she will enjoy a whirl over the Orpheum circuit, beginning her vaudeville tour in St. Louis later in the month. Miss Tallaferra's offer-

ing will be a playlet by Edward Pople, entitled "Taken on Credit." In it she acts the character of an East side wife, who through force of circumstances has become a thief.

Lee Shubert has acquired the American rights to that enormous Berlin success of Prof. Max Reinhardt, the Chinese play, "Turnabout." "Turnabout" is by Carl Vollmoller, the author of that famous spectacle, "The Miracle."

It has enjoyed the record run of the season in Berlin, where its staging by Prof. Reinhardt was considered the greatest achievement of that eminent wizard of the stage. In its pictorial features and dramatic interest "Turnabout" is unrivaled among plays of recent years. Mr. Shubert has made an arrangement with Prof. Reinhardt to come to America and superintend the staging of the production. It will be the first visit of Reinhardt to this country.

One of the near-coming attractions at the Lyric theater will be, Fritz Scherl's play, "Die Fledermaus." This comic opera is "Die Fledermaus," which is considered the masterpiece of Johann Strauss, the waltz king.

In conjunction with Oliver Morosco and John Cort, the Messrs. Shubert will shortly bring in New York a new production by Hayden Falbot, entitled "The Truth Wagon." The principal players will be Doris Keane, Annette Walker, Lucille Watson, Christine Norman, Georgia Mack, Frank Sheridan, Edwin Arden and John Findlay.

"The Only Son" is to be revived. The new company that will take to the "road" in the play includes Thomas Ross, Mary Ryan, Frederic Burton, Lizzie Hudson Collier, Frank Hollins, Henry Weaver, Fay Wheeler and John Junior. The first stop was made at the Century theater, St. Louis, last week.

A. H. Woods announces that he has secured the American rights of a Viennese operetta, entitled "The Lilac Domino." The piece was desired particularly because of its score by Charles Cuvillier. Mr. Woods will produce the operetta on an elaborate scale early in the fall.

A contract has been closed with Martin Harvey to take Max Reinhardt's "Oedipus Rex" to the United States for a long tour. "Oedipus Rex" is by the Greek tragic poet, Sophocles, the translation is by Gilbert Murray, and it was adapted to the stage of today by W. L. Courtney.

"The Dove of Peace," a comic opera written by Walter Damrosch last summer to words of Wallace Irving, has been purchased by a syndicate and will be produced next October under Dr. Damrosch's personal supervision at the Broadway theater.

Charles Frohman has secured English and American rights to W. Somerset Maugham's new play, which is as yet unnamed.

Charles Frohman has secured from abroad the American rights of the musical comedy "The Girl From Montmartre," an adaptation of "The Girl From Maxim's." This piece is now running in Berlin and Vienna. Mr. Frohman proposes to make up a special cast of musical players and pro-

duce this musical girl from Maxim's in New York before the end of the present season.

A friend of "E. H. Sothern's," who resides in India, lately wrote him of a performance of "The Merchant of Venice" which he had witnessed. According to his friend, Shakespeare is not a name to conjure with in those parts, but he is recognized as being quite a playwright. It appears that the amateur players had got hold of an old rag-time song book, from which they delightfully extracted appropriate incidental music. It seemed most significant to Mr. Sothern's friend that when Shylock made his first appearance that the orchestra should strike up, "If You Haven't Any Money You Needn't Come Around."

Miss Madge Titheradge, who has made such a pronounced hit in "A Butterfly on the Wheel" at the Thirty-ninth Street theater, has canceled her English contracts, which called for an early appearance in Australia, and will remain in America this and next season.

The dramatization of "Little Women" which has just been produced by Wil-

iam A. Brady and Lee Shubert was made by Marian de Forest, dramatic critic of the Buffalo Express and Miss Jessie Bonstelle, a well-known actress. The idea for the dramatization came from Miss Bonstelle and it was her idea to have the company and superintend the first rehearsals. Mr. Brady is said to have declared that "Little Women" will prove the greatest dramatic success of the present season.

Although the new Palace music hall, which is now being built by the Messrs. Shubert on West Forty-fourth street, New York, will not be ready for occupancy till next September, Lee Shubert, who is now abroad, has engaged the first headline act. It is rumored that Gaby Deslys will play at this theater instead of the Winter Garden, when she returns to America next fall. After this she will tour the large cities.

Miss Dorothy Jordon, who has not been seen outside of New York for over two seasons, declares that she will tour with "The Wedding Trip" when this opera leaves the Broadway to make room for the Weber and Fields jubilee.

### BONCI COMING TO DULUTH

**A**LESSANDRO BONCI, by many said to be the greatest living tenor in Italy, will appear on Wednesday, March 15, to give the closing concert of the season of concert at the Metropolitan.

Stephen H. Jones, T. W. Hugo and Horace W. Reyner. The distinguished American tenors, Giuseppe Togni, H. E. Virebille, places Bonci as greater than Caruso, and here is the reason. Caruso sang in a style which enter into the art of vocalization Bonci is incomparably finer than Caruso. He has a more powerful voice. His tones are impeccably pure, his command of breath perfect, his phrasing superb. He has never sung now before the public; his phrasing, also, his notes, his phrasing, his tone and repose are exquisite. The voice is a pure tenor. It has a fine nobility and the highest of the vocal range. The phrasing is as completely under his control as the notes. He has the force under the diabolically ingenious fingers of Rosenthal."

Bonci is 36 years of age. He was born in Romagna, a small town in Italy, and has learned some of the best Italian musicians.

**GUY BEVIER WILLIAMS**, formerly of Duluth, has won considerable fame as a composer and has composed which has been published in Germany. His compositions are remembered here, especially in musical circles, as he was a visiting artist in the city of Duluth, Minn. He has lived his life here and has played at many concerts and recitals. He attended the University of Wisconsin, where he studied in Berlin for five years. He is now instructor of pianoforte and composition at the University of Wisconsin, Music at Lincoln, Neb.

This sonata, which received its initial musical performance from manuscript last spring, is published by Klee & Eberle of Berlin, Germany. It has been highly praised by musicians and music-lovers.

Mr. Williams made the first draft of his sonata, but has recently revised and elaborated it. A prominent musician of Berlin has written on the following resume of the work:

"For both violinist and pianist. Especially noteworthy is the spirit of unity and prevalence of the spontaneity and sincerity of expression, the loveliness of its themes."

Mr. Williams has written in many forms and for divers instruments. He has written songs to English and German texts, and has written in German. He has written a long list of instructive pieces and for orchestra many effective songs.

His "Lull" was performed by the Minneapolis Symphony orchestra at the University of Wisconsin, and other works have been highly praised.

Mr. Williams is a native of Hutchinson, Bevier of this city.

"This work reveals extraordinary originality and most capable workmanship," holds the reviewer. "The musical form as is consistent with its modern content and treatment."

The first movement, which threatens the entire composition, is of a more laudable kind than the inevitable stroke of genius or whatever it may be called, which is the mark of greatness. The four movements are built in part upon this motive. The second mood of the first movement is contrasted by a beautiful second theme motif, possibly by a new one, which is predominant in double notes. Then follows a steady march toward the end until it reaches its climax. In a magnificent return to the original mood, the music recaptures the spirit of the recapitulation is striking.

The finale is a masterpiece of melody. In the maze of harmony are heard faint whisperings of the elegy's first theme. The last movement is a plaintive figure and strong harmonization of the first movement's main character. It reflects a distinctive and unusual personal quality.

The third movement is a frolicsome presto with the quaintest of rhythms. It is a jovial and happy little tale and a graceful trio.

The fourth movement suggests the Hungarian in the fiery finale. Here again we hear the motive of the elegy's first theme, which is so fittingly introduced.

MISS RUTH ALTA ROGERS, who played at the regular meeting of the Y. W. C. A. scale Monday afternoon a new musical play, "The Y. W. C. A. was decorated with flowers and bunting. This was her first appearance before the Y. W. C. A. since her work with all the artistic, literary and temperance. She received with high praise for her work in the play, and a monetary talk about the social movements, which she gave before the play. She added to the enjoyment of the play.

Miss Gertrude Logan, who played the part of the Y. W. C. A. work, and Miss Maude Matteson sang two numbers in her usual dainty manner. She was accompanied by Sigurd Erdman, who was having a group of songs. She sang in the year. Mr. Erdman is a newcomer to Duluth and he played a very fine baritone voice. Mrs. Winton also played a group of songs, which were very much enjoyed.

WAVE of basket ball craze has swept over the girls of the Duluth Central high school and nearly every afternoon a big gymnasium is filled with the manual training high school is filled with groups of girls practicing.

The gymnasium course has been omitted in the high school work this year and Miss Conlan, the physical instructor in this branch to give the basket ball work, but Miss M. Conlan, a member of the faculty, has been helping the girls, coaching them and directing them in the work.

By working them into good shape for Tuesday afternoons squads of the juniors and freshmen girls have their practice at the "gym" under the instruction of Miss Conlan and Friday squads are given their instruction. They have become very keen about the game and if enthusiasm can make a team, the classes should have one of the best teams in the city coached by the high school girls.

Classes have been chosen containing the best "material" as the football coaches say, and the girls are working hard to

**Annual Frances Willard Day Program Will Be Presented.**

**T**he memory of Frances Willard, national president of the Woman's Christian Temperance Union for many years, was honored at the regular meeting of the West Duluth Chapter on Thursday afternoon at the home of Mrs. Lewis H. Merritt, 2105 East Second street. A program of numbers of her work and the national organization was given. Mrs. W. C. T. U. was taken up. The proposed action plan for West Duluth was discussed but no definite action taken. The following officers were elected: president, Mrs. C. A. Stover; on "Frances Willard and the Crusade" and led the meeting, Mrs. E. J. Bevier; secretary, Mrs. D. A. Merritt; and for which she received the silver service medal at the contest Monday evening. The following were present: Mrs. Bevier and Mrs. Ida Merritt each gave a reading from the "Crusade." Mrs. Frances Willard readings, Mrs. D. A. Merritt, Mrs. E. J. The teams are to be picked in a week or two after a little more coaching, and after they are picked, the better players will be put in the first and then inter-class games will be arranged for the championship of the school.

The class squads are to stand at the present time at the following enthusiasts in the game:

Seniors—Lucille Hoar, Lily Mae, Elsie Olson, Harriet Harrison, Mary Anderson, Peggy Peterson, Edna Peterson, Hazel Morterud, Eunice Milner, Mabel Sanders, Hazel O'Neill, Frances Campbell, Lily Arkkala.

Juniors—Winifred Hopkins, Rena Hoar, Alice Peterson, Ruth Wylie, Rosalind Bondy, Mildred Miller, Marion Todd, Bessie Boerner, Ella Foster,

**Mrs. Diehl Gives Interesting Talk  
Before the Drama Class.**

MRS. GUY E. DIEHL told the life of George Bernard Shaw and discussed some of his works in most interesting manner before the members of the Morris Club at the modern drama of the Twentieth Century. The meeting Thursday morning in the library clubroom.

She discussed several of his plays and discussed his style, emphasizing his humor and his use of the "unpleasant" plays bearable and gave his best plays a stronger grip. She said that she was struck by the general idea that "Mrs. Warren's Profession" was a play that the average musical comedy writer would have written.

She struck me as the liveliest, youngest and most satisfactory thing I have seen in a long time. When Mrs. Warren's daughter is disapproved of by her mother, she doesn't commit suicide like most of the girls in the modern drama. The first man who will take her in order to be supported. She goes

**Miss Pearson Will Play at the  
Vesper Services.**

RGAN recitals are being given every Sunday at 4:30 p.m. at the Trinity pro-cathedral by Miss Isabel Pearson, organist of that church. Beginning at 4:30 each Sunday, Miss Pearson will play upon the beginning of the 5 o'clock vesper services, conducted by Rev. Mr. McLean.

Miss Pearson is an organist of ability and these little programs are pleasantly anticipated by those who attend these services. All who are interested are invited.

**A** CHICKEN pie supper will be given on Shrove Tuesday, Feb. 20, at the Cathedral hall. Members of the Bishop's club are arranging the affair, which is being given for the benefit of the St. James Orphanage.

**Basket Social.**

**T**HE members of the Linnaea club will give a basket social Friday evening at the K. P. hall. A short program will be given under the arrangement of Mrs. Ida Merritt. Anyone interested in the affair will be welcome. It has been planned for the benefit of the new anti-tuberculosis hospital which is under construction.

**T**HE coming of Mrs. Emma Gorgorza and Signor Emilio de Gorgorza is one of the season's most interesting announcements in the way of musical attractions. When two years ago, Emma Gorgorza retired from public life for a period of rest and recreation, there was widespread regret and the announcement of her return was hailed with joy. The joint concerts with the famous baritone, Emilio de Gorgorza, has been warmly welcomed. The two great artists, who were married in the city of Paris a few months ago, have just concluded a short tour of the Pacific coast, which developed into a series of splendid triumphs. Their performance here will be of the highest importance.

**A** PUBLIC study class meets Sunday evening at 8 o'clock, room 28, Winthrop block. The subject of heredity will be treated from a theosophical standpoint. A class for members only meets Tuesday evening. The study of the evolution of man will be continued, and the beginning of the great Aryan race will be the subject for this week. The regular branch meeting is held every Thursday evening at 8 o'clock, the theme being "Pedigree of Man," by Besant. Visiting members are welcome.

**OFFICERS** of the Young Women's Christian Association were elected for this year at the annual business meeting of the board of directors of the association, which was held yesterday. Mrs. W. C. Agnew, who has been the head of the association work so many years, was elected honorary president, as she felt she could not again assume the responsibility of the active work. Mrs. W. A. McGonagle, who has been in charge of the association's work for many years, was made president; Mrs. J. A. Wattersworth, vice president; Mrs. W. J. McCabe, secretary; Mrs. Carroll F. Graft, corresponding secretary; Mrs. Robert Smith, recording secretary; and Mrs. G. H. Claypool, treasurer.

It was decided to hold a financial campaign some time in April or May for the purpose of gaining new members and swelling the budget for the year.

**Local Artists Please Large Audience at Pilgrim Church**

OF the most entertaining programs of the season was given last evening at the Pilgrimage Congress by some of Duluth's favorite entertainers. Mrs. E. E. Thurston, the little star who has been away from Duluth for so many years, played a number of several readings given by her finished actress manner, including pathos and shadings.

Mrs. Frank E. Parker read her reading, "The Old Joe," a Scotch dialect story, and "Sheridan's Ride," a Scotch story.

Swedish actress, Mrs. E. E. she also gave a Scottish dialect reading which pleased.

Charles E. Reynolds sang the best. Her numbers were well chosen. Macassar sang a number. Her was artistic in her part. Mrs. Charles E. Thornton, who sang a number, was very good. Her and her numbers were enjoyed.

Walter Miller sang a number. Impersonation of Harry Lauder in songs at the Pilgrimage Congress. The and the Scottish Lute quartet sang numbers which received loud applause.

and in a duet with A. K. Bjorkquist.

The concert was given for the benefit of the Garfield Circle No. 4, Ladies Aid.

The alumni of the Jackson school and friends of the former principal are invited to be present Monday at 3 p. m., when the beautiful window which has been placed in the building as memorial to Miss Georgia McIntosh will be unveiled.

The window is the work of the Kinberly firm of New York.

**Dr. Kline Will Talk on "Psychology and Child Welfare"**

The Association of Collegiate Alumni and Affiliated College clubs will meet next Monday afternoon at 4 o'clock at the home of Mrs. H. A. Dyer, 2514 East Superior street. Dr. Kline will speak on "Psychology and Child Welfare."

Miss Catherine Morton and Mrs. De-

# GOVERNOR EBERHART, FRANK NELSON AND CONGRESSMAN MILLER WILL SPEAK HERE

Banquet of John Ericsson League Promises to Be Notable Affair.

Members Will Leave on Special Train for Chicago, Following Dinner.

The third annual meeting and banquet of the John Ericsson League of Minnesota, which will be held in Duluth Friday, March 8, is of special significance. The league is a political organization and this is an election year. The fiftieth anniversary of the battle between the Monitor and the Merrimack is also celebrated this year.

Spaulding. Dr. J. J. Eklund of Duluth will be toastmaster. The banquet is to be held this year on March 8 instead of March 9, the anniversary of the historic battle, because of a national gathering to be held at Chicago March 9. After the banquet here a special train carrying about fifty members of the Minnesota league will leave for Chicago. About 1,200 members of the league from all parts of the country are expected to attend the Chicago banquet and it is thought President Taft will be one of the speakers. The arrangements for the special train are in the hands of

W. A. Anderson of Duluth, president of the Minnesota league, and he is recruiting the party to make the trip. Arrangements for the meeting and banquet here are in the hands of the Svva. Republican club. Invitations have been sent out through the state and the return indicate that the gathering will be the greatest in the history of the league. The political features of the meeting will be secondary to the semi-centennial of the Ericsson anniversary this year, but there will be politics enough to suit the most ardent politician. The membership of the league

## HIGH SCHOOL NOTES

Another of the popular Junco literary programs given by the members of that enthusiastic organization was presented following the regular business session of the club Thursday afternoon at the close of school. The program contained reading and sections of Lincoln and St. Valentine and the following students took part: Lillian Shapiro, Anna Slonim, Katharine Ingalls and John Shields.

The football "D" men met this morning for the purpose of having the official picture taken. In chapel Friday morning Principal Young read a notice to the effect

that a scholarship of \$400 for Swarthmore college has been offered by the Western Swarthmore club. The circular states that all applicants for the scholarship must be members of the 1912 class of any high school west of the Allegheny mountains. All students making application are required to excel in scholarship and the various activities of school life, including athletics.

In chapel yesterday morning William Elder, president of the Junior class, on behalf of the 1912 hockey team, challenged the seniors to a game of hockey. President Robert Mars of the class of 1912 accepted

the challenge and will announce the time and place later. The seniors, on the strength of their 5 to 0 victory over the sophomores Wednesday afternoon, claimed the championship of the school, which title was, however, promptly questioned by the Junior puck chasers.

During the chapel services Monday morning, Principal Young commented on the fact that the students were required to attend school on Lincoln's birthday anniversary. Mr. Young stated that it is very probable that two days' vacation will be given the pupils on Washington's birthday.

At the monthly meeting of the Junior class, held Wednesday immediately following the close of school, plans for the mid-year dance, which will be given this evening, were discussed. Miss Addie Smith, the 1913 advisor, spoke to the students about several matters pertaining to the hop, and the students made some preliminary arrangements relative to the interclass track meet.

During the 20-minute study period Tuesday morning the members of the sophomore class held a special meeting in the assembly hall. After a somewhat lengthy discussion it was decided to present the players on the class hockey team with jerseys. It is now practically decided that the

sophomores will hold their annual dance in connection with the freshmen. Miss Case, the 1914 class advisor, spoke to the students regarding the production of the play, which will be presented next week. Mr. Custance announced the reservation for high school students of a limited number of seats for a special matinee Wednesday afternoon.

The girls' Bible classes met for study Friday afternoon at the Y. W. C. A. The high school boys' Bible classes met for dinner and study Tuesday evening at the boys' department. These sessions are interesting and instructive both from a social and educational standpoint, and a large number of students are enrolled in the several classes.

The first meeting of the musical society this semester was held Tuesday afternoon. Miss Margaret Thompson, soprano, was the soloist and sang "In the Garden of My Heart." In response to an encore Miss Thompson rendered "My Hero From the Chocolate Soldier."

The dramatic circle of the Junco literary society met Wednesday afternoon and made preparations for the program which the members presented at the regular weekly meeting of the society Thursday afternoon in the assembly hall.

Prof. A. F. M. Custance spoke briefly to the students in chapel

Wednesday morning relative to the coming of the light opera, "The Balkan Princess," which is being brought here by the local Shriners, under whose auspices the production will be presented next week. Mr. Custance announced the reservation for high school students of a limited number of seats for a special matinee Wednesday afternoon.

PRE-LENTEN BALL.

Letter Carriers Will Enjoy Annual Dance at the Armory.

The letter carriers' grand pre-Lenten ball will take place next Monday evening, Feb. 19, at the Armory.

Elaborate preparations have been made to make this a success. The music for the dance will be made a special feature with catchy airs, and

the program will be so arranged that every one may enjoy it. Ed Fisher will have charge of the occasion, which insures a well-conducted dance. A souvenir program will be issued at the door.

The carriers are organized for the good of the service. To look after their own interests they have an insurance feature which pays death benefits from \$500 to \$2,000. They have a reserve fund of close to \$500,000, also a national sick benefit which pays \$9 per week and a local benefit of \$7 per week. The sick are looked after and are aided until able to work. Postmaster Cook and staff will be in attendance.

SOLDIERS' LAND LAW APPLIES IN ALASKA.

Washington, Feb. 17.—In an opinion affecting the so-called Ryan claims on Controller bay, Alaska, which were the subject of a congressional investigation last year, Assistant Attorney General Cobb, for the interior department, decides that lands may be located in Alaska under the soldiers' additional rights law, provided the lands are above ordinary high tides. Lands which are inundated only by the extraordinary high waters of October and November are to be considered above tide.

This will affect two of the Ryan claims, if they are found correct in all respects aside from the question of

tide and several other technical questions considered in the opinion. As to one of the other Ryan claims, Acting Secretary of the Interior Adams has instructed Commissioner Bennett of the land office to adjudicate the application for railway right-of-way.

Of all the world's production of 3,747 tons of quicksilver last year, the United States produced but 773 tons.

LUTH HERALD READERS WHO  
WRITE AT ONCE.

Attention of the mystically inclined seems to be centered at present upon the work of Mr. Clay Burton Vance, who, although laying claim to no special gift of supernatural powers, attempts to reveal the lives of people through the slender clues of his biographical data. The undeniable accuracy of his delineations leads one to surmise that hereof one of the palmists, prophets, astrologers, and seers of diverse beliefs have failed to apply the true principles of the science of divination.

The following letters are published as evidence of Mr. Vance's ability. Mr. Lafayette Reddit writes: "My Reading received. With the greatest amazement I read, as step by step you outlined my life since infancy. I have been somewhat interested along these lines for years, but had no idea that such priceless advice could be given. I must admit that you are indeed a very remarkable man, and am glad you use your great gift to benefit your clients."

Mr. Fred Walton writes: "I did not expect such a splendid outline of my life. The scientific value of your Readings cannot be fully appreciated until one has his own Reading. To consult you means success and happiness."

Arrangements have been made to give free test Readings to all readers of The Herald, but it is especially requested that those who wish to avail themselves of this generous offer make application at once. If you wish a delineation of your own life, if you wish a true description of your character, if you wish to know your own future, simply send your full name, the date, month and year of your birth (state whether Mr., Mrs., or Miss), and also copy the following verse in your own handwriting:

"Your power is marvelous,  
So people write  
Please read my life.  
Are my prospects bright?"

Send your letter to Mr. Clay Burton Vance, Suite 142-D, No. 14, Rue de Richelieu, Paris, France. If you wish you may enclose 10c to pay postage, or you may pay postage on letters posted to France. Do not enclose coins or silver in your letter.

## ED. PINAUD'S HAIR TONIC

(EAU DE QUININE)

which instantly removes dandruff and relieves scalp discomfort. It also strengthens the hair, imparts new lustre and helps maintain a normal condition of the scalp. By using ED. PINAUD'S faithfully, you can quickly prove its wonderful efficiency in all cases where a hair tonic is required.

Refined men and women, even when their hair is healthy, use ED. PINAUD'S as a daily dressing, because of its fragrance and as a means of preventing future scalp and hair troubles. Do not confuse ED. PINAUD'S EAU DE QUININE with "dandruff cures" of doubtful value. It is very agreeable to use, not being oily, and it does not make the hair "sticky." You can use ED. PINAUD'S with absolute confidence in its purity and effects. ED. PINAUD'S name has been famous for over a century and his signature on the label of any toilet preparation is positive insurance of standard quality.

Accept only the genuine. Ask your dealer for ED. PINAUD'S Eau de Quinine and look for the signature in red ink on the label. We are obliged to warn the public against the many inferior preparations made in imitation of ED. PINAUD'S. Be very careful as to what you use on your scalp and hair as many preparations contain inferior ingredients, which may be injurious. Remember that ED. PINAUD'S is the original Eau de Quinine, the standard hair tonic.

ED. PINAUD'S Eau de Quinine retails at 50c and \$1.00 per bottle. Every good dealer sells it.

## ENCOURAGED BY INQUIRY

Few Deals Made, But Interest in Market Is Sustained.

Arrival of Spring Weather Expected to Bring Out Investors.

At no time in several months has the inquiry for both improved and unimproved city and farm property been better than at this time, dealers say, but it is also true, they declare, that there is a lull in the market and that little trading is being done.

"We have all sorts of promises," said a dealer yesterday, "but that is all that can be said for them at this time. Inquiry was never better for all kinds of property than it is now, but the people seem to be waiting for spring weather before they invest their money."

The Lakeside Land company this week sold to Lawrence Gunderson about 300 feet frontage on both sides of the Lester Park pavilion on Sixty-first avenue east for \$3,200. The cost of this home in Duluth or vicinity would be about \$1,200.

## ARCHITECTS HOLD BANQUET

Winner of the \$3,000 Bungalow Contest Is Announced.

With a banquet and informal program given mostly to story telling, the Duluth Architectural club members Thursday evening enjoyed one of their series of special affairs planned for the winter. Covers were laid for about fifty.

"Mac" Thompson of the Thompson-Stewart company did the honors as toastmaster. The program was very informal in its nature and no "set" speeches were delivered. Several musical selections were given during the course of the evening by a stringed orchestra. Following the dinner, the evening was given over to card playing.

The winner in the \$3,000 brick bungalow competition thus announced as J. Carson, who is employed in the office of Architect A. Puck. Mr. Carson was given an \$18 book prize. Several sketches were submitted by the contestants. The successful plans will be sent by the club to the Brick-builders Magazine, which has a competition calling for the same specifications.

Bernhard Langdahl was a \$7 book prize winner in the junior draftsman's contest. Mr. Langdahl is employed with Architect A. Holstead.

NEW OFFICE BUILDING ON EAST SUPERIOR STREET.

G. G. Hartley is having a local architect prepare sketches for a handsome white stone front office building to be erected this year on the corner of Eighth avenue east and Superior street, lower side. The structure will probably be three or four stories in height and will be one of the most modern in the city. While plans have not been entirely formulated, it is understood that the deal is practically a certainty.

## ELLSBURG

The Coming Metropolis of the New Iron Range!

This new townsite is located about sixteen miles south of Eveleth on the Canadian Northern, right in the midst of the Wabasha Iron & Steel Co. and the Long Lake Iron & Steel Co. lands. The Wabasha Co. is now operating a drill about 1/4 of a mile from Ellsburg, and the Long Lake Co. expects to start a drill very soon right by the townsite.

Flat shows slatetrack to saw mill to be built a few hundred feet from townsite, also the Weyerhaeuser Logging Road, which joins the Canadian Northern at this point.

County road will be built in spring connecting Ellsburg with the Miller Trunk Road on the west and Long Lake on the east, tapping a rich farming district. Small hotel now doing thriving business; contracts let for General Store, Postoffice, Hotel and Restaurant; negotiations also under way for a Store and Heading Mill.

Now is the time to secure a lot in the Metropolis of the New Iron Range, only \$125.00 and \$150.00 per lot, but you know what will happen to the price when these drills prove up a mine. Come early and get your pick.

## SUBPOENA FOR GEN. AINSWORTH

House Committee on War Department Will Question Him.

Washington, Feb. 17.—Former Adj. Gen. Frederick C. Ainsworth of the army, who retired yesterday, was subpoenaed today to appear Monday before the house committee on war department expenditures. His appearance is desired primarily in connection with the hearing concerning Paymaster B. B. Ray, now under investigation, but members of the committee say the inquiry is likely to be extended to include the Wood-Ainsworth controversy and the entire conduct of the

The administration of army affairs in the Philippines, it was reported, is to be inquired into, and many other matters concerning which Gen. Ainsworth has knowledge will be investigated.

The committee is said to be convinced that Gen. Ainsworth has a fund of valuable information bearing on war department affairs, which could be brought out in a general inquiry relating to expenditures and the differences which resulted in Gen. Ainsworth's retirement.

## FEW PERMITS ARE ISSUED

Architects and Contractors Are Passing Through Quiet Season.

Rumors of Big Jobs in Sight But Developments Are Slow.

Duluth architects are waiting for things to "turn up." The season is exceptionally quiet in building, as shown by the small number of building permits which are being issued from week to week. Last week there were but seven permits taken out, the total estimated cost of improvements being but \$5,300. This week, there was little sign of improvement as indicated by the building permits. Ten were taken out representing an expenditure of but \$10,550. While there are whispers of big jobs in sight and a few sketches of prospective work are being prepared in some of the architects' offices, nothing definite seems to have developed. There is a lull in the building trades awaiting the advent of the spring. The quietness in building times at this time, however, is not dissimilar to what may be expected when suitable building weather comes. In fact, Duluth builders say that a big program mapped out for the year.

W. J. Sullivan of the firm of Ellerbe, Round & Sullivan, architects, will take during the next week the building permits for the new Carnegie library, which is under construction at Central Avenue and Eleventh street, West Duluth.

F. L. Young & Co., architects, this week let to Adolph Solem, a contractor, to remodel the Hermann school building, sixteen miles north of the city, on the Brooks-Scanlon road. The improvements will cost about \$5,000.

## DYNAMITING CASE IN MAY

Government Hopes to Put Indicted Men on Trial Then.

Report That Some Will Turn State's Evidence Is Not Denied.

Indianapolis, Ind., Feb. 17.—Questions concerning the removal for arraignment here on March 12 of men on the Pacific coast indicted in the dynamite conspiracy were considered by District Attorney Charles W. Miller today.

Six of the fifty-four men either are in prison or in custody in the West. Of these are the brothers, now in San Quentin prison in California, and Orrie E. McManigal, now in custody of the federal authorities. The other three are not considered as being brought here for arraignment, but will be called as government witnesses for the trials, probably in May. E. A. City and Aug. S. Twitmore, labor leaders in San Francisco, and J. E. Muney of Salt Lake City, Utah, are to be brought here for arraignment if it does not conflict with their status under indictments returned against them in California. The question as to whether any conflict in jurisdiction would be considered.

Will Some Confess? Intimations are said to have been received by the government that some of the defendants in the dynamite case are preparing to tell "all they know."

The charges that 40,000 letters and telegrams, taken from the International Association of Bridge and Structural Iron Workers showed that Frank Ryan, president, Herbert S. Hockin, the second vice president, and members of the executive board, and business agents conducted the dynamite plots through the mail, pointed out "jobs" to be done, and

tailed a system of destruction against non-union iron and steel contractors. Asked today by a reporter if they had opened with him concerning the defendants, United States District Attorney Charles W. Miller said:

"I wouldn't be surprised if it is shown that something like that has happened."

W. N. Harding, counsel for Ryan and the international officials of the Iron Workers, held a long conference with Mr. Miller, but he was not disclosed what was considered.

Between now and the arraignment before Judge Albert B. Anderson here on March 12, the government will probably make proposals for the trial. Some of the defendants, reported in various cities where they were in a week.

May Recieve Grand Jury. The federal grand jury, which returned the indictments has not been dismissed. It is expected that the grand jury will be reconstituted in this connection.

It is stated that while the government brought indictments only in such instances as "hard working" men mentioned in the testimony who escaped arrest because of lack of evidence which later the government may come into possession of.

Orrie McManigal's confession as to the dynamite he did under the direction of Ryan, was said by District Attorney Miller to be corroborated by Ryan's letter written to McManigal in 1910 in which the indictment charging "acts of conspiracy" Ryan's letter written to McManigal in 1910 is cited in the indictment as showing he instructed Ryan to "do the job" at Buffalo and Rochester, N. Y.; Hockin to do "jobs" at Cleveland, Detroit, and Chicago, and Cincinnati; Paul J. Morris, St. Louis, to do a "job" at New York to do "jobs" at Worcester, Mass.

The indictments charging "consummated" or completed conspiracy alleged that the "job" at Mt. Vernon, Ill., was dynamited on the night of April 8, 1910, and the "job" at Chicago, Ill., was dynamited by the company referred to by Ryan was dynamited June 2, 1910, and the "job" at Cleveland, N. Y., was dynamited June 2, 1910, and the "job" at Buffalo, N. Y., was dynamited July 10, 1910; that a bridge was dynamited at Rock Island, Ill., in 1910.

The testimony of McManigal, of which the explosion occurred, and of members of crews of trains upon which explosions were carried out, and letters alleged to show the "consummated" acts, Mr. Miller said.

Because McManigal was the most active agent of the dynamite, though he was a close second, the government will rely heavily upon his testimony for corroborative evidence at the trials. He added:

"Others not named in the indictments were named in the indictments as having been connected with the plot, and early developments may bring their identity forward, but at present we are satisfied to try those against whom we are sure we have conclusive evidence."

Concerning the letters quoted in the indictment, Mr. Ryan said: "It is unfair for the government to draw conclusions that those letters were written to promote crime. If any person reads all of them he will find that they refer only to legitimate means of inducing contractors to utilize their works."

Hockin "Dangerous Character." Detroit, Mich., Feb. 17.—Excitement was caused last night when Herbert S. Hockin, second vice president of the International Association of Bridge & Structural Iron Workers, who came here from Indianapolis to secure a reduction from \$5,000 to \$3,000 in the bonds asked for the release of two alleged dynamiters in jail here, was taken to police headquarters by detectives.

Hockin was informed that he had been wanted here for some time and that he would be held to answer an old charge which was supposed to be pending against him. Hockin was soon taken to headquarters where he was found.

Hockin had in his possession a return ticket for Indianapolis, and stated that he intended to go to that city.

## CLEANED UP ALONG THE POLICE RUN

Quite a noticeable thing at the police station these days is that there isn't an awful lot doing.

There is plenty to satisfy the police and to keep them fairly busy, but the absence of crimes of more serious nature is apparent.

Petty thievery, the passing of small forged checks, minor assaults and misdemeanors are entered on the blotter with more or less regularity. But cutting scrapes, brutal assaults, shooting affairs, big robberies and murders are very rare.

Professional crooks do not make Duluth their rendezvous, although they do pass through once in a while and "

# GOVERNOR JOHNSON SAYS ROOSEVELT IS THE POPULAR NOMINEE

Issues Formal Statement, With Knowledge of the Ex-President.

Pinchot Abandons La Follette and Comes Out for Teddy.

Says Last Month Has Demonstrated Weakness of Wisconsin Man.

New York, Feb. 19.—Hiram Johnson, governor of California, hitherto an ardent supporter of Senator La Follette, issued a formal statement here today, saying that in his opinion Theodore Roosevelt should be the next Republican nominee for president of the United States. The statement was issued, he said, with Mr. Roosevelt's knowledge, but not necessarily with his sanction.

Admire La Follette. "The admiration of California progressives for Senator La Follette is undiminished," said Governor Johnson, "and they recognize his splendid services and great sacrifices for the cause. In California, however, it is obvious that progressive policies can best be accomplished at present through the leadership of Theodore Roosevelt. To him the West has ever looked as the exponent of equal opportunity for all, and as the champion of popular rule. Today there is not a hamlet or city in this country, where, upon a ballot legitimately taken, the people would not by five to one prefer him to his principal opponents. But it is a tragedy upon a boasted government of the people that with this overwhelming sentiment there should for one instant be doubt of the result."

Republican Power at Risk. "Four years ago Mr. Roosevelt turned over to his successor a Republican party at high tide of success and entrenched in the confidence of all. Today, with the confidence of the past ebbing with confidence in Roosevelt, it is only where Progressivism has been victorious that state governments yet are Republican; and to continue with the leader whose three years have wrought such disaster can mean only political suicide."

Clear-cut, therefore, is the situation. Shall the people rule and shall Roosevelt, their choice, be nominated, or shall Republicans court certain defeat by the nomination of one whose trusteeship has wrecked the party? "We of the West, with our confidence in Roosevelt, will not be taken in."

## RICH MURDERER DIES ON GALLOWES

Rejects Services of Minister and Goes Laughing to His Fate.

Mobile, Ala., Feb. 19.—J. Lawrence Odom, convicted of the murder of three persons, was hanged here today. He refused the ministrations of a clergyman who labored with him all night, and those of his own son, a Catholic priest.

When asked to say his last prayer, he requested that his 5-year-old daughter, Hazel, be brought to him to remove the black cap. He mounted the gallows and laughingly asked to see his wife.

Odom was convicted of killing Charles Golang, Joseph Stokes and David Garton, the latter a 16-year-old boy. They had been witnesses against him in police court on a charge of cruelty to a dog. The killings took place March 18, 1910, at Citronelle, Ala. He shot the boy at the feet of his mother as she was pleading for his life.

Odom was tried twice and declared guilty each time. He was wealthy.

## PROMINENT MASON OF BRAINERD DIES

George Forsythe, Foreman of Shops and Old Resident, Called at 70.

Brainard, Minn., Feb. 19.—(Special to The Herald.)—George Forsythe, aged 70, died this morning of paralysis. He was a prominent Mason, being past grand high priest of the Royal Arch Masons of Minnesota; thrice illustrious master, royal and select masters Scandinavian Council No. 10, past worthy patron of Eastern Star; past high priest of Royal Arch Masons of Brainard Chapter No. 42; past eminent commander of Ascalon Commandery No. 18, K. T. Brainard, and member of the state Masonic association.

Mr. Forsythe was alderman and president of the city council, and a member of St. Paul's Episcopal church and foreman of the machine shop department of the Northern Pacific Railway shops for thirty-six years.

He leaves a wife, one son, George L. Forsythe, and an adopted son, Joseph Miley, three brothers, William of New York, Charles of Syracuse, and A. J. Forsythe of Brooklyn, three sisters, Mrs. F. Jones of Brooklyn, Mrs. Elizabeth Gemmell, Syracuse, and Miss Emma Forsythe of Minneapolis. The funeral arrangements have not been settled.

## IS WEAKER THAN TAFT

Democrats Hold Roosevelt Is Not as Strong in Pivotal States.

Underwood Regarded as Democratic Candidate to Be Taken Seriously.

(By Willis J. Abbott.)

Washington, Feb. 19.—(Special to The Herald.)—The proclamation of the so-called Progressive Republicans in behalf of Roosevelt and denunciation of Taft does not materially surprise political Washington. Neither does it seriously impress the men in power at the capital.

It is not a surprise because nearly every man in politics looked upon the original conference at Chicago, which declared for La Follette, as a mere skirmish line for Roosevelt. It was thought that if the participants in the conference were wholly sincere they would have adopted a ringing declaration of principles and platform, instead of which they picked out a candidate and named the country as proponents of Roosevelt.

Not Feared by Democrats. The general consensus of Democratic opinion here is not averse to meeting the Roosevelt challenge. Three months ago men were saying that Democratic success in November would be seriously complicated.

Mason City, Iowa, Feb. 19.—The memorial university of Mason City, founded by Sons of Veterans, was today sold to Archbishop Keane of the Catholic archdiocese of Dubuque.

FORMER MOORHEAD  
WEATHER CHIEF DIES.

Moorhead, Minn., Feb. 19.—Col. H. W. Grasse, who for the past twenty years has been in charge of the Moorhead United States weather bureau, died Friday at Rochester, Minn. He suffered from years of kidney trouble. He was 52 years old.

## COLOMBIA IS DISGRUNTLED

Disappointment Over Panama Dispute Causes Warning to Knox.

Secretary of State Will Not Be Welcome If He Visits Bogota.

Washington, Feb. 19.—Profound disappointment on receiving intimations that Secretary Knox did not contemplate giving Colombia any assurance of the ultimate arbitration of her claims against the United States was generally ascribed today as the reason for the expression from Senor Pedro Nel Ospina, the Colombian minister, last night that a visit by Mr. Knox to his country at the present time would be "inopportune."

In his expression last night, the Colombian minister made it extremely plain that his government is becoming more and more impatient at the failure of the United States to act upon or even reply to the successive notes that have been transmitted to it by Colombia suggesting arbitration of the dispute raised by the recognition of the independence of the republic of Panama by the United States.

The dispute has been in progress for eight years, and the position now taken by the Colombian minister, and said to be identical with that of the government he represents, is that continued failure by Washington to submit the matter to arbitration would be basis for impugning the sincerity of the Washington government's oft-repeated declarations in favor of universal arbitration.

## MAY PREVENT ENGLISH STRIKE

Efforts to Reach Agreement Made By Miners and Employers.

London, Feb. 19.—While all the preparations that have been made in the coal fields of the United Kingdom are for war rather than for peace, there is just a gleam of hope that the threatened strike of nearly a million men at the end of this month will be averted.

The fact has just been disclosed that William E. Harvey, the labor member of parliament for Northeast Derby, who is secretary of the miners' federation, accompanied by five representatives of the English miners, is holding meetings privately with five mine owners in the hope of preparing a basis for peace.

Besides this, the conciliation board of the English federated area is meeting today. Should progress be made in the effort to reach a settlement in England, South Wales and Scotland will remain the chief obstacles to an agreement. The authorities looked upon Wales as the great danger spot, and having regard to the disturbances which occurred there last year, the chief constable of Glamorganshire has suggested to the magistrates that an application should be made for the drafting of a body of 1,000 infantry and 1,100 cavalry into the affected areas.

## CHAMP CLARK FAILS TO SECURE MAJORITY OF OKLAHOMA VOTES

Gets 192 Delegates to Wilson's 170, With 192 More Uninstructed.

Missouri Delegation Will Be for Speaker—Split on Committeeman.

Oklahoma City, Okla., Feb. 19.—Uninstructed delegates will hold the balance of power in the Democratic state convention here Feb. 22. This was made certain by returns from sixty-six of the seventy-seven Oklahoma counties, which showed that in Saturday's county primaries twenty-five counties, having a total of 192 delegates in the state convention, had instructed for Champ Clark as presidential nominee; twenty-one counties with 170 delegates instructed for Woodrow Wilson, while twenty counties, with 192 delegates accredited, gave their delegates no instruction. WILL BE RE-ELECTED

PERRY S. HEATH.

Washington, Feb. 19.—Perry S. Heath, who has returned to Washington from a tour of twenty states, reports that he finds the popular feeling is for Taft and that he expects to see the president renominated and re-elected. Mr. Heath, who formerly was postmaster general, is in favor of the election of Mr. Taft, not, perhaps, because he loves Taft more, but because he loves Roosevelt less.

CONCRETE BUILDING  
COLLAPSES; ONE DEAD.

Pittsburg, Pa., Feb. 19.—One man was killed and four were injured in the collapse of a three-and-a-half-story concrete and steel office building at the corner of Sixth and St. Peter streets, early today. John Thorm, lieutenant of Company 9, died soon after reaching the hospital, and Miles McDonough, pipeman, Company 9, was seriously injured.

The fire, which broke out at 1:40, was got under control shortly after 3 o'clock, after causing a property loss of \$100,000. The theater was completely burned out and the building practically destroyed. Those burned out, besides the establishment of C. H. Lee, George Hart's saloon, Fred Boles' cigar store and the office of the Philadelphia & Reading Coal company. The second and lower floors of the building were occupied by theater agencies, physicians, dentists and lawyers.

\*\*\*\*\*  
Washington, Feb. 19.—President Taft today sent to the senate the nomination of Chancellor Nathan Pitney of New Jersey to be an associate justice of the United States supreme court to succeed the late Justice Harlan.

He also nominated Julius M. Mayer of New York city to be judge of the United States district court for Southern New York and Ferdinand A. Geiger of Cassville, Wis., to be district judge Eastern district of Wisconsin.

The president had an opportunity to talk with the New Jersey jurist last week when he was in Newark. Both Chancellor Pitney and Justice Swayne were guests at the luncheon given in the president's honor by Governor Murphy. Chancellor Pitney sat beside the president, and the impression he made on the chief executive at that time was reflected in Mr. Taft's speech at the close of the luncheon.

Federal Supreme Court Declares Minnesota Statute Is Valid.

Washington, Feb. 19.—The Minnesota gross revenue tax law, as applied to express companies, was today held constitutional by the supreme court of the United States. The state will be able to recover approximately \$100,000 in taxes from the express companies as a result.

## FIRE DESTROYS ST. PAUL GRAND

One Fireman Dead and Another Badly Hurt in Theater Fire.

St. Paul, Minn., Feb. 19.—(Special to The Herald.)—One fireman is dead and another may die as the result of a fire that destroyed the Grand opera house, Sixth and St. Peter streets, early today. John Thorm, lieutenant of Company 9, died soon after reaching the hospital, and Miles McDonough, pipeman, Company 9, was seriously injured.

The fire, which broke out at 1:40, was got under control shortly after 3 o'clock, after causing a property loss of \$100,000. Majority Findings Basis of Declaration By Senate Committee Men.

Declaration Signed By Clapp, Kenyon, Jones, Lea and Kern.

Says He Spent Fortune to Debauch Electorate in Wisconsin.

Washington, Feb. 18.—United States Senator Isaac Stephenson of Wisconsin is not entitled to his seat in the opinion of five members of the senate committee on privileges and elections who filed a minority report with the senate today. The majority report on the investigation of Senator Stephenson's campaign expenditures was submitted Feb. 12. In substance it held that the charges of corruption in the primary of 1908 were not proved.

The minority report is signed by Senators Kenyon, Clapp and Jones, Republicans, and Lea and Kern, Democrats. It contends that enough evidence was introduced by the inquiry to warrant the senate in declaring Senator Stephenson's seat vacant.

\*\*\*\*\*  
Referring to the fact that the senator, through his lieutenants, spent \$107,782 in his campaign, and that candidates for the state legislature spent proportionately large sums, the report quotes from the majority report: "Such expenditures were in violation of the fundamental principles of the La Follette campaign."

## TAFT LEADERS IN WISCONSIN MEET

Will Pick Delegates to Oppose La Follette Men at Primaries.

Milwaukee, Wis., Feb. 19.—A large number of the followers of President Taft are in Milwaukee today, the occasion being the holding of a conference here to select delegates to the national Republican convention, to be followed by a banquet tonight at the Milwaukee Athletic club. Jacob Barker, attorney general, Wickersham is scheduled to deliver the principal address at the conference. Delegates to be selected at the conference must go before the primary in opposition to those selected by the La Follette conference held at Madison.

\*\*\*\*\*  
Before the conference was called it was reported that four of Wisconsin's former governors would be named. Those mentioned as the probable slate included Fulton M. Meyer, Ex-Governor James O. Davidson, William H. Upham, Edward Scofield and William D. Hoard.

Hancock, Mich., Feb. 18.—(Special to The Herald.)—In a pistol duel in a Hancock saloon last night between Ernest Hendrickson, a well known young man about town, and Jacob Eller, a prosperous merchant, Hendrickson was shot three times by Eller. It is said, claimed Hendrickson was too attentive to his wife and followed him into the saloon with the intention of reproving him.

## ARMED MEN DEFIED BY THE WOMEN

Polish Strikers at Lawrence, Mass., Threaten Disturbance.

Lawrence, Mass., Feb. 19.—A band of Polish women operatives who are participating in the great textile strike assembled near St. Anthony's Syrian church early today and defied the police and militia authorities to disperse them. The women numbered about a dozen and were engaged in picketing the vicinity of the mills. They did not disperse until a squad of about thirty police, a small detachment of infantry and a troop of cavalry were sent to the scene. Three of the women were charged with disorderly conduct.

night, one eye being completely closed and the other so swollen that he could barely see through it. His nose battered out of shape, his forehead and scalp a mass of ugly lumps and his features smeared with blood, his feelings towards Johnson matched his appearance. But this morning he did not want to appear against him. "I don't want to make any trouble about it," he said. "We were just drunk and had a little fight that's all. But he was put on the

stand and answered the questions which were put to him. Reluctant as were the replies they were more than sufficient to convict Johnson. The court heard the testimony and then looked at Anderson's face. "Sixty days in the county jail," he said. Anderson had pleaded guilty to a charge of drunkenness but as the court deemed that he had been sufficiently punished he was given a suspended sentence.

Shortly before Johnson was tried he was seen whispering to Anderson as the two sat on the benches in the courtroom. What he said to him is not known, as it cannot be determined whether Anderson was still afraid of him, or was won over by Johnson's persuasive powers. Anderson was picked up on the street by a policeman and sent to headquarters and Johnson was picked up later.

Following a raid on the Lincoln hotel on First street near Fourth avenue west early yesterday morning, in which two young couples were caught by the police dragnet, W. G. Burton and Julius Mezrowski, the proprietors, were arrested this morning on the charge of running a house of ill-fame. The Lincoln has had far from a good reputation for several years past. It attained its greatest notoriety at the time it was purchased by Madam Guin and run by her and since then the police assert that its character has not greatly improved.

When arrested in police court this morning the proprietors entered pleas of not guilty and their trials were set for this afternoon. Hall was fixed at \$100 in each case. The four who were caught in the police raid forfeited \$125 bail each when their names were called in police court today.

It is asserted that the latter had spent some time in the Club chop suey house about midnight before coming to a hotel. It appears that they were refused accommodations at another downtown hotel and then went to the Lincoln, where each couple signed as man and wife. At the chop suey house it is claimed that they were served with beer and a warrant has been issued for the arrest of H. Hule, who is said to have been in charge of the place, charging him with keeping an unlicensed drinking place. He had not been arrested up to noon today but will likely be brought in this afternoon.

Elmer Eno, who was arrested Saturday by Railroad Special Halberg on a charge of burglary after a long chase through the streets, was set for Wednesday. It appears that Special Halberg had seen three men picking away with a quantity of wheat Friday evening, but had managed to escape after dropping their sacks. Believing that they would return the next day, the officer laid wait for them.

When he went to make the arrest each of the three ran in a different direction. The special went after Eno, he chased him through box cars and lumber piles and across the tracks to the Garfield avenue viaduct. But managed to get away again with the special hard on his heels. It was solely a question of endurance and the special won. Eno collapsed and stumbled forward on his face, completely exhausted, after which it was an easy matter to slip the handcuffs on him and lead him to the police station.

Cornelius Scanlon, whose face has been familiar in the grist for many months past, is tired of the "rest cure" as administered at the county jail. He claims that he really wants to get out of town and go to work. "Con" was up again this morning on a charge of drunkenness and he was so much in earnest about not getting sent back that the tears almost started rolling down his cheeks.

He entered a plea of guilty to the charge against him and then broke into an oration to be allowed his liberty. "Judge, I am half dead from being up there," he said. "I don't want to go back. I've been up there for the time since last August and much more will kill me. I done two 'sixties' and a 'ter' and I met with my share. Give me a chance and I'll get out of town. The mill will be opening up pretty soon and I will go to work."

"Con" is a miller by trade, when he works at it. He only weighs about 250 to 300 pounds, judging by his appearance this morning. Although not a very tall man, he will do immediately the court was glad to grant him the chance he asked for. He was given a sentence hanging over his head he was given until this noon to seek other fields. The authorities hope that he will find other fields and continue to browse in them.

"Snackers" do not cease coming to the police station with their tales of woe. A short while ago John Walden was reported that he had lost his worldly wealth, amounting to \$121, in a colored drive on St. Croix alley and Railroad street.

Like many others who seem to be standing invitations to be separated from his cash, he allowed himself to be "roped in" by Mildred Meadows, a notorious colored wench who has been arrested on numerous occasions on the same kind of charge. He allowed her to make love to him and at the same time went through his pockets, relieving him of his \$121. He did not know the latter part of the transaction, although if he used his brains, he might have expected it.

After the colored woman got the money she fled to Superior. While there she was picked up on suspicion of a similar transaction. Federalists came back to this side of the bay, figuring that if he "snacked" he would likely have been deported by then. But within a couple of days the authorities had him in their hands. She will be tried tomorrow. The police say that Walden was available as a witness, as well as a couple of other men who have fallen into her clutches.

Fanstin Jastzenki accumulated a package Saturday night which he couldn't handle any better than a stranger could his name. He started a fight in a Hovey saloon and when the policeman who was summoned to arrest him put in an appearance he bucked into him. In police court this morning he pleaded guilty to having been drunk and disorderly. He got \$5 and costs or five days in the county jail.

Gust Anderson, the New Duluth man arrested on a charge of having assaulted M. Widell last week, pulling a handful of hair from the latter's head, pleaded guilty in police court this morning. He paid a fine of \$10 and costs. He also furnished a peace bond of \$250.

Sam Greer, an Indian, got \$5 and costs or five days in the county jail when he admitted that he had been beating on the street. Tom McCarty got the same dose on a similar charge. He claimed that all he had asked for was a nickel, with which to pay his fare to West Duluth, where he said he had a job.

John Murphy declared in police court today that the policeman who arrested him thought he was too drunk to take care of himself because he had a sore foot which caused him to "limp" from one side of the walk to the other. "If it wasn't for that bum foot he wouldn't have known that I had been drinking at all," he said. He entered a plea of guilty to the charge however, and got off with the minimum.

Ernest Fairro was put on parole for a period of six months when he was arraigned in police court this morn-

ing on a charge of drunkenness. His mother appeared with him and his mother rolled from the aged woman's eyes as her son promised that he would abstain from the use of intoxicating liquor. If he breaks his parole he has a sentence of \$40 and costs or thirty days in the county jail hanging over him.

Bernard Hanson wanted to go to work when he was brought in with the grist today. He was given until noon to get a job.

The names of the seven patrolmen who successfully passed the recent civil

service examinations for sergeant have been announced. Maynard E. Cullum by Rubel Johnson, secretary of the commission. Those who got a mark of 75 per cent or over were Officers Dave Butcher, Bob McDermott, Andrew Holstrom, Oskari Kumpulainen, and E. J. Mann. The mayor said that the names were not necessarily given out in the order in which they passed. Two vacant sergeants are to be filled and two of the seven will be named for promotion. All of them have excellent records and would make first-class sergeants. The only thing to be regretted is that all of them cannot be promoted at the same time.

## DISOWNED BY KIMMEL CASE CLAIMANT

MRS. ESTELLE KIMMEL, Mother of Missing Man.

St. Louis, Mo., Feb. 19.—Andrew J. White, claimant in the Kimmel case now on trial in the United States district court, has renounced Mrs. Estelle Kimmel and her daughter, Mrs. Edna Bonsett, mother of the missing George A. Kimmel, as his mother and sister.

"These women are no longer my mother and sister," the claimant said. "I mean of course that they are my blood relations, but I feel no kinship for them. Our relationship would be dead as a door nail. It was killed by their actions toward me in this litigation."

Despite this, the claimant referred to Mrs. Kimmel as "mother" and "sister" in his testimony. He said that he had been living with them in St. Louis, Mo., for some time before he came to Duluth. He said that he had been living with them in St. Louis, Mo., for some time before he came to Duluth.

## FEWER CAMPS THAN USUAL

Despite Ideal Weather Conditions, Log Cut Will Not Be Heavy.

Although weather conditions this winter have been almost ideal for logging, the cut in Northern Minnesota will not be as heavy as in some former years, according to Frank J. Hughes, a Virginia lumberman, who is at the McKay today.

Two reasons are given by Mr. Hughes. The cut on burned-over land during the last two seasons was heavy and some of the companies are well stocked with lumber. The other reason is that the larger operators did not make plans for a heavy cut.

"The big companies are cutting as much as they can now, but they did not make preparations such as they would have made if they could have forecasted the market as it is now," said Mr. Hughes. "The number of camps is smaller than usual and the cut will consequently not be so heavy."

Weather conditions have been almost ideal all winter. There has been just enough snow, but not too much. The cold weather was not favorable for hauling, but it was better than the opposite. Men laid off only one day on account of the cold.

Some of the timber products camps, which have already cut all the ties and posts they set out for the season, will break up early. There is much work to be done in the way of getting out logs yet, however, and the big operators will welcome a few weeks more of winter weather. The last two seasons an early break curtailed operations at the end of the season and we are hoping that will not be the case this year.

One would think that on account of the unusually cold weather the rivers would be frozen solid and the drive in logs would be impossible. Mr. Hughes says that is not the case. "The snow came early and it is not so deep as it was last year," he said. "In some places the Littlefork and Sturgeon rivers the ice is hardly a foot thick and in others it is only a few inches. It is impossible to forecast the condition for the drive, of course. Whether there will be a quick break and a rush of water sufficient for the drive is something operators now but a few weeks will determine that."

There is very little work being done along the Littlefork this year, Mr. Hughes says. The Shovel-Matthews interests are cutting mostly on the Bigfork and the Virginia & Rainy Lake company are cutting east of the Canadian Northern.

The funeral of Athol Morton Miller, Jr., 38 years of age, whose sudden and unexpected death last Thursday night shocked and saddened his friends, will be held at 2 o'clock this afternoon at 2104 East Superior street.

The services were in charge of Rev. E. S. Read of Milwaukee, formerly assistant pastor at St. Paul's Episcopal church and a close friend of the deceased and his family. The pall bearers were George Herbert Spencer, Harvey P. Smith, H. L. Hartley, A. W. Hargis, E. P. Taylor, J. J. McLeeman, Henry Myers, all of this city, and Albert Lindke of St. Paul. The body was placed in a private vault at Forest Hill cemetery.

At Miller Sr., came from New York and was present at the services. Mr. Miller was one of the most prominent young business men in the city. He had extensive interests in Duluth and the lumbering industry. He returned home after a short trip on the range, where he viewed some mining properties. He had a severe cold, but no one thought it serious. But at 8:30 p.m. he was taken ill and died at 11 o'clock. The D. O. K. is an auxiliary of the Knights of Pythias and will confer the third degree at 2 o'clock Thursday afternoon.

Funeral Lecture at the Unitarian Church will begin on Wednesday at 8 p.m. Course tickets, \$2.00; single admission, 50c.

From Dec. 14 to the present time, 377 men have applied for work at the office of the Association of Charities at the courthouse, according to Secretary Charles J. Dinsmore. The majority of the applicants were single men, the society gave preference to married men for jobs on the rock pile. The society co-operated with the police in keeping the applicants for lodging at the police well weeded out.

Eliza Counter Charges. William E. Lomas today filed an answer to the divorce suit brought by his wife, Anna Lomas, in the district court. Lomas charges that she has had improper relations with other men and names one Julius Bergquist in that connection in his complaint. He denies the charges of cruel and inhuman treatment and asks the court to give him the decree of divorce and to deny her alimony. They were married at Menasha, Wis., Sept. 25, 1905. He is 38 and she is 46. They have no children.

Check Writs for Him. Miss Jean Poirier, deputy state factory inspector, with offices at the courthouse, is trying to locate William Payton, a laborer, who is believed at the present time to be employed on a range. She has a \$15 check payable to him in her possession. The check came while she was out of the city. He may obtain the check by calling at her office and establishing his identity.

Given a Clean Bill. The congressional committee, which has been investigating the expenditures of the interior department at Duluth, Minn., gave a clean bill to Capt. William O'Neill, superintendent of logging on the Chippewa reservation. The committee had been in Duluth at the St. Louis hotel. Capt. O'Neill resigned his position on Jan. 15 and will resume his duties on the reservation.

Lumber Market Quiet. J. McLeod, a lumber dealer of Buffalo, who has been spending a few days in Duluth at the McKay, remarked today that the Eastern demand for No. 2 commercial lumber was quiet. He said he was also other Northwestern markets, was quiet just now because the Eastern markets were receiving large quantities of lumber from Idaho. He declared

that never before was so much Idaho lumber seen in the East. For that reason there was less activity than usual in the kind in the market in Minnesota and Wisconsin.

## IN PROBATE COURT

In probate court this morning before Judge S. W. Gilpin, the estate of the late W. F. Wheelhan, who was a well known and wealthy resident of Juneau county, Wis., was closed. Although the entire Wheelhan estate is valued at several hundred thousand dollars, the interests in St.

Louis county will not amount to more than \$10,000. Mr. Wheelhan had interests in several mining properties on the Iron range, including the old Mayas mine near Mesaba, and the Arthur mine, which is now operating under one of the Hill leases. In his will, Mr. Wheelhan left his

widow a legacy of \$20,000 and each of his five children \$10,000. The rest of the estate will also be divided among them.

Judge Gilpin appointed John Spolar of Buhl, Minn., administrator of the estate of the late W. F. Wheelhan. Louis Kallan of Hibbing, administrator of the estate of George Yukolic, and Henry F. Green, administrator of the estate of George Mazar.

Accounts were allowed by Judge Gilpin in the estates of Charles Anderson, Hector Morrison and Annie S. Peterson. The court also heard claims brought against the estate of Jacob Nelson.

Information of insanity has been filed in probate court against James Scully, a resident at Brookston, Minn. Scully will be placed in custody and brought to the county jail by a deputy sheriff today. He will be examined in probate court before Judge Gilpin tomorrow afternoon.

**Widely Special Examiner.**

St. Paul, Minn., Feb. 19.—(Special to The Herald.)—Andrew Fritz, public examiner, has appointed George Widell of Minneapolis, deputy auditor of Hennepin county, as special examiner to succeed Miss Ethel Smith, who resigned last week to marry E. L. Erickson, deputy state treasurer. The appointment becomes effective March 1.

## "La Camille" Is the Last Word in Lace-Front Corsets

Here are the lace-front corsets that have overcome the drawbacks of other models. They have a shield underneath the front lacing which prevents the flesh from bulging through—they have a ventilation in the back which gives perfect freedom and comfort to the spine.

They give that smooth back so much desired by all good dressers. To the woman who would dress in the height of present fashion—they are indispensable. No other corsets are so well suited to narrow gowns.

Here in styles to fit all figures—prices \$3.50, \$5.00 and \$6.50.

## SPRING WINDS AND POLICE PLAY HAVOC WITH PARADE

**MISS LOUISE GUNNING (THE GENUINE ONE) AND THE CAMEL.**  
Mr. Tilton Lewis is one of the handsomest young men of Duluth. Therefore when Mr. Lewis appeared today as "Miss Louise Gunning" in the Shriners' parade, there were many "ohs" and "ahs" and exclamations of "Ain't she beautiful," as well as kindred remarks.

The illusion might have been kept up had it not been for the horrid wind. As the parade was winding its way down Superior street, and the "ohs" and "ahs" were punctuating the atmosphere, and palpitating the breasts of some of the young men on the curbstone, the horrid wind butted in and carried the illusion, in the shape of "Miss Louise Gunning," hair and hat away, thus with one fell swoop destroying the tout ensemble, leaving young Mr. Lewis with a smile, heavenly as it is, rouge, but sans hair and that lovely hat.  
Even if the camel was not in the flesh, the illusion was almost perfect. You know that a camel can go seven days without a drink, and therefore is hardly classed with the humans. For that reason many who lined the sidewalks believed the beast riding the wagon was alive and was riding because the street was so dry, or for some equally good reason.  
Further down on Superior street an illusion, not a disillusion, occurred. The cruel police arrested Capt. Resche and some of the men who were carrying the charge of carrying concealed weapons, for the cannon was

## SIN IS OFTEN ATTRACTIVE

"I would paint sin with a clear eye and attractive form with all its apparent pleasures, rather than the monster covered with mud and slime," said Dr. Yost at the First Presbyterian church last evening in his sermon, "The Laughter of a Fool."  
"Transgression of the law is sometimes followed by punishment, swift and sure, but often there is delay for the mills of God grind slowly, although fine, and sin is often glorious in its tragedy but it blights and blasts the soul."  
Continuing, he said: "It is sin alone that blinds our vision of God, and turns His laws upside down. And it is the successful sin surrounded by wealth, fame and apparent good will, at which the skeptic points with joy and renews his work of destroying purity, at which the 'fool' laughs, fascinated by its success."  
"Therefore the unsuccessful sin is often the best, for it may change the course of a life and only the hand

## MANY SICK GET WELL

Electro Medical Doctors Explain True Facts Concerning Their Success.

DRUGLESS HEALING AND BLOODLESS SURGERY ACCOMPLISHED BY ELECTRO MEDICINE.

Improved Methods of Modern Therapeutics Prove to Be the Natural Method to Bring Back Health.

The new offices of the Electro-Medical Doctors at No. 26 West Superior street in Duluth has had greater success ever since the opening than any other medical office before. The corporation opened this new office at a risk of \$10,000, for which they incorporated in the state of Minnesota. They did this with a view of laying the foundation for their immune future sanatorium which they expect to erect as soon as conditions warrant them to make the sanatorium a success.

The new offices of the Electro-Medical Doctors are no medieval purgatory managed by priests or fake magicians. It is, in fact, an up-to-date clinic for thorough investigation and treatment of all curable human disease, not by prayers or prescription, but by sound scientific therapeutics well established among the leaders in the profession. Nevertheless, it resembles an orthodox purgatory in this, that it removes the causes of former sins of the flesh and restores the victims to well-being and happiness.

Our doctor is an eminent specialist in internal diseases, both men and women. In female diseases he stands supreme, and his methods of curing sickness and misery and promote medical progress and human well-being to the utmost. As Elbert Hubbard, the Philistine, well puts it: "Their

delight is to serve their fellowmen." It is possible better than most other healing institutions in the land, to give the best treatments for the most reasonable remunerations.

The results are often marvelous as regards a sterner and stronger pulse, improved color, better appetite, digestion, assimilation and sleep and a more hopeful, cheerful view of everything. Deep-seated conditions of anemia or hyperemia, atrophy or swelling, internal catarrhes of fluids, hyperplasias and neoplasms or incipient deposits and tumors, the Electro Medical Doctors remove painlessly, without bloodshed as a rule, by its almost omnipotent method of improved radio-electrotherapeutics. For this current penetrates anything and everything, even insulating glass, and it unerring seeks out and goes at reforming, upbuilding, naturalizing the points of least resistance, the diseased structures, disintegrating them and toning them by accelerated blood currents up to higher function and vitality. As usual, the curable shall be cured. The curable shall be cured.

Consultations at the offices are free from 9 to 12 a. m., and 1 to 5 and 8 to 9 p. m., and on Sundays from 10 to 1, at No. 26 West Superior street. All consultations at these hours are free and those who are sick and wish to be cured should not hesitate to consult the Doctors at once. It may save you many years of life.

## REPUBLICAN CELEBRATION

About 30 West Duluth voters, both Republicans and Democrats, attended the celebration held Saturday evening at the West Duluth Commercial club rooms in honor of Mayor-elect J. A. McCuen. The affair was given under the auspices of the West Duluth Republican club and all the political clubs in Duluth were invited to the meeting, which closed with a light luncheon and smoker.

Dr. J. A. McCuen was the principal speaker of the evening and he gave an address in which he thanked the members of the various clubs for his election. He promised to live up to his campaign pledges and prove worthy of the public's choice. Alderman L. A. Barnes presided at the celebration. The other speakers for the evening were: Warren E. Greene, M. M. Forbes, Frank E. Randall, H. A. Carmichael, Roy Hood, J. P. Stafford, William Anderson, George J. Mallory, F. J. Moldahl, P. E. Dowling, Max Oreckovsky, Dr. W. H. Konker and E. J. Zauft.

In his address, Dowling praised President Taft for his activity in the reciprocity pact and the establishment of the postal savings banks in America. Refreshments were served at 10 o'clock, following which cigars were passed around to those present.

## INSPECT ROAD TO NEW DULUTH.

County Commissioner Charles Kauppi with a special committee of eleven members of the West Duluth Commercial club made an inspection tour of the road to New Duluth Saturday afternoon. The committee will appear before the board of public works tomorrow and present the changes that are needed. The members will recommend the repairing of the bridge as soon as possible and the fact that an automobile bus line will be started when the bridge is repaired, will be impressed on the members of the board of public works.

Mr. Kauppi in an interview following the inspection tour, said that the city exceeded its authority in vacating the county road running through the property of the Minnesota. He said that the old county road between West Duluth and Fond du Lac had been established over fifty years and that the action of the council in granting a vacation was a violation of the constitution of consulting the county commissioners was too hasty. The road in his estimation is not legally vacated.

## New Jewelry House.

The formal opening of the Albert Company jewelry store which will do business on a new retail basis is under the able management of Mr. L. E. Kanter, who is an expert on diamonds and jewelry and promises to give liberal terms on credit to all Duluthans. The store is attractively arranged and the jewelry is displayed with excellent taste. To say that Mr. Kanter has confidence in Duluth's future is shown by the thousands of dollars he has invested in the store.

## OBITUARY

Count Alois Lexa von Aehrenthal, Austro-Hungarian minister of foreign affairs, died Saturday night in Vienna. He had been suffering for some time from leucocythemia, and no hopes had been entertained for his recovery. He was born in 1854 and was a member of the grand cross of the Order of Leopold. He was a member of the grand cross of the Order of Leopold. He was a member of the grand cross of the Order of Leopold.

## COUNT VON AEHRENTHAL.

more than any of his immediate predecessors to raise the prestige of the country, his later days were embittered by attacks from Christian Socialist journals, which disliked the minister's sympathy for Italy and his alleged lukewarmness for Germany.

The whole force of the military party was also arrayed against him. His position was the more uncomfortable because his opponents were believed to reflect the views of the heir to the throne, Archduke Franz Ferdinand, although the emperor stood by him. There is no doubt these attacks hastened his death.

Count von Aehrenthal was born Sept. 27, 1854. When 23 years old he was appointed provisional attaché in Paris. Later he was attached to the embassy in St. Petersburg. After serving in the foreign office in Vienna for five years from 1883 he again was sent to St. Petersburg, and in 1892 received the title of minister. He served also as minister to Roumania and then was appointed ambassador to Russia. He had been foreign minister of Austria-Hungary since October, 1906.

## TRAINLOADS OF GROCERS

Big Crowd Coming for Annual Convention of State Association.

Three-Day Meeting Will Open at Spalding Tuesday Morning.

Special trains bearing grocers from the different parts of the state will arrive in Duluth Tuesday morning.

The grocers are coming to Duluth for the convention of the Retail Grocers & General Merchants' Association of Minnesota, which will begin at the Spalding hotel tomorrow morning, lasting three days.

One special train will bring grocers

banquet room of the Spalding hotel.

The first session will be held Tuesday morning at 10 o'clock and while it is thought that a large number will not be here in time for the opening session, many delegates will arrive on early morning trains tomorrow.

The first meeting will be called to order by President Joseph Cumming of the Duluth Retail Grocers' association. The convention will then be turned over to President George H. Filbert of the state association and the general order of business begun.

Mr. Halden is the owner of Lot No. 27 and Mr. Marvin lot 17 of Norton's Duluth outlots, which are situated on a ridge between the Tischer creek and Chester creek basins, about one and one-half miles from the proposed sewer.

The appeal from the assessment made by the city was taken on a misapprehension of the facts in the case, according to Mr. Halden. It was supposed at first that the lots could be drained only into the Chester creek of Tischer, but engineers have established that they also can be drained into the Tischer creek or Woodland sewer basin. This understood, the appeals were withdrawn.

Brewery Stock Increased.

St. Paul, Minn., Feb. 19.—(Special to The Herald.)—The Fergus Brewing company of Fergus Falls, Minn., filed an amendment to its articles of incorporation with the secretary of state, increasing its capital stock from \$25,000 to \$100,000.

## A Reasonable Plea For the Stomach

If Your Stomach Is Lacking in Digestive Power, Why Not Help the Stomach Do Its Work?

Especially When It Costs Nothing to Try.

Not with drugs, but with a reinforcement of digestive agents, such as are naturally at work in the stomach. Scientific analysis shows that digestion requires pepsin, nitrogenous ferments, and the secretion of hydrochloric acid. When your food fails to digest, it is proof positive that some of these agents are lacking in your digestive apparatus.

Stuart's Dyspepsia Tablets contain nothing but these natural elements necessary to digestion and when placed at work in the weak stomach and small intestine, they stimulate the gastric glands and gradually bring the digestive organs back to their normal condition.

Stuart's Dyspepsia Tablets have been subjected to critical chemical tests at home and abroad and are found to contain nothing but natural digestives.

Chemical Laboratory, Telegraphic address, "Difundo," London. Telephone No. 11929 Central. 20 Cullum St., Fenchurch St., London, E.C. 3.

I have analyzed most carefully a box of Stuart's Dyspepsia Tablets (which I bought myself at a city chemist's shop for the purpose), manufactured by the F. A. Stuart Co., 86 Clerkenwell Road, London, E. C. 3, and have to report that I cannot find any trace of any of the usual stomach poisons. Knowing the ingredients of the tablets, I am of opinion that they are admirably adaptable for the purpose for which they are intended.

There is no secret in the preparation of Stuart's Dyspepsia Tablets. Their composition is commonly known among physicians, as is shown by the recommendations of 40,000 licensed physicians in the United States and Canada. They are the most reliable of all remedies for indigestion, dyspepsia, water-brash, insomnia, loss of appetite, melancholia, depression, dizziness and kindred diseases originating from improper digestion and assimilation of foods, because they are thoroughly reliable and harmless to man or child.

Stuart's Dyspepsia Tablets are at once a safe and a powerful remedy, one grain of the active principle in these tablets being strong enough (they test) to digest 2,000 grains of steak, eggs and other foods. Stuart's Dyspepsia Tablets will digest your food for you when your stomach cannot.

## News and Views of Minnesota Politics

### Reserve Candidates.

The candidate of the organization if Governor Eberhart's renomination becomes impossible will be State Auditor S. G. Iverson or L. C. Spooner of Morris.

Spooner may spoil his chances of being the organization candidate by coming out before Eberhart is elected. The candidate of the organization is consumed with ambition. He has a lingering suspicion that he can step into the gubernatorial race and come out with the prize. His friends have endeavored to steer him away from it, but just when many believe that he has given up all intentions of making his run, he makes some move that shows his heart is still set on the prize.

Quiet misanthropic work for Iverson has been done from time to time and he is generally accepted as the reserve candidate of the machine. The state auditor is a machine man from start to finish. He plays the game according to the rules laid down by E. C. Smith et al. and if he gets into the race it will be as a substitute for the governor.

From a Northern Minnesota standpoint Iverson's nomination would hardly be less distasteful than that of Eberhart. The governor is condemned in some quarters for what he has done. Iverson is condemned for weakness. Iverson is antagonized for strength exercised in a cause inimical to Northern Minnesota. The feeling toward Eberhart is negative; that toward Iverson is positive. If the organization should decide to drop Eberhart and adopt Iverson, it would hardly find itself any stronger in Northern Minnesota than it is today.

### Roosevelt's "North Dakota."

The long list of names attached to the petitions for the placing of Roosevelt's name to the primary ballot in North Dakota indicates that W. L. Householder, that North Dakota state still safe for La Follette is based on desire rather than on fact.

The North Dakota primary will be held one month from today. The list of names attached to the petitions is a negligible quantity in the North Dakota state. Until the Roosevelt boom assumed formidable proportions the state was solid for La Follette. The defection of the Roosevelt friends have been stirred into activity has alarmed the La Follette managers and the next month will see a primary fight in the state to the West.

It looks as though the La Follette men intend to make their final test in North Dakota. They are beaten anywhere in the opinion of the Roosevelt friends, but if they lose North Dakota, their defeat will be complete. La Follette was stronger in no state than in North Dakota. If his strength is sufficient to give him a victory through the primary, his supporters will take heart. If Roosevelt carries the state, the La Follette bubble will vanish.

Against the Primary.

There will be no Democratic presidential primary in Minnesota this year. The majority of the members of the state central committee who answered National Committeeman Fred H. Lynch's letter on the subject were against the proposition. The primary objection advanced was the lack of machinery, while the lack of means for financing of the plan was also considered a bar. March 15 is the date most favored for the meeting of the state central committee and early in May was suggested as the date for a convention to choose delegates to the national meeting. The dates will be definitely fixed when Mr. Lynch returns from the East.

### An Echo of Harmony.

Many of the sores that resulted from the Dunn-Collins campaign of 1901 have healed, but many others are just as raw as when they were first inflicted. Witness the following from the columns of the Princeton Union, edited by R. C. Dunn.

Referring to the Minneapolis and St. Paul men who supported the candidacy of R. C. Dunn for governor in 1904 as "ward-healers" is not conducive to party harmony. The supporters of Dunn in the Twin Cities in that dirty campaign—made dirty by the intrigues and hirelings of the Van Sant administration—compared most favorably with the adherents of the little political judge. While we are not in accord with the political principles advocated by Mr. J. A. Peterson at this time we regard him as a man of honest convictions, and his personal character is above reproach. To his detractors he might well quote the words of the "Dory Marmon to the naughty Douglas:

And if thou saidst I am not peer  
To any lord in Scotland here,  
Lowland or Highland, far or near,  
Lord Angus, thou hast lied!

### Taft's Friends.

At the head table at the palatial Hotel St. Paul Monday evening, when the Taft boom was launched in Minnesota, E. M. Parish, president of the Lincoln club and manager of the political department of the brewers' association, Dar Reese, assistant to Billy Hamm, and Julius March, president of the German alliance, the anti-temperance organization of the state. Our governor appeared in the latter and spoke in behalf of the president. Surely the president is in bad shape if these are the friends who are to stand sponsor for him in Minnesota.

### The Governor Is Coming.

Governor Eberhart will make two visits to Duluth in the next few weeks if he is able to keep his engagements. He is on the program of the grocers' convention which opens tomorrow and he will be one of the principal speakers at the banquet of the John Ericsson league, March 8. There will probably be no politics in his speech at the grocers' convention, but the John Ericsson league banquet will give him an opportunity to say a few words for himself, President Taft and the Republican party.

### IS WEAKER THAN TAFT

(Continued from page 1.)

certain unless Roosevelt should be the nominee. Today that sentiment has changed. Democrats from the states west of the Mississippi river are still impressed with the strength of Taft. To them he appears as an unconquerable giant. But none of their states ever gives its electoral vote to the Democratic ticket. Even in the strongest state of the West, only a beggarly handful of votes came from the states beyond Missouri. Today there is hardly a chance of carrying any of these commonwealths. California here any other Governor Wilson could carry their state as against Taft, and nearly every Republican representative from the Pacific slope admits that if Senator Chamberlain were elected, the Taft ticket would be possible to carry Oregon, California and possibly Washington.

But the Chamberlain nomination seems improbable, and the fight of the Democrats in that state to send New York, New Jersey, Ohio and Indiana, Illinois. Those are precisely the states in which Taft is weakest. In Illinois he has a large following, but that state is likely to be lost to the Republican party, whoever may be the nominee, on the purely local issue of Leffler. In the other four states he is weaker than Taft, and all of his hushaboo from the Western states does not drown out the general expression of that opinion.

The conviction seems to be growing among Democrats that not merely Col. Householder but that in the pivotal states he is not even as strong as Taft.

### Uninstructed Delegates.

In Richmond the other day I talked with Governor Chamberlain, Byron and other leaders of political opinion in Virginia. It is the fixed purpose of the Democrats in that state to send a delegation to Baltimore instructed for Senator Martin. That means of course a delegation to trade with. But it means more than that. It signifies that the Virginia delegation, which has been claimed by the friends of Wilson will not be a delegation of Southern states, which are showing signs of wavering in that state in which Taft is so strong. A few days ago that the purpose was to send an uninstructed delegation, but that state is likely to be lost to the Republican party, whoever may be the nominee, on the purely local issue of Leffler.

The true state of affairs there has come a certain hesitancy on the part of the men who control the party. They declare for any candidate thus far in advance. The chance of the proverbial "last-minute" change of heart in the future and political powers do not care to get too closely tied to any one.

Two months ago a few people would have looked upon Oscar Underwood as anything but a recalcitrant of a complimentary vote from his own state. Today every politician appreciates the fact that Underwood is a candidate to be taken seriously.

The Southern states should get behind his candidacy. He is a man of New York would not be at all slow to fall in. Curiously enough, the chief objections to Underwood come from the Southern states.

It seems to be more afraid of nominating a Southern man than the Northern. Underwood candidacy will hear from Southern representatives in that connection of the danger of putting a Southern man on the ticket than from any Northern man.

### The Ainsworth Case.

The suggestion of Gen. Ainsworth on charges of insubordination surprised no one in Washington. Members of army and navy society only wonder that it did not occur years ago. Gen. Ainsworth's military record is unquestioned; his personal tact has long been a matter of question.

It is not necessary to do about the war department informed me months since that the general's demerit toward his subordinates was such that self-respecting men and women could scarcely work under him. But it appears from the letter of suspension sent by Secretary Sikes that the general did not confine his offensiveness to inferiors alone, but that his direct superiors had at times to feel the shafts of his displeasure.

In a way the matter is trivial. Whether Ainsworth remains as adjutant general or is bounced like any 320 a general clerk is not an affair in which the nation is vitally interested. But as an incident in the growing power of bureaucracy in Washington it is important. In the last ten years the department heads have arrogated themselves power which neither the Constitution or established precedent gives them. One of the most recent examples of this was furnished by the state department in the matter of the curious juggling of accounts referring to the portrait of the late Secretary Day. Every possible device was exhausted to prevent knowledge of why the artist who painted the picture received actually less than half the amount of the voucher he signed. Even today that matter has not been cleared up.

Needs a Shaking Up.

The rapid, scandalous point of the Ainsworth affair is that it indicates that the war department of the United States needs precisely the same sort of a shaking up as the French department of war incurred after the Dreyfus case. If we look back only a few months we find the case of a sergeant in the army who narrowly escaped being refused a commission because he was a Jew and the son of a tailor who had passed his examinations with credit; his record in the ranks and as a non-commissioned officer was

In every way commendable. But because of his religion, and more than because of his father's falling effort was made to bar him out of further preferment. The war department made every possible endeavor to prevent his promotion to commissioned rank. It is greatly to the credit of President Taft that he took the matter in his own hands and shattered the bureaucratic conspiracy. It was Taft, too, who broke down the effort of Gen. Ainsworth to make of the war department a machine for the perpetuation in power of men of his own type. Whatever any man's politics may be he should recognize what these department chiefs have been trying to do—and for that matter have done—and what the president, perhaps belatedly, is endeavoring to do in correction of their system.

### Florida Land Scandal.

You may take for example, the department of agriculture. Secretary Wilson in point of years and of service is the oldest cabinet officer. Now he is suddenly confronted by very serious charges of misfeasance in office by some of his own subordinates who are entrusted with the work of investigating and reporting upon the value for agricultural purposes of the Everglades land in Florida. Just at present a committee of congress has requested Representative Frank Clark of Florida, in prying into the mysterious disappearance of this report. What is involved is not at all a merely state issue. Scarcely a state is so productive without citizens who have put part of their savings into lands in Florida which are neither tillable nor productive. The department of agriculture was repeatedly asked to investigate the situation and when it finally sent men to make the investigation the resulting report was suppressed.

One curious phase, one almost phantasmagoric phase of the Florida brogle is the mortality that has come upon some of the chief figures in it. Shortly after the report of the committee of the state of Florida, and one of the men heavily interested in the Everglades proposition, was found dead in bed. A clean sweep of the state commissioner of agriculture, also one of the men heavily interested in the Everglades speculation, standing glass in hand addressing a meeting at a local club of E. C. Smith et al. when he died. The department of agriculture was still in disrepute over the Pinchot trouble when Congress with this Florida investigation. The interior department is still in default in Alaska. Therefore there is a general feeling in Washington that a clean sweep of the departments would be well for the service and the public generally.

### MRS. LENA OLSEN DIES

Mrs. Lena Olsen, aged 50 years, died at 7:30 this morning at her home, 322 East Elm street. She was the cause of death, Mrs. Olsen having been ill about a year. She had lived in Duluth for many years and was well known here.

Mrs. Olsen was survived by her husband, Hans Olsen, and three sons and four daughters. The sons are Ole, Erling and Paul. The daughters are Mrs. Stella Diersen, Mildred, Evelyn and Mrs. J. Lounsbury and Frank Belanger.

The funeral arrangements have not been made.

### NEW ROAD WILL TAP FARMING DISTRICT.

With the opening in the spring of next season of the new road from the side and then north to Woodland, there will be an awakening among the farmers in that vicinity.

Up to this time many acres of land have been idle. The new road will provide accommodations. When the road is completed, hundreds of acres east of Lakeside will be cleared and improved.

In the many of the tracts will be cleared of stumps and crops planted as soon as the frost leaves the ground. The new road will be suitable for automobiles.

Duluthians who have farms in this neighborhood and who are looking forward to making improvements in the spring are: P. McDonnell, James Kennedy, Nils Bergstrom, J. Lounsbury and Frank Belanger.

### DIVIDES \$1 AMONG FIFTEEN; KILLS SELF.

Des Moines, Iowa, Feb. 19.—After dividing a dollar among his fifteen children, Owen Smith, a negro, years old, committed suicide Sunday by blowing off his head with a shotgun. Receipt of a notice from the overseer of the poor to leave the county lest he become a charge upon the county, is given as the cause of his act.

### AGED MINNESOTAN IS CALLED IN MONTANA.

Glendive, Mont., Feb. 19.—Paul L. Hawk, 99 years of age, and up to several months ago a resident of Winona, Minn., is dead here following several days' illness of pneumonia. Mr. Hawk was the only survivor of the Black Hawk war, one of the most sanguinary of Indian battles in the West. Mr. Hawk was a pioneer in Minnesota. He came to Montana to reside with his son, a ranchman, residing near Winona.

## Glass Block Store Talks

—This is the fifth of a series that will appear in this space each Monday evening. In these columns the general policy and fundamental principles upon which this institution is operated will be discussed for the information and benefit of an interested public.

## The Function of the Department Store

—The function of the DEPARTMENT STORE may be briefly summed up in one word, SERVICE. Not service as it is ordinarily understood, but in its supreme meaning of UTILITARIAN BENEFIT, working for the betterment of man.

—In its evolution from the primitive shop, the DEPARTMENT STORE has broken away from the old-time traditions and errors. It stands today a great PUBLIC UTILITY giving that which man most needs, and operating within its ever increasing circle of usefulness for the greater service of all humanity.

—More than a mart for the buying and selling of goods, more than a source of supply for the wants of man; the WELL ORGANIZED DEPARTMENT STORE stands for something higher. It stands for CONSERVATION, THRIFT, EDUCATION and INCREASED HAPPINESS.

—In the daily application the DEPARTMENT STORE stands as a great emporium for the ECONOMIC COLLECTION AND DISTRIBUTION of the every day necessities of the community in which it has being.

—The collection is a great and interesting work. From the far corners of the earth are gathered the products of loom, factory, workshop, farm, mine, studio and peasant home. Envoys of the DEPARTMENT STORE go to the metropolis of the country to seek out the varied products, and often the quest takes them into the innermost parts of foreign lands. A constant intercourse is maintained with the fountain head and clearing house of the world's products. Frequent trips to the source of supply are necessary, and resident representatives, always on the ground, keep careful vigil for the new things the moment they are ready.

—In the selection expert knowledge is required to sift the good from the inferior. Just the things which best fill the community's wants must be secured, in the right styles, quality and color and at the lowest cost.

—But the details of collection are, generally speaking, unfamiliar to the public.

—The most visible evidence of the DEPARTMENT STORE SERVICE is in the distribution of its wares.

—In the convenient and attractive display of the dependable goods, in the wide style range of the many lines which are compactly arranged under one roof, in the prompt and courteous attention at the counter, in the low selling price—possible only from the department store's great purchasing power and vast quantity outlet—in the simplified methods of shopping, the economy of the shoppers' time, the various conveniences such as the Rest Room, Free Check Room, Tea Rooms, Free Telephones, the Library, the Postoffice and the Beauty Parlors; the resident and visitor recognizes the true spirit of SERVICE, and in such a MUTUALITY—the true function of such a great PUBLIC UTILITY as the modern DEPARTMENT STORE.

## Webster's Tonic

**Builds Health and Strength**

PEOPLE recovering from serious illness need a real food tonic that will supply the elements that have been robbed of during the long spell of illness. Webster's Tonic is a real, scientific food tonic for nervous, worn-out, run-down people. It supplies the elements that feed nerves and nerve energy—the iron that makes rich, red blood, and the body salts that build up bone and tissues—all in a predigested form, ready for the weakest system to absorb without strain on the digestive organs. It contains the well-known tonic bitters—dandelion and gentian—which stimulate the appetite and the digestive processes. You eat with relish and digest with comfort; you soon feel stronger and happier; your healthness passes away—sleep comes easily, and you awaken refreshed and invigorated.

### Get Your Doctor's Opinion

In cases of tuberculosis it may be taken under the doctor's direction for strengthening the system and to assist in combating the disease. It is recommended for all nervous troubles, but in serious cases should be taken only under a physician's directions. Ask your druggist for the complete formula; then take it to your doctor, and ask him about it.

Webster's Tonic is sold in two sizes, 50c. and \$1.00. Six large bottles for \$5.00. Your money refunded if you are not satisfied with results after a fair trial. Under the Webster trade-mark and guaranty are sold sixty different articles, including most effective remedies for all such human ailments as do not require a doctor—household remedies that should be in the medicine cabinet of every family—also pure toilet preparations. Your druggist has them or can get them for you.

## JUDGE DIBELL TO MINNEAPOLIS

Judge Homer B. Dibell of the St. Louis county district court has been temporarily assigned by Governor Elmerphart to two weeks' duty on the Hennepin county district court bench at Minneapolis.

The Hennepin county courts are behind with their work on the present calendar and have been handicapped by the absence of one of the district judges, who is ill. In the St. Louis county district courts, the January calendar is well cleaned up and in selecting a district judge to temporarily fill the vacancy, the governor looked to St. Louis county and asked Judge Dibell to supply the place.

While in Minneapolis, Judge Dibell will deliver his annual course of lectures at the Minnesota university law school. The lectures will be delivered

in the evening, so as to not interfere with his duties on the bench. Judge Dibell will return to Duluth before the opening of the March term.

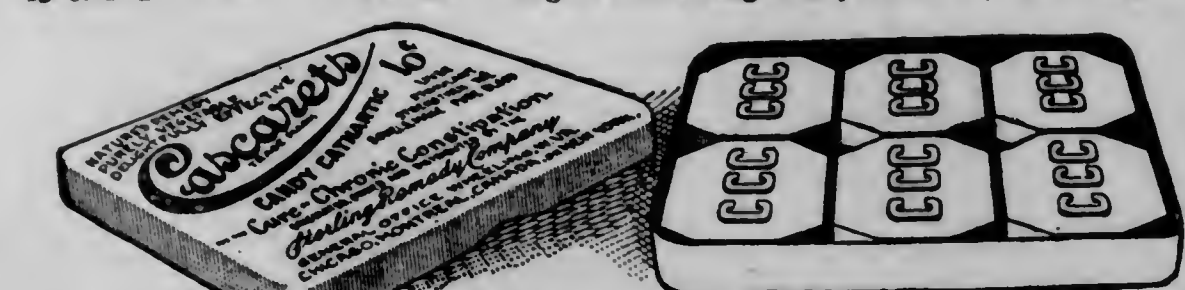

## REQUISITION FOR MEN IN CROOKSTON

St. Paul, Minn., Feb. 19.—(Special to The Herald.)—Requisition papers for the return to Grand Forks, N. D., of George Murphy and John Rowley, under arrest at Crookston, Minn., were honored by Governor Elmerphart today. The papers were delivered into the hands of Sheriff J. Z. Benson of Grand Forks, who will go to Crookston tomorrow morning for his prisoners. Both are wanted on a charge of grand larceny in connection with the robbery of a sporting goods store. Word reached Mr. Benson this morning that unless he got the papers there immediately the prisoners probably would be released on a writ of habeas corpus.

## SICK STOMACH, INDIGESTION OR CONSTIPATED BOWELS---CASCARETS

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means indigestion; a disordered stomach which cannot be regulated until you remove the cause. It isn't your stomach's fault.

Try Cascarets; they cure indigestion, because they immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the decomposed waste matter and poison from the intestines and bowels. Then your stomach trouble is ended forever. A Cascaret tonight will straighten you out by morning.

Sunday.  
11:15 p. m.—First M. E. church, family night.  
Union meetings at First M. E. church, Monday, Tuesday and Wednesday evenings.

The Men and Religion Forward Movement is on in earnest. The program of meetings for this week is an elaborate one, representing an immense amount of labor and study on the part of the local committee. The principal speaker for this week is Dr. W. B. Riley of Minneapolis. A busier man than Dr. Riley finds himself, in carrying out his many Duluth engagements, could scarcely be discovered anywhere. Dr. Riley is to deliver the noon-day talks at the Lyceum theater. This week, if his success is as great as that of Rev. M. E. Riley, the Lyceum sermons last week, better results could hardly be expected. The services begin promptly at 12 o'clock and continue fifty minutes. Today Dr. Riley will deliver his noon-day talks at the Lyceum theater. He has five more questions to propound in his sermons at the Lyceum theater. Each day, as follows: Tuesday, "Are the Scriptures Scientific?" Wednesday, "Is Socialism the Solution of Our Ills?" Thursday, "Shall We Follow Stones or Darwin?" Friday, "Is Socialism the Solution of Our Ills?" Saturday, "Shall We Follow Stones or Darwin?" Sunday, "Is Socialism the Solution of Our Ills?"

This afternoon Dr. Riley addressed a meeting of ministers of Duluth, Superior and the country for a radius of fifty miles at the Y. M. C. A., opening at 2 o'clock. Dr. Riley spoke on "The Regular Church and Perennial Revival." On Monday, Tuesday and Wednesday evenings, Dr. Riley will speak in the Swedish Mission church. The Tuesday evening meeting will take place in the Swedish Baptist church. On Monday evening, Dr. Riley will speak on "Divine Healing." Tuesday afternoon, "Second Coming of Christ." Tuesday evening, "Confession and Absolution." Wednesday afternoon, "What of the Dead?" The topic for your meeting has not yet been selected. The afternoon meetings are held at 7 o'clock. The committee of One Hundred, of the Men and Religion Forward Movement at Duluth will hold a supper at the Y. M. C. A. and discuss plans for the further progress of the work. W. S. Smith is chairman of the committee. This gathering will be addressed by Dr. Riley on "The Laymen's Movement." Afternoon public meetings will be held at the First Presbyterian church on Thursday, Friday and Saturday, opening at 3:30 p. m. Dr. Riley will address all of these rallies. The Saturday afternoon meeting will be one for women only. Dr. Riley will speak on "A Wife and Mother—A Model in Faith." Dr. Riley will address meetings at the First Methodist church on Thursday, Friday, Saturday and Sunday evenings. It is planned to open all of these meetings at 8 o'clock with the exception of that of Saturday night. This will be a "family night," opening at 7:15, with whole families in attendance, fathers, mothers and children coming together.

Union meetings of churches of different parts of the city will take place on Monday, Tuesday and Wednesday evenings at the First Methodist church. The first of these meetings, that of tonight, will be addressed by Rev. M. S. Rice. "Is Christianity Womanish?" In his noon address at the Lyceum, today, Dr. Riley said, in part: "Is Christianity womanish? The answer to that question depends entirely upon what one means by the word 'woman.' If, as is commonly true, he thinks of her as the present church is made up, it must be admitted that woman is in the majority in its membership. And if he thinks of the lesser duties discharged in the church—recruiting, nursing, the larger work—such as attendance upon mission circles and societies, and even visitation of the friendless, the needy, and the sick, woman is in the ascendency. On the contrary, if one refers to the great principles which make the church possible, or to those of eternal value, the church is made up of the pillars of its church. Christ made men to be the pillars of his church." "White woman had an important part in the early church, she was not the most conspicuous, nor was the church ever indebted to her for its progress. Christ made men to be the pillars of his church."

"It was not the Marys or Salome but James, Cephas and John who were the pillars of the church. The church militant becomes the church triumphant and the scenes of time shift to those of eternity. We shall see what John foresaw—the walls of the Eternal City, having twelve foundations, and the names of the twelve apostles of the Lamb of God, written upon them." "The church militant becomes the church triumphant and the scenes of time shift to those of eternity. We shall see what John foresaw—the walls of the Eternal City, having twelve foundations, and the names of the twelve apostles of the Lamb of God, written upon them."

## ANNIVERSARY

"Just a few lines from a man who owes his existence to you. This writing is a happy anniversary as it is now one year that I have not lost a day due to my old trouble. I am feeling fine and the test is normal. I cannot express or utter an appreciation suitable. Wishing you unlimited success."

Middletown, Mass.  
Two years ago on Christmas Day, Chandler was given up in Clay, N. Y., by his home physicians. He had dropped to the bursting nearly 10 per cent albumen and early death was looked upon as certain. The family was in despair. They heard of a recovery in an adjoining town and one of them went to see about it. They learned that the recovery was effected by Fulton's Renal Compound, and Chandler was put on it on that day. It was a very slow recovery. He was slow, but about a year thereafter he was able to return to employment. The above anniversary tells the rest. Wonder what physicians think of all this, who are wedded to nitro glycerine, digitalis and Bashum's mixture, under which failure is certain. Druggists supplied by Liehthead Drug Co.

## SCHOOL FOR WITNESSES?

Special Federal Grand Jury Meets to Look Into Charges.

Chicago, Feb. 19.—A special federal grand jury was empaneled and sworn before United States District Judge Landis today. It was said the jury would investigate whether counsel for the meat packers on trial before Judge Carpenter, or anyone in their behalf or in the interest of the defendants, had conducted "a school for witnesses."

It was declared that a rigid inquiry would be made to determine if there exist grounds to warrant the return of indictments for the obstruction of justice.

The theory on which the investigation is to be based is that witnesses, most of whom are present employees of the packing companies of which the defendants before Judge Carpenter are the heads, have been questioned relative to the testimony to be given by them when they are called to the stand.

Government at Disadvantage. The government has many times pointed out that it was at a disadvantage, in that most of the witnesses on whom it depends for the successful prosecution of the trial are to a certain extent hostile witnesses, from whom little voluntary information could be obtained. Attorney Wilkerson refused to discuss the new grand jury or its object. It was noted that exceptional care

## SIMPLE HOME REMEDIES

Have proven to be not only safer, but far more effective than any combination of drugs.

Nearly forty years ago the now famous Lydia E. Pinkham's Vegetable Compound was a simple home remedy made by the woman whose name it bears, on her kitchen stove, from the roots and herbs of the field, and supplied to friends and neighbors without cost.

The wonderful success of Lydia E. Pinkham's Vegetable Compound in alleviating the sufferings of woman-kind, has made it known in every home in our land, and now recognized the world over as the standard remedy for female ills.

marked the selection of the jurors by Judge Landis. A misspelled name in the summons was sufficient cause for the court to dismiss the venireman.

The investigation was placed in charge of Assistant District Attorney Robert W. Childs, who had charge of the investigation which led to the indictment of the ten packers now on trial.

It is reported that witnesses before the grand jury were closely questioned by persons associated with the defendants after they had testified before the grand jury. How far this alleged questioning was carried, it is said, will be one of the angles which the special jury will seek to determine.

Selling System Probed. The government continued its inquiry into the selling system of Armour & Co. when the packers' trial was resumed today before United States District Judge Carpenter. Charles Russell, salesman for Armour & Co., who has been on the stand four days, was recalled.

James M. Shean, of counsel for the government, asked the witness what was meant by a telegram sent by T. G. Lee of Armour & Co. to the Boston manager, stating that the prices in that market were away out of line. "It meant that the Boston prices did not come from other cities, I suppose," replied Russell.

Where did Mr. Lee get the information on which he based an opinion in regard to the Boston market? "I suppose he got daily reports from the branch house managers and in that way knew what was going on."

Dressed Meat Men in Court. Moses H. Joseph, secretary of the New York Butchers' Dressed Meat company, and formerly with Schwarzschild & Sulzberger, was in court during the morning. He is under subpoena and later will be called as a witness by the government to tell the story of the purchase of the New York Butchers'

Bonds to Purchase Seed. Beach, N. D., Feb. 19.—(Special to The Herald.)—Billings county will issue \$50,000 worth of bonds to run for five years, the proceeds to be used in the purchase of seed for the farmers. There is only a small percentage of the farmers who actually require assistance in securing their 1912 supply of seed, but they have all laid their wants before the county board, including even those who have seed on hand, with the object in view of being able to bring into the county new seeds. About \$6,000 bushels of seed grain will be purchased this spring.

### CHILDREN WANT IT THREE TIMES A DAY

Duluth children want "Minnesota" macaroni and spaghetti three times a day. They are delighted with its delicious, nut-life flavor, and Duluth ladies find there is nothing better for them.

People are just beginning to realize that good macaroni and spaghetti are the best and most nourishing foods and they will take the place of meat very largely. They are easily prepared and no one ever tires of them because they can be served in so many appetizing ways.

But if you want that rich, nut-like flavor be sure and get the delicious "Minnesota" brand macaroni or spaghetti—made from the finest Northern Durum wheat, with all the nourishing qualities left in. It is easily digested and never gets soggy. All good Duluth grocers sell it.

## THE FARM SCHOOL AND THE CITY'S DUTY.

The site for the Duluth farm school has been fixed upon by the board of regents of the state university, and work will be started early in the season on the clearing and construction needed to get it going.

It is to be hoped that no citizen of Duluth underestimates the importance of this new institution, and it is a fairly certain thing that nobody can overestimate its value to the community as a center for and an encouragement to the agricultural development on near-by soil which Duluth needs as much as it needs anything.

The city of Duluth and the public opinion of Duluth owe a duty to this new institution which it is essential shall be carried out. This duty is to see that the street railway company makes an extension of its lines to the farm school property.

Perhaps there will be no need of any aggressive manifestation of public opinion. Perhaps the street railway company will see that it, too, as the beneficiary of Duluth's growth and prosperity, has a duty to perform. Nor is this duty merely a self-sacrificing expense for public benefit. It will cost something to make the extension, of course, and perhaps the line will not pay large returns immediately. Yet considerable traffic already is assured, and the building of the line will create new traffic immediately. The work of the farm school will result in the growth of the city's business and population, and thus will work indirectly but nevertheless certainly for the profit of the street railway company; for the more people there are living in and around Duluth, the more nickels there will be for the street railway to collect. So in carrying out this public duty the street railway company will be assuring for itself profits both direct and indirect.

The proposed extension is an essential to the success of the farm school. It is so held by the board of regents, and it will be so held by the public opinion of Duluth. At first the board was inclined to hold up the contracts until the extension was assured, but it was induced to make them without waiting on the assurance that Duluth would do everything possible to secure the extension.

Duluth has not been exacting in its demands upon the street railway company. The company's business in this city is large and profitable, and it will soon be larger and more profitable still. It is not only a public duty, but to its own selfish interest, that the company should co-operate in every possible way in measures of this character that promise so much for the growth and development of the community.

Nothing that is essential to the success of this institution should be neglected. The first essential is the assurance of this needed street railway extension. It is the duty of the street railway company to provide it, and the duty of the community to see that it does.

The great trouble about this plan for dividing the year into thirteen months will be the finding of a name for the extra month. Of course "Roosevelt" is the logical name, but perhaps Bryan's regularity of appearance would make his name more appropriate. Anyway, it would raise a neat little muss.

## ONE-CENT POSTAGE.

Bills proposing one-cent letter postage have been introduced in both branches of congress, and there is a considerable pressure, coming from sources that make it worth attention, in behalf of these measures.

Beyond question one-cent letter postage will come, if not at this session at some subsequent session not very far hence. But in two ways the advocates of this reform are hampering their own movement. One of these ways is in charging that if the measures fail to pass at this session it will be "because of selfish interests which formulate outside." The other is in placing the movement for cheaper letter postage in an attitude of hostility to the movement for a parcels post.

It is hard to imagine what "selfish interests" there are "outside" or inside which would oppose one-cent postage. So far as we know, nobody is opposing one-cent postage. The government has no competition in letter-carrying, and there is therefore no selfish interest to be harmed by lowering the rate. Practically every business enterprise would profit by one-cent letter postage.

On the other hand, the government has competition in parcel-carrying, competition so strong that it has practically put the government out of this business.

And though one-cent letter postage is certain to come, it will not come until the revenues of the post-office department make it possible, and that cannot be until the adoption of the parcels post system turns the annual loss of the rural free delivery system into a profit.

Rural carriers travel their twenty-five-mile routes now with an average burden of twenty to twenty-five pounds. They could carry a couple of hundred pounds or more at practically no additional expense. If there were a parcels post system the rural carriers would have this additional load to carry, and the receipts from it, so far as the rural delivery service is concerned, would be clean gain.

By main strength, and unquestionably at considerable sacrifice of efficiency, Postmaster General Hitchcock has put the postoffice department on a self-sustaining basis. If the free mail carried for government departments and for congress had been charged up, as it should be, the postoffice would have been on a self-sustaining basis long ago, and would be now on a profitable basis. But even now the rural delivery system is costing the department, above its receipts, \$40,000,000 or so each year; and it will continue to cause such a loss until the parcels post is adopted. When the parcels post system is applied, and this rural delivery

loss turned into a profit, one-cent postage will be possible and desirable.

It can scarcely come before that time. Nor should it, because the parcels post will be of far more benefit to the masses of the people than one-cent letter postage, and therefore its adoption is the more urgent need of the two.

Generally speaking, the advocates of one-cent postage, at least those who are actively working for it, are opponents of the parcels post. There are exceptions, of course, to this rule, but not many. They see, all of them, the need of making up in some way for the reduced revenue that will follow cutting the letter rate in two, since it is from letter postage that the department makes most of its money.

So, as a rule, the advocates of one-cent postage, instead of asking for the adoption of the parcels post to make up the loss in receipts that will result from their proposed change, ask for an increase in second-class rates—the rates charged for carrying newspapers and magazines.

This policy will not be adopted by congress for several reasons. In the first place, it will not be adopted because the postoffice does not lose as much on second-class matter as it professes to lose, while the express companies gladly take newspapers and magazines for the postal rate and seem to make money on it, and Canada gets along nicely on a rate only half as high. In the second place, this policy will not be adopted because the policy of cheap newspaper and magazine postage was wisely devised to foster the spread of intelligence, and dearer postage on reading matter means dearer reading matter. This country now has the cheapest and best newspaper and magazine service on earth, and it will hardly do to make it more expensive and thus less widely distributed, in order that large business houses may save on their letter postage.

Theodore Roosevelt has been drawn for jury service. Is it possible there is any question on which he has not already formed an opinion?

## PAYING BILLS.

Says the Boston Traveler: "A Boston man, disturbed by the fact that on the 25th of the month his bills for the previous month had not yet been paid, wondered whether it was very unusual for a man to fall so far behind. So he asked twenty of his friends whether they had all paid their bills for the previous month. And he discovered to his astonishment that every one of the twenty was in the same predicament. Some of them even admitted that they would think themselves fortunate if their bills for three months back were paid. These were all business and professional men, working in Boston and living in the Hub or its suburbs. They might be called typical middle class Americans, perhaps. They were apparently prosperous; at least they lived comfortably, put up a respectable front, and gave no evidence of being in financial straits. And yet not one of them was within a month of being square with the world."

Probably the practice of rapid running of bills and leisurely payment of the same is not confined to Boston. Every community, very likely, can report something of the same sort.

And in nine cases out of ten it is simply a very bad habit, very dangerous, very wrong, and very unjust to tradesmen.

We'll bet a cooky that if this Boston statistician had probed a little deeper, he would have found that all of his friends who were behind in their bills, and especially those who were several months behind, were living slightly beyond their means; when of course the only safe way is to live slightly within one's means. Listen to Micawber, melancholy example of the truth of his teachings:

Annual income, twenty pounds; annual expenditures, nineteen sixpence; result, happiness. Annual income, twenty pounds; annual expenditures, twenty, sixpence; result, misery. The blossom is blighted, the leaf is withered, the god of day goes down upon the evening paper and—and, in short, you are forever floored. As I am!

A family which is living within its income can as easily pay its bills on the fifth of the month as on the twenty-fifth. A family which is living a little beyond its means will drift along a little later in its payments each month until presently, if the tradesman doesn't cut in with a sharp warning, it is several months behind. And then nothing but an unlikely stroke of fortune or a rigid curtailment of living expenses which is even more unlikely will put them square again. And their tendency is to drift deeper and deeper into debt until at last, like Micawber, they are "forever floored."

Whether delay in paying bills is mere negligence or inability to pay sooner, it is unjust to the tradesman, who must pay their bills promptly, and who, if they are not careful, will find their profits tied up in bills that are hard to collect.

This condition, which probably prevails to some extent in Duluth as well as in Boston, illustrates some of the evils of credit. Running bills has its good points. Tradesmen probably have more consideration for those who have charge accounts than for those who pay cash, because they are regular customers and the cash customer may not be. It's a good thing, too, for any man to establish his credit by running bills reasonably and paying promptly.

The other face of the practice is that the ability to have things charged tempts insidiously to extravagance and to living slightly beyond one's means; and that, in turn, tends to put the debtor in the position of these Boston people who are most of them so far behind they would have difficulty in getting caught up.

Out West a Chinaman hung himself because he was \$200 in debt. No doubt his creditors felt greatly relieved.

## A SUSPICION CONFIRMED.

A committee of the house of representatives which has been investigating the sugar industry in this country reported to congress Saturday that there is a sugar trust in this country. This is what a great many people have suspected for a long time. The committee finds, too, that the trust keeps prices up arbitrarily. This, too, confirms a long-standing suspicion.

The committee's strong condemnation of the original promoters of the sugar trust and its reference to the 18,000 present owners of the corporation as "innocent purchasers" suggests a parallel.

A Wisconsin man not long ago bought a gas plant, and paid too much for it—far more than it was worth. He wanted to change the community in which the plant was situated rates high enough to return dividends on his investment as an "innocent purchaser." The Wisconsin public utility commission said that if he had made a bad bargain it was too bad, but it was his own fault and he must suffer. He couldn't compel his patrons to make it good to him.

And his situation is exactly the situation of "innocent purchasers" of watered stock. Only in this case we have no national public utilities commission to step in for the protection of the consumers. On the other hand, we do have a protective tariff that enables the "innocent purchasers" of sugar trust watered stock to compel consumers to make their bad bargain good.

Clearly, Wisconsin is better off than the nation.

## THINKS IT IS ANOTHER LOCAL TRUST.

To the Editor of The Herald:

What is the purpose of the Retail Merchants' association, which held a banquet at the Spalding hotel last Monday night? We have a retail estate trust and a commission trust in Duluth and it is now the purpose of the retailers to form another local trust? It would seem so.

## TWENTY YEARS AGO

Taken From the Columns of The Herald of This Date, 1892.

Register Shephard was filed yesterday with the Duluth Iron and Mining exchange. The directors are George H. Crosby, Z. H. Austin, C. J. Crosby, Grant Wyatt, J. M. Root and E. E. Kennedy. The officers are: President, J. M. Root; vice president, Grant Wyatt; treasurer, E. H. Crosby; secretary, Z. H. Austin.

Grand Master Johnson stated at Minneapolis yesterday that the date of the grand lodge meeting of the Odd Fellows, which was fixed for June 7 at Duluth, will not be changed. Some members wanted a change because the Republican national convention will meet at Minneapolis on the same day.

John Murray, whose home is on West Fifth street, fell on a slippery sidewalk yesterday and broke his right leg below the knee.

A discovery of ganister has been made on the Mesaba range. Ganister is a peculiar rock containing silica, which on being crushed is used as a lining for bessemer converters. The rock found on the range is located one mile from the railroad and about six miles from Mesaba station.

The arrangements for the celebration in Duluth of Washington's birthday are nearly made. It will be under the auspices of the St. Louis County Republican club and will probably be held in Temple opera house. Among the speakers will be Rev. C. S. Sater, Judge Page Morris, Charles A. Towne, O. D. Kinney, S. A. Thompson, Elsworth Bonham and M. A. Hays.

As was expected, T. W. Hugo of Duluth was chosen grand patriarch at the grand encampment of the Odd Fellows held at St. Paul.

Burglars visited the Armour Packing company's warehouse, the Minnesota Packing company's office and the passenger depot during the night. Nothing was touched at the depot, and only meats and provisions were taken from the other places.

Company C of West Duluth has elected the following non-commissioned officers: Sergeants, D. Grant, W. Peterson, E. E. Burley, A. J. Philbrault and H. L. Thompson; corporals, M. Hegstad, E. Chell, C. McCoy, O. Hanson, R. P. Bonhomme, E. Sigurd. The following civil officers were chosen: President, W. W. Brown; vice president, J. W. Peterson; secretary, S. Field; treasurer, W. K. Ogden.

Bradley & Hawkins of West Duluth have sold their lumber and feed business to Perry & Cochrane, who will continue it.

C. E. Colby of West Duluth left yesterday for St. Paul, where he will buy a new daily paper, to succeed the Advertiser.

Mrs. D. S. McBride left yesterday for Montreal, where her mother is seriously ill.

Miss May Harrison has returned from a two week visit with friends in Marquette, Mich.

Mrs. R. L. Abrant left yesterday for Baltimore to visit her parents.

Mrs. Hammons, late of the Richey hotel at Superior, has removed to Duluth.

One Sunday morning, their father started them to Sunday school, and after they had lithered along the way a mile or two Jim Ayck in a moment of commotion over beyond what they called the Big Woods, remarked:

"What's that? Jim asked, stopping. It was getting late by this time, and the sun was low in the sky. 'I don't know, but we'd better hurry in and get to Sunday school, or we will get a whipping.'"

"Then they hurried on, but the commotion over beyond the Big Woods broke out again, faintly, but it was very unusual, and Jim Ayck, who had been very quiet, and never heard anything like it before, although he was a big man, 12 years old, and after listening a while, he said:

"I'm going over there." "You know father whips hard."

"But the strange commotion continued so Jim said he was going, whipping or no whipping. Dan followed, but kept saying they would catch it when they returned home."

They walked and walked; and at the time the commotion over beyond the Big Woods became pronounced, but they could not tell what it was. They rode astride, and were chased by strange dogs, who kept on from 10 o'clock in the morning until 3 o'clock in the afternoon. They had nothing to eat, and they did not know that they could ever find their way back, because they were in a country strange to them, but they kept on, and a little after 3 o'clock, as a reward for their persistence, they walked into the battle of Bull Run. I never before heard of boys going anywhere and finding anything as great as they expected."

## CHILDREN INJURED

Ordinary Cathartics and Pills and Harsh Physic Cause Distressing Complaints.

You cannot be over-careful in the selection of medicine for children. Only the very gentlest bowel medicine should ever be given, except in emergency cases. Ordinary pills, cathartics and purgatives are apt to do more harm than good. They may cause griping, nausea, and other distressing after-effects that are frequently health-destroying.

We personally recommend and guarantee Rexall Orderlies as the safest and most dependable remedy, which we know, for constipation and associated bowel disorders. We have such absolute faith in the virtues of this remedy that we sell it on our guarantee of money back in every instance where it fails to give entire satisfaction, and we urge all in need of such medicine to try it at our risk.

Rexall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night, do not cause diarrhoea, nausea, griping, excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regenerative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

Rexall Orderlies commonly completely relieve constipation, except of course when of a surgical character. They also tend to overcome the necessity of constantly taking laxatives to keep the bowels in normal condition. Three sizes of packages, 10 cents, 25 cents, and 50 cents. Remember, you can obtain Rexall Remedies in Duluth only at our store—The Rexall Store, E. M. Trowday, 108 West Superior Street.

## MOONEY FREE ON \$5,000 BOND

Fred J. Mooney, arrested in connection with the Indianapolis dynamiting cases, was released from the custody of United States Marshal Mallory, late Saturday afternoon, bonds to the amount of \$5,000 having been furnished.

The bondsmen qualified in the sum of \$10,000. The signers and the amounts are as follows:

William J. McCabe, 3240 Woodland avenue, manager for McCabe Bros., grain dealers, \$2,000.

William E. McEwen, 2022 East Fifth street, editor and publisher of the Labor World and secretary of the State Federation of Labor, \$1,000.

Ray W. Nichols, 1801 East Third street, civil engineer and formerly county surveyor, \$1,000.

Martin J. Hoff, 2235 Roslyn avenue, grocer at 2301 Woodland avenue, \$1,000.

Lydia D. Brown, 12 Winona street, wife of Edgar E. Brown, master of United States steamer Vidette, \$4,000.

A hearing will be held tomorrow afternoon before United States Commissioner Pressnell at which time the government will seek to prove that Mooney is the man wanted. Mooney does not admit his identity, stating that he wants to be shown before taking the trip to Indianapolis.

## STEPHENSON IS NOT ENTITLED TO TOGA, IS REPORT OF MINORITY

(Continued from page 1.)

derlying our system of government, which contemplated the selection of candidates by the electors, and not the selection of electors by the candidate.

The minority report then proceeds: "We concur in this statement, and it justifies us in opposing the conclusion of the majority that a seat in the senate secured in violation of the fundamental principles underlying our system of government, shall be annulled by our words and approval by our votes."

Quoting again from the majority report, which after summarizing the methods of Senator Stephenson's election, declared that if they had been used by a candidate for a seat in the senate, it would be very difficult to justify such conduct under the laws of the state, the minority report continues:

"This statement we endorse. It warrants our opposition to the conclusion of the majority. If it would be difficult to justify a campaign like this by a candidate for a state office, why is it not equally difficult to justify it on the part of Senator Stephenson? He was not compelled to go into the primary. He elected to do so, and he should be held to the same degree of accountability as other candidates in that primary."

Difficult to Justify. "If he used methods—and the majority says he did—that it would be difficult to justify in behalf of a state candidate, it is equally difficult for the senate to justify such conduct on the part of a candidate for a seat in the senate, and preserve its integrity and honor. In our judgment it cannot do it."

The report sets forth that the evidence showed conclusively that the senator had been paid for his services, that he had received sums for "entertainment" and "expenses" and "presents" and "purses" concerning the campaign were shifted from one place to another, and original records were destroyed.

"All this is admitted," says the report, "but we feel we have a right to assume from these admitted facts and actions that corrupt methods and practices were used in connection with said primary election. To hold otherwise is to establish a precedent that would authorize an expenditure of hundreds of thousands of dollars to secure a seat in this body. To do this is to notify the world that we are not so much concerned with the integrity of the body as we are with the power to be bought and sold as so much merchandise to be used by the man with the largest purse."

## COLOMBIA IS DISGRUNTLED

(Continued from page 1.)

Ospina received the White House announcement a week ago stating that President Taft directed the secretary of state to visit the countries bordering on the Caribbean sea, he hailed it with unqualified enthusiasm.

In a statement of comment on the Knox trip, prepared at that time, but not made public until today, the Colombian minister forewent a possible recognition by the United States of the demands of Colombia for arbitration of the differences growing out of the partition of Panama and the acquisition of Panama and the canal zone strip.

"If Mr. Knox, as I sincerely hope," wrote Senator Ospina at the time, "is now fully cognizant of all the facts and the claims of Colombia, rest, I have no doubt that his visit to my country will be fruitful, for he will find that the popular feeling which at present prevails there, as in most of the South American countries, with regard to the United States was mainly caused by the manner in which that country was treated in 1903 and 1904 in connection with the severance of Panama, and by there having been so far no equitable settlement of Colombia's claims growing out of that conduct."

Feeling in South America. "All good Colombians are heartily desirous that such a feeling there, as expressed in South America, be appeased. The sooner the better. It is too late to do right. Colombia does not ask that her contentions be accepted at her assertion. She simply demands for the last eight years that her claims be arbitrated so that whatever the result of that arbitration may be, confidence and sincere friendship, and the consequent development of increasing commercial relations with the United States, be restored. And cannot but hope that Mr. Knox, who with President Taft is one of the foremost champions of general international arbitration, will take advantage of his visit to Colombia to show the world his sincerity either there or here by facilitating the opening of the door to a satisfactory settlement of these claims by an arbitration honorable to both governments and profitable to both countries."

Situation Has Changed. "The situation has changed," he said. "It is different now." During the week, it is reported, intimations came to the Colombian minister that Secretary Knox was not bound on a mission of pacification of Latin American troubles. So Senator Ospina, who on Nov. 15 last presented a third request from his government for arbitration and to which he had no reply had the Knox trip vanished. His letter to Acting Secretary Huntington Wilson of the state department, expressing his private views that Mr. Knox's trip would not be timely, followed as a consequence.

Through Senator Ospina, in that letter, emphasized that he was speaking on his own behalf and without instruction from his government. It is known that Senator Ospina came here on the basis of the government's position of the eight years' standing and the dispute of eight years' standing. He was not to assume here.

Sensor Ospina said in his letter to Mr. Wilson that he had asked his government to mail him instructions. This, he explained today, would be a matter of twelve days at least.

Confident of Backing. Sensor Ospina apparently is confident that his government will reiterate that Mr. Knox's visit would be "inopportune."

The thought of personal insult, which

the state department is reported to have taken as to the tenor of Senator Ospina's communication, had no effect on him, the Colombian minister said today. He had intended only to set forth the language is no less insistent than the references made by Senator Ospina in his letter to Mr. Wilson.

What is said to have particularly aroused the Colombian minister was a reference to the republic of Panama in the Knox itinerary, a country the United States has never recognized.

## CHAMP CLARK FAILS TO SECURE MAJORITY OF OKLAHOMA VOTES

(Continued from page 1.)

their fight for untruncated delegations.

Missouri in Solid. Joplin, Mo., Feb. 19.—Every train today brought scores of delegates to the Democratic state convention, which meets here tomorrow to name four delegates-at-large and thirty-two from the sixteen congressional districts to attend the Democratic national convention in Baltimore. Eighteen presidential electors also will be chosen.

There will be no contest on the presidential instructions to be given to the delegates at Missouri. Senator Stone, who declared he had come to Joplin to see that harmony prevailed, Senator Reed, who accompanied his colleague, likewise have no intention of campaign funds in the past. He is said to have the backing of the Folk party.

Among the first of the party leaders to arrive was United States Senator Stone, who declared he had come to Joplin to see that harmony prevailed. Senator Reed, who accompanied his colleague, likewise have no intention of campaign funds in the past. He is said to have the backing of the Folk party.

Divided Over Committee. It was apparent, however, that the selection of a national committeeman had drawn the party leaders apart. E. G. Goltz, the St. Louis millionaire, who succeeded to the place upon the death of J. B. Moore, a St. Louis banker, is seeking re-election. Goltz has made heavy contributions to the campaign funds in the past. He is said to have the backing of the Folk party.

## GOVERNOR JOHNSON SAYS ROOSEVELT IS THE POPULAR NOBINE

dence and trust in those who compose this government and our belief in the principles upon which it was founded, are in this national struggle for Mr. Roosevelt and the progressive policies he represents."

This statement means that you and the Progressives you represent have transferred your support from La Follette to Roosevelt.

What Finished Hook.

In casting about for a successor to Justice Harlan, Mr. Taft first looked to the Mississippi river. At one time it seemed certain he would name Judge William C. Hook of the United States circuit court, again it seemed Secretary Charles Nagel of the department of commerce and labor would be the president's choice. There was a protest against Judge Hook because of one involving the 3-cent fare, and the other the "Jim Crow" car law. The latter case, in which Judge Hook decided in favor of the railroad, was against the contention of the negroes affected, is said to have been the final cause of the president's turning from the Kansas jurist.

Labor organizations protested against Secretary Nagel on the ground that he had been too lenient in the enforcement of the immigration law.

Taft's Fifth Such Appointment. When Chancellor Pitney shall have been confirmed by the senate and has taken his place on the supreme court, President Taft will have had the extraordinary experience of having constituted a majority of the highest tribunal of the land—a bench on which it had been his most exalted ambition to serve as chief justice. In addition to naming five new justices in a court

of nine, President Taft also had the distinction of elevating Associate Justice Edward D. White to the chief justiceship, making in all six supreme court appointments during the three years he has been in the White House. The five associate justices named by Mr. Taft were Messrs. Lurton, Hughes, Van Devanter, Lamar and Pitney.

Former Treasurer Paroled. Bismarck, N. D., Feb. 19.—H. A. McConville, formerly treasurer of Cass county, was paroled Friday after serving little over one-fifth of his sentence of five years. His crime was the embezzlement of a sum over \$7,000. His son came to this city and accompanied his father to his home in Fargo.

International Falls to Vote on Issuing \$125,000 Bonds.

International Falls, Minn., Feb. 19.—The local school district, Independent No. 4, will hold a special election Feb. 28 to learn the wishes of the people on the proposition of issuing \$125,000 in bonds to purchase a site and build a three-story school building this year.

## WOMAN FOUND GUILTY.

Convicted of Manslaughter in Killing Her Child.

Bottineau, N. D., Feb. 19.—After being out for nearly nine hours, the jury in the case of the State vs. Almyra Hursh, accused of killing her child, returned a verdict of manslaughter in the second degree Saturday. The jury fixed the penalty at one year's imprisonment in the state penitentiary.

## Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

## Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy." Dr. Frederick D. Rogers, of Chicago, Ill., says: "I have found Fletcher's Castoria very useful in the treatment of children's complaints."

Dr. William C. Bloomer, of Cleveland, Ohio, says: "In my practice I am glad to recommend your Castoria, knowing it is perfectly harmless and always satisfactory."

Dr. H. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."

Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm."

Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."

Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."

Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments."

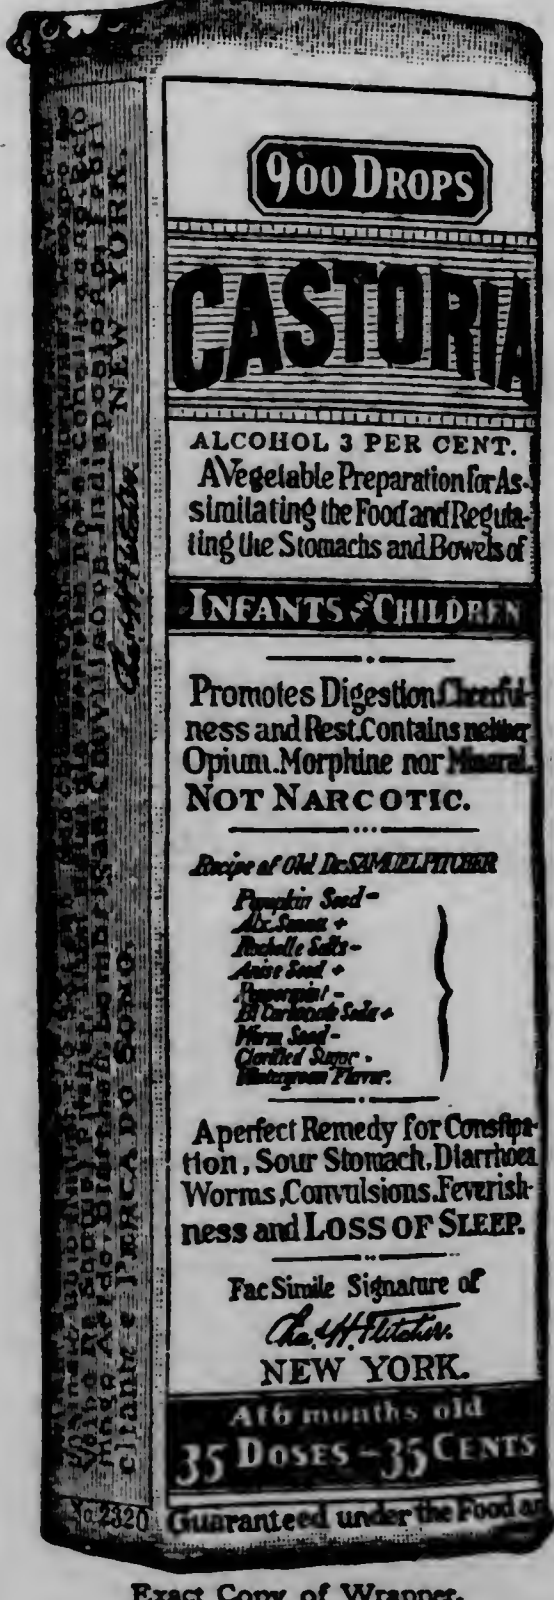

Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency and merits."

## INDUSTRIAL PEACE FIRST

Woodrow Wilson Says That Must Precede Amity of Nations.

New Jersey Governor Talks Plainly at Philadelphia Meeting.

Philadelphia, Pa., Feb. 19.—Governor Wilson of New Jersey, who was the principal speaker at a peace meeting held here last night under the auspices of the Universal Peace union, declared in his address that "industrial peace must precede the peace of nations."

"You cannot have international amity until we have gained industrial equality," he said. "After declaring its sympathy with the purposes of the meeting, Governor Wilson said:

"A great deal of the peace movement appears to be due to sentiment. Patriotism expressed itself in sentiment, but fundamentally it is what a man will sacrifice for public sentiment. When peace is conducted with an element of self-sacrifice, we will not need peace societies."

Justice Means Peace. "The peace movement should not be so much a protest against the clash of arms as against the cause of warfare. The only basis of peace is justice. I do not object to war because it is cruel or unjust, but because it is a clumsy and brutal instrument to get justice. Warfare for right is honorable and will continue until some substantial instrument for the accomplishment of justice is substituted."

"What is needed is enlightenment in our own affairs as well as in international questions. Mankind is an immortal jury; not because mankind is all-wise, but because most of us are not directly interested. So long as people's knavery does not all lie in one direction, we are safe."

America Started Right. "America started right with a declaration addressed to a 'dear people' of the opinions of mankind. It is necessary that we get back to that fundamental belief. As soon as we are just to the people of the United States we will be in a position to be an instrument for universal peace."

The Countess Von Boos, peace organizer and a member of the executive committee of the Universal Peace union, was the last speaker. A dinner which preceded the meeting.

Survivors of British Ship Enraged at Death of Captain. Liverpool, Feb. 19.—The British steamer Cuban, which arrived here last night from New Orleans, brought into port nine of the crew of the British ship Erne, which was wrecked in a heavy storm at sea. The Erne was bound from Boston, Feb. 1 for Buenos Aires. The Cuban rescued her on Feb. 8, and rescued those of the crew who had managed to keep themselves alive. She found the Erne's master, the second mate and a passenger were lost. The survivors of the Erne tell a terrible story of a hurricane on Feb. 3, when the ship was wrecked. The ship was badly injured by a heavy sea which swept aboard. Later in the day the crew found the captain and his wife, the second officer and a passenger, were missing, as was the only lifeboat which had not been carried away.

For three days the crew had neither food nor water. Some of the men became deranged by their suffering and jumped into the sea. The others had died in the fore-cabin or lashed themselves to the mast. The Cuban sighted the wrecked vessel the morning of Feb. 8. With much difficulty a boat was sent along and the nine survivors were taken on the steamer.

peace, but he went to cause strife. Out of his heart, this man came the heaven of good will, which he gave to the world, but this heaven would cause fermentation and upheaval in society until it had leavened the whole lump. And it was the realization of this antagonism which his gospel of love would bring about, which makes his example like a soldier bound to go into the battle which is before him. On that the fire was kindled already, and there is no extinction in all this. Only a fiend could have done as Napoleon would not have done so. Had he realized the misery his sword was to bring to the world, Mohammed, the great warrior prophet did not wield the sword for battle's sake, but for the sake of uniting the races in the worship of one God, and to give joy and happiness to the world. Even to him the sword was but an unavoidable means to a higher end. Indeed the experience of the great peace bearer and war-bringer is the experience of all, who come with new messages or a higher truth into the world. Lincoln, the most affectionate, most kind of all our presidents, was the man through whom in no small degree came the horror of the Civil War. Lincoln came to bring peace to North and South, but he was the only one going beyond his intentions 'sent' him to give the sword to his country. Had Lincoln been able to foresee the course as did Jesus, he might have withdrawn the sword from the president's hand. Or if he had been brave enough to meet what was laid upon him, he might have said in his inaugural address: 'You have elected me to bring peace to the world, but the sword is in the land. But you are mistaken. I will bring the sword to the world. The sword shall prevail from the Atlantic to the Pacific, from the Gulf to the Gulf. If Lincoln had said this, he simply would have predicted what actually happened. What happened was not to his reproach but to his glory.

There is no escape from struggle as long as there is life. We must fight or we die. The peace which comes to us is only the truce which gives us time to prepare for new struggle. Thus the Christ of the sword is an abiding reality in life. It is not for us to find fault with the conditions of struggle, but to fight the good fight, fight it in reality to truth and in love to mankind."

DESERTED BY CAPTAIN. Survivors of British Ship Enraged at Death of Captain.

The Erne was bound from Boston, Feb. 1 for Buenos Aires. The Cuban rescued her on Feb. 8, and rescued those of the crew who had managed to keep themselves alive. The Cuban sighted the wrecked vessel the morning of Feb. 8. With much difficulty a boat was sent along and the nine survivors were taken on the steamer.

The officers of the Cuban are of the opinion that it was impossible for the lifeboat to remain afloat in the rough seas, which were running mountain high.

SYMPATHIZES TOO HARD. Woman Squeezes Her Baby to Death in Sorrow for Relative. Columbus, Ohio, Feb. 19.—In an agony of sympathetic grief for her relative, Mrs. John T. Smith, whose only son, John T. Smith, was drowned and whose body recovered from the Scioto river, Mrs. Clinton Law clasped her own infant child so tightly that it was smothered. The mother, who is a widow, and whose husband was killed in the recovery of the body of their son John T. Smith, and his wife were reunited after an absence of two years.

ARGENTINE REPUBLIC AND PARAGUAY AT PEACE. Buenos Aires, Feb. 19.—Friendly relations have been re-established between Paraguay and the Argentine Republic. Senator Bosch, minister of foreign affairs and the Paraguayan minister for foreign affairs, and the Paraguayan minister of justice, Federico Casasas, have signed a protocol as the result of negotiations which have been going on for the last three weeks for the settlement of the dispute between the two republics. Paraguay, it is announced, has given satisfaction to Argentina for the seizure upon Argentine shipping and property. It is expected that the diplomatic representatives of the respective countries will return to their posts immediately.

BLOOD FLOWS AT G. O. P. MEETING IN TENNESSEE. Greenville, Tenn., Feb. 19.—With blood streaming down his face from a wound received in a fight in which at least six men were killed with chairs, and pistols were drawn, Adams S. Bowen, chairman of the First district Republican convention, finally made his way to the "order" heard and the body proceeded to work. This was not the last of the violence, for later, when Dr. Z. Massey, formerly congressman and nominated by one faction, attempted to make a speech, the table on which he was standing was jerked from under him. His opponents then gave vent to their wrath by smashing the table to pieces. Congressman Sam H. Sells was opposed for nomination by Dr. Massey. Trouble started when the congressional committee, by a vote of 7 to 5, decided to admit only persons holding tickets to the theater, where the convention was to take place. Sells' adherents were at the door in large numbers. A great rush and soon the house was filled, but very few tickets were collected. When Chairman Shipley of the congressional committee called the convention to order and announced the

G LADLY we will send you a liberal sample of Kondon's Catarrhal Jelly, Free, postage paid, if you'll write us a postal.—Enough for several days' treatment.—Enough to prove to you conclusively that this splendid, honest remedy is the cleanest, purest, pleasantest, safest, most soothing and healing method for the treatment of these diseases.

—Kondon's Catarrhal Jelly is soothingly applied directly on raw surfaces.  
—Reduces the thickened membranes, stops abnormal discharges, clears the nasal passages for easy, natural breathing and permits the air to pass through the lungs over healthy surfaces.  
—That is the logical way to cure catarrh.

—The thickened membranes, stops abnormal discharges, clears the nasal passages for easy, natural breathing and permits the air to pass through the lungs over healthy surfaces.  
—That is the logical way to cure catarrh.

—You would not apply salt water to a wound—nor spray it with a violent medicine which would burn, itch and irritate the raw places.  
—For the same reason you should stop the use of sprays, snuffs, douches and atomizers for catarrh. The delicate lining of the nasal passages is raw, inflamed—sore from the action of the catarrh germs.

—Kondon's Catarrhal Jelly is soothing, healing, pleasant and cooling. Apply it once and you will have instant relief.  
Continued use, three times a day, will effect a permanent, safe and speedy cure of Catarrh, Catarrhal Deafness, Hay Fever, Asthma, Cold in the Head, Catarrh of the Stomach, or any complication resulting from chronic nasal catarrh.

—The blessed relief that even the free sample will bring you will encourage you to continue its use until a complete cure is effected.  
—You cannot afford to neglect nasal catarrh even in its earliest stages. It will not get better of itself. Neglect of cold in the head opens the way for the attack of the catarrh germs.

—Over 11,000,000 packages of this wonderful remedy have been sold in 16 years. Thousands have testified to its merits in unsolicited letters which we should be glad to show you. Remember, that Kondon's Catarrhal Jelly is sold by over 8,000 druggists in the United States—but if you don't have it, send to us for 25c or 50c tube (samples or coin), and we will mail at once, postage paid. ## BRICE'S COLUMN

COMMENT AND DIVERS DISCUSSION  
OF THE MERRY WORLD OF SPORT.

**C**ON RILEY, representing the Winnipeg Rowing club, has made a proposition to the officials of the Minnesota Rowing club of St. Paul to hold the 1912 regatta on the Mississippi river and at the new club of the Saintly oarsmen instead of at Minneapolis. The proposition was made at the annual mid-winter dinner of the Minnesota club in St. Paul Saturday, and the reason for the desire of the Winnipeg men to have the scene of the regatta changed from Winnipeg to St. Paul, is that the Canadian club is going to send some of its best oarsmen to the English Henley and later to the Olympic games.

They feel that with some of their best men abroad it would be better to hold the regatta away from home. In this contention the officials of the Winnipeg club are probably right. Winnipeg is planning on sending its crack senior eight abroad and naturally this action would rob the home regatta of one of its chief attractions for the home guard. As St. Paul is to give the regatta next year anyway, the oarsmen of the Winnipeg club figure that the change of dates will not be very much out of the way.

They are on a still hunt for rowing material at St. Paul. While they are not saying very much it is very clear that the Apostles are going out this year with the idea of retrieving lost laurels. The succession of defeats in last year has been ranking in the crops of the boys down below and will act as a spur to greater effort for the coming season.

**T**HE very announcement from Milwaukee that the two cities at the Head of the Lakes were going to be in a new league with St. Paul and Minneapolis, started the winter leaguers gossiping. Mike Kelley, manager of the St. Paul team and one of the wisest men in the game, does not take a great deal of stock in the story that meandered forth from the Brewery City. Others down at St. Paul do not give the officials of the American association credit for being magnanimous enough to permit of the coming of another league, even if it were for the purpose of blocking a way out of the outlaw league.

Fans here are naturally hoping for the materialization of the league. We have had a sorry life in the bush league organizations and surely our appetite is whetted for some better baseball. Any little story like the one given the present week, even if it be only a figment of the imagination from the heated brain of some pipe artist, breaks a yawn off short in the middle and causes interest to chase ennui down the long ravine at the back of one's neck.

**T**HIS Jess Pedersen is surely one of the strongest men that the world has ever given forth from her athletic life. The writer saw him, using apparently little effort to beat the giant opposed to him. There is no doubt that Pedersen can easily beat any man in the world at the Greco-Roman style of wrestling—whether he is going to defeat Mahmoud on the first of next month, naturally is a problem.

John Moje is confident that Pedersen will defeat the Turk. This state of mind is made by Moje with the full knowledge of the abilities of the Turk. He knows that Mahmoud is a wonderful wrestler, but he says that Pedersen will wear him out.

"If Pedersen can keep away from Mahmoud for half an hour he will win," said Moje to a group of Minneapolis newspaper men after the match of last Thursday evening. "Pedersen is stronger than the Turk and he has wonderful endurance. Charley Cutler tried to get rough with Pedersen in the Chicago match and he was begging for mercy before the contest had gone very far. The big Scandinavian just hugged Cutler like a huge bear."

According to Moje, Pedersen is perfectly willing to take Zhyzsko, in the event of his defeating Mahmoud, and in that case the proposition of wrestling the best man in the world would be carried right up to Gutch on a silver tray. Moje says his man has drawn immense crowds of his countrymen all over the country and that the giant Scandinavian is more than pleased with the reception he has received in the United States.

**F**RANK BRYANT is winning new laurels. The little skating wonder from this city is skating at the present time in the various towns of Wisconsin and to date has not lost a single race. Frank is having the best season of his career and is surely attracting the attention of the skaters on the bigger circuit. Followers of the roller skating game in this town would like to see Frank matched with some of the best men of the country. Some of his friends believe he is fast enough at the present time to give Davidson a good run for first money.

**A**GAIN has Johnny Coulon demonstrated that he is a wonderful little fighter. In meeting and beating Burns the little Chicago man added new laurels to the collection of the past. Victories over two boys of the stamp of Conley and Burns in the short space of something like two weeks, is moving them down some. Critics of the fighting game in Coulon the greatest little fighter since the halcyon days of the great Jimmy Barry. It is very doubtful if there is a man in the world today of the weight of Coulon who has a chance of beating him. The Chicago boy is a natural fighting machine and combines the fighter with the boxer, a combination that the long history of the fighting game has seldom brought forth.

In these days when some of our fighters are getting by for the simple reason that there are so few really good men in the game, it is a real pleasure to praise the skill of Coulon, one of the real ones. Ad Wolgast is a sure enough champ and Abe Attell has been a wonderful fighter. The late Stanley Ketchel was one of the greatest fighters that the game of fistiana ever produced. The really great ones are few in these days of the four-flushing methods, and for that reason the luster of Coulon is all the brighter.

## LEAGUE TO HAVE BUT SIX TEAMS

Club Owners in Columbian League Decide to Go Through Season.

Chicago, Feb. 19.—John T. Powers, president of the Columbian baseball league announced last night that the league will be composed of six instead of eight clubs.

Club owners held a meeting here yesterday and decided finally to go through the season. Six clubs were represented. Detroit and Cincinnati, President Powers said, probably will not be in the organization, but Chicago, Kansas City, Indianapolis, Louisville, Milwaukee and St. Louis would start the season.

Another meeting will be held here within a week. At that time a schedule will be adopted and the opening dates will be announced. It is expected that the season will open about May 1, and close early in September.

The meeting was attended by George B. Coder of Louisville, J. C. Mathewson of Indianapolis, J. C. Maser of Kansas City, and W. C. Nissen of Chicago. President Powers represented Milwaukee and St. Louis.

**SAILOR WORKING HARD.**

Marine Doing Road Work and Wrestling at Gowan.

Jack Blackwood writes down from Gowan, Minn., that Sailor Jack is training as he never trained before in preparation for the match of the coming week and the bigger match that is to follow with Young Miller.

"The sailor is doing lots of road work at present, such as loading ties and pulpwood, wrestling with his partners and doing about ten miles on the road, so that you can figure he will be in shape when the time comes to do battle on the mat," writes Blackwood.

"Jack is not worrying over the showing that Lundin made with Young Miller. In the shape the marine is in at the present time there is no man who is going to have very

much on him. Jack is in the very best condition of his entire career, and he does not intend being him twice within an hour, most of us up here will have a chance of being surprised. The day as hard as nails and his endurance has been the marvel of those who have been working with him."

**SODALITY READY FOR HIGH SCHOOL**

This evening the Cathedral high school indoor baseball team will play the Young Men's Sodality team at the Cathedral high school gymnasium. The game is expected to be fast and close. The C. H. S. team has been showing improvement of late and the members are confident of taking the measure of the crack sodality aggregation which has been defeating all of the teams of the city of late.

Patt will be in the box for the C. H. S. team and will be opposed by England, the star hurler of the sodality.

The sodality team only recently defeated the Duluths and at the present indoor baseball teams ever organized in Duluth.

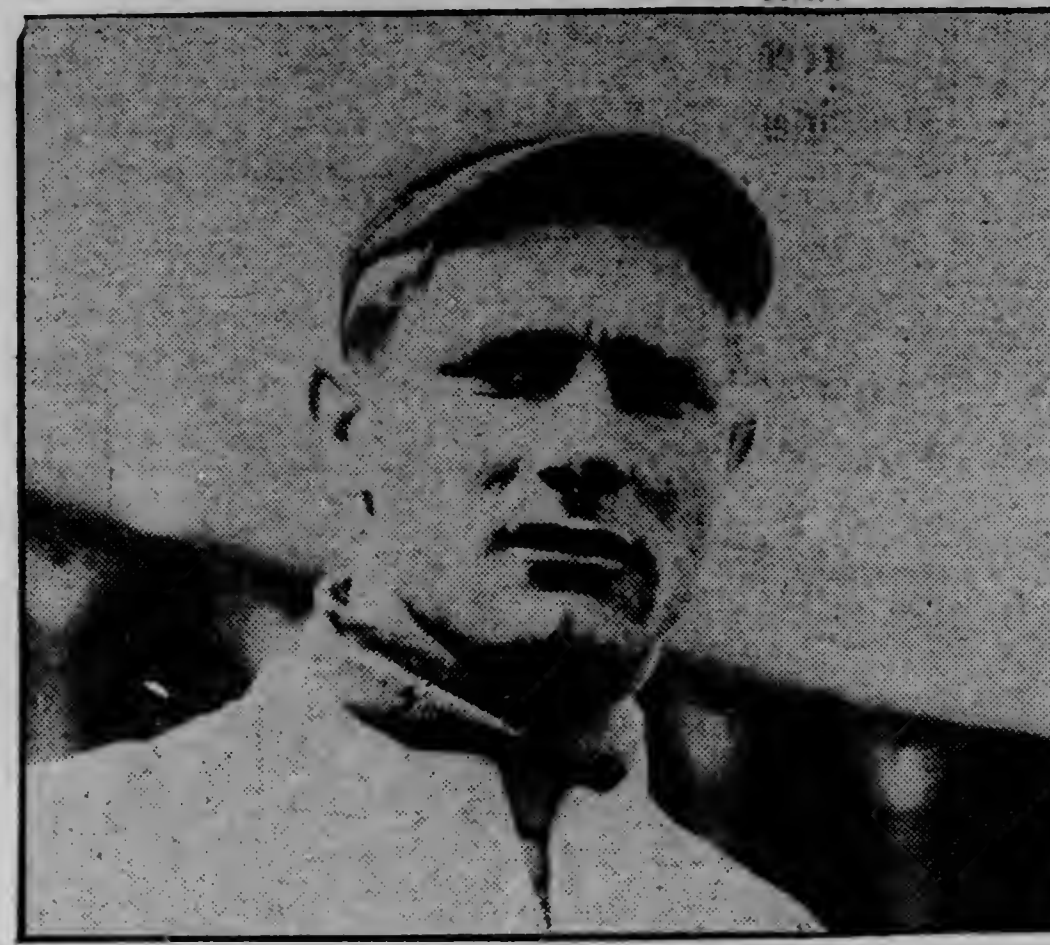

**Despain Knows Nothing.**

Lincoln, Neb., Feb. 19.—"I have heard nothing of any of the boys who are expected to play the coming games for the American rink in the International trophy at St. Paul. This will give the defaulting rinks another chance to play. The jewelry contests are expected to be finished today which brings the bonspiel to a close."

## SIGURD HANSON WINS SKI MEET

Fergus Falls Man Takes Professional Prize and Berge-son Leads Amateurs.

Tromwood, Mich., Feb. 19.—In one of the largest ski tournaments ever held under the auspices of the National Association yesterday, Sigurd Hanson of Fergus Falls took first in the professional class and Sigurd Bergeson of Virginia took first among the amateurs. Sigurd Hanson jumped 152 feet in the long standing for the professional class, while Teddy Larsen and John Fieldstead were tied with 119 for the long standing jump in the amateur class.

Fore Viken of Duluth, who entered unattached, had bad luck. In practice the day before the meet he broke his skis. He used a pair yesterday which were unevenly balanced. He fell in all his jumps.

Anders Haugen of Rushford made 160 feet in the long standing jump, but fell. Fredrichsen, Ironwood, made 156 in the long standing, but he also fell. Four thousand saw the tournament.

## LEAGUE LEADERS IN CRUCIAL GAME

Fitwells to Defend Indoor Baseball Title Against Big Duluths.

One of the best indoor baseball games ever played in this city should result from the meeting this evening at the Auditorium of the Fitwells and Big Duluths. These teams are racing neck and neck for the pennant, the Big Duluths having lost but one game in the league race, that defeat being administered by the crack Fitwells in the event of the Fitwells winning this evening, it is very likely that the pennant will be copied by the outitters.

Two of the best of the heaviest in the indoor league will be opposed to each other in the duel between Simpson and Harris. Both of these hurlers have shown a great battle should result. If they are at their best this evening a great battle should result.

So far the Fitwells have not dropped a game in the Auditorium league schedule. The Big Duluths have been practicing hard with the ambition to draw up on even terms with the league leaders. One of the biggest crowds of the season is expected to root for the two rivals.

**WHAT CANTILLON SAYS REGARDING NEW LEAGUE.**

"There is absolutely nothing to that new Class A league story as far as Minneapolis is concerned," said President Mike Cantillon over the long distance phone last night from his home in New Richmond, Wis. "As far as I am concerned no such club is going to enter the city. My permission must be obtained and this he will certainly refuse. The Miller permission also took occasion to deny the report from Chicago to the effect that the association would be a twelve-club circuit next year."

"That is another piece of bunk," he declared. "There is no chance of any such arrangement. For one thing the Western league has no money, and second division teams to suit the fans."

**BADGERS AFTER THE CONFERENCE TITLE.**

Madison, Wis., Feb. 19.—Coach McChesney is anticipating a Western conference championship from the Wisconsin gymnastic team. Interest in the team has been stimulated by the athletic board's action in making it possible for members to win the "W." title. The Madison team, which won the Chicago in Madison on March 23, in April will occur the tenth annual meet of the Western intercollegiate gymnastic association at Urbana, Ill. Madison is the favorite to win. Capt. L. E. Knorr, R. J. Stengel, R. H. Soutar and M. J. Edwards. New men who are expected to show up well for places are Otto Schleier, senior; Richard E. Eider, junior, and Roy Hepfinger, sophomore.

**DENTIST-PUGILIST IS COMING FAST**

Chicago, Feb. 19.—Willie Ritchie's club in the pugilistic world has been indeed speedy and unless something miscarries the Frisco lightweight now under the managerial wing of Emil Thiry will have a chance at the championship much before his tablemate, Packey McFarland.

Breve Labeled as a Pittsburgher. Ritchie has made a deep impression on the fans and the American Athletic club of that city wants him for a six-round bout with Ad Wolgast. Tom Bodkin, matchmaker and promoter of the above-named organization, today sent Emil Thiry a wire informing him that he has Wolgast's promise for a six-round club and asking him to make it. It is needless to say that Thiry lost no time in firing back a wire with a YES answer.

The Western lightweight has battled in Pittsburgh twice since invading these parts and has made good decisions. When told of the offer this morning he danced with joy and declared over and over again, "I hope I can go through with the affair. I can lick this Wolgast person and decisively in six rounds, would make it the light of my life and take a chance of breaking my hands to land a knockout. With Thiry back of me, I'm sure that I can win," said Ritchie.

**Stalls Away From Ritchie.**

Ritchie has created a big demand for his services since his showings against Welsh and Young Ernie and New York and Philadelphia will bill him soon as the best of the best of the country again. Billy Gibson of New York is trying to induce Knockout Brown to take him on, but the New York lightweight is holding off. Gorchio wired the other way from Ritchie's home town asking Willie's manager to send him on for a battle with Tommy Murphy.

**Going Back Home.**

San Francisco, Cal., Feb. 19.—Fred Pitt, the British contestant for lightweight honors, announced from his hotel in the training quarters at Colma that he had called off his American invasion. In three four days he expects to be able to leave for Chicago, where, after treatment for his sprained muscles, he will return to England. Promoter James Corbitt, who had signed Wm. and Feb. 22, said he had abandoned his program entirely.

**Craig Will Not Compete.**

Detroit, Mich., Feb. 19.—Ralph Craig, the famous sprinter of the University of Michigan, announced yesterday that he would not compete in the Olympic team at Stockholm next summer. Craig was expected to anchor the 400-meter and 200-meter dashes. He declared he cannot leave his position for the length of time that training and the trip requires.

## CHAMPION IS KILBANE DOPED AS WINNER OVER ATTELL

Wise Coast Fight Fans Say That the Champion Is About Through, and That Cleveland Boy May Drop Him for Count.

Johnny Coulon of Chicago Has the Better of Frankie Burns.

Burns Put Up Game Fight, and Had Many Supporters.

New Orleans, La., Feb. 19.—Johnny Coulon of Chicago won handily from Frankie Burns of Jersey City here yesterday afternoon. The fight went the full twenty rounds.

Coulon constantly carried the fighting to Burns' corner. He was met with such an onslaught, however, that a number of Burns' supporters thought he was at least showing he had a draw. When Referee Harry Stout raised Coulon's glove the Burns followers shouted in protest.

Coulon was credited with the only knockdown in the first minute of the last round. The champion landed a left hook to the jaw just as Burns' foot slipped. Burns dropped but was up in an instant and continued the fight.

Coulon was confident and started the fight with a rush after feeling his man out in the first round, which was mostly sparring. The champion, accustomed to the best of the best, was accorded nearly every round up to the eleventh, when Burns gradually began forcing Coulon to the ground, getting the best of the in-fighting.

In the second round Burns got to Burns' stomach, got in several raps to the face, Burns landed a stiff jab on the chin at the beginning of the third, following it with a short right to the stomach. Coulon was forced, forcing Burns to the ropes, working in rights and lefts to mid-section.

In this round Coulon grabbed the top rope with his right and shot in a heavy right to Burns' head. The fourth round found Burns eager, the Jersey boy doing most of the fighting with Coulon apparently resting. Burns repeatedly upped Coulon in the fifth, getting stiff jabs to the face. In the sixth and seventh Coulon rushed his man, landing some of the best of the best.

In the eighth, ninth and tenth, Coulon forced Burns back to the ropes with right and left swings, boring into the stomach with short-arm jabs that Burns found hard to evade. In the eleventh, forcing Coulon to the ropes, Burns was forced to the ropes, forcing Burns to the ropes, forcing Burns to the ropes.

## CHAMPION IS KILBANE DOPED AS WINNER OVER ATTELL

Wise Coast Fight Fans Say That the Champion Is About Through, and That Cleveland Boy May Drop Him for Count.

Los Angeles, Cal., Feb. 19.—There are many fans in Los Angeles who would not be surprised if Johnny Kilbane would put Abe Attell to sleep when they battle the twenty rounds Feb. 22 for the world's featherweight championship.

They are betting Kilbane despite the present odds of 10 to 8 in favor of Attell and the almost certain fact that these odds will drop to 10 to 6 or perhaps 2 to 1.

The Kilbane followers are figuring partly on past performances and partly on the showing Kilbane has made in his recent fights as compared with the lack of showing by Attell in his two years ago Attell whipped Kilbane in the ten-round fight in Kansas City. But Kilbane has improved 100 per cent since then. And to prove it one has only to point to his showing in two battles with Joe Rivers, fought at the time as a champion. Rivers was supposed to have a better chance of winning than Jim Corbett. Kilbane tackled him and they fought like wild cats for twenty rounds to a draw. But that did not satisfy Kilbane. He insisted upon a return match and got it. Then he knocked the Mexican cold in sixteen rounds. The fight demonstrated that in addition to wonderful cleverness, Kilbane carries a punch.

Now as to Attell. Abe has never been a careful liver. Like Joe Gans, he is an inveterate gambler, and he has dropped several fortunes. The strain of gambling gradually gets on a man. It finally got Gans, coupled with the heart-breaking time at Goldfield. But it was gambling, the best of health, a boy who takes care of himself at all times, and combines cleverness with punching ability, pitted against the craftiest boxer in the ring today not battling any class but a man who is beginning to hit the slide after twelve years of work. Attell knows every angle of the game, from a theoretical standpoint, but can he execute what he knows ought to be done?

Kilbane backers say he can't. No matter what the outcome of the battle, Attell will draw down \$5,500 for winning a loser, while Kilbane will get \$3,500 for his end.

And directors of the club desire a membership list of 1,000 and work to this end will be started shortly.

**To Have Baseball Coach.**

Madison, Wis., Feb. 19.—Head Coach Richards of the university stated that a professional baseball coach will be engaged to give individual attention to the men.

**FAVORED BY TUGMEN; OPPOSED BY BOAT OWNERS.**

Duluth tugmen and motorboat owners are divided over a bill, which is now before congress and which is passed will compel many small craft owners to pass government examinations for the tugmen's association. Through the Tugmen's Protective Association of the Great Lakes, this measure has had its greatest support.

In the other hand the Duluth Boat club and the Superior Boat club are in favor of the bill, which is interpreted of the proposed law is that it would require many owners to give up to hire a licensed engineer throughout the season and thus work men.

The measure was drafted by Harbormaster Page at Toledo and presented to congress by Congressman Sherwood of Ohio.

**MANCHURIA MAY BREAK FROM CHINA.**

London, Feb. 19.—The situation in Manchuria has become much more acute since Kang Yu Wei, leader of the reform movement, has been granted the title of Prince of the Empire. The reform movement, has thrown his lot with the Manchuria to give up his office. The Manchuria prince Su is financing a movement to give up his office. ## RESOLUTION AIMED AT FIRECRACKERS IN THE HALL, SAYS RYAN

Head of Iron Workers Decides to Admit Measure Was Proposed.

Step to Halt "Explosions" Taken at Iron Workers' Meeting.

Federal Authorities Say It Is Evidence of Leaders' Guilt.

Indianapolis, Ind., Feb. 20.—Firecrackers in the hall, not dynamite under non-union steel "jobs," were referred to in a resolution submitted to the convention of the International Association of Bridge and Structural Iron Workers at Rochester, N. Y., in September, 1910, according to a statement by Frank M. Ryan, president of the association, today.

Ryan had denied the authenticity of the resolution, the original copy of which the federal officials investigating the dynamite conspiracy assert they have, but today he recalled, he said, that the measure proposing that "no more bombs or explosives of any kind be exploded while this convention is in session" was introduced.

"It was just a joke," Ryan, "and came about because P. J. Moran of St. Louis had put bunches of firecrackers under the chairs of the delegates and set them off. The explosions startled all of us. The resolution went to the resolutions committee and never was reported out."

"I suppose John McNamara kept it. We did not discuss it because we knew nothing of the dynamite plot. It is charged by federal authorities that a resolution demanding that no more bombs or explosives of any kind be exploded while this convention is in session" was written out in regular form by a delegate at the convention, was secretly referred to a committee, and without the action becoming known, was later found by the government among the papers taken from them. ## COLORADO HAS HEAVY SNOWS

State Is Covered From an Inch to Several Feet Deep.

Denver, Colo., Feb. 20.—With snow from one inch to several feet deep covering the entire state, the movement of trains, especially on lines that traverse the mountain district, has been severely hampered.

Reached Denver from the West since 9 o'clock last night has been from one to five hours late. Snow began falling yesterday forenoon over practically the entire state and continued this morning.

## PREFERS PRISON TERM TO SCANDAL

Brandt's Counsel Says Client Would Protect Woman's Name.

New York, Feb. 20.—"Rather than see aspersions cast upon the name of a woman, my client would prefer to suffer in silence in prison."

Mirabeau L. Towne, counsel for Folke E. Brandt, former valet for Mortimer L. Schiff, made this statement before Commissioner Hand today at the opening of the hearing to ascertain whether Brandt was sent to prison for thirty years as the result of a conspiracy.

Mr. Towne argued that, in his opinion, the hearing before a commissioner was premature and ill-advised, inasmuch as Brandt was not now convicted of any crime in view of the recent action of Judge Rosalsky, the trial judge, in setting the sentence aside.

In any event, said Mr. Towne, it was his desire and the desire of his client to continue the hearing to "matters relevant to the issue"—free from scandal.

Delaney Nicoll, who said he represented Brandt, made an impassioned appeal that Brandt's application to the governor for a pardon be produced.

"We will show," he declared, "that this man asked for clemency on the ground that he had never committed burglary in the Schiff home, but had gone there at the invitation of Mrs. Schiff. We will lay bare all the details of the foul conspiracy to blacken the name of a woman, and we demand every paper, every record, every witness, to protect the honor of a reputable family and the reputation of a virtuous wife and mother."

STATION AGENTS TO DEMAND MORE PAY.

New York, Feb. 20.—The demands for a general increase in wages of 15 per cent, which the delegates representing 2,000 station agents, freight agents and ticket agents, have submitted at the biennial convention of the Order of Railroad Station Agents, now in session here, will be presented on April 1. No trouble over the adjustment of demands is anticipated by the men in the railroad order.

## WILSON SAYS IT IS A LIE

Declares He Never Wrote Letter Praising the Everglades.

Secretary Says His Name Often Is Taken in Vain.

Washington, Feb. 20.—Secretary of Agriculture Wilson today denied authorship of a letter which has been widely circulated by one of the panes exploiting lands in the Florida Everglades.

The advertisement, headed "Secretary Wilson's Opinion," was credited to the East Coast Homeowner of "June," the year not being given. The purported letter follows:

"There is no other large body of land anywhere in the United States, in fact anywhere else in the world, that will, when the drainage is completed, be so valuable as the once desolated Everglades. Between 3,000 and 4,000,000 acres of rich alluvial lands, located in a climate that is almost absolutely perfect, where all crops can be grown the entire season through, where there are no long cold winters, no excessive heat in summer and no malaria or other diseases."

"From the very nature of the conditions, Florida becomes the paradise of the whole world. There, a careful, thrifty tiller of the soil can make more money on ten or twenty acres of land than on 150 in the north or west. The doubting Thomases who are standing back awaiting developments will in a few years see their folly."

"I have no recollection of ever writing anything of this sort," said Mr. Wilson today. "This sort of thing happens often and I will have to stop it, as I have been forced to do many times before. It is not uncommon to find my name and that of Dr. Wiley used without authority in advertisements. Dr. Wiley is perhaps a more prominent name, because he is more prominent."

## NEW RULING TO PROTECT SHIPPERS

Railroads Are Forbidden to Force Payment for Cars Not Ordered.

Washington, Feb. 20.—Railroads are required, by an order issued by the interstate commerce commission today, to furnish to shippers cars of the dimensions ordered within six days. If larger cars should be furnished at the expiration of that period, the charges for transportation shall be exacted on the basis of the minimum weights of the smaller cars.

By this order, shippers will be protected from excessive charges through the use of cars larger than are necessary for the shipments.

## SEVERE FIGHT AT THE SAN DOMINGAN FRONTIER.

Cape Haitien, Haiti, Feb. 20.—An official report has just been received of a severe fight between the revolutionary forces and the government troops near the San Domingan frontier Wednesday last. The result is not recorded, beyond the fact that the government troops suffered a loss of forty killed and a large number wounded. A small San Domingan coasting vessel has been engaged for the conveyance of the wounded from Mon Chien to Cape Haitien, owing to the interruption of communication by way of the frontier.

## REBATING ALLEGED

Three Railroads, Two Burlesque Concerns and Four Individuals Indicted.

Money Refunded By Carriers Charged Up to "Advertising."

Chicago, Feb. 20.—Four indictments for alleged rebating were returned today by the federal grand jury, the defendants being three railroad companies, two theatrical concerns and four individuals. Excessive payments for "advertising" in return for the purchase of railroad tickets is declared to be the medium by which the alleged rebating was accomplished.

Those indicted are: Henry J. Habel, general passenger agent of the Cleveland, Cincinnati, Chicago & St. Louis railroad; named in two indictments.

William Underwood, assistant general passenger agent of the Michigan Central railroad; named in one indictment.

Hedolph K. Hyslop, director of the Columbia Theatrical Amusement company; named in three indictments.

The Columbia Theatrical Amusement company of New York; named in three indictments.

The Lake Shore & Michigan Southern railway; named in one indictment.

The Michigan Central Railroad company; named in one indictment.

The Heuck Opera company of Cincinnati; named in one indictment.

Fine of Not Over \$5,000. The federal act which is alleged to have been violated provides a penalty of a corporation and a fine of not more than \$5,000 or an imprisonment of not more than two years or both for a person guilty of such violation.

Large sums of money have said to have been lavished in the alleged rebating.

It is asserted that during the theatrical season the grand jury returned the indictments.

## ONE GUILTY IN KAUFMAN CASE

Only Three Will Have to Stand Trial Following Change of Plea.

Chicago, Feb. 20.—Prosecutor Northrup of the state's attorney's office was today prepared to proceed with the trial of John Stacey, George Rabenau and William R. Chase, three of the men charged with the murder of Mrs. Hattie Kaufman.

Frederic Bonchum's sensational plea of guilty after the trial had started yesterday left only three out of the five defendants to stand trial.

His move only temporarily affected the others and they decided to stand by their plea of "not guilty."

No jurors have so far been obtained and it is believed that the filling of the panel will prove slow work as the prosecutor has announced that he will accept a plea of "not guilty" to the death penalty.

## WAKING UP!

## ESPIONAGE NOT WANTED

Plan of Formidable Secret Service Department Strongly Opposed.

American People Will Not Approve an Army of Spies.

(By Willis J. Abbot.) Washington, Feb. 20.—(Special to The Herald.)—If a story current in political circles here has foundation in fact, the Taft administration is about to risk a venture which is heavily laden with chances of disaster. The report has it that the administration plans the concentration of all the varied secret service and investigating corps of the different departments into one body which shall excel in efficiency and power any secret service organization in the world—presumably including that of Russia. It is a curious commentary on the growing autocracy of our Federal administration that this proposition should be seriously made and discussed in a prominent newspaper of the capital without an indication of resentment or even question as to its propriety. There is apparently an element in our political

## SAYS EMIGRANTS ARE RETURNED

German Steamship Company Puzzled By American Court Ruling.

Bremen, Germany, Feb. 20.—The North German Lloyd Steamship company professes to be unable to understand the reasons for the decision of the supreme court of the United States, which declared yesterday that the company must stand trial in the United States circuit court on a charge of violating the immigration laws. The company states it has always been its practice to return excluded emigrants gratis.

According to the reports before the supreme court, the North German Lloyd sold tickets in Germany for the round trip to the United States. The money for the return passage was held by the company in New York to be repaid to the emigrants should deportation not be ordered. The company argued that the United States courts had no jurisdiction, but the supreme court yesterday ordered the trial to proceed.

## OLD SPARTA-MELROSE TROLLEY PLAN DROPPED.

La Crosse, Wis., Feb. 20.—The affairs of the defunct Sparta-Melrose Railway company, which were turned over to a company of St. Paul railway promoters three years ago, will be turned back to the original organizers on March 18, at which time the rights expire. The proposition of building a railroad between the two places according to the old plan has been abandoned and an entirely new organization will be formed and a new route selected.

## 80 CENT LUMBER RATE PRESCRIBED

Commerce Commission Rules on Case Begun in Michigan.

Washington, Feb. 20.—A freight of 80 cents a hundred pounds on hardwood lumber from Central Freight association territory to Pacific coast terminals was prescribed today by the interstate commerce commission. The existing rate of 85 cents was attacked by the Michigan Hardwood Manufacturers' association. The order of reduction is directed against all transcontinental lines.

## HASTOO MANY TIME PIECES

Man Is Arrested on Charge of Robbing People on Train.

Lone Bandit Holds Up Passengers on Baltimore & Ohio.

Baltimore, Md., Feb. 20.—A man giving the name of F. A. Becker was arrested near Altamont, W. Va., early today, in connection with the robbery of the Pullman car passengers on the New York and St. Louis express of the Baltimore & Ohio railroad last night. The man had \$132.37 in money, four watches said to correspond with those taken from passengers, and two revolvers. He was lodged in jail at Keyser, W. Va.

The suspect claimed that another man gave him the money and other valuables found on him. He was taken by a Baltimore & Ohio policeman at a watering station a short distance east of Altamont. He had just alighted from an eastbound freight.

The train was held up on what is known as the "seventeen-mile grade," between Piedmont, Md., and Altamont, Va. The robber was masked and the only description the authorities have of him is his general appearance, gleaned by frightened trainmen and passengers as he robbed them leisurely of their valuables.

Boarded Train at Keyser. The young man boarded the train at Keyser, or Piedmont, and while the train was slowly climbing the grade, made his appearance in the rear sleeper. Drawing a revolver he covered the Pullman conductor, the negro porter and the flagman.

He compelled the flagman to walk in front of him and arouse the sleeping passengers of whom there were four. When he had gathered loot to the value of about \$600 the train had reached the grade at Altamont. Then the robber dashed to the rear of the train and leaped to the ground.

The man worked quietly, but with what appeared to the passengers who took time enough to observe him, with out haste. He had fired his revolver when he entered the train and a number of women fainted when he approached them, but he robbed them as quietly as he did the men, and gave no heed to their condition.

## RETAIL GROCERS OF STATE HOLD ANNUAL CONVENTION HERE

Nearly 500 Delegates in Attendance at the Opening Session.

Special Train Brings Twin City Merchants to Zenith City.

List Will Be Swelled Tuesday—Notable Speakers on Program.

With nearly 500 delegates in attendance, the annual convention of the Retail Grocers and General Merchants' association began at the Spaulding hotel this morning.

The men are from all parts of the state. One special train bearing scores of grocers and merchants from Minneapolis, St. Paul and tributary territory, arrived early this morning.

It is thought that by Tuesday morning there will be at least 700 merchants in the city. These with the local delegates will bring the attendance at the Duluth convention close to 800.

The meetings are being held in the banquet hall of the Spaulding hotel. The convention will last three days, today, Wednesday and Thursday.

It is the largest convention to be held in Duluth in many months. The men are pouring into the city on the trains from the different parts of the state almost every hour. This noon a large delegation arrived from iron range points, and another large crowd came in on the Mesaba this morning.

The convention was called to order this morning by President Joseph Cumming of the Duluth Grocers' association.

After welcoming the delegates, Mr. Cumming turned the convention over to George H. Filbert, state president.

Mayor Cullum was introduced and delegates to the city. The mayor hoped that the Duluth convention would be the most successful ever held.

## "TRUST" LIST THROWN OUT

Price Agreement Signers' Names Barred in Bath-tub Men's Trial.

Court Sustains Objections to Presentation of Evidence.

Detroit, Mich., Feb. 20.—Strenuous objection today on the part of the defense in the government's criminal suit against the alleged bathtub trust prevented the prosecution from getting before the jury that part of testimony in the civil bathtub suit at Baltimore which contained the names of the 400 or more jobbers who signed the alleged price agreement.

Attorney Grosvenor, special assistant to the attorney general, contended that the names were material evidence because they would throw light on the character of the alleged conspiracy.

The defense declared that a previous ruling of Judge Angel, barring evidence not directly connected with the overt act charged in the indictment.

## DIEGLE MUST GO TO PENITENTIARY

Ohio Supreme Court Confirms Sentence in Bribery Case.

Columbus, Ohio, Feb. 20.—Rodney J. Diegle, former sergeant-at-arms of the Ohio state senate, must serve three years in the penitentiary for complicity in legislative bribery. The state supreme court today confirmed the decision of the lower courts, which convicted Diegle of aiding in the alleged bribery of State Senator L. R. Anderson.

Diegle's conviction was due principally to evidence secured by a phonographic device which recorded conversations between the alleged bribe-givers and the takers.

## RETAIL GROCERS OF STATE HOLD ANNUAL CONVENTION HERE

Nearly 500 Delegates in Attendance at the Opening Session.

Special Train Brings Twin City Merchants to Zenith City.

List Will Be Swelled Tuesday—Notable Speakers on Program.

With nearly 500 delegates in attendance, the annual convention of the Retail Grocers and General Merchants' association began at the Spaulding hotel this morning.

The men are from all parts of the state. One special train bearing scores of grocers and merchants from Minneapolis, St. Paul and tributary territory, arrived early this morning.

It is thought that by Tuesday morning there will be at least 700 merchants in the city. These with the local delegates will bring the attendance at the Duluth convention close to 800.

The meetings are being held in the banquet hall of the Spaulding hotel. The convention will last three days, today, Wednesday and Thursday.

## MINNESOTA DAY MARCH 1

School Children Will Be Taught Something of Their Own State.

History, Resources and Legends Will Be Outlined to Pupils.

Teachers in all schools of Minnesota are being urged by C. G. Schulz, state superintendent of public instruction, to observe "Minnesota Day," March 1, with special exercises designed to teach children of the state the history, resources and legends "of the land which is their heritage."

"The state is in the second half of its first century," Mr. Schulz says, in a booklet of suggestions which he is mailing out. "Progress in population and material development has been rapid. In education, we have a leading position among the states of the Mississippi valley. Our youth are justly proud of the achievements of their fathers. The first lessons of patriotism are taught by the home; the school followed by the state. A more intimate knowledge of the natural wealth, the men and the influences that have made Minnesota what she is, will tend to foster state interest and pride."

Mr. Schulz suggests that the special exercises should start with the naming of the state seal. Then the sources from which the various counties derive their names, the meaning of the names taken from the Ojibwa Indian language, and the names of the early explorers should be learned. The natural resources of the state, he says, should be made special features.

Suggestions also are made by the superintendent of public instruction that the school children be instructed on subjects pertaining to fire and fire prevention, the dangers surrounding matches, gasoline, kerosene, stoves and fireplaces, brush fires and bonfires and dangers surrounding fireworks. The state legislature designated March 1 as "Minnesota Day," to express intention of setting a date when the children of the state should be taught to "know Minnesota first."

## FERTILIZER GIVEN AWAY

Farmers May Secure Manure From City Free of Charge.

Farmers in the country around Duluth who want manure for fertilizer may have all they want for the payment of the freight rates. The city will see that cars are loaded and the railroads will attend to the shipments if the farmers will comply with the provisions.

The farmer who wants a shipment must make the arrangement with the local agent at the nearest station to his home of depositing an amount sufficient to cover the freight charges. The agent will notify the Duluth office of his company and the company will see that the car is spotted for loading. Arrangements between the railroads and the city were brought about by the agricultural committee of the Commercial club last year. Many tons of valuable fertilizer was dumped into the bay and the arrangements were made in order that the farmers might be able to get the fertilizer. Not as many as expected took advantage of the offer, but it is expected that more will do so next year.

"Now is the time to get fertilizer and spread it," said A. B. Hostetter, superintendent of agriculture of the Commercial club. "As the snow melts the valuable nourishment for the soil will be washed into it and by the time seed is done, the fertilizer will have taken effect. Farmers who neglect a duty they owe to the land. The freight charges are not great and the benefit to be derived is incalculable."

## News and Views of Minnesota Politics

Double-Barreled Organizations. Taft and Eberhart; Roosevelt and Gordon; La Follette and Lee.

The candidates for the Republican nomination for governor in Minnesota have lined up with the candidates for the Democratic nomination for governor. Each candidate for governor has indicated that he will not mix his campaign with that of his favorite for the presidency, but that they will or can follow out that course is highly impracticable. The organizations are double-barreled.

Ed Smith is the commander in chief of the Taft and Eberhart forces. He is anxious to retain his grip on the executive office through Eberhart and he is also anxious to deliver Minnesota to Taft in the Chicago convention. He has ambitions to succeed Frank B. Kellogg as national committeeman from Minnesota and he believes that the delivery of Minnesota to Taft will give him that post. James J. Kollogg is also active in the Taft cause, may have something to say about the office of national committeeman. Kollogg is keeping out of the fight and apparently has no desire to succeed himself.

Gordon has announced that he will not take part in the election. He has chosen, although the ex-president is his choice for the nomination. The appointment of Irving A. Crawford, clerk of the supreme court, as the Minnesota member of the national committee, is significant, and offsets Gordon's announcement to some extent. Crawford is high in the Gordon councils. He has been one of the most ardent supporters of the lieutenant governor and the appointment indicates that the colonel's supporters intend to tie to the Gordon organization.

Lee has espoused the cause of La Follette and has been, in turn, endorsed by the Progressive league as the candidate for governor. The candidates for governor must have local organizations throughout the state. Organizations for the presidential candidates must also be formed. What more natural than that with a view to the work, since the lines are so sharply defined? There can be no doubt that the work of the gubernatorial candidates under these conditions will be almost over before the contest between the candidates for governor gets well under way. The state delegate convention will be held in May and the nominating convention will not start until late in June or early in July.

A Shrewd Choice. Mr. Caswell was handed the reins of the Roosevelt movement in Minnesota by a telegram he received yesterday from Governor John A. Crawford, national Roosevelt headquarters at Chicago. The telegram read: "The national Roosevelt committee would deeply appreciate your acceptance of the nomination for governor of Minnesota. Kindly advise us of your decision, which we hope will be favorable."

Mr. Caswell's acceptance of the nomination and will take up the task of organizing the Roosevelt movement in Minnesota. The shrewdness of the managers of the Roosevelt movement is shown in the appointment. Mr. Caswell is one of the best politicians in the state. He is not only a campaign manager, but a politician. He has thousands of friends throughout the state who are ready and willing to throw themselves into any cause which he endorses. He is clean, able and honest and the Roosevelt managers have made an excellent choice.

Socialist Prospects. The Socialists of Minnesota nominated their state ticket at Minneapolis yesterday with Rev. David Morgan of Duluth as their candidate for governor. Duluth is honored by having John A. Johnson as the candidate for secretary of state.

The Socialists will make a showing in the state ticket. They are not surprised to many who have been given to understanding the movement. Especially in the northwestern part of the state ticket will be heavy. Socialism is the core. He is rapidly in this part of the state, not only in the towns, but among the farmers.

The fact that J. A. Johnson, the Socialist candidate for secretary of state, polled 1700 votes in Duluth at the election this month indicates the strides made here. Many Socialists are scattered through St. Louis county.

Two Harbors are socialist officeholders and the fifty-first district sent a Socialist to the legislature last year. Chief River Falls and Crookston went Socialist in municipal elections last year. Carlton county is a Socialist stronghold. A Socialist strength that makes the party a factor in the election. The Socialist candidate for congress in the Ninth district, M. A. Brattland of Ada, would have more than a bare chance.

## Health Department Will Aid in Protecting Health of Infants.

Milk Depots Advocated—Vital Statistics for 1911 Are Issued.

The St. Louis County Medical society proposes to take an active part in the coming summer in the infant welfare movement by instituting milk depots in Duluth during the hot weather last year.

Towards this end the society will endeavor to secure the establishment of milk depots in various parts of the city, at which pure milk will be sold at the lowest possible price. In this manner it is believed that much can be done to reduce infant mortality.

In his annual report, filed last night with the city council, Dr. I. J. Murphy, medical inspector of the health department and police surgeon, states that the number of deaths of infants under 1 year of age died in Duluth during 1911. Of this number he explains that the death certificates show that 64 were from clearly preventable diseases and that the actual number was likely greater than that.

Dr. Murphy calls attention to the fact that the milk depots which have been in operation in New York. He points out that the milk bottles in a small tin can and pack ice about it, which keeps the milk at a cool temperature for some time.

Continuing in the same line he says that many factors enter into a successful campaign against infant mortality. Among them being education of mothers, nurseries, dispensaries, tents, etc., in the use of pure milk, and medical services. He suggests that this might be a profitable field for the board of public welfare, the establishment of which was authorized by the city council last year.

Dr. Murphy's report also includes a comprehensive analysis of the contagious disease situation in Duluth last year. It shows that the greater part of the deaths were due to tuberculosis and the second greatest to pneumonia, the first claiming 140 and the second 120 victims. Many cases were discovered through reports from the board of public welfare, nurses and medical services. ## LOTS OF SOFT, WAVY, FLUFFY HAIR AND NO MORE DANDRUFF

Get a 25 cent bottle of Danderine and just try this—stops falling hair at once.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scalp disease that is so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life, eventually producing a feverish, itchy and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast.

A little Danderine tonight—now—anytime will surely save your hair. Ten minutes after applying all itching dandruff will disappear, all itching will cease and there will be no more falling hair.

Millions of men and women know Danderine and they never have dandruff, itchy scalp or falling hair—they know that it keeps the scalp clean and healthy and makes the hair grow heavy, long and beautiful.

Get a 25 cent bottle of Danderine from any drug store or toilet counter, and after the first application you will say it was the best investment you ever made. Your hair will immediately take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, so that what you most will be after just a few weeks' use, when you will actually see a lot of fine, healthy hair growing—growing all over the scalp.

# SALVATION IN PENNIES

One West Duluth Family Is  
Being Rescued From  
Poverty.

Miss Jean Poirier, Duluth's woman policeman and state factory inspector, has an interesting story of how the "Penny Provident" fund, a hobby of hers, is working out the salvation of a West Duluth family.

Incidentally, this is one of the many heart stirring, human interest tales which Miss Poirier could tell, if she were so inclined, for she daily comes in contact with poverty-stricken and almost destitute families.

Miss Poirier as a rule avoids personalities when she tells a story of this kind, so she withheld the name, but out in West Duluth, there is a mother, a drunken father and a big family of children, most of them small.

They managed to struggle through the severe part of the winter the best they could, saving rent by living in a small squatter's shack near the railroad tracks. The head of the family was shiftless and worked when he was inclined. Most of his money went for drink.

The older children earned a few pennies whenever they could and those who went to school got interested in the "Penny Provident" plan, which is now being worked out with considerable success among school children.

Under this plan, school children are encouraged to turn their pennies over to some teacher in the school who will give them in return credit in a book which each child keeps for that purpose. When the amount reaches \$2 or \$3, the child is asked to start an account in a savings bank with that for the first deposit.

The school children talked the plan over with their mother, who has now joined with them in saving pennies and small change. Once a week the little mother comes to Miss Poirier with her week's savings, even if only a few cents, and Miss Poirier places it in safe keeping.

The father's interest was finally aroused and now whenever he stays sober he is willing to help the children as much as possible. They have quite

a tidy little sum already saved. The mother told Miss Poirier that when they get enough ahead to pay two months' rent in advance, that they were going to move into a real house, where conditions would be greatly improved.

"You see," said Miss Poirier, "that this is but one of many transformations which can be brought about through children being encouraged to save their pennies. One has no idea how fast these little accounts grow. Take the Bryant school, for instance. Miss King, the principal there, places on deposit every week from \$12 to \$15, turned in to her by the children."

Miss Poirier also cited instances of how three or four small boys were buying lots at Lester Park by having their nickels and dimes on the "Penny Provident" plan, and at the end of every month withdraw and make a payment on their contract.

The plan is being quite successfully worked out in most of the schools of the city.

## PERSONAL

State Treasurer Walter J. Smith was a Duluth visitor yesterday.

Editor of the Herald, editor of the Ely Miner of Ely, Minn., is in Duluth today.

Charles A. Werten has arrived from

the East to occupy a position of cashier in the office of Gay & Sturgis, brokers.

George Decker of Hibbing is at the Lenox.

Mrs. Mary Donohue of Gilbert is at the Lenox.

George Johnson of Virginia is at the Lenox.

T. L. Manix of International Falls is at the Lenox.

Peter Domke of Buhl is at the McKay.

James Edwards of Chisholm is at the Spaulding.

W. W. Walker, vice president and general manager of the Duluth, South Shore & Atlantic railway, left last night for Chicago. Mr. Walker will be gone several days.

## VAN LEAR WILL SPEAK HERE

Thomas Van Lear of Minneapolis, who was a candidate for mayor in that city two years ago on the Socialist ticket and who lost by a small margin of 200 votes, will be the principal speaker this evening at the Great Western hall, Twenty-first avenue west and Superior street. He will speak on "Straight Socialism" under the auspices of the local Socialist and Machinists' association.

Mr. Van Lear is business agent for the International Association of Machinists and will spend several days in Duluth attending to the business of his organization. He will arrive this evening and leave Saturday for the range towns.

## 500 EARNINGS GROW FASTER

St. Paul, Minn., Feb. 20.—(Special to The Herald.)—The Soo railway, up to the present time, shows the greatest increase in earnings during 1911 of any road that has reported to the state tax commission. Its increase in 1911, according to the company's figures, amounted to more than \$1,600,000. In 1911, the road earned in Minnesota \$7,013,745.51, and will pay a tax of \$304,549.51. In 1910 it earned

\$6,082,466.22 and paid a tax of \$243,338.12.

The Wisconsin Central, operated by the Soo, earned \$2,514,645.55 in 1911, and will pay a tax of \$1,065,881. In 1910, it earned \$2,440,109.10 and paid a tax of \$1,257,620.

While the Northern Pacific will pay a gross earnings tax this year of more than \$500,000, the amount will be less than it paid last year, according to a report made this morning to the state tax commission. In 1911, according to the company's figures, the railway earned in Minnesota \$14,208,833.59, and the tax will amount to \$658,353.85.

In 1910, the road earned \$14,433,277.83 in Minnesota, and paid a tax of \$777,833.24.

It had been believed, prior to receiving the report, that the Northern Pacific would show an increase in earnings in 1911 over 1910. The decrease will cost the state approximately \$9,000 in taxes.

## OPEN HOUSE ON THE HOLIDAY

A general invitation to the boys of Duluth to participate in the Washington's birthday program of the boys' department of the Y. M. C. A. has been issued by Norman D. McLeod, secretary of the department.

The program will be open at 10 o'clock in the morning with swimming contests for medals at the central association. In the afternoon an athletic meet for medals will be held at the boys' building. The grade school basketball teams will meet at 4:30 in the afternoon. At 8 in the evening a free entertainment of athletic and vaudeville acts will be given at the boys' building.

A meeting of delegates from the different schools of the city will be held at the boys' department this afternoon to organize for spring athletic events.

## SAYS THEY OFFERED TO PAY BREN SHORTAGE.

Minneapolis, Minn., Feb. 20.—(Special to The Herald.)—Stress was placed today on the release which the board of regents of state university had granted to Joseph D. Bren on Jan. 10, when M. C. Brady, secretary of the defense, opened the case for the defense and told that the defense expected to show Mr. Bren, who formerly was acting treasurer of the University of Minnesota, is on trial

charged with failure to turn over public funds to the state.

In his defense, Mr. Brady declared that Mr. Bren is not on trial on a charge of larceny; that if the books under Mr. Bren's regime were not properly posted it was because he had a sufficient office force, and that attorneys for Mr. Bren and the bonding company several times had gone to John Lind, president of the board of regents, and offered to settle in full, but that they been told that the amounts had not been ascertained. He declared that finally, on Jan. 10, an attorney for Mr. Bren gave checks to the regents for \$14,310.70 which settled all possible shortages with the exception perhaps of \$100.

F. N. Stacey, deputy public examiner, was the last witness placed upon the stand by the state, being called to compute the list of balances.

## NEW MIX-UP IN KIMMEL CASE

St. Louis, Mo., Feb. 20.—Al H. White of Hannibal, Mo., a witness for the defense in the Kimmel "mystery" insurance case, on trial in the United States district court, testified today that he had been called "Turkey" White. The defense introduced evidence to the effect that he was the "Turkey" White that Bruce L. Conner testified to having known in Arkansas City, Kan., in 1888, shortly before George A. Kimmel disappeared.

Conner testified that the claimant, Andrew J. White, was known as "Turkey" in Arkansas City, and that he knew Conner. He does not resemble the claimant in any respect.

Al White's presence in the case has tended to add confusion to the already complicated situation. In which four personalities have been introduced, in addition to Al White, they are Kimmel, Andrew J. White, the claimant, and Melvin Parker, White's secretary, Kansas, who also was mentioned by Conner.

Attorney F. H. Bacon, of counsel for the plaintiff, announced that the testimony of R. H. Snyder, Jr., of Kansas City, given yesterday, makes it appear that John D. Swinney, Snyder's brother, not have been the father of the Snyder who testified in the case.

## FIND INDIANS IN FEARFUL SHAPE

Detroit, Minn., Feb. 20.—After a trip of two days over the White Earth reservation, during which time they visited more than two score homes of Indians, Representatives J. M. Graham and Henry George returned here today. The tour was made by the two members of the congressional committee which is investigating the charges of fraud in connection with the reservation in an attempt to verify the claims that have been made at various times during the inquiry that many of the Indians were suffering acutely from lack of food and from disease.

"It's a fearful indictment against somebody," is the way Mr. Graham expressed his opinion of conditions of the reservation. "I tremble for my country when I reflect that there is a just God."

Mr. Graham, speaking of Abraham Lincoln in an address before the pupils of the White Earth agency school last night declared:

"I am sure if Lincoln could have taken the trip we took today, it would have made his kind heart bleed."

Many of the Indians were found by the committee to be suffering from poverty and disease.

## WILL DEPORT TWO ALIENS

Immigration Inspector James Daly left today for St. Johns, N. B., with Kale Salomaki, who will be deported from that point to Finland.

Salomaki is the man who stole into the United States some weeks ago at International Falls, Canada will not accept him. The United States does not want him for a citizen and arrangements have been made to take him back to his native land.

Ivor Christoffersen, who is characterized by Brown McDonald, inspector in charge of the local office, as "the laziest man in the whole United States of America," will also accompany Salomaki to St. Johns. There they will part, Christoffersen boarding a boat for Norway.

Sheriff McKinnon of Superior will accompany Mr. Daly and the two aliens.

## SUPERIOR

Indian Painted in City.

Henry M. Cross, noted as an Indian painter, spent yesterday in Superior gathering material for a book which he and Col. John Burke are collaborating on. Mr. Cross has painted more than 1,000 pictures of Indian types, and is at present painting for T. B. Walker, the wealthy Minneapolis lumberman. Mr. Cross is 76 years old and he has painted thirty-three pictures of Sitting Bull alone during his prominent career.

## Will Wed in Chicago.

In a telegram received from Chicago this morning, James E. Hurley of Superior and Miss Helen Ebert of Chicago are reported as having received a marriage license there. Mr. Hurley is an engineer on the Great Northern railway and has made his headquarters in Superior for the past five years. He has no relatives living here, and his address in the city directory is given as 3 Terminal flats.

## Oppose Paving Plan.

"Insurgent" property owners on Tower avenue will meet tomorrow evening and announce their determined opposition to the issuance of a contract for paving the avenue at this time. The mass meeting will be held at the city hall and Alderman Ekstrom will preside over the gathering.

## Physicians Must Report.

As a result of inattention to the requirements of the health laws by many of the physicians of the city, as shown in connection with the threat of an epidemic of smallpox several months ago, it is probable that Health Commissioner G. H. Gill will send a circular letter calling their attention to the present requirements. Some changes have been made recently by the state board of health, and these rules and regulations will be emphasized in the letters.

## Advice to Club Members.

The Clean Government club held its third meeting last evening at the Odd Fellows hall, and addresses were made by a number of prominent citizens representing different professions and labor. The members of the league were all urged to elect honest men to the new officers, and assist in making Superior an example of commission rule for the other American cities.

## ENJOINS SALE OF MALTING COMPANY

Chicago, Feb. 20.—An injunction restraining a proposed sale of the properties of the Hansen Malting company of Milwaukee, Wis., was issued today by Circuit Judge Scanlan on the petition of Otto Schulz, Max E. Sroge of Milwaukee, and Frank Arnold of Pennsylvania, stockholders in the company.

The property, by a resolution adopted at a meeting of stockholders, was to have been sold for \$300,000—the petition informed the court, but the plaintiffs now alleged that the actual price to be paid for the property is \$250,000. The bill says that the stockholders have not been informed who is to receive the extra \$50,000.

## POINT IS GAINED BY GOVERNMENT

Chicago, Feb. 20.—A point was gained by the government today in the trial of the ten packers charged with criminal violation of the Sherman law when United States District Judge Carpenter permitted the reading to the jury of several hundred private telegrams sent by Morris & Co. to Eastern representatives urging salesmen to obtain the best cost of dressed beef. The messages were sent over Morris & Co.'s private wires and were dated in July and August, 1910. William E. Elert, margin clerk for Morris & Co., identified the telegrams.

## COUPLE MARRIED AGAIN.

Fargo, N. D., Feb. 20.—(Special to The Herald.)—Because they were married before the divorce decree freeing the woman had been filed, Dave Huston and his bride were married for the second time in Fargo. Huston is the son of D. H. Huston, deceased, one of the old time bonanza farmers of North Dakota, who lived at Fintona. The elder Huston was also famous as the inventor of the kodak. Huston's bride was divorced at Grand Forks last fall and after the decision had been granted the couple went to Minneapolis and were married. They could not marry in North Dakota because of the three months law in divorce cases. They were married in September and later found that the decree had not been filed till October.

## GRAND FORKS MEETING.

Grand Forks, N. D., Feb. 20.—(Special to The Herald.)—For the purpose of selecting ten candidates for delegates to the national Republican convention and five candidates for presidential electors who will be in favor of Theodore Roosevelt, North Dakota supporters of the former president are here today. It is probable that a Roosevelt candidate for national committee will be brought out before the session ends.

The presidential primary is to be held here March 19, and according to the law petitions for the candidates for delegates, electors and national committeemen must be filed by March 1.

## VERDICT FOR \$1,750

Fargo, N. D., Feb. 20.—(Special to The Herald.)—Damages to the extent of \$1,750 were awarded to Stephanus Nyhus in district court here against Henry Nyhus. The latter is alleged to have assaulted Stephanus' daughter, and the plaintiff brought suit on the ground that because of this her reputation had been damaged. Nyhus had been previously discharged on a criminal action growing out of the alleged assault.

## STARCH PLANT WRECKED AGAIN.

Waukegan, Ill., Feb. 20.—The Corn Products company's dry starch factory here, which was demolished by an explosion eight years ago Saturday, killing four men, was destroyed again today in a similar manner. This time two employees were injured, but not fatally. The loss is \$400,000.

The great was the force of today's explosion that three big waves were caused in Lake Michigan, throwing huge ice cakes over a nine-foot embankment.

## "HAVE SOME MIGHTY FINE GRASS, ANYWAY."

St. Paul, Minn., Feb. 20.—The Ox-Pasture Land Company of Duluth incorporated today with the secretary of state for \$50,000. The incorporators are Frank Grassweller, Agnes E. McMahon and Elmer F. Blu.

The Ox-Pasture Land company is a mining company, incorporated to explore lands on the Cuyuna range. Mr. Blu, one of the incorporators, previously remarked that the company "had some mighty fine grass anyway" and hence the name.

# Get heating relief

It is a great comfort to be relieved for the remainder of your life of all the annoyances and shortcomings of old-fashioned heating. It is a big day of progress for the householder when he dismantles his old-fashioned heating equipment and the skilled steam-fitter brings into the home an outfit of

## AMERICAN & IDEAL RADIATORS & BOILERS

These outfits change the house into a home. Their genial warmth and cleanliness protect the family health, and transform the coal-bin supply into many added weeks of comfort-producing results.

The most exhaustive tests regularly conducted at our Testing Laboratories in the U. S., Germany and France, show that each IDEAL Boiler we make produces utmost volume of heat from every pound of fuel burned. We take pardonable pride in saying, further, that in the many thousands of instances in which IDEAL Boilers have been installed in place of other heating methods or apparatus, they have proved far more economical in fuel than the heaters which they replaced—often reducing fuel bills one-half, hence their world-wide sale in every civilized country where heating is needed.

IDEAL Boilers are made in many patterns precisely suitable to the heating of cottages, residences, churches, schools, stores, banks, hotels, stables—all kinds of occupied buildings, whether old or new, farm or city. Our foundries are so located that they save heavily in freight and handling between maker and user.

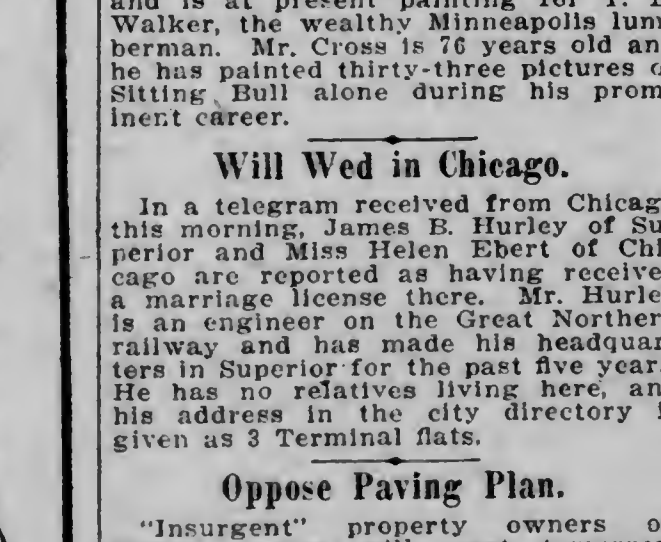

These savings, with the savings that come from immense annual output, enable us to offer IDEAL Boilers at a price no greater than asked for inferior apparatus. Accept no substitute. Call, phone or write us today for (free) catalog "Ideal Heating." Prices are now most attractive.

We also supply the Arco Wand Vacuum Cleaner—a permanent, stationary, automatic machine, which sets in cellar and has iron suction pipes running to various floors of houses, flats, schools, churches, hotels, hospitals, banks, theaters, etc. A turn of an electric button in any room starts the machine in action, and with the magical Arco Wand and a light-weight dainty hose ALL the dirt, dust, cobwebs, lint, threads, moth, insect eggs, etc., are drawn with lightning rapidity down the iron piping into the big, sealed dust-bucket in cellar. Costs no more for electricity to run than does the hand-operated, portable or room type, but does thorough, perfect cleaning and is practically indestructible. No lugging or dragging around a clumsy, inefficient portable vacuum cleaner—instead you have a correct, complete cleaning system that becomes a permanent part of the building—like the heating or plumbing. Ask for catalog of ARCO WAND Vacuum Cleaners.

## SCIENCE AND SCRIPTURE

Dr. W. B. Riley Addresses Noon Meeting at Lyceum.

Says Bible Is Word of God and Must Be Accepted as Such.

Dr. W. B. Riley spoke at the noon meeting at the Lyceum today on the subject, "Are the Scriptures Scientific?" His text was "Thy word is true from the beginning." Psalms cxix:160.

He said in part: "This expression of the psalmist must be explained away before one can put science and the Sacred Scriptures against one another. Since the purpose of preaching is interpretation of the Word, rather than its annihilation, I shall not attempt either to dispute the veracity of this text or to spiritualize it into some strange and unscientific explanation. Arthur Pearson thinks the psalmist meant that from the first word the Sacred Scriptures are true. "First of all, then, let us give ourselves to the definition to the terms involved. What is science? Can we improve upon the Standard dictionary's statement, 'Knowledge gained and verified by exact observation and correct thinking; especially, as methodically formulated and arranged in a rational system.' That definition takes you at once out of the realm of speculation. It disposes of such terms as 'theory' and 'hypothesis,' making them possible servants of science, but never its synonym. It is everywhere admitted that almost every assertion made in the name of science a hundred years ago is now out of date; and while this clearly demonstrates our progress, it also suggests that we are still in the hypothetical and theoretical stage.

"What is Scripture? Paul defines 'all scripture as that which is 'God-breathed,' and the process of it is 'that holy men of old spoke as they were moved (or borne along) by the Holy Ghost.'"

God the Author. "Not scores, but hundreds of times is God claimed to be the author, both of thought and language in the Holy Book. David declares: 'The spirit of

the Lord spoke by me and His word was in my tongue.' (Isaiah, xlii: 1). To me it is the most remarkable evidence of the skepticism of the age that because there are some difficulties in the theory of verbal inspiration men are willing to throw it away and adopt such notions as are current, to the effect that God simply stimulates the thought, but did not determine the speech; that parts of the Bible are literally true, and others are only allegory; that some are fact, others only fiction; that some are to be treated with credence and others with criticism; that all must come to the test of one's 'inner consciousness' and at that fallible court be either accepted or rejected.

"The same men who so define 'inspiration' or 'illumination' or whatever it is, would go into court tomorrow to insist upon the settlement of an estate, in which they were named as heirs, on a verbal basis. They would call the attention of attorneys and judges to what was written, and unless they had some unrighteous end to be conserved they would permit no departure from the very words in which the testator had expressed himself. It is the words of God, therefore, that the New Testament writers, who may be conceded to have known what the Scriptures were, refer to the Old Testament more than eighty times, as that which is literally true, and others are only allegory. At least, will dispute that the New Testament stands upon the same level as the Old. The Bible does not 'contain the Scriptures,' the Bible is the Scriptures.

"The words of God, which can hardly have been given to men with less care than any intelligent father would show in framing the article that bequeathed his possessions to his children. If, in civil courts, the slightest word of the testator is the weightiest law, will dare to treat with contempt the words of God, which are found in the Divine Will?"

"The wonder of Genesis. 'It will scarcely be disputed that so far as men have imagined any inharmonies between the Sacred Scriptures and science, the first chapters of Genesis have been made the chief point of contention. In that account I invite your attention to this part of the Word, and to the words which are found in it. Instead of demonstrating the inharmonies between science and Scripture, will reveal the most unendowed agreement in these great books of God.

"Again, if the God who breathed upon the waste of a darkened world, quickened its chaos into cosmos, and quickened its death into life, is willing to do the same for the dead in trespasses and sins, will men object or the scientists dispute His right? He is the God of whom Milton sang, saying:

"Thou from the first, with mighty wings outstretched, broodest on the vast abyss, And madest it pregnant"

quicken our dead souls, that they will be glad to be bound by the influences of the Pleiades shall we attempt to set limits to the work of

God's own Spirit, or demand that He bring His endowments within the limits of natural explanation?"

## MARINE

BIG CONTRACT TO MOVE COAL

Cleveland Firm Arranges to Float 400,000 Tons at Going Rate.

Arrangements have been made by a Cleveland coal shipper with a firm which owns a large fleet of boats to float in the neighborhood of 400,000 tons of coal. The contract does not call for a large rate, but the freight will be charged at the going rate.

Some of the cargoes will be small ones which the firm handling the vessels will place outside. The coal company has sold enough coal to more than meet the requirements of the large contract and later will give out a few cargoes.

This month a 500,000 ton lot of soft coal that has been contracted for during the week. The deal for transporting 250,000 tons of coal by a vessel owner who has no other business that being directed from his steamship office.

There has been some inquiry for lumber tonnage for the opening trip. The shippers seem to be standing firm for a \$2.25 rate from Lake Superior which was the rate last year. The vessel owners, on the other hand, are talking about a thousand, the rate that was asked last year. No chartering has been reported, but it seems likely some business will be done in the near future.

## VETERAN MASTER

DIES AT DETROIT

Capt. George McCullagh Passes Away After Long Lake Career.

Capt. George W. McCullagh, civil war veteran, and for forty years a captain on the Great Lakes, died at his home in Detroit, Mich., after a long illness.

Born in Gederich, Ont., Capt. McCullagh went to Canada as a young man and shortly after the war he was enlisted in the Seventh Michigan Infantry. He served for three years.

After the war he entered the marine service. He served as master of the schooner, Seneca, and at the time of his retirement, caused by failing health five years ago, was in command of the schooner, Seneca, on a one time owner and captain of the State of Michigan, which made trips between Detroit and Cleveland about ten years ago.

Capt. McCullagh was a thirty-second degree Mason, a member of Ashland lodge, Peninsular chapter, Detroit commandery, Michigan society, and a member of the Mystic Shrine, Nobles of the Mystic Shrine, and a past president of the Detroit lodge, No. 7, of the Shipmasters.

His widow, he is survived by a brother living in Toledo, one son residing in Cleveland and one daughter, Mrs. A. J. McCullagh, a daughter, Mrs. Grace Rees of Detroit.

The funeral was held at the residences of the Detroit commandery, No. 7, Knights Templars, yesterday afternoon.

## LICENSE SUSPENDED.

Steamer Pollock's First Officer Is Blamed for the Hassock Collision.

After trial before Capt. Robert Reid and Charles C. Reid, Jr., local inspectors of steam vessels at Grand Haven, Mich., charges growing out of the collision between the steamer W. G. Pollock and schooner W. D. Hassock, on Jan. 10, 1911, were returned. The charges against the first officer of the Pollock, Walter R. Pringle of Cleveland, are that he was negligent in not keeping a proper lookout and first-class pilot, thirty days, beginning with Feb. 6.

Capt. Pringle was first officer on the steamer Pollock, which was on the Grand Haven route to St. Ignace, Wis., with a cargo of coal, when she collided with the Hassock off Sleeping Bear Point, near Grand Haven, Mich., on Jan. 10, 1911, and was damaged about \$3,000 worth and the schooner's damage was about \$1,000. The local inspectors at Grand Haven find Capt. Pringle guilty of negligence, carelessness and violation of Section 4442 R. S. and of Pilot Rule II.

## DRUGGIST MAKES MISTAKE.

Sells Wrong Compound and Is Sued for \$7,600 Damages.

Devils Lake, N. D., Feb. 20.—The largest personal injury verdict in the history of the district court of Ramsey county was returned by the jury in the case of William H. Meyer against A. H. Bell & Co., druggists, when the plaintiff, a resident of Ottawa, Kan., was awarded \$7,600 for injuries received in an explosion charged to an error in the sale of a medicine. Bell drug store here, Nov. 21, 1910. The jury considered the case eight hours before agreeing on a verdict.

The basis of the plaintiff's case was the claim that in November, 1910, he came here from Warwick, where he was running a motion picture show, in search of gas producing chemicals. He declared on the witness stand that he went into Bell's place and asked for black oxide of manganese. When he returned to Warwick part of the contents of the package he had purchased was mixed with chlorate of potassium and heated causing an explosion which left Meyer a cripple, injuring both limbs to such an extent that physicians declare he may have to walk on crutches for life. Some idea of the extent of his injuries can be gained from the fact a bill for \$1,100 was presented to Benson county by the attending physician.

An analysis of the rest of the package, submitted by Dr. Abbott of the state university, showed that Meyer had been sold common powdered charcoal. The mixture with potassium resulted in a crude manufacture of gunpowder, the carbon of the charcoal being exactly the opposite of what was desired.

## SLAUGHTER OF WOLVES

Seventy Full Grown Animals Killed in County This Month.

More Than \$2,700 Paid Out in Bounties Since Nov. 1.

Seventy full grown wolves were killed in St. Louis county and bounty claimed on them during the first fifteen days in February and from present indications all previous records will be broken.

Deputy County Auditor Walker says that more bounties have been paid by the county within the past three months and especially during the first two weeks in February than for a number of years past.

For the seventy wolves killed between Feb. 1 and Feb. 15 the county auditor's office has paid \$1,050 to settlers and others who claimed bounties. Half of this expense is shared by the state.

Since the first of November one cub and 150 full grown wolves have been killed and \$2,704 paid in bounties. In the month of November \$244 was paid for 15 grown wolves and 1 cub; in December, \$550 for 44 grown wolves, and in January \$750 for 50 grown wolves.

In the number of wolves killed annually, St. Louis county still holds its place at the head of the list of Minnesota counties. During the past three months Beltrami county has paid bounty on 79 full grown and 22 cub wolves; Koochiching county on 71 full grown animals; Polk county on 43 wolves and 23 cubs and Stevens county on 24 wolves and 42 cubs.

## CASH REGISTER TRUST PROBED?

Federal Grand Jury at Chicago Said to Be Looking Into It.

Cincinnati, Ohio, Feb. 20.—Rumors that the special federal grand jury in session here this week is considering the affairs of the National Cash Register company to ascertain whether it has violated the Sherman anti-trust law, gained ground around the United States court here today.

The visits of attorneys who represented the company at the time of the grand jury's instructions to the jury civil suits, the instructions to the jury by United States Judge Hollister and the presence of E. Harrison, special assistant to Attorney Wickesham, all have added weight to the rumors. The investigation not later than Thursday.

The company and twenty-eight of its officials and employees were parties to the civil suit by the United States, which it was charged that they had conspired to stifle competition, and used unfair methods tending to crush competitors. The defendants have not yet had a hearing in this case.

## OIL PRICES HIGHER HERE

Kerosene and Gasoline Have Advanced One Cent a Gallon.

Dissolution of Standard Oil Did Not Result in Any Reductions.

If anybody expected that the dissolution of the holding company for the Standard Oil interests would result in these companies flying at each other's throats and pulling down the price of oil, that person must by this time have a keen feeling of disappointment.

The holding company legally died on Nov. 17, 1911. At that time the whole sale price of kerosene at Duluth was 8 cents and of gasoline, 11 cents. Now both of these prices have advanced 1 cent. The advance took place during the early part of February.

The Standard Oil Company of Indiana still does business at Duluth, as it did before. That is one of the companies that were sold together by the New Jersey corporation which the federal court killed.

Oil dealers, both at Duluth and Minneapolis, have given as the reason for the advance in the price of kerosene and gasoline the higher prices charged by producers of crude oil for their product. They declare that the playing out of oil wells in Pennsylvania, Ohio and Indiana has been the reason for the advance in the price of crude oil, and say that the interests whose product the oil is not, as a rule, the same ones that produce the crude oil. Most of the oil that goes to Western markets, after being refined, is produced in Indiana, Ohio, Illinois and Kansas.

The Prairie Oil & Gas company of Muskegon, for many years purchasing agent in the Southwest for the Standard Oil company, has announced its buying price for crude oil 3 cents a barrel and in the Western Pennsylvania oil field the price of crude oil is 5 cents a barrel higher. Eastern comment thereon varies, but the advance in the price of crude oil has been the basis for an advance of 1 cent in the price of kerosene and gasoline.

Local oil dealers say that about the last of the year 1911, oil was as cheap at Duluth as it ever was, the whole sale price of kerosene being 6 cents a gallon. About six years ago it was selling here at wholesale for 3 cents a gallon. They declare it is a question of supply and demand. When crude oil is very plentiful, refined oil will go higher in the near future, they are an opinion. It may be that gasoline will be higher, when automobiling becomes more general, under more favorable weather conditions.

by Dr. Lewis Baker

The questions answered below are general in character, the symptoms or diseases are given and the answers will apply to any case of similar nature. Those wishing further advice, free, may address Dr. Lewis Baker, College Bldg., College-Ellwood Sts., Duluth, O., enclosing self-addressed stamped envelope for reply. Full names and addresses must be given but only initials or fictitious name will be used in my answers. The prescriptions can be filled at any well-stocked drug store. Any drugist can order of wholesaler.

"Anxious M."—Give your children for bedwetting 10 to 15 drops in water before meals, the following: Tincture cubeba, 1 dram; tincture rose anemone, 2 drams; cream, fluid balsam, 1 oz. Mix well. This should be given about one hour before meals, in water.

"Dorcas."—I have a very severe case of catarrh of the head and throat. My blood is bad and my stomach and bowels are affected. I would like a cure as I suffer greatly.

"P. Y."—I would advise the following local treatment: Apply 2 oz. antiseptic white powder, to a half teaspoonful add one pint of warm water and from the palm of the hand apply the water through the nostrils several times a day. Mix a few drops of the white powder to one ounce of lard or vasoline and apply this to the nostrils far up as possible. For internal treatment use the following: Obtain the following ingredients at any well-stocked drug store, mix by shaking well: Syrup Sassafras Comp., 4 ozs., comp. fluid balsam, 1 oz., fluid red licorice, 1 oz., take one teaspoonful four times a day.

"X. Y. Z." writes: "My hair is harsh and dead looking and my scalp is covered with dandruff. Can you help me?"

"Mrs. G." writes: "I want something to increase my weight about 15 or 20 pounds. I am thin, weak and have a feeble constitution. Doctors say I am anemic."

"Tim K." writes: "I have been unable to work for some weeks on account of rheumatism. What would you advise?"

"Cleria" writes: "I have had a cough for about a year and fear I shall never be rid of it. As it gets worse with every fresh cold I contract. Could you give me a remedy?"

## LENT BEGINS WEDNESDAY

Special Services Will Be Held in Episcopal and Catholic Churches.

Rules for Observance of Penitential Period Issued By Bishop.

Tomorrow is Ash Wednesday, the first day of Lent and members of the churches which observe the penitential period will not aside worldly amusements and give themselves over to six weeks of special religious exercises. Easter Sunday this year will fall on April 7.

Lent is most rigidly observed in the Catholic and Episcopal churches. Some of the other denominations observe the season less rigidly, while others give special services only to Lent week, the last week of the penitential season.

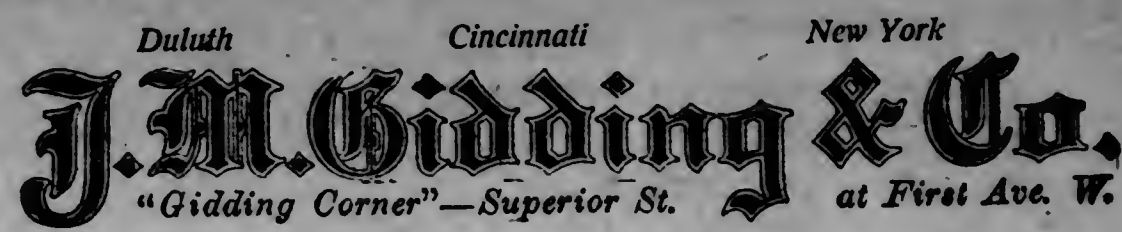

Rev. James McGorrick, bishop of Duluth, has issued the annual episcopal letter setting forth the Lenten regulations as applied in the Catholic church. In the Episcopal church, of Duluth, the usual hours of daily and Sunday services will prevail during the season, with additional services each Wednesday and Friday evening. Special services will also be held during Holy Week.

The program of the Trinity cathedral (Episcopal), of which Rev. T. W. MacLean is priest-in-charge, for the observance of Lent is as follows: Services on Ash Wednesday, Feb. 21, 10 a. m. and 4:30 p. m.; Friday, Feb. 23, 10 a. m. and 4:30 p. m.; Saturday, Feb. 24, 10 a. m. and 4:30 p. m.; both the old and new addresses.

The Duluth Herald accepts advertising contracts with  
the district guaranteeing that it has the largest circulation  
of any newspaper published in Minnesota outside the Twin  
Cities. Its value as an advertising medium is apparent.

## THE RULE OF THE DEAD HAND.

The long expected decision of the supreme court of the United States on the constitutionality of the initiative and the referendum, when it came yesterday afternoon, proved not to be quite what either side of the controversy had expected.

The court rules that the question whether a state is maintaining a republican form of government, as guaranteed and required by the Constitution, is not a judicial matter for the court to decide but a political question for congress to decide.

The initiative and referendum laws still stand, therefore, and they will continue to stand until congress takes action upon them. It is highly improbable, in the face of the strong public sentiment in favor of such measures, that congress ever will hold that a state which has adopted the initiative and the referendum has ceased to have a "republican" form of government. This people is headed toward real democracy, and no fixed form of "representative" government will stay its course.

But what if the court had held that direct legislation was unconstitutional? Those who tested the matter—telephone companies fighting a tax—asked the court to hold direct legislation unconstitutional. What if their contention had prevailed?

Would this have ended direct legislation in this country? Not in a thousand years. It would have come nearer to ending the Constitution, and so paving the way for a new set of fundamental laws, more in harmony with the spirit of the times than the Constitution of 1789. Though it was the most splendid document of its kind, though it was conceived in the minds of patriots, and though it answered fully the needs of that day, not all the patriotic sentiment that haloes it as the first experiment in popular rule will save it when it stands in the way of real popular rule—as it would if the supreme court had held that it is a bar to the adoption of the principle of direct legislation.

Those who wish to halt progress because stagnation profits them hugely were hopeful that the supreme court would hold against the initiative and the referendum. If it had they would have rejoiced. Their jubilation would have been brief, because such a ruling would have been the signal for a nation-wide call for a constitutional convention to give this living, growing nation a Constitution in keeping with its needs.

No lack of respect for the makers of the Constitution, who were in a large measure the fathers of the country, is involved in the belief that no document from human hands and conceived by vision, that, however wide and far-seeing, were only human, is good for all time. No clear-sighted and unprejudiced person can read the proceedings of the constitutional convention without realizing that the spirit of 1789 was not the spirit of 1912. There were men in that convention, brave men and patriotic men, who wanted a king instead of a president. The fear of unrestricted popular rule was all but overwhelming, as the numerous checks upon popular rule provided in the Constitution attest.

There is such fear now; but it exists almost exclusively in the minds of holders of special privilege of one kind or another which enable them to profit hugely and unjustly at the expense of the toilers. With the masses of the people, and with those who truly represent the people, there is no such fear, but an unstinted confidence in popular judgment.

When the Constitution was ratified there was full manhood suffrage in almost none of the colonies. Generally speaking, the Constitution was created by property interests and ratified by property interests—because few besides property-holders were voters in that day. Today a new revolution, against the rule for property and by property, is in progress; and it will shortly give rise to a new birth of freedom under which humanity shall rule for humanity's sake. Direct legislation is a step to that end.

On the other hand, the real democrats in that convention were in favor of popular rule, but they were outvoted. Jefferson himself was wise enough to see that that convention was not fitted to legislate for all time, and he was willing to provide for a new constitutional convention every eighteen years. He said boldly that each generation would need a new Constitution.

And certainly this generation will need a new Constitution whenever the present one stands in the way of complete popular rule.

How many more state executives will have to take sides with Roosevelt before our own Adolph will decide that is the popular thing to do and try to fall into line also?

## THE STEPHENSON CASE.

It is admitted that it cost Isaac Stephenson something like \$112,000 to be elected United States senator from Wisconsin.

There is a very grave question whether that amount of money can be spent legitimately in a state campaign in behalf of an individual.

There is no question that it is not necessary to spend so much money to nominate or elect a candidate who by his ability or alacrity in the public service makes any reasonable appeal to the sympathies of the voters.

Anyway, a committee of senators investigated the Stephenson matter, and recently a majority of that committee returned a Scotch verdict—"not proven"—which will, if adopted, keep Stephenson in his seat.

Five members of the committee—Senators Clapp, Kenyon and Jones, Republicans, and Senators Lea and Kern, Democrats—disagree with the majority, and in a report made public yesterday they condemn a finding which would keep Stephenson in his seat and so give forth to the world the news that the United States senate cares nothing for the manner in which seats in it are

obtained, and that it has no objection if these seats which the nation's great have honored are made mere objects of barter and sale.

Even conceding that in all probability Stephenson did not knowingly buy a single vote, as has been proved was done in the case of Lorimer, our sympathies are thoroughly with the minority of the committee.

If the majority report is adopted, and a senator kept in a seat to gain which he spent a large fortune, it will be a disgrace to the senate and the nation hardly less humiliating than that which will follow if Lorimer is sustained.

The majority of the committee said in its report: "Such expenditures were in violation of the fundamental principles underlying our system of government, which contemplated the selection of candidates by the electors, and not the selection of electors by the candidate."

Properly enough, the minority report agrees with this manifestly right view. But it goes further. It says that its concurrence in this view of the majority "justifies us in opposing the conclusion of the majority that a seat in the senate secured 'in violation of the fundamental principles underlying our system of government' should be denounced by our words and approved by our votes."

The majority left another opening when it said that if the methods used to elect Stephenson had been used by a candidate for state office in Wisconsin, "it would be very difficult to justify such conduct under the laws of the state." As to this statement, which the minority members also properly indorse, the objecting senators have this to say: "If it would be difficult to justify a campaign like this by a candidate for a state office, why is it not equally difficult to justify it on the part of Senator Stephenson?" We shall not pause to listen for the reply of the majority to this very pertinent question, for we expect no reply. A committee of senators placed in the position of declaring that cleanliness in gaining membership in the United States senate is less precious than cleanliness in gaining a state office has chosen a stand which it will have trouble in justifying.

The minority members of the committee say that the senate cannot justify the gaining of a seat in that body by such means, "and preserve its integrity and honor."

The minority members of the committee are right. Among the few questions not yet asked in congressional investigations is the old, old query, "Oh, why should the spirit of mortal be stuck on itself?"

## THE GROCERS OF MINNESOTA.

Duluth today has the pleasure of entertaining the grocers and general merchants of the state in annual convention assembled, and The Herald is glad to say that it is certain that the message of welcome extended by Mayor Cullum this morning is heartily echoed by every citizen of this community.

Duluth hopes that the merchants who have gathered here will have the most pleasant and profitable convention in the history of their association, and that nothing which the community can do to make it so will be lacking. If anything is lacking, it is an oversight; and the city's guests are hereby invited to call for whatever they want and to complain if they do not get it. Also, they are invited to have Duluth in mind and to come again as soon as they can.

Alas, poor Congress! I knew him well, Horatio. A fellow of infinite investigation and mostly engaged in debate.

## THE REPUBLICAN EMBROGLIO.

Not only governors, but just plain voters, appear to be calling for the nomination of Col. Roosevelt. There are those who question their taste, but there can be no questioning the formidable nature of the demand for Roosevelt.

This leaves the La Follette forces in rather an unhappy position. Even admitting that pure principle actuates them, as it often does men who defeat their own ends by being too uncompromising and more set on form than substance; and even admitting that it wasn't a very pretty trick to string La Follette and his followers along and then ditch them for Roosevelt; the fact remains that at this present moment about all the La Follette movement can possibly hope to do is to split the anti-Taft forces enough to bring about Taft's renomination.

Anyway, it is a pretty fight. There are not so many Republican spectators in the galleries now watching the domestic altercations of the Democratic party. They are too busy participating in their own family row.

Venezuela is preparing to go mad with joy over the visit of Secretary Knox. And when it comes to going mad, Venezuela knows how to do it without a law.

## PUNISHING THE INNOCENT.

A Virginia man murdered his wife in 1905. He had a life insurance policy for \$15,000, which his orphaned child tried to collect after the state had killed him by way of squaring things for his killing his wife.

The supreme court of the United States yesterday held that this man's execution for murder cancelled his insurance policy, and that his orphans can collect nothing.

Probably the law of this is perfectly sound. It must be the court wouldn't have held that way.

But to the legally unlearned it would seem that those orphans had been punished enough by the loss of both parents, without depriving them of their heritage as well.

It looked for a minute as if Tama Jim Wilson was going to be swamped in the Everglades.

## THE DYNAMITE CASES.

The government is to be commended heartily for the thorough-going manner in which it is attacking the dynamite cases. As nearly as it is possible to do, the government should bring to justice every individual who is guilty of participating in the cowardly work of destruction which threatened a reign of terror.

So far as the fifty-four men under indictment are concerned, the public will of course withhold judgment, awaiting the outcome of the trials. The fact that they are indicted does not make them guilty. They rest under a presumption of innocence until the government proves its case against each one. In all probability more men have been indicted than the government can hope to convict; and the honest and fair thing to do is to let the jury and the court determine the public's judgment in each particular case.

The broken rail is getting up good and ready for the opening of the "rocked-the boat" season.

If you want a real puzzle, just sit down and try to figure out where Taft is going to get those 780 votes on the first ballot.

"What did the governor say?" Probably, according to recent reports, it was something to the effect that Roosevelt should be the Republican nominee.

After all, there is a natural, inherent fitness in the combining of the words "money" and "trust." Almost as much so as there is in the words "no money" and "trust."

# TARIFF REVISION AND RAW MATERIALS

By SAVOYARD.

The measure reforming the metal schedule of the present tariff is far from perfect; but it is a step in the right direction and is a revision "down." It is now in the senate, and Mr. Penrose has decided to have "hearings" before the finance committee to ascertain what everybody already knows. Of course he is going to prove by witnesses testifying under oath that the iron and steel business in the United States is a pauper that cannot support itself and that must be supported by other interests that can support themselves. That has been affirmed a thousand times in "hearings" before the two houses of congress and deposed by able men absolutely sincere and patriotic.

Now men are just as sincere—and as much mistaken—as they ever were. Andrew Carnegie, who gathered his wealth by the iron and steel, has twice or thrice sworn before committees of congress that the iron and steel can be produced cheaper in this country than in any other country. He has sworn this in the face of the fact that the world except a very small district in Germany where the supply of ore is limited, has never been exhausted, and that even there steel can be made no cheaper than in the United States. Everybody is agreed that Mr. Carnegie knows more about steel than any other man in the world. Now John D. Rockefeller knows nothing about it—that even in Pittsburgh Daltell is not accepted as an authority on the subject.

In intellect, in academic equipment, in capacity for the most accurate investigation, Mr. Rockefeller has no superior in the body of which he so long has been an ornament. He is a Hamiltonian. He has nothing but aversion for the preachments of Jefferson. He is separated into two classes, those on whom the government by the exercise of the taxing power bestows privileges, and those upon whom the government, operating through the taxing power, imposes hardships.

But these men are Scotch—Daltell no doubt of the blood of that fierce competitor of the Scotch in the iron and steel industry. Daltell, he is mounted, he rides up the street.

Everybody is a descendant of some fanatic Covenanter, whom the Scotch and the English, the Scotch and the English, rode down and slaughtered. Carnegie, too, is a Hamiltonian. He interprets his master as did Henry Clay—that protection is for infant industries, and as soon as they grow up and become self-sufficient they need no protection.

Startlingly, the tariff of 1890, of 1900, Daltell says it is an infant mewling and puking in the nurse's arms. It is the tariff of the only real party of the front rank of the late war of the tariff. This is from George Graham Vest of Missouri.

God help us, Mr. President, if the new tariff is to prevail. All we have been given to us under misunderstanding of the principle of protection. We are now to be told that we must put a duty on raw materials—upon cotton, upon wool, upon salt, upon lumber.

He was a Democrat and his lion's paw in a battle for the right.

# THE OPEN COURT

(Readers of The Herald are invited to make free use of this column to express their ideas on any subject. Letters should be sent to the editor of The Herald, and should be written on one side of the paper only. If they are not published, the writer should be notified. A signed letter is always more effective, however.)

(Note—The Herald has no wish to restrict discussion of the street car men's wages, but it is a matter of public interest. Letters must be plainly written, and must not exceed the 200-word limit. They must also avoid personal attacks, and must not contain libelous matter. They will not be published.)

## LOOKING FOR TROUBLE.

To the Editor of The Tribune: I notice the word "obey" is omitted by some in the woman's marriage vow. How would it be to omit the word "obey" from the man's marriage vow? I do not see how the man can protect his life in time of danger if he does not obey.

Duluth, Feb. 19. MERE MAN.

## WRONG METHODS USED.

To the Editor of The Herald: We are now enjoying another "jaw fest" in the columns of the Open Court. Just lately we had "parsons and fallen women," then "church and society," now it is "the church and the conductors." Not having imposed upon your column for some time, allow me to say a few words.

In the first place if a body of working men want more wages or better conditions the wrong place to start is in the public press, looking for sympathy. The public wants to ride, they want service and accommodations, they do not care if the nickel collector wars for wages or fun. If you can men want a raise cut out differences amongst one another, recognize your identity of interests as co-workers or co-slaves and organize. If you want a revolution, raise the red banner of revolt, inscribe upon that banner abolition of the Wage System. Form an industrial union, join hands on the political field.

The public wants and highly resolve that a government of the industries, by the workers for the producers, shall be established on the earth.

When the masters say that you mean business you will get something "now," not "not."

Mr. Satisfied Man, don't you think it is rotten system that enables one human being to invest a few dollars now or a generation ago and by that means force many to toil that a few may live in ease, children, to work, sweat, slave and die producing riches for others instead of making it do some useful and co-operative work that all may benefit?

This friend (?) of the working man had better guess again, or keep his head under the rock.

If he wants to talk to me in person he can find me at home Tuesdays, Thursdays and Sundays.

Thanking you for the space taken in your paper, am, respectfully,  
CHARLES CLIFFITH,  
201 West Second street.

## STREET RAILWAY WAGES.

To the Editor of The Herald: I have been reading the Open Court

# TWENTY YEARS AGO

Taken From the Columns of The Herald of This Date, 1892.

\*\*\*Pitt's Frisbee, though nominally out of the theater business, has still a fondness for the profession and yesterday entertained all the members of the "Caddy" company, who are at the Temple opera house. At noon a box sleigh was obtained and the party driven out to the Howard camp, where they were given a sight of re-union camp life as it exists in the Northwest.

\*\*\*Fire caught in one of the Macfarlane homes at West Duluth at midnight and burned two houses belonging to A. R. Macfarlane of Duluth and a house belonging to Carpenter Gamache. The loss is \$3,500, partially covered by insurance.

\*\*\*John M. Home of West Duluth, who is visiting his brother in Milwaukee, will leave in a few days for an extended visit to California and other Western states.

\*\*\*T. J. Barrow of Duluth has applied for a patent on a street car brake which is regarded by experts as a remarkably good thing. The brake is worked by a lever on the side of the car under the control of the motorman and with one motion the wheels can be locked dead by the independent rigid shoes.

\*\*\*The school board has decided to ask for plans for a twenty-room building to replace the Jefferson as a sixteen-room building to replace the Jackson.

\*\*\*J. W. Norton and other Duluth men have applied to the comptroller of the currency for a charter for the New Duluth National bank. The capital stock will be \$50,000, and it is expected that the bank will be ready to begin business by April. George W. Keyes of Olivette, Mich., who has been the promoter of the enterprise, will be cashier.

\*\*\*The firm of E. C. Gridley & Co. has been dissolved. S. R. Payne retiring. The business will be continued by E. C. Gridley and James T. Hale.

\*\*\*Miss Bessie Keeler has gone to Chicago on a visit to her aunt.

\*\*\*Elliott Hubbard has gone to Brooklyn for a short visit. Mrs. Hubbard, who is visiting her parents, will accompany him on his return.

\*\*\*The Measaba Central Iron company has leased one-third of its land to Duluth syndicate at an annual rental of \$1,000 more than its total cost to the company.

\*\*\*Mr. and Mrs. L. A. Matthews left yesterday on a visit to Pergus Falls, Minn.

\*\*\*It is said that the Duluth & Iron Range railroad is making contracts with Duluth owners and lessees of mines to deliver their ore before July at Two Harbors, thus getting ahead of the Duluth, Missabe & Northern road by several months. The Iron Range will have to shift only fifty feet of its track to reach all the great developments in town-ship 58, range 18.

\*\*\*The Campaign Fund.  
Walker, Minn.: The anti-administration candidates for governor should bear in mind that it will take a pretty big barrel to effect a cent a keg beer tax that is continually swelling the campaign fund of the present administration.

\*\*\*He Kept Them.  
Laverne, Mich.: The most regrettable feature of the snail-paced and consequently delayed train has been that it interfered with Governor Eberhart's keeping some of his speaking engagements—in other states.

\*\*\*Probably!  
Bellevue Independent: It begins to look as though there would be real fight at the next state convention on several state offices. Possibly Ed Smith may find that it is not as easy to dictate who shall have the offices as it has been heretofore.

\*\*\*Plan for Harmony.  
Sault Centre Herald: There is a probability of other Progressive entrants into the field. There should be no friction between any of them. All should work for the cause, for that is greater than any one man. The power of the most corrupt and arbitrary machine that ever possessed the Republican party, or who disgraced the fair name of the great state of Minnesota is on the wane. Progressive Republicanism is gaining ground and the cause of the people is favorable. The cause will win if each candidate and his friends fight the battle aright.

\*\*\*The Barrel Is Filled.  
Northfield News: Ignoring the Man of Letters' declaration that the contrary and assuming that he is a candidate he has one distinct advantage over the other candidates, present and prospective—he has no occasion to worry over where the office of or to come to as long as Ed Smith is there to see that the "barrel" is well filled.

\*\*\*Eberhart for Eberhart.  
Montevideo Leader: Although it has been generally understood that Governor Eberhart was committed to the candidacy of President Taft, no one need be surprised if he should change his estimates and come out for Roosevelt, or La Follette, or whoever he thinks will make the best load in this state. Eberhart is not in politics for his health or for anybody's honor.

\*\*\*Or Both.  
Northome Record: Governor Eberhart is still standing on his record. It is either that his feet are mighty big or his record mighty small.

\*\*\*"Anybody But Eberhart."  
La Porte News: With such good men already in the field as Lieutenant-Governor Gordon and William E. Lea, and others thinking of entering, there is a strong and increasing sentiment that delegates to the state convention, instead of being instructed to vote for a certain candidate for governor, be instructed to vote for "anybody but Eberhart." This is a "Progressive" departure from the old form, but we hope to see Hubbard count fall in line.

\*\*\*Real Banking Reform.  
Madison State Journal: One thing which should be considered, in any revision of our banking laws, is the method of affording the humblest citizen an opportunity for procuring small loans at moderate cost.

The loans of the Bank of France average in amount from \$100 to \$1,000. In the United States, it is exceedingly difficult to borrow small sums except from loan sharks. Suppose a drayman's horse dies how can he borrow money to buy a new one?

In our banking, as in all forms of business, we put the least burdens upon those least able to bear them. We give the lowest interest rates to the biggest borrower, the highest to the smallest borrower.

The same condition prevailed in railroad rates until the government took hold of the matter. The biggest shipper either got passes or rebates, while the little shipper paid full rates. But he not only paid full rates for himself, but helped to make up what his big competitor did not pay.

The true policy of government should be to improve the opportunities of the least fortunate. It ought to be made easy for the expressman, the farmer—in a word, every man who is striving for industrial independence—to borrow small sums easily and at low interest rates.

\*\*\*The Political Machine.  
Woodrow Wilson: It is very expensive, our way of controlling government. The machine has to have money, where is it going to get it? It must come from men who want to be promoted, they say, "Certainly, if you will see to it that our interests are promoted on at least as guarded a basis as the money, otherwise you cannot." And the goods are delivered upon those terms.

If the machine did not have to spend any money, if the man who did not have a great deal of money, if the machine was merely a volunteering of certain men to the absolutely right to control our government, I for my part could look on with a certain degree of indifference. If not complacence.

But when I know these men are in the pay of those who are working for their own profit and special interests and who do not care a pepper-corn for the general interests of society, I know that the most dangerous oligarchy that could be possibly set up has been set up in the United States.

How do you explain that there is no politics as between machines? How do you explain the fact that men give money both to the Democratic and the Republican machine. And money is assured between the two machines, to going back to the absolutely true but cynical remark attributed to a politician in New York city, who said there ain't no politics in politics.

Machines are not divided by a principle.

ple, they are divided by opportunity. want to distinguish as by sharply to distinguish in my own thought between the machine and the party organization. They are also utterly different things.

There is a little coterie of capable and designing men, who are using the party organization as a means to their own ends; no man should be ignorant or stupid or unjust enough to suppose that the legitimate organization of our great parties, but every man should be intelligent enough to know that those organizations constantly stand in danger of being controlled by those who do not appear in the political front at all. That is the beast and there is the jungle.

The Antiquity of the Recall.  
Madison State Journal: One hundred and thirty-five years ago, on the 15th of November, 1777, certain representatives of the people of thirteen western states adopted a constitution, which they called "Articles of Confederation."

Article V of this document reads: "Each state shall have the management of the general interests of the United States delegates shall be appointed in the manner which the legislature of each state shall direct, to meet in November, in every year, with power reserved to each state to alter or to amend the same."

"With power reserved to each state to alter or to amend the same" is interesting. It is the delegates, or any of them, at any time within the year, and to send others in their stead for the recall, broke into the field of "American politics."

## NO RED FEZZES IN POLICE COURT

### "Arrest" of Six Shriners Not Followed By Arraign- ment.

There were no red fezzes in police court this morning.

Six Shriners were "arrested" yesterday following the famous camel parade, for shattering the peace and dignity of the state of Minnesota by discharging a cannon on the public streets.

But the names of the "prisoners" were not even taken by the desk sergeant and they were "released" on the promise of Col. E. Resche that he would produce them in court this morning. Col. Resche was formerly captain of police and a little thing like an arrest did not bother him, when it was made in a good cause. But the other five men will never have their reputations smirched by having their names appear on the police blotter—at least, not as a result of yesterday's escapade. Their faces will never degrade the rogues' gallery.

There is a deep and abiding suspicion today that the "arrest" of the six Shriners was the work of the fine Italian hand of impresario Leon Eberhardt, who is in process in publicity for the Shriners' entertainment at the Lyceum.

### REBATING ALLEGED

(Continued from page 1.)

Real season of 1909-10, Hynicka was paid \$2,292 by the roads and during the season of 1910-11, \$2,677. During the season of 1909-10, alleged federal investigators received \$2,664. He is not accused of being a party to the alleged rebating during the season of 1910-11.

**System as Alleged.**

The manner in which the rebates are said to have been granted is set forth as follows:

In the summer of 1909, the officials of Vanderbilt lines operating west of Buffalo and east of Mississippi river, sought the business of the Columbia Theatrical company and the Empire Circuit company, the headquarters of both of which were in New York city. The corporations operated a chain of burlesque theaters east of the Mississippi river, and together they had about seventy-five theatrical companies averaging thirty people each. These companies are transported each week from one city to another.

Officials of the Vanderbilt lines, it is alleged, conferred with Hynicka, who is a director of the Columbia Theatrical Amusement company, and with Fennedy, who is secretary and a director of the Empire Circuit company, at their Cincinnati offices.

The law rate was 2 cents a mile for theatrical companies. After several conferences, it was agreed, according to the charges, that the Vanderbilt lines would refund to Hynicka and Fennedy for their respective corporations 25 per cent of the line fares of their various companies, in consideration for their influence in giving to the named railroad the business.

**Charged to Advertising.**

In pursuance of this agreement, so the government charges, it became necessary to devise a scheme by which the railroads could account on their books for the 25 per cent. It was decided to charge it to advertising.

Hynicka thereupon organized the Cincinnati Railroad Program Advertising company. This company, it is claimed by the prosecution, contracted for advertising space in the papers, programs in Cleveland, Toledo, Cincinnati, Indianapolis, St. Louis and other cities in which the various companies appeared. In each instance this space was used by Hynicka to display an advertisement of one of the Vanderbilt lines.

He paid for the space the publishers regular price—ranging from \$2 to \$7 a week—and received from the railroads each week from 25 per cent of the fare of the theatrical company transported that week to the railroad where the advertisement was published.

For instance, the short line passenger fare from Chicago to Cincinnati for theatrical companies is \$6 a passenger and for thirty people is \$180. Twenty-five per cent of this sum is \$45, and that amount, it is alleged, was paid to Hynicka for the Columbia Amusement company and was charged by the railroad to advertising.

It is asserted by the government's officials that similar irregularities appeared in the payments by the roads to Fennedy, who is alleged to have collected the amounts for the Empire Circuit company.

**Private Grant Alleged.**

The rebating scheme was precisely the same in both cases, except that Fennedy, it is charged, frequently received free of charge an allotted space in a theater program, which he used to advertise one or more of the railroads, receiving therefor the 25 per cent refund on the transportation charges against his companies.

**RETAIL GROCERS OF  
STATE HOLD ANNUAL  
CONVENTION HERE**

(Continued from page 1.)

Schulenburg delivered an address of welcome and there was a response by Second Vice President Thomas Guinness of Barnesville, Minn.

**President's Annual Address.**

President George H. Hilbert addressed the annual president's address. Mr. Hilbert said:

"The year 1911 has been quite productive of results in our organization and the officers feel well satisfied that the merchants are commencing to appreciate the efforts in their welfare."

"Organization, one of our important features, has been pushed forward among the merchants of the state, who now appreciate their power where organized as against their efforts as individuals. Our secretary has visited

about 150 towns and reports much enthusiasm in the new organizations and continued strength in the old ones. Our assistant organizers, J. T. Williams and Fred Lorenz, have aided us in a signal manner and much credit is due them for their untiring and unselfish efforts in behalf of the merchants throughout the state.

"Our legislative work, tending toward the welfare of the merchants is no doubt well known to all. We have succeeded on quite a few valuable laws for the merchants. Our secretary, who devoted his entire time during the last session of the legislature, deserves great credit for the results obtained. He was aided in his work by John S. Taylor, secretary of the Minneapolis association, P. G. Hanson, chairman of our legislative committee, John Powell, Minneapolis, and J. J. Doncaster, secretary of the St. Paul association."

"In a general way our work is of an educational and instructive character. We strive to improve the condition of the merchant."

Secretary Minneapolis Retail Grocers' Association.

selfish efforts constantly are aiding the association in its lines of endeavor. We are heretofore to take up many trade subjects that in the course of the year are included in our work, but we will not review these as they will come before the convention."

**Sum of Subsidies.**

"A more comprehensive financial plan, concurrent with this greater activity in legislation and credit. To give the merchants better service and a substantial charge for membership commensurate with value received, which is without doubt worth twenty-five times the amount paid today. A good roads committee appointed to receive suggestions as to roads and refer them to proper authorities."

**Good Roads.**

"Our good roads talks among the merchants we hope will bear fruit, for nothing is so important to a community as good roads. The business of a town many times is augmented or decreased in a ratio to its good or bad roads."

Early closing among the merchants seems to have gained strong foothold in this state. We are a constructive force for our methods tend to build up by eliminating evils and producing conditions favorable to merchants."

**Profits and Loss and Expense.**

"Profits and loss and expense, and the retail trade, are of the most important feature of the retail business. Many merchants, to all intents and purposes doing a successful business, had no net profit at the end of the year."

**Private Grant Alleged.**

The rebating scheme was precisely the same in both cases, except that Fennedy, it is charged, frequently received free of charge an allotted space in a theater program, which he used to advertise one or more of the railroads, receiving therefor the 25 per cent refund on the transportation charges against his companies."

year. Now many times this is due to an inability or carelessness in figuring out a just profit and expense as proportionate to his business. We endeavor to put before the merchants and their associations the proper methods of figuring out these problems, and with talks and blackboard demonstrations try to aid their cause.

**Credit Bureau.**

"The most important feature of the retail business today is a feature we have given no end of study and efforts to aid our merchants in getting every dollar they sell and are entitled to. A credit bureau, properly established and run on the right lines, is bound to help the merchants in a community and is a hand that will hold them closer together than almost any other object."

"The ideal condition, of course, is to have an association on a self-supporting basis, but no matter how valuable work our association does for the merchants, there are many who are contented to take all the benefits, but do not reciprocate and help the association financially. As long as this condition prevails we can see no clear way to a self-supporting basis. It would be a fine thing if some plan could be devised whereby our association could be financed sufficiently to broaden its field of usefulness, and depend upon its own resources."

"We are indebted in a great measure to the salesmen who with their untiring efforts constantly are aiding the association in its lines of endeavor. We are heretofore to take up many trade subjects that in the course of the year are included in our work, but we will not review these as they will come before the convention."

## LATEST SPORTING NEWS OF THE DAY

## BRUCE'S COLUMN

COMMENT AND DIVERS DISCUSSION  
OF THE MERRY WORLD OF SPORT.

SAY there is one old boy who is not in the comeback class; and that is something very unusual in this day and generation when they are climbing a white horse or are doing the comeback stunt. This person in question is Curley Ulich, and he left last night for Hot Springs, Ark., which is the modern spring of perpetual youth, there to train for three fights that the Superior veteran has scheduled for the near future.

"I AM not trying to comeback, but just fighting along pretty good for an old horse," writes the old boy, who is the other side of the coin. "I fought my first win in 1892, on the night when the returns were coming in at the old Star theater at Chicago. Yes, that was back in September, 1892, and I am to come on fighting until September, 1912, so that I can say that I was in the game good and strong for twenty years."

AT that, though the pride of the suburbs was never a champion and never came so very close to the championship class, he has always been a pretty tough old nut to crack, and some of the oldtimers who used to see him go in those strenuous days of Chicago's fight game, will tell you that he required an awfully good boy to beat Curley in those days. Boys fought for doughnuts and coffee and were glad of the chance; for, you know, the times have changed somewhat.

WHILE those who knew Heston during his football days will not vouch for the mind part of the greatest gridiron hero that Michigan ever produced, his arresting of the prop of a slot machine at Detroit the other day at least argues in favor of science applied to abysmal force, and is thus carried on to the poets of motion, who argue to the very end that mind always has the full Nelson on matter.

While a crowd of the brand of first water rough necks and heavy jowls were getting ready to lick the deputy sheriff and were emitting profanity and climax, Mr. Heston, who is an assistant district attorney at Detroit, charged the line of deep red humanity, assuming that attitude he used to use against Minnesota and the rest of the sufferers, and when the sky cleared the husky attorney had the prop of the pernicious slot machine and the goat of some of the corded necks. Let educators argue against the dear old game of football, some of us know that it has practical values.

NOW that the contest, the long awaited contest between Pedersen, the Titanic son of the north seas, and Orde Mann, also one of those fair-haired Vikings of the fishing seas, has all but arrived, it is not to be untimely to let loose some of the opinions on the nationality of the man who is to meet the hardy son of the Norsemen. Of the answers that have come to this department, eighteen have called Pedersen a Swede, and twenty-three have named him as a Dane. On top of all this eleven kicked with the opinion that the big fellow is a Norwegian.

IF YOU ask any of the real wise ones to dope the Cubs for the coming gallop, they won't run out of the baseball paddock with the wild statement that the grand old baseball machine is down and out—that is the real ones who know something of the game. They all say that they are a smart bunch of ball players and it is hard to count them down and out.

Big Bill Brennan, the St. Paul boy, who is one of the National league managers at the present time, and who was a member of the old St. Paul Central football team, stated the other day that in Tinker, Shecker, Evers, Brown and several of the others of the Cub team, Chicago had some of the smartest baseball players in the world. It is the brains of the team that kept it up there fighting all these years, and the people who know this, hesitate to count the Cubs out of the running.

THE Marquis of Queensberry traces boxing back to the early dawn of history, even to the days before the advent of "One-Eyed Connelley," but to the days when they wore spikes, and other things as well, on their hands. Instead of the diamond ring that the modern gladiator is adorned with, tracing wrestling back we can break the trail through to the bout Jacob held with the angel, which, according to Biblical instruction, was a sort of catch-as-catch-can affair with Jacob on the defense and trying to stay the time limit. David was also one of the first to break up the hit and run game of Goliath.

WALTER MILLER is certain that he is going to win the coming match with Gustafson of Winnipeg. "This fellow is awfully strong," Miller was telling some of the fans around the ring at the Pedersen match in Minneapolis, "but he doesn't know as much about the game as I do. I had him beaten in Winnipeg and then the referee ruled against me because I forfeited a fall to put a brace on my bad ankle. But I think the people will forget about that match after the contest at St. Paul is over."

THE little St. Paul wrestler says that he lived in Superior from 1902 to 1904 and that it was at the Head of the Lakes that he first took up the wrestling game. Walter never got to be anywhere near a champion until he went to St. Paul, but it was across the bay that he first became interested in the mat pastime and there are quite a few people across the bay who undoubtedly remember the first attempts of the Miller boy to break into the game. Miller is not an American, but a Pole, and he could hardly speak a single word of English when he came to the Head of the Lakes looking for work on the ore docks.

JIMMY RECTOR says he is ready to try for the Olympic team and Ralph Craig says he will be unable to take the time to get out and train. Thus does the American team lose one great sprinter and gain one who was a great sprinter several years ago. But the way records are being broken at the present time surely does argue for the success of the American team, for right at the present sitting, George, we have some remarkable young athletes in this country. John Paul Jones and several others are two of the best of the day. Maybe we will hold the supremacy of the old stars and stripes over foreign athletic fields. Let the Britons take the needle threading events and the less strenuous forms of sport.

WARM WEATHER  
SPOILS RACESR. O. McLean of Chicago Is  
Hero of First Day's  
Skating.

Saranac Lake, N. Y., Feb. 20.—Warm weather and melting ice marked the first day's races of the international amateur outdoor skating championships here yesterday, but better conditions are expected today.

R. O. McLean, the boy skater of the Illinois Athletic club of Chicago, was the star of yesterday's events. He won the mile race, and led most of the way in the two-mile event, but fell in the sixteenth lap and R. W. Wheeler of Montreal won easily.

In the 220-yard race, O. B. Bush of the Vancouver A. C. made an excellent showing in the preliminaries, but in the final he did not hear the starter and was left at scratch. Lot Roe of the Baton A. A., Toronto, winning.

Summaries: 220-yard, final heat, won by Lot Roe; Charles A. Fisher,

Milwaukee, second; W. H. Jackson, Montreal, third.

## FIGHTERS ARE READY.

Attell and Kilbane Tapering Off  
for Holiday Battle.

Los Angeles, Cal., Feb. 20.—Los Angeles has been keeping up its record of championship fights this season with a regularity that is astonishing. Tom McCarey, the promoter, has been fortunate in picking out good matches, and where titles were at stake, the contest which he has scheduled for Feb. 22, Washington's birthday, between Abe Attell, the featherweight champion, and Johnny Kilbane of Cleveland, Ohio, should prove one of

ORDE MANN WILL TEST  
ABILITY OF PEDERSEN

The Big Norsk Ranked as One of the World's Greatest Wrestlers; Should Give the Scandinavian a Mighty Battle.

George A. Barton, manager of Henry Johnson, has wired that Martin Johnson, Duluth's wrestling fireman, is satisfactory to him as the third man in the ring when the big Norsk tangles with Jess Pedersen on the evening of Washington's birthday.

Pedersen is expected here late tomorrow evening or early Thursday morning. Orde Mann will be on hand only and will rest up for the biggest match that the Norwegian has wrestled in the present season to date. In fact, in the Orde Mann-Pedersen match, Duluth is getting one of the biggest contests wrestled the present season in any part of the country. Two of the greatest wrestlers in the country are coming together and the match is expected to be the best ever wrestled in this country.

During the present season Pedersen has made a great showing, defeating the best of the Americans and also disposing of Courderell, the gigantic Turk. At Greco-Roman the gigantic Scandinavian stands as the greatest wrestler in the world today, and he is rapidly learning the catch-as-catch-can game, his immense strength making him almost irresistible to the average wrestler.

In Orde Mann, Pedersen will meet one of the greatest wrestlers in the entire world. Followers of the wrestling game have placed Orde Mann among the best wrestlers in the world. The big Minneapolis Norsk is one of the finest fellows in the world, and in addition to his sportsmanship he is about the best wrestler that this country has ever developed, outside of Frank A. Gotch.

Orde Mann knows all the fine points of the catch-as-catch-can game, and in addition he is a giant in physique and possessed of wonderful wrestling

CENTRAL AN  
EASY WINNEROld Rivals From Superior  
Smothered Under One-  
Sided Score.Both First and Second Basket  
Ball Teams Win  
Handily.

Last evening the Central high school basketball ball teams of Duluth simply smothered the first and second teams of Superior Central high school, the first team of the local high school winning by the score of 41 to 9 and the second team by the score of 15 to 5.

There was nothing to the first team game but the second Duluth quint. Points were scored almost at will and the defense of the team from over the bay was woefully weak and on offense the Superiors could not either the Duluth boys in the least. Also in team play the locals completely outclassed their rivals. Every time a Superior player got the ball he generally found a man blocking him. Time and time again the local men had free shots, so poor was the defense of their opponents.

Elder shots for the Duluth high school, "Bunk" Harris coming close to record by scoring fifteen points for Central. Osman threw four baskets. The contest was played in the local high school gymnasium and was witnessed by a large and enthusiastic crowd that rooted for the home team with the old Central spirit. While the contests last evening emphasized the weakness of the Superior quints, they also brought out the fact that the Central has two very representative teams the present season.

DULUTH TEAM  
ROLLS BIG SCORECentrals Are Showing Up  
Well at the International  
Bowling Tournament.

St. Paul, Minn., Feb. 20.—F. L. Trainor of Sioux City, Iowa, made the high score of 446 points in the International Bowling tournament yesterday. The previous high mark was 334.

In the five-men teams last night the Centrals of Duluth made the high score of 2,645, and the Biers-Nelson team of St. Paul made 2,645.

IOWA SCHEDULE  
IS ANNOUNCED

Iowa City, Iowa, Feb. 20.—The University of Iowa football schedule for 1912 has been issued. There may be some changes later in the year, but the main games in the schedule will be as follows:

Oct. 5—State Teachers' college at Iowa City.  
Oct. 12—Cornell at Iowa City.  
Oct. 19—Open date.  
Oct. 26—Minnesota at Minneapolis.  
Nov. 2—Purdue at Iowa City.  
Nov. 9—Northwestern at Evanston.  
Nov. 16—Iowa State at Ames.  
Nov. 23—Wisconsin at Milwaukee.  
Students are giving evidence of disappointment because there are but three home games. But the managers of the team state that the 1911 campaign was the first in which Jackson took part as a regular and he battled 408 better than Cobb or any one else hit during their first year in the majors.

## JOE IS HOPEFUL.

Jackson Expects to Beat Cobb's  
Batting Record This Year.

New Orleans, La., Feb. 20.—Joe Jackson, the hard hitter from Carolina, who went from New Orleans to the Cleveland team last season, batted a close second to Ty Cobb, another Southerner, in last year's carnival diversion and today stated he hoped to defeat Cobb for the honor of leading all major league batsmen next season.

Joe is in fine condition, a trifle heavier, but light on his feet as a dandy master. Jackson has good reason for believing that he can overtake Cobb's wonderful record of .420 made last season. The 1911 campaign was the first in which Jackson took part as a regular and he battled 408 better than Cobb or any one else hit during their first year in the majors.

## GIANTS REACH CAMP.

Marlin Springs, Tex., Feb. 21.—The first squad of New York Giants opened their training here today. Included in the party are: Manager McGraw, Robinson, Thompson, a Pittsburgh semi-pro recruit, Cordova, a former Rocker, recruits: Luby, Latham, Burns, Groh, Deane, Devore, Evans, Stock and Jacobson.

Special Ty Cobb Issue.  
The March Baseball magazine, which is a specialty Ty Cobb number, contains the greatest Ty Cobb stories ever written and many heretofore unpublished facts about the king of all ball players. This special issue contains features about the greatest living player and stories by Hugh Jennings, William A. Pheon, John Evers, Alec McLean, beside a great detective serial story.

RIGOROUS MEASURES WILL  
COME BEFORE CONFERENCE

Chicago, Feb. 20.—New and rigorous measures for the government of athletics in the West will be considered by the presidents of the "Big Eight" colleges at a meeting to be held on March 9 at the University Club of Chicago. President A. W. Harris of Northwestern university today issued a call for the gathering, which is expected to be the most important legislative session since the formation of the organization of the conference in 1894.

In his invitation to the university leaders, President Harris said that the meeting was for the purpose of a thorough discussion of the athletic situation. The assembling of presidents for the third time in the history of the conference is the outgrowth of the dissatisfaction with the present condition of intercollegiate sports, and is expected that the discussion will have a profound effect upon the future of athletics in the "Big Eight" district.

The presidents will cut loose from the current debates over the compromise recommendations made by the "Big Eight" committee over the January meeting, and talk over the fundamental principles of athletics, according to the invitation of President Harris. The meeting will have no immediate connection with the conference representatives, none of whom has been invited to attend.

The subject of college athletics in education, the University of Chicago movement in favor of abolishing intercollegiate competition in part or as a whole, and the possibility of making intercollegiate athletics a part of the college are among the subjects up for discussion. With these problems in the air, it is likely that the "Big Eight" will be changed in several respects when the presidents have ended their arguments.

The meeting will in all probability

the very best baseball possible, and their selection in this regard may account for the delay.

CATHEDRAL TEAM  
BEATS SODALITY

At the Cathedral high school gymnasium last evening the C. H. S. indoor baseball team defeated the Young Men's Sodality team by the score of 14 to 5. The victory gave another chance at the loving cup and places them on an even footing with the Sodality bunch.

But, and Summers did the hurling for the Cathedral bunch and showed some of the best mound work that has been seen in the Duluth and Superior games the present season. England was on the mound for the Sodality, and while hit rather frequently, pitched a steady game throughout.

The hitting of the high school players was the feature of the contest, the slugger being about the best seen at the high school gymnasium during the present season.

Zysko and Smejkal.  
New York, Feb. 20.—Josef Smejkal, the Bohemian grappler, has accepted an offer to meet Stanislaus Zysko in a finish bout at the Harlem casino on Feb. 25.

FRANK A. GOTCH.

Reports from Cuba say that Frank A. Gotch has announced his determination to return to the mat. The statement says the pride of Humboldt will meet the best man that can be secured to meet him. This probably means, if the statement credited to Gotch is so, that either Zysko and Malinout or the world's champion.

VALUE OF ROWING IN  
PHYSICAL DEVELOPMENT(By James E. Ten Eyck, Rowing Coach, Duluth Boat Club.)  
To my mind there is no exercise that can be compared with rowing, whether one indulges in the sport strenuously or merely for pleasure.

The oarsman is developed not only physically but mentally and morally as well. To be successful, the oarsman must lead a clean moral life and form no vicious habits and a strong clean life is a great aid to mental activity. This evening the final games in the Union Match and Hagley events will be played as announced last evening.

## DULUTH INDUSTRIAL HIGH SCHOOL NOTES

At a meeting of the freshmen of the high school yesterday afternoon the members accepted the challenge issued by the eighth grade class Irving school for a debate this spring. The two classes met yesterday and chose the following subject to be debated on Monday, March 4: "Resolved, That capital punishment should be abolished." The freshmen will uphold the affirmative of the question.

Miss Irene Walker, head of the cooking department in the high school yesterday expressed her desire that more mothers of the students had in the cooking course should visit the school during the class hours and see the cooking being done. Various dishes are being made daily by the students. This week Miss Walker is devoting their time to fancy puddings and cakes.

### STATE AUDITOR S. G. IVERSON

At a meeting of the high school yesterday morning he discovered that everything of value had been taken from the place over Sunday. A loss of \$300 resulted from the robbery. He kept the matter silent during the morning, but late in the afternoon reported to Lieut. Charles Wilcox of the West Duluth station, who is now working on the case.

### TAILOR SHOP IS ENTERED BY BURGLARS.

When John H. Erickson of 207 Central avenue opened his tailor shop yesterday morning he discovered that everything of value had been taken from the place over Sunday. A loss of \$300 resulted from the robbery. He kept the matter silent during the morning, but late in the afternoon reported to Lieut. Charles Wilcox of the West Duluth station, who is now working on the case.

### Firemen Dance.

About 300 people attended the first annual ball given last evening by the volunteer firemen of New Duluth at the Kulczewicz hall. The large hall was beautifully decorated in the national colors and the proceeds of the evening will be used by the company to defray the expenses of the delegates who will be sent to the annual tournament of the volunteer firemen to be held on the range this year.

### Surprised By Friends.

Mrs. Joseph Gagnon of 11 South Forty-sixth avenue west was pleasantly surprised at her home last evening by a number of her West Duluth friends in honor of her birthday. Mrs. Gagnon was presented with many beautiful gifts and cards. Prizes were won by Mrs. J. J. Moran, Mrs. J. Derose, Mrs. Lapointe, C. de Roche and J. Fortier. These present were Messrs. and Mrs. James G. de Roche, Mrs. J. Fortier, J. J. Moran, J. Derose, Mrs. Lapointe, C. de Roche and J. Fortier. ## CONVENTION SIDELIGHTS

History of the Minnesota Retail Grocers' and Merchants' Association—Some Interesting Features of the Gathering.

The Retail Grocers' and Merchants' Association of Minnesota was formed in 1897. The meeting was in Minneapolis. The retail merchants of the state got together on a call issued by George L. Dingman, then secretary of the Minneapolis Grocers' association. The merchants were enthusiastically in favor of a state association and the first meeting, while not so large as many that have been held since, was a great success.

G. Hanson was elected president of the association and he was re-elected until he had served six terms. Simon Clark of Duluth was then made president and he served three years. John W. Lux following Mr. Clark as president. From the few enthusiastic merchants who met and organized the association in 1897, the present healthy organization is the result.

Thomas P. Sullivan, a former president of the national association, is here meeting old friends. He will deliver an address tomorrow afternoon.

A question box has been established in the convention hall and questions are requested to write them out and drop them into the box. Some interesting questions are being asked.

President Filbert spent a part of the morning in a local dentist's chair.

## CLEAN UP ALONG THE POLICE RUN

Just a side light is thrown on the station this morning with a "peach of a load under his arm" as the officer remembered that he had been arrested once before seven years ago. He also remembered that he had a lead pencil when he was arrested. He was arrested on the Lincoln hotel early Sunday morning when two boys just past their majority and two girls barely past 18 were in the hotel. The officer was in the hotel and he was arrested. Wilson Knight was arrested yesterday on a charge of keeping an unlicensed drinking place. He pleaded guilty and his trial set for Friday morning. The two couples arrested at the Lincoln hotel early Sunday morning were served with beer before they went to the hotel.

## RAILROADS

### CARS STILL IN DEMAND

#### Coal Movement Lets Up But Grain Is Awaiting Shipment.

#### Western Roads Cannot Get Their Own Cars From East.

With the letup in the coal movement local railroad men say that there will be some lessening of the demand for cars that has been the feature of the local situation for the past six weeks.

Even with the lessened demand for coal carriers there comes an increased demand for cars to carry to the East the Canadian grain that is pouring into Duluth. And the cars are not forthcoming.

In stating the local situation today, one of the officials of the Northern Pacific railway had the following to say: "The Canadian Northern and the other Canadian roads will not permit the cars to go East as they cannot spare them at the present time. The same condition applies to the Great Northern. The Eastern lines have hundreds of our cars in use at the present time, and yet we are unable to get cars to haul this grain to the East. There you have some idea of the situation."

Tied up by Weather. "About two days of bad weather can sometimes throw the large switching terminals into so disorganized a condition that it will require something like six weeks to straighten the situation out. The bad weather that tied up the switching operations and tied up cars on sidings has wrought a very tangled condition in some of the railroads of the East. That is one of the principal reasons for the car shortage on them, and the Eastern roads cannot or will not let us have their cars."

If we can't get even our own cars back at the present time, it doesn't look as if we would stand very much chance of getting the cars from the other lines. When a lot of freight cars that are not in use at the present time are unloaded, and a lot of other foreign cars are switched back to the East, even to get a look at the numbers on them, and the Eastern roads cannot or will not let us have their cars."

From the inquiry made today among the different railway men of Duluth the fact is gathered that the car situation will be greatly improved within ten days or even less. Duluth operating men state that complications in the switching terminals of the Eastern lines are being rapidly straightened out and that already some of the cars belonging to Western lines have been started back to that part of the country.

There is a large amount of grain in the city, but until there are more local cars returned from foreign lines, business transactions and financially a normal movement is not very good.

## TAFT CLUB WILL BE ORGANIZED

The Taft men of Duluth intend to get busy.

T. S. Wood has issued a call for a meeting of the Taft men in his office in the First National Bank building tomorrow evening at 8 o'clock for the organization of a Taft club.

Mr. Wood issued the call over his signature only and it is expected that a large number will respond.

## MAGAZINES HAVE RAISED THE COST OF NATION'S FOOD

Costly Advertising Has to  
Be Paid for By the  
Consumer.

Sanitary Packages Also to  
Blame But Are Worth  
the Price.

Louis Hill Unable to Attend  
Grocers' Convention—  
Governor Arrives.

"The magazines are one of the causes  
for the increased cost of living," says  
John J. Ryan, secretary of the State  
Retail Grocers and General Merchants,  
now in annual convention at the  
Spaulding hotel.

"War on the magazines and the pro-  
hibitive rates charged for advertising  
space" is the slogan of the Minnesota  
merchants.

They will some time during the pres-  
ent convention, suggest to national  
manufacturers that magazine adver-  
tising be stopped. The money used  
in newspapers and other lines.

They will also suggest a page to  
advertising in magazines and want this  
custom stopped, as it surely in-  
creases the cost of living," says Mr.  
Ryan. "We are going to suggest that  
manufacturers make more liberal use of  
magazines more liberally. This, we con-  
sider, is just as effective and a good  
deal cheaper."

"There is absolutely no question but  
that advertising has raised the cost of  
foodstuffs. It stands to reason that when a manufacturer is  
spending several thousand dollars  
every month with the magazines, he  
has to get it back some way. This is  
sometimes done in a slightly increased  
cost per package and sometimes by  
making them smaller."

"We maintain that the articles, such  
as tinned and condensed milk, are  
comparatively new as they were years  
ago. Salaries have increased and we  
believe that a more liberal use of  
advertising will go just as far and  
further than it would have."

**FILTH IN HOUSE  
HIDES GOOD DEEDS**

Art Collection and Cancelled  
Checks Found in Home  
of Recluse.

New York, Feb. 21.—Samuel E. Has-  
lett, the aged Brooklyn recluse whose  
half-million-dollar estate former State  
Senator Frank J. Gardner and George  
J. Decker, a nurse, are charged with  
conspiring to control, probably will be  
able to prepare the state of New York  
proceedings to name a committee  
to take charge of his estate as it  
comes up. Mr. Haslett's condition is  
seriously improved.

For the first time in a quarter of a  
century Haslett's "house of mystery"  
underwent a cleaning yesterday, and  
the removal of dust and dirt which  
filled barrels revealed an art collection  
of which several thousand dollars' worth  
There were many paintings by well  
known artists, almost obliterated by  
the accumulation of dirt, and a shelf  
of carved ivory, bronzes and  
lithographs from every part of the  
globe. Many cancelled checks for  
sums running to thousands of dollars,  
representing charitable gifts of many  
years, also were found.

**NO EXPRESSION  
BY COLOMBIA**

Minister's Statement at Wash-  
ington Not Known to  
the Public.

Bogota, Colombia, Feb. 21.—The ac-  
tion of Gen. Pedro Nel Ospina, Colom-  
bian minister to the United States, in  
withdrawing the state department at  
Washington that the visit to Colombia  
of Secretary of State Knox would be  
inconspicuous owing to the fact that Col-  
ombia's claims in connection with  
Panama had not yet been arbitrated,  
has not become known to the general  
public.

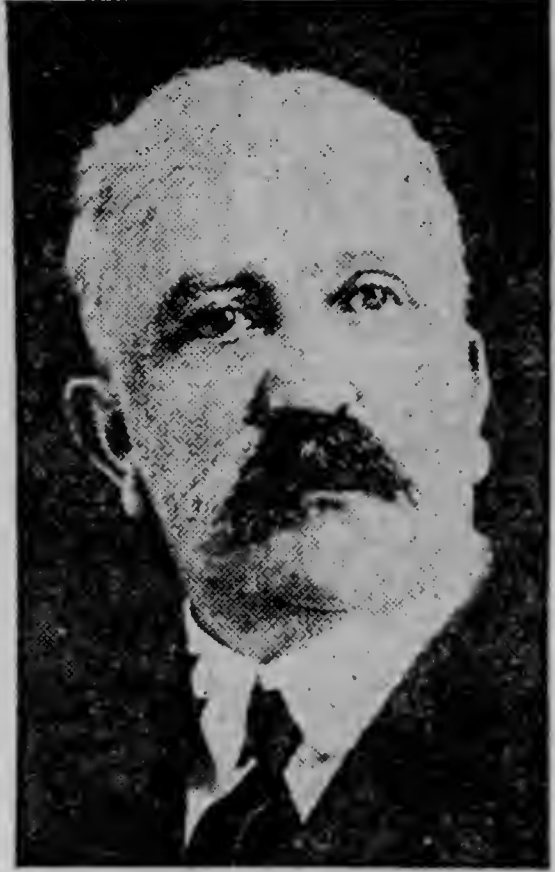

The Colombian government has the  
matter under consideration, but either  
the newspapers are ignorant of the oc-  
currence or else comment has been  
suppressed by the authorities.

A strong motive for an honorable  
settlement of the Panama affair has  
been gaining ground all over the coun-  
try without regard to the differences of  
views of the political parties.

**DISCUSSED BY CABINET.**  
Washington, Feb. 21.—President Taft  
has taken up the Colombian situation  
with his cabinet and discussed it with  
Dunington Wilson, the acting secre-  
tary of state. No official announce-  
ment was made of what action had  
been taken by this government. It was  
declared authoritatively that the  
United States did not contemplate ask-  
ing for the recall of Senor Ospina. It  
is known that Secretary Knox's pro-  
posed visit to Bogota has been can-  
celled.

**PANIC AT PICTURE  
SHOW; ONE IS DEAD.**  
Wheeling, W. Va., Feb. 21.—In an  
entire show at Albrightsville, Preston  
county, W. Va., twenty-nine persons  
were injured last night. One died from  
injuries and others of the twenty-  
eight injured are said to be fatally  
hurt.

## IS SMITH NO. 5 IN THE UNITED STATES SENATE

MARCUS A. SMITH  
OF ARIZONA

Washington, Feb. 21.—Mark Smith,  
one of the Democratic senators from  
the new state of Arizona, was for six-  
teen years Arizona's delegate to con-  
gress. Mr. Smith is a lawyer at Tuc-  
son, Ariz. He was born near Cynthi-  
ana, Ky., in 1862. He will be the  
fifth Smith now in the United States  
senate. The other four are from Mich-  
igan, Maryland, South Carolina and  
Georgia.

**BIG TUNNEL  
IS BLOCKED**

Fire and Explosions Drive  
Men Back From the  
Hoosac Bore.

Four Men Killed in Train  
Collision in Under-  
ground Tracks.

North Adams, Mass., Feb. 21.—Fierce  
fire and heavy explosions in the debris  
made it impossible for wrecking crews  
early today to reach the scene of the  
collision of a passenger train and a  
freight on the Boston & Maine rail-  
road inside the Hoosac tunnel, and the  
attempts to get to the burned cars  
were abandoned until the fire has  
burned itself out. Railroad officials  
say it will be impossible to reach the  
wreckage before Saturday or Sunday.

It is thought the list of dead will  
not exceed five. E. Rathbone, con-  
ductor of the freight train, who was  
believed at first to have been killed, is  
safe. The dead are members of the  
train crews.

**CAUSE NOT DETERMINED.**  
The cause of the collision has not  
been determined. The accident oc-  
curred about 2,500 feet inside the west-  
ern entrance to the tunnel. Large  
rocks loosened by the heat have fallen  
on the tracks and have made entrance  
to the tunnel dangerous.

The passenger train, a Boston-  
bound express, was not seriously dam-  
aged, with the exception of the electric  
engine which was drawing it, but  
several freight cars were derailed and  
the wreckage took fire. The smoke  
pouring from the east portal of the  
tunnel forced back those who sought  
entrance from that end, and the heat  
made it impossible to go beyond the

**KIDNAPED AND  
NOSE CHANGED**

Effie Foster Says Her Name  
Is Axelheimer—Will Sue  
for Estate.

Denver, Colo., Feb. 21.—Miss Effie  
May Foster, who says she was kid-  
naped from her home when a few  
months old and always supposed that  
she was the daughter of Mrs. Hannah  
Foster, has learned, according to her  
claim that her real name is Inez  
Axelheimer and that her father, who is  
reputed to be a millionaire, is living  
in Rochester, N. Y.

Miss Foster says she has enlisted the  
aid of her father and declares she will  
institute legal proceedings for posses-  
sion of property left by Mrs. Foster,  
who died here in April, 1904, leaving  
an estate of \$100,000.

According to Miss Foster, it was not  
until shortly before the death of an old  
negro woman that she learned what she  
claimed to be her true identity.

This negro woman, whose name was  
Ellen Monroe, picked me up in my  
father's yard in Rochester one day,"  
said Miss Foster. "I was taken from  
the city and as I was too young to  
remember the incident I always thought  
that a dermatologist changed the  
shape of her nose so that she could not  
be recognized."

## FEEL GRIP OF COAL STRIKE

British Manufacturers and  
People Already Have  
to Pay More.

Government Prepares to Im-  
port Fuel From the  
United States.

London, Feb. 21.—Conditions  
throughout Great Britain, particu-  
larly in the manufacturing districts of  
the North of England, are becoming  
rapidly worse as a result of the  
threatened coal strike, which, if it  
occurs at the end of the month, will  
throw 800,000 miners besides workers  
in other trades out of employment.

At many of the iron works and other  
big factories the men today re-  
quested notices from the employers that  
their services would not be required  
after Feb. 29 should the coal strike  
be decided on. Most of the factories  
have supplies of coal sufficient for the  
most urgent work in hand.

In London and other cities the price  
of coal already has reached \$3 a ton  
and the poorer classes of people are  
paying almost double this rate, as they  
purchase only in small quantities.

**Coal Owners Meet.**  
The coal owners met in conference  
today to consider the general situa-  
tion in the trade and also to discuss  
the invitation of Premier Asquith,  
who has requested them to meet him  
and some of his colleagues at the for-  
eign office tomorrow to endeavor to  
arrange a basis of settlement.

Both the coal owners and the miners  
signified their acceptance of Premier  
Asquith's invitation to this conference.  
The committee of the coal owners and  
Miners' Federation also is meeting to-  
day to decide whether the continental

**AVIATOR FLIES  
OVER LAKE ERIE**

Accident Near End of Return  
Trip Nearly Costs Him  
His Life.

Erie, Pa., Feb. 21.—Earl Sandt, a  
youthful aviator, the first bird-man to  
fly over the Great Lakes from the  
United States to Canada, came to grief  
ten miles out on the lake from North-  
east, Pa., last night while attempting  
a return flight to the American shore.  
While high in the air and twenty  
miles east of his course, the engine of  
his biplane stopped. For a time he  
glided toward the ice-covered lake, but  
suddenly the machine turned turtle and  
he was buried unconscious in the  
wreckage.

How long he remained in this con-  
dition he does not know. When he re-  
covered he was literally saturated with  
blood from many cuts. Aided by a  
pocket compass, Sandt walked ten  
miles to the American shore, reaching  
Northeast at 10 o'clock last night. He  
was seen staggering along the shore  
by boys skating, and was carried to a  
house.

Sandt is not seriously injured. He  
has brought here from Northeast at  
midnight on a special car. Thousands  
of persons, a brass band and loud  
blasts from shop whistles greeted him.

## ROOSEVELT DEFENDS PROGRESSIVE PLANS IN COLUMBUS SPEECH

**NEW TARIFF  
BILL PASSED**

House Approves Revision of  
the Schedule On  
Chemicals.

La Follette's Illness Interferes  
With Senate Action  
On Steel.

Washington, Feb. 21.—With the pas-  
sage of the chemical revision bill by  
the house today, another Democratic  
measure was added to the senate  
calendar. The steel bill is pending  
in the senate, where only a coalition  
of Progressive Republicans and the  
Democrats can pass it.

Incidentally, for the first time since  
the insurgent Republicans broke away  
from the regulars in the fight on the  
petroleum duty in the Payne tariff bill  
in 1905, the Republicans of the house  
today presented practically a solid front  
against the passage of a tariff revision  
bill. All insurgents voted with the  
regular Republican forces against the  
Underwood chemical bill, which was  
passed, however, by a vote of 178 to  
127.

The intention of the senate finance  
committee, whose hearings on the  
house steel bill are drawing to a close,  
is to grant ample hearings to all par-  
ties interested in the tariff bill sent  
over from the house. The hearings on  
the steel bill probably will be con-  
cluded by the end of this month, being  
continued today with the testimony of  
representatives of lead interests.

The Republican members of the sen-  
ate finance committee have had but  
one conference. They have not defi-  
nitely outlined their tariff program,  
but it is believed the debate on the  
steel and the other revision measures  
will be projected to go before Court  
at La Follette has interfered seri-  
ously with the formation of a policy  
by the Progressive Republican sen-  
ators, who hold the balance of power  
and so far there have been no over-  
tures between them and the Demo-  
cratic leaders.

**OBJECT TO BEING TRIED  
IN HOOSIER CAPITAL.**  
Milwaukee, Wis., Feb. 21.—William  
E. Reddin and Herman G. Seifer, who  
were arrested a week ago in connection  
with the dynamite conspiracy, were  
scheduled to go before Court Com-  
missioner Bloodgood this after-  
noon to have their attorneys tried to  
avoid extradition. Attorney W. R.  
Robin, it was said, had made up his  
mind to have his clients tried in the  
federal court at Milwaukee rather than  
Indianapolis.

**Revolt in Spreading.**  
Cape Haitien, Haiti, Feb. 21.—The  
San Domingo revolution is extending  
every day, especially in the vicinity of  
the frontier, where communication be-  
tween Dalabon and Monte Christie is  
totally suspended.

**Praises Wisconsin Laws and  
Says Honest Big Busi-  
ness Is Good.**

Columbus, Ohio, Feb. 21.—"Big Busi-  
ness," the fitness of the American peo-  
ple for self-government, the recall of  
judges, and praise for the Progressive  
legislation in Wisconsin instituted and  
furthered by Senator Robert M. La Fol-  
lette when he was governor, were topics  
discussed by Theodore Roosevelt in an  
address today before the Ohio consti-  
tutional convention here. Col. Roose-  
velt chose as his subject, "A Charter of  
Democracy."

Of what he termed "Big Business,"  
Col. Roosevelt had this to say:  
"The anti-trust law does good inas-  
far as it can be invoked against com-  
binations which really are monopolies or  
which restrict production or which arti-  
ficially raise prices. But insofar as  
its workings are uncertain or as it  
threatens which have been guilty of  
anti-social conduct it does harm. There

**BIG CROWDS OUT  
TO SEE ROOSEVELT**

Ex-President Attracts Much  
Notice on His Visit  
to Ohio.

Columbus, Ohio, Feb. 21.—In the  
midst of a storm of snow and sleet,  
Former President Theodore Roosevelt  
arrived in Columbus from New York  
at 10 o'clock to address the fourth  
Ohio constitutional convention. Fol-  
lietans from all parts of Ohio came to  
Columbus to hear Col. Roosevelt ex-  
press his views on matters pending in  
the convention which have been the  
subject of political debate throughout  
the state. Interest in his speech was  
heightened by the fact that Governor  
Harmon, a few days ago, outlined his  
opinions to the same convention which  
Mr. Roosevelt addressed today.

As the train rushed through Ohio to-  
day people gathered at every station  
at which a stop was made. At Trin-  
ity the crowd held back to allow two  
men help a feeble old man to the plat-  
form where the colonel stood. He said  
he was Lewis Adams, aged one  
time schoolmate of former President  
Garfield.

Rev. Dr. Washington Gladden, pastor  
of the First Congregational church, an  
old friend of Col. Roosevelt, met him  
at the station. Col. Roosevelt went  
directly to Dr. Gladden's home for a  
short rest before proceeding to the  
state house, where he made his ad-  
dress. After finishing his speech, Col.  
Roosevelt returned to Dr. Gladden's  
home for luncheon, remaining there  
until his departure for New York at 3  
o'clock.

Meridian, Miss., Feb. 21.—A destruc-  
tive wind storm swept over this dis-  
trict last night, destroying thousands  
of dollars worth of property, killing  
hundreds of cattle and demolishing homes  
in the surrounding country. Telegraph  
wires were prostrated, communication  
not being restored until this after-  
noon.

**Pennacola Isolated.**  
New Orleans, La., Feb. 21.—Attempts  
to communicate with Pensacola, where  
it is known a severe storm raged last  
night, had been unsuccessful up to  
noon. All wires are down.

At points along the Florida coast in  
the vicinity of Pensacola a wind force  
of sixty miles an hour was regis-  
tered. (Continued on page 14, seventh column.)

Mayor Lovell of Fargo Greeted  
Visitors and President  
Moe Responds.

Fargo, N. D., Feb. 21.—(Special to  
The Herald.)—With exhibits of all  
kinds of hardware, Fargo is putting on  
a regular exposition for the North Da-  
kota Hardware association, which con-  
vened here this afternoon for a three  
days' session.

After devoting the forenoon to an  
inspection of the exhibits, President  
Moe formally called the convention to  
order this afternoon with a large at-  
tendance. Mayor Lovell welcomed the  
visitors and President Moe responded.  
The chief addresses this afternoon  
were by Messrs. Vardine of Des  
Moines and McCabe of Minneapolis.  
Special representatives from many  
manufacturing and jobbing houses are  
in attendance.

**Whole City Imperilled By  
Blaze That Starts at  
Midnight.**

Houston, Tex., Feb. 21.—Impelled by  
a fierce gale from the north, fire ran  
rampant through the eastern section of  
this city today, destroying property  
valued at six to ten millions of dollars  
and rendering homeless more than a  
thousand persons.

Several large manufacturing plants  
were burned, scores of homes were  
razed by the flames and several lum-  
ber yards, cotton warehouses and com-  
presses were wiped off the earth. Not  
less than twenty-five city blocks now  
are in ashes.

The losses conservatively are esti-  
mated at from five to six million dol-  
lars. The greater part of this is con-  
fined to the lumber and cotton indus-  
tries. Forty-five thousand bales of  
cotton stored in warehouses and com-  
presses were burned. This item alone  
represents a loss of \$2,000,000.

Among the factories and plants de-  
stroyed are:  
McFadden Southern Compress &  
Warehouse company.  
Dew Bros. Syrup mill.  
Houston & Lockett Lumber com-  
pany.  
Rogers Paint company.

today charged with beating and rob-  
bing Walter Zarembo, a soboto  
Wayjack. The detective's accusers al-  
lege he met them on the street and  
demanded their money. Zarembo avers  
he lost \$85. Both assert they were  
beaten with the detective's revolver.

**TRAIN HOLD-UP IN  
IOWA FIZZLES OUT**

Engineer Is Wounded, But  
Refuses to Stop for  
Bandits.

Cedar Rapids, Iowa, Feb. 21.—Five  
men made an unsuccessful attempt to  
hold up westbound train No. 5 on the  
Chicago & Northwestern Railroad near  
Bertram, a village nine miles east of  
here, at 3 o'clock this morning.

The train is known as the fast mail  
and carries no passengers. It was forced  
to slow down to a speed of four  
miles an hour on account of con-  
struction work on the outskirts of the vil-  
lage, and at this point the men sig-  
naled the engineer to stop. Suspicious  
of the irregular method used in sig-  
naling, the engineer did not bring his  
train to a stop. When the train failed  
to stop one of the bandits opened  
fire on the engineer, hitting him in  
the arm. Throwing on all steam, the  
engineer brought his train to this city,  
where a posse was formed and started  
in pursuit of the bandits.

**MAY LAY CRIME  
TO FAIR COUSIN**

Nebraskan Taken From Prison  
to Retell Story of  
Murder.

Lincoln, Neb., Feb. 21.—Harry Heath,  
serving a life sentence in the peniten-  
tiary for the murder of Charles Sellers,  
a ranchman, will be taken to Valentine,  
Neb., to tell the grand jury in session  
there what he knows about the crime.

Heath, with his cousin, Kenneth Mur-  
phy and two men named Weed pleaded  
guilty to hanging Sellers, and drew life  
terms in prison.  
The public sentiment in Cherry coun-  
ty has been inclined to connect Dunice  
Murphy, Heath's cousin, and the girl  
with, to their loved, with the crime,  
and Heath's testimony is supposed to  
be wanted on this phase of the case.

## INDIANS AFTER REPARATION

St. Paul, Minn., Feb. 21.—(Special to The Herald.)—Sisseton and Wahpeton Indians in South Dakota, through Chief Tom K. Simon, who came with three other members of the tribe to St. Paul today to call on Governor Eberhart, to ask redress for an alleged wrong.

In 1861, so Chief Tom Simon said, the government made a treaty with the In-

dians, ceding to them a strip of land ten miles wide to each side of the Minnesota river. After the Sioux massacre in 1862, the land was forcibly taken from them by the federal government and no money or other ground given in exchange. This land is now worth millions of dollars, and it is in the hope

of interesting the governor in their cause that the leaders of the tribe came to St. Paul. They want Governor Eberhart to take the matter up with the United States government, and give them what they claim is their land. "Are we responsible for what our forefathers did?" Chief Tom Simon

asked in broken English. "We not responsible for Sioux massacre of 1862. Yet, because Sioux our land taken away. Not right."

Chief Simon said that during those bloody days when the bands of Sioux were terrorizing the country and scalping and killing all the white men to be found, he personally took a band of settlers to his own camp, concealed them and later delivered them into the hands of Governor Sibley, or Gen. Sibley, as he was then known. Chief Simon was then only 16 years old.

The Indians had an appointment with the governor yesterday, but they could not get authority to leave the reservation in time to get here before the governor left for Duluth to speak before the State Retail Grocers' association. They told their story to Ralph Wheelock, the governor's private secretary, who agreed to present it to the state's executive.

Grove cemetery, Cincinnati, Thursday noon. The list of honorary pallbearers included Chicago newspaper publishers and representatives of the Union League, Hamilton and Press clubs, with whom Mr. Nixon long had been associated.

William M. Lewis, 78 years old, pay-

master of the "ram" fleet during the Civil war, and who, because of personal bravery, was given the rank of captain by President Lincoln, died in San Francisco Feb. 20, after an illness of two weeks. He was a member of the Indian commandery of the Loyal Legion.

## CONVENTION SIDELIGHTS

From a \$3-a Week Clerk, Duluth Boy Became a \$15,000 Manager—Other Gossip of Grocers Now in Convention Here.

Fred Mason, vice president of the Shredded Wheat Biscuit company, now drawing a salary of \$15,000 per year, once worked in Duluth for \$3 per week.

There is some difference in the two sums named, but Mr. Mason deserves his wonderful success in the commercial world for a more popular member of a state association never lived than when he was active in the affairs of the Minnesota organization.

But ten years ago Mr. Mason was local secretary of a retail grocers' association at St. Paul. He has been through the mill in the grocery business, having been a clerk, a bookkeeper in retail stores and working his way from the ground up in wholesale houses. At one time he operated a small store of his own. He has also traveled for numerous grocery wholesalers and concerns.

Mr. Mason at one time worked with Clark & Morrison, an old-time Duluth house. It was there that he began his career, which was eventually to be so successful.

He began at the bottom as a boy in Duluth and by his persistence, grit, energy and a little luck, worked his way up to the top.

Mr. Mason has, perhaps, the most extensive acquaintance with grocers in the United States of any one man. He knows thousands of grocers in the United States by their names. From East to West and from Winnipeg to New Orleans, he is familiarly known as "Fred."

Mr. Mason is proud of having begun his career in Duluth. He states that at the age of 13 he was working in a small store in Duluth for very small salary and while he appreciates his present position, he states that he got a good deal of satisfaction out of the Duluth job with its weekly pay of but \$3.

The Niagara Falls man is one of the most popular men at the present convention and he is receiving many congratulations on his success.

In his impromptu talk before the convention, when called upon this morning by James M. Schmitt, manager of the Shredded Wheat Biscuit company of Niagara Falls, told of some of the things Mr. Mason has done since he has been with the Niagara Falls concern.

Mr. Traverser said that his chief mission in Duluth was to see that Mr. Mason's name was not lost. The president of the company sent me out here especially for that," he said.

Mr. Mason as soon as his duties began, gave the girls of the big company a half holiday. He said that he was told that his output would drop off, but it was four times as much as the output with the same number of girls, increased some 15,000 cases in the first year.

"Not content with this Mr. Mason started a cooking class and a sewing class and a dancing class and furnished entertainment for them at times. The girls appreciated his working the harder and the company knows that the experiment was far from being a failure."

Mr. Traverser told the Minnesota men that their girls are his best asset. A bushel, "You ought to be represented at the national convention," he said.

The speaker also poked a little fun at the Niagara Falls men by telling that he notices in spite of Mr. Mason and the Westerners that the sun, at least, still rises in the East. He says that in New York they hear Mr. Mason talk so much about the sun rising in the East, that they would be almost ready to believe that the sun had changed.

E. F. Kelly of Fairbault, is said to be on the side of a comedian of great ability. It is claimed that he pulled off a stunt at the entertainment last night which has been seldom equaled. The men were about to "slip one over" on him, it is said, but he "beat them to it."

J. W. Clark, secretary of the Retail Merchants' Insurance company of St. Paul, is here for the convention. Many Duluth, as well as many Minnesota merchants carry insurance with this company.

The Shredded Wheat Biscuit company has a cabinet on the stage in which are shown the pictures of the speakers as they mount the platform. The pictures are of the day-light variety and are plain from every point in the hall. The colored views of Niagara Falls and surrounding country are also being shown.

The National Cash Register company has a moving picture show for the benefit of those in attendance at the convention. The picture shows the machine in operation and the benefits of the machine.

Enough samples of groceries and other products are being given away at the convention to start housekeeping. The Shredded Wheat Biscuit company is serving coffee. A very fair luncheon can be enjoyed without going outside the convention hall.

"Tom" Guinness, second vice president of the state association, is one of the oldest workers in the organization. It always falls to the lot of Mr. Guinness to respond to addresses of welcome wherever he happens to be.

He is to be held at Duluth with no exception. He says that he could accept nothing without without without, being so used to taking the keys of the city and receiving other such courtesies.

Mr. George Schmitt, entertained the wives of the visiting delegates at a luncheon at her home this noon. This afternoon a sleigh was procured and the women were taken on a trip around the boulevard.

This evening the men will attend the performance of "The Balkan Princess" at the Lyceum theater. A block of seats has been secured and the men will enjoy the performance together.

Among the many prominent merchants here for the convention is Kenneth D. Smith of two Harbors. Mr. Smith is a member of the resolution committee, one of the most important committees of the association.

President George H. Filbert is showing lots of pluck to continue to preside at the convention. He is suffering from an ulcerated throat.

The Gowan-Congdon company has issued an attractive program of the convention. It comes wrapped in a beautiful package of "Honor Brand" coffee.

B. P. Neff was a very active figure yesterday and today. The Duluth man knows all the merchants and many were the cordial greetings he handed out.

C. L. Schultz, vice president of the Commercial Grocers' Association of Twin City, is here in the interests of his company.

Fred Lorenz, Western manager for the Shredded Wheat Biscuit company, was here yesterday at Minneapolis, is greeting his friends from all over the state. Fred Lorenz is a well-known as the "two Freds," worked to-

FRED MASON.

gether for years. Mr. Lorenz is chairman of the organization committee of the state association.

W. I. Nolan of Minneapolis, a member of the state legislature from the Forty-third district, a humorist of note, will entertain the members of the convention this afternoon.

Thomas P. Griffith of Minneapolis, a salesman for the Pillsbury Flour Mills company, is attending the convention.

G. D. Mekeel, president of the Commercial Bulletin of St. Paul and Minneapolis, came up this morning. He is mixing with the state grocers.

Mrs. A. Winger of A. Winger & Co., is the only woman here as a member of the association. Mrs. Winger has been very successful in business. She says that it pays to attend the state conventions.

John Brueggem, Williston, N. D., president of the North Dakota Merchants' association, and one of the largest retail merchants in the state, is another outsider, who deems it necessary to get in on the sessions of the Minnesota association.

Thursday's program follows: Morning. Discussion class on the girls, the question box resumed. Address by E. L. Miller.

Address by Fred Lorenz. Address by ex-President Simon.

Address by Harry Hutton, Stillwater. Address by Julius Schmitt, secretary of state.

Address by John Brueggem, president of the North Dakota Merchants' association. The president will have visiting merchants from other states to speak during the forenoon.

Open discussion on questions found in the question box. Address by ex-President H. W. Kingsbury.

Address by John Brueggem, president of the North Dakota Merchants' association. Talks by merchants whom the president may call for.

Report of officers. Next part of meeting. Adjournment.

## AVOIDS TALK OF POLITICS

Governor A. O. Eberhart avoided any discussion of politics today when asked for an opinion by Herald reporter on the strength of Taft in Minnesota. The governor looked pained when he was asked for an opinion as to politics, and evidently wished to avoid the subject.

"It is hard to say," he finally stated, "just how much opposition there is to President Taft in Minnesota. The reciprocity measure hurt the president."

Whether it would hurt him had it secured Canadian approval, it is difficult to say. This was a Roosevelt measure also, but Taft is bearing the brunt of the criticism that has arisen in connection with reciprocity.

"What was done in the Twin Cities recently I know little of. I know just what I know, and I cannot say if there is a pronounced boom being started for the president."

Roosevelt is popular in Minnesota and he has many friends throughout the state.

"There is really little to speak about regarding state politics. Things are quiet over there in the line of the usual. I have not been attending any political gatherings and can say but little on things political."

Governor Eberhart will leave for Chicago this evening. Tomorrow he will be the principal speaker at a Washington day celebration.

## "PROVES" CRIME BY SHOOTING HAM

Kansas Coroner Says He Demonstrated Girl Was Not Suicide.

Hutchinson, Kan., Feb. 21.—To prove it would have been impossible for Miss Edna Nelson, the adopted daughter of the late Dr. E. E. Richardson, to have shot herself without inflicting powder burns, Dr. W. H. Williamson, county coroner, today hung up a ham and fired revolver bullets at it from different distances and angles.

The test satisfies me that the bullet which killed the girl could not have been fired from a distance of four feet without leaving powder marks," Dr. Williamson said.

Miss Nelson was found lying from a shot in the head in the house of her late guardian last Saturday. There were no powder burns. Her sister Edie, who found her, insists the case is suicide. Both girls were wards of the wealthy Dr. Richardson. Detectives are searching for a strange man who was seen to enter the Richardson home two hours before the shooting.

The opening of the physician's will

also is expected to throw some light upon the mystery.

When Caboose on Northern Pacific Freight Topples Over.

Grand Forks, N. D., Feb. 21.—(Special to The Herald.)—Four trainmen were injured yesterday when the caboose of a Northern Pacific freight train toppled over an embankment at Kellys, ten miles north of here. None of the men were seriously hurt, although the caboose was badly battered. Conductor Thomas Clark, Steve Lush, George and Neils Holberg are the injured men, all being laid up at their homes in this city, and it will be several days before they will be able to return to work.

The caboose was derailed while the train was making high speed.

## TRAFFIC MEN ARE PLEASED

Do Not Believe Duluth Case Was Damaged at Washington.

Southern Minnesota Cities Intervene in Support of Duluth.

C. F. Rowe, H. A. Earnshaw, F. O. Davidson and George R. Reed of the traffic commission of the Duluth Commercial club have returned from Washington, where they attended the adjourned hearing of the lake-and-rail rate case. Chairman Julius H. Barnes of the traffic commission remained in the East, as did E. A. Hiden. Attorney Francis W. Sullivan, Secretary Charles F. Macdonald of the board of trade went to St. Louis, and Traffic Commissioner Roy Hall was taken slightly ill on the train and stopped off at Chicago.

The members of the traffic commission are well pleased with the result of the hearing at Chicago. They say that the testimony submitted by Minneapolis dealt principally with the commercial results of a decision in favor of Duluth rather than with the result of the lake-and-rail rate case. They believe Duluth's case was not damaged, and they are hopeful that the commission's decision will be favorable to this city.

Senator T. E. Cashman of Owatonna, author of the Cashman distance tariff bill, was one of the representatives of Southern Minnesota cities at the hearing. Senator Cashman corrected the impression given at the hearing here that the Southern Minnesota cities had intervened in support of the Twin Cities. He brought out at Washington that the Southern Minnesota cities are anxious to see a readjustment of rates that will do away with discrimination in favor of the Twin Cities, which is substantially in support of the Duluth case. No plea was made for a postponement of action until after a decision in the Albert Lea case, although an intimation had been given that such action might be taken.

Duluth has until March 15 in which to file its brief in the lake-and-rail case, and the defendants and intervenors have until April 3 in which to make reply. The final brief of the complainants must be filed by April 15, after which the case will be argued.

The grain rate case was argued before the commission Feb. 14, and a decision may be expected in the course of a month or two.

**FREE MOVING PICTURE SHOW SOLUTION OF BOY PROBLEM.**

The National Cash Register company, to protect its property and to train boys who might become delinquents, solved the problem by starting boys' gardens. The boys were furnished with plots of ground, seed and tools. They were required to devote a certain time each day to work in their gardens.

The boys formed themselves into a self-governing body and finally a large stock company was organized, with the boys as officers and directors.

Some of the results obtained by these boy gardeners are shown by means of beautifully illustrated pictures in the Kinemacolor moving picture show.

Parents and teachers will find much interest in these and the other pictures shown.

Admission is free.

## PREVENT LIQUOR SALES.

Government to Stop Practice on Coudery Reserve.

Coudery, Wis., Feb. 21.—(Special to The Herald.)—That the government intends to vigorously prosecute all who introduce liquor into the Coudery Indian reservation is an assured fact. They have placed an officer near the reservation line here and Monday afternoon the first offender appeared. Frank Thomas, an Indian, started for his home in the reservation with a bottle of liquor. Police Officer Thayer attempted to make the arrest, but in turn was assaulted by the Red man who escaped after beating up the officer. The United States marshal will now make the arrest and the case will be prosecuted to its fullest extent. The law prohibiting the bringing of liquor into the reservation has been openly violated here in the last eight years by large numbers of both Indians and white men.

## YOUNG FARMERS' CLUB

Organized Near East Grand Forks to Advance Interests.

East Grand Forks, Minn., Feb. 21.—Co-operation in buying seed and in the marketing of produce are objects of the Keystone Agricultural club, an organization made up principally of the young men of that district. The club was organized through the efforts of the agricultural teachers of the local schools, who have been conducting a series of short course lectures.

In addition to the interest that will be taken in grain, the club members also will seek to improve the breeds of cattle.

The officers of the club are: President, William Clint; secretary, Earl Capes; treasurer, W. J. Geddes.

Jamestown, N. D., Feb. 21.—Jacob Sawicki, a boy, 13 years old, was literally ground to pieces in the local Northern Pacific yard. He was a night call boy and stepped from the platform of a caboose upon the track and was run down by a switch engine. He was 13.

## SETTLE ON STANDARD

Jackson Farmers' Club to Grow Carmen No. 3 Potatoes.

Officers of Producers' Co-operative Market Association Are Busy.

The Jackson Farmers' club has reported to A. B. Hostetter, superintendent of agriculture of the Commercial club, that it will devote monthly meetings and several special meetings during 1912 and then it is preparing for a season of activity this year.

The club has settled upon Carmen No. 3 as the variety of potatoes to be cultivated and has arranged for 11 bushels of seed for distribution. "If all farmers' clubs were like that the Producers' Co-operative Market association would have an easy time organizing the clubs and establishing co-operation that would get results," said Mr. Hostetter. "Farmers' clubs should settle on the variety of potatoes they will cultivate and arrange to get good seed. Then they should work together in establishing warehouses and in marketing their products."

Mr. Hostetter has received a number of letters commending the plan of reorganization of the Producers' Co-operative Market association and expressing the opinion that it is stronger under the present plan of operation than it was under the old plan.

The association now has for its object the obtaining for the farmer more than 35 cents of every dollar spent by the consumer for farm products. Sixty-five cents now goes to the middlemen and the association plans to cut down that amount.

Officers of the association are now working for the establishment of warehouses and agreements of co-operation so that they will be in a position to send an agent out in the markets next year with pledges giving him the right to sell in car load lots the bulk of the potatoes and other staple products grown in this part of the state.

Agricultural papers are unanimous in their praise of the new plan of the association and predictions for its success in the future.

## CHILD PICKS UP PIECE OF POISONED SAUSAGE.

Marquette, Wis., Feb. 21.—(Special to The Herald.)—The danger of throwing poisoned meat about for the purpose of killing dogs was illustrated recently at Wausaukee. A woman saw a child stop and pick up a piece of sausage. The little one was about to eat it when the lady stopped her. The sausage was poisoned and had the child eaten it death would have resulted.

## Cold and Grippe Stopped Quickly

Before you have taken four doses of Pinex Cold Tablets, you will have discovered the best remedy you ever used. This is the quickest acting, most agreeable cold cure ever devised. Two doses give remarkable relief, and the trouble is usually completely conquered inside of 20 hours. And yet Pinex Cold Tablets do not contain a particle of opiates or coal tar heart depressants. No other remedy will stop a cold so quickly.

These tablets are gentle, but very prompt and positive. They reduce the fever, check the nasal discharge, restore normal activity in the pores, and are very pleasantly laxative and tonic. Don't accept a substitute—one trial of this quick-acting remedy will show you that there is nothing else "just as good" as Pinex Cold Tablets. Money refunded if disappointed. 25c a box. If necessary, send to The Pinex Co., Fort Wayne, Ind., (makers of "Pinex Cough Remedy").

## DURAND CASHIER IS ACCUSED OF THEFT.

Owosso, Mich., Feb. 21.—Harry H. Simpson, former cashier of the Com-

Dr. Richard Burton of St. Paul, vice president of the Drama League of America, will come to Duluth, on Thursday, Feb. 22, and will be the chief speaker at the big mass meeting to be held in the Lyceum theater Thursday evening by the members of the Drama League of this city and for the citizens of Duluth and Superior. At this time the organization of the Duluth branch of the league will be perfected and several speakers will give their views of the league and its work.

Dr. Burton is a well known speaker and his talk will have a great attraction at this meeting. The people of Duluth and Superior are very much interested in this movement. The Duluth branch already having a large subscription list and several smaller chapters have been formed for study throughout the city.

A little poem written by Dr. Burton, may be of interest. It follows:

**"If I Had the Time to Find a Place"**

And sit me down full face to face  
With my better self, that cannot  
show.

In my daily life that rushes so;  
It might be then I would see my soul  
Was stumbling still toward the shining  
goal.

I might be nerved by the thought  
sublime,—  
If I had the time!

"If I had the time to let my heart  
Spout out and take in my life a part,  
To look about and to stretch a hand  
To a comrade quartered in no-luck  
land.

Ah, God! If I might but just sit still  
And hear the note of the whistling  
poor—  
I think that my wish with God's  
would rhyme—  
If I had the time!

"If I had the time to learn from you  
How much for comfort my word could  
do—  
And I told you then of my sudden  
will  
To kiss your feet when I did you ill;  
If the tears aback of the coldness  
feigned  
Could flow, and the wrong be quite ex-  
plained—  
Brothers, the souls of ours all would  
chime,  
If we had the time!"

—Richard Burton.

#### DRAMA LEAGUE.

**Forbes Robertson to Address Citizens on Drama.**

Forbes Robertson, who will appear in Duluth in "The Passing of the Third Floor Back," has accepted an invitation from Mrs. Robert Morris Seymour, director of organization of the Duluth branch of the Drama League to speak to the citizens of Duluth at an open meeting to be held Monday afternoon of next week in the Lyceum theater.

Mr. Robertson is one of the most cultured and scholarly men on the stage of today and this opportunity to hear him speak will be a rare occasion appears outside of his regular plays.

While the meeting will be under the auspices of the Drama League it is for every citizen of Duluth and Superior to attend this meeting. No admission will be charged.

Mr. Robertson is highly interested in the country and his acceptance of this invitation is one of the advantages of the establishing of a branch of the league in this city.

In Chicago, the home of the league, meetings of this kind addressed by distinguished speakers are frequent and the league holds a rally at various times in honor of noted players.

The hour set for the meeting, Monday is 2 o'clock in order not to interfere with the Schubert program at the Matinee Musicals.

#### MUSIC AT HOME.

**Matinee Musicals Sends Program to Children.**

Mrs. Nell B. Morrison, Mrs. E. D. Edson, Miss Juanita Williams and Lindsey Edson entertained a little party at the children's home yesterday afternoon with a program of Mother Goose and national songs and piano selections.

This was one of the regular monthly programs which the Matinee Musicals sends to the home and proved delightful to the little listeners.

#### WILL REPRESENT CLUB.

**Matinee Musicals Sends Programs to Cohasset.**

Miss Marie Agatino, pianist, Miss Gladys Reynolds, vocalist, Miss Lella Sparks, reader and Miss Lella Sparks, accompanist, will go to Cohasset and Grand Rapids, Minn., next week as representatives of the Matinee Musicals and will give programs in these two towns on Tuesday and Wednesday evenings. This is a new work the club has taken up this year and the programs which have already been given have been well received in the various cities and towns.

#### AUXILIARY MEETS.

**Doctors' Wives Perfect Organization.**

An interesting meeting of the auxiliary of the St. Louis county Medical association, recently formed among the wives of the doctors of the city, was held yesterday afternoon at the Commercial club.

While the purposes of the club are for social meetings to a large extent, philanthropic work will be carried on.

#### Breaks a Cold in a Day

And Cures any Cough that is Curable. Noted Doctor's Formula.

"From your druggist get two ounces of Glysterine and half an ounce of Concentrated Pine compound. Take these two ingredients home and put them into a half pint of good whiskey. Take one to two teaspoonfuls after each meal and at bed time. Smaller doses to children according to age. This is the best formula known to science. There are many cheaper preparations of large quantity, but it don't pay to experiment with a bad cold. Be sure to get only the genuine (Globe) Concentrated Pine. Each half ounce bottle comes in a sealed tin screw-top case. If your druggist does not have it in stock he will get it quickly from his wholesale house. This has been a new work the club has taken up for six years and thousands of families know its value.

mumbled softly. "It is moonlight dear—"

"Without answering she made a fire and prepared and served their frugal evening meal. The fisherman ate and drank with good appetite, while Ince watched the big mouthful disappear and dreamed of handsome sailors with blue belts, who, down on the other side of the world, were drinking and singing in illuminated gardens.

"You don't eat anything," growled the fisherman.

"I'm not hungry."

"What is the matter with you?" Ince did not answer. The fisherman began to suspect that his wife had a secret sorrow that worried her. "How strange," he said. "You have everything you need. Our cottage is good and built well. The strongest wind hardly makes the windows shake. We have firewood to keep us warm, a good bed to sleep in and plenty of fine fish to eat. You are as well dressed as any woman around here and there is no sweeter woman than you in church on Sundays. What do you miss, then?"

"I am afraid I am alone."

"Alone—when are you alone?"

"When I am alone, I am alone from morning till night."

"Why don't you go out and have a chat with the neighbors?"

"I would like to, but they have all been out washing."

"Why don't you talk to our boy?"

"He is so little yet, and then he is blind and knows neither colors nor form."

"The fisherman went over to the cradle where the child was sleeping and said: 'I would rather sleep than talk.' Ince looked down at the floor. The fisherman looked at the sleeping child for a while and then went back to his wife and said: 'So you feel lonely. How strange! I never feel lonely. I know a Djin that I sometimes speak to for hours. He is a funny little fellow this Djin, he often tells me the funniest things. I am sure you would laugh if you could hear them.'"

"You amuse yourself, and I—I am afraid of the storm."

"The thunder which strikes the big ships scares me, but there are women who live in the sunlight. They have necklaces of coral, flowers in their hair, and they dance every night. I, too, would like to dance with you."

"The fisherman looked at his wife, mute with astonishment. 'Listen, Ince, I am going to tell you something. It is not today this idea came to me. The Djin has often talked to me about it. It is this: Whether you go or stay with me, my little home is always open to you. I shall always love you, if you leave—I shall try to forget you. If you go away and later on should want to return you will always find the door open to you. I love your eyes and the sound of your sweet voice, and if you leave me and come back again you shall never hear a harsh word from me. I will always give you food and shelter, but myself I cannot give you again. That is what I wanted of you. Ince did not answer. We will think no more of these ugly things.' The fisherman lit his pipe and hummed a jolly tune. Ince remained silent. She undressed slowly, said her evening prayers, made the sign of the cross and went to bed. But before she fell asleep she murmured once more: 'How happy must be those women across the sea.'"

"Good day," cried the sailor, and stopped outside the window. Ince felt that she blushed and the room of her hair and answered feebly: "Good day."

"And what are you doing here at home?"

"I am taking care of a little blind child."

"It looks rather poor inside," he said. Ince blushed again.

"That is true," she said, "but let us talk about something else. I will tell you people and how they look on the other side of the ocean."

"Listen, I have a good idea—my ship sails tomorrow, come with me and see for yourself."

"That is impossible," said Ince. "I must stay here and care for my little blind boy."

"The sailor burst out laughing. 'What are you joking?' he said. 'You were never intended for a nurse. Look in the glass and see. Your face is much prettier than the face of the girls across the sea. Your eyes are like the stars in the night sky. I shall always love you, if you leave—I shall try to forget you. If you go away and later on should want to return you will always find the door open to you. I love your eyes and the sound of your sweet voice, and if you leave me and come back again you shall never hear a harsh word from me. ## KEEP GOLTRA IN HARNESS

Missouri Democrats Return Him to the National Committee.

Indorse Champ Clark and Elect Delegates to Baltimore.

Joplin, Mo., Feb. 21.—After an all-afternoon fight on the floor of the convention, caused by the effort of David A. Ball of Bowling Green, a candidate for the gubernatorial nomination, to oppose the slate agreed on by party leaders, the Democratic state convention late yesterday elected eight delegates at large to the Baltimore convention, each with half a vote.

Ball's fight to stop what he termed "a gag rule and Cannonism" was unsuccessful, and the prearranged program went through. The make-up of the delegation at large follows: United States Senator William J. Stone, United States Senator James H. Reed, Former Governor A. M. Dockery of Gallatin, Lon V. Stephens of St. Louis, William T. Kemper, Kansas City; Gilbert S. Barber, Joplin; and Judge Virgil Hule of St. Louis.

The delegation was instructed to vote for Champ Clark, speaker of the house, for president on every ballot taken before the Baltimore convention. Goltra Re-Elected. Edward F. Goltra, the St. Louis millionaire, was re-elected national committeeman by acclamation. Mr. Goltra pledged his allegiance to Mr. Clark and exerted all his powers to secure the speaker's nomination.

The plan to supplant Mr. Goltra was dropped as a measure of harmony following the near split in the convention when Chairman Shannon and Delegate O'Donnell engaged in a controversy following Shannon's criticism of the Democratic organization in St. Louis. The platform adopted after denouncing various features of Republican administration, says in part: "The Democratic party, under the leadership of Champ Clark, overthrew Cannonism and restored the representa-

ative government of the popular branch of congress since Clark has been speaker.

"A bill was passed reducing the tariff tax upon woolen goods, thus abrogating the injustice of schedule K, which President Taft had admitted to be indefensible. Bills reducing taxes upon steel, cotton, chemicals and other prime necessities of life were also passed, and in very substantial form forced through the senate by the aid of the insurgent votes.

"In response to the demands of the monopolies and other great protected industries, President Taft vetoed all these measures.

"We commend and indorse the work done by the Democrats of the house and senate.

**Admiration for Clark.**  
"We particularly express our admiration for the leadership of Speaker Clark, whose wisdom, patience, fortitude and patriotism united our party in congress and made possible the victories achieved.

"We favor early action by our government looking to the reclamation of swamp and overflowed lands.

"In presenting the name of the great and progressive Democrat, Champ Clark, we hereby direct and especially instruct the delegates elected by this convention to the National Democratic convention to elect him as president of the United States, and to use all proper and honorable means to secure his nomination."

## LAKE CARRIERS OPPOSE ORDER

Claim Commerce Commission Cannot Make Them Report.

Washington, Feb. 21.—A protest against the attempt of the federal government to "regulate all of the private affairs of a person" was voiced in the supreme court during arguments yesterday against the power of the interstate commerce commission to require lake carriers, particularly on the Great Lakes, to file reports.

The attack was directed against orders compelling lake carriers, including the White Star line, to make reports to the interstate commerce commission.

The plan to supplant Mr. Goltra was dropped as a measure of harmony following the near split in the convention when Chairman Shannon and Delegate O'Donnell engaged in a controversy following Shannon's criticism of the Democratic organization in St. Louis. The platform adopted after denouncing various features of Republican administration, says in part: "The Democratic party, under the leadership of Champ Clark, overthrew Cannonism and restored the representa-

## PARCEL POST IS PROPOSED

Democrats Will Provide for It in Appropriation Measure.

Some Republicans Favor the Plan—Other Doings at Washington.

Washington, Feb. 21.—Democratic members of the house committee on postoffices and postroads have agreed to incorporate in the appropriation bill provisions for the establishment of a general parcels post system. They also have agreed on a general domestic rate of 12 cents and a maximum package of eleven pounds. This is the present international parcels post rate. They would also provide for a rural parcels post, the rate to be 5 cents per pound and 2 cents per pound.

These provisions will be incorporated in the bill to be reported to the house some time next week, but the actual wording of the provisions has not been decided. The decision was reached after long consideration of the subject, some Democratic members advocating a system of parcels post zones in which different rates would prevail. This was finally put aside, and the international rate ordered recommended for general routes and the limited, graded rates for rural routes.

**Republicans May Approve It.**  
It is reported that some Republican members of the committee will approve the bill when it passes the house. Members of the committee expect, however, to oppose some objection on the ground that new legislation is proposed in an appropriation bill. They are now discussing how to get around these objections under the rules.

The parcels post fight has been on in congress for years. It is estimated that the postmaster general of \$400,000 for operating the parcel post service during the next fiscal year in addition to the unexpended \$500,000 appropriated last year.

**Reception at White House.**  
The army and navy reception, the last of the four White House functions which will celebrate a Washington social season, was given last night by the president and Mrs. Taft.

The number of invitations exceeded those for any other army and navy reception during Mr. Taft's administration. More than 1,500 persons attended.

**Federal Aid for Schools.**  
Federal aid for the advancement of vocational training, and especially of agricultural education, is provided in the Page bill, which was favorably acted upon by the senate committee on agriculture. The measure provides for cooperation with the states and ultimately looks to the appropriation of a large sum annually for the work.

**Cummins' Resolution Opposed.**  
The Cummins' resolution to provide a right of appeal to the supreme court of the United States for the New York decree approving the "Tobacco trust" reorganization, was adversely acted upon by the senate committee on the judiciary. Senator Cummins will make a minority report.

**Opposes Ship Registry Bill.**  
Senator Nixon, New York ship-builder, appeared before the house committee on merchant marine and fisheries and opposed a bill which would admit free to American registry foreign built ships owned by American citizens.

"Such legislation," Mr. Nixon said, "would be hurtful to the American shipbuilding industry unless other legislation is adopted to offset the disadvantages to American builders."

Mr. Nixon urged a return to discriminatory duties in favor of American vessels and a tonnage tax. His guided legislation in 1928, he said had brought a removal of the differential tax and the United States, though this had made a present of \$1,000,000,000 to other nations.

**New Flag Ordered.**  
An official order for changing the stars of the national ensign and the Union Jack in use by the navy, to show the addition of two new states to the Union has been issued by the navy department. The change, which takes effect July 4, provides for forty-eight stars to be arranged in six rows of eight stars each, with the corresponding stars of each row in a vertical line. This arrangement is the one recommended by the joint board of the army and navy, and approved by President Taft.

**Old Naval Vessel Sold.**  
Another of the wooden vessels, which composed the old navy has been sold and her name has been stricken from the navy list. The Pensacola, which has been doing duty as the receiving ship at the San Francisco naval training station, was sold for \$12,025 to Henry J. Rogers of San Francisco. The vessel was built at Pensacola, Fla., in 1862.

A general board of survey has been ordered to examine the receiving ship Independence and Lancaster, the prison ship Manila, and the converted yacht Albatross and Vixen. The Manila was a Spanish vessel captured during the Spanish-American war.

**Raise Tariff on Silk Stockings.**  
The ways and means committee intends to try to make the wearers of silk stockings and other expensive imported clothing make up for the duties the government would lose by free sugar.

Sugar on the free list would keep \$60,000,000 a year out of the treasury. On Saturday the committee will consider taking the duty off sugar and

putting it on silk stockings and other fancy things.

Chairman Underwood says a sugar bill will be reported in a few weeks, although its terms have not been agreed on. How to raise the revenue which will be lost, has put the committee in a quandary.

**Wireless Treaty up Again.**  
The United States government has been advised that its delegation to the international wireless conference at London in June, will not be welcome unless the pending wireless treaty is ratified. This treaty, a result of the wireless convention of 1909, has been ratified by all other nations which took part. It aims to compel interchange of emergency messages between rival wireless companies. The senate foreign relations committee will take up the treaty again.

**SAYS HE SUPPORTS SON SUE FOR \$10,000 ALIMONY.**  
New York, Feb. 20.—Albert Gallatin Wheeler of Chicago, who said that he had "designed, laid out and constructed the Chicago subway," took the witness stand here in behalf of his son, Albert G. Jr., who is being sued for separation by his wife, a former prima donna, who wants \$10,000 a year alimony. She is at present getting \$6,000. The elder Wheeler told of starting his son in business a venture which he said had cost him \$700,000. He had

been maintaining the young man since the failure of the brokerage firm with which the latter was connected, the father continued, and even had selected his present domicile. Young Wheeler testified that this was a room in a boarding house. Formerly he lived at a Fifth Avenue hotel.

Justice Newberger said that he probably would render a decision on the alimony question on Thursday.

**RAILROADS BLAMED FOR DANGER IN RAILS.**  
Indianapolis, Ind., Feb. 21.—Investigation by the Indiana railroad commission of allegations that railroads are demanding of steel manufacturers rails so hard that they are dangerously brittle has begun. Representatives of steel companies and railroads are to testify. In an opening statement, William J. Wood of the commission said it had been charged that numerous railroad accidents in many states recently were due to fracture of rails hardened to an unsafe degree because they were presumed to wear longer than rails of softer temper.

**File \$18,350,000 Bond.**  
Chicago, Feb. 21.—The will of the late Richard T. Crane has been formally admitted to probate here. A joint bond of \$18,350,000 was filed by Richard T. Crane, Jr., and Charles R. Crane, sons of the iron master and executor under the will.

## BONSPIEL AND BANQUET

The fourth annual West Duluth bonspiel will be held at the Western Curling rink next Thursday evening. The game will be followed by the regular banquet for the members and families of the local club. The bonspiel will begin at 7:30 o'clock in the evening and the banquet at 10 o'clock following the game. About 100 are expected to attend and Walter Evers, president of the club, will act as toastmaster.

Last evening Wieland won the Bagley jewelry event by defeating Holland, 10 to 7, in the final. Following is the final standing in the event:

| Team    | Points | Wins |
|---------|--------|------|
| Holland | 10     | 1    |
| Wieland | 7      | 1    |
| Wade    | 6      | 1    |
| Wieland | 5      | 1    |

The final game in the Union Match event scheduled for last evening between Wade and Judson was postponed and will probably be played on Saturday evening. There will be no games this evening as the Minnesota bonspiel starts at 8:30 o'clock and several games will be played at the Western Curling rink to relieve the congestion of the downtown rink.

## BEGIN WORK ON BRIDGE REPAIRS.

Monday evening the council ordered the repairing of the bridge at Eighty-second avenue west and Grand avenue and early this morning a crew of men started work on the bridge section. It is expected that the structure will be ready for traffic within two weeks.

ready for traffic within two weeks. The council in its order authorized only an expenditure of \$700, which will be used to build the sixteen-foot driveway. A. W. Ekelund, who is planning to start an automobile bus line from the end of the car line at Seventy-first avenue west to New Duluth, including Smithville, Norton's addition and Gary, will begin operating two large cars upon the completion of the bridge. He said that he is ready to start operations on the new line and take passengers as soon as the bridge is repaired and the road placed in a fit condition for travel.

## NEW SCHOOL FOR SMITHVILLE

Residents of Smithville are circulating a petition asking the board of education to erect a new school building in use, which were built to accommodate forty pupils, while there are more than fifty now enrolled and several are kept out on account of the crowded conditions. It is believed that about sixty new students would attend school from this end of the city. The residents will ask for a four-

room structure allowing for additional building in the future. The new school, to be built south of the Northern Pacific tracks just east of the city, is at present, residents claim that on several occasions the children have had narrow escapes from being run over by trains.
